DRESSER-RAND COMPANY RETIREMENT 401(k) PLAN NOTES TO FINANCIAL STATEMENTS

December 31, 2014 and 2013

Note 1. Plan Description

The following brief description of the Dresser-Rand Company Retirement 401(k) Plan (the Plan) established on January 1, 1995, restated January 1, 2015, provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering employees of Dresser-Rand Company (the Company) who are members of a bargaining unit and certain non-bargaining unit hourly employees, as defined. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Employee Benefits Committee is responsible for oversight of the Plan. The Investment Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Master Trust:

All of the Plan's investment activities are transacted through the Dresser-Rand Company Retirement Savings Plan Master Trust (the Master Trust) pursuant to the trust agreement with Fidelity Management Trust Company (Fidelity). Pursuant to the trust agreement, the Master Trust segregates and separately identifies the balances and transactions related to each of the participating plans. Accordingly, each participating plan has a direct identifiable interest in its balances and transactions in the Master Trust. The Master Trust interest income, dividend income, and net appreciation [depreciation] in the fair value of investments (which consists of realized gains [losses] and unrealized appreciation [depreciation] in fair value of investments) is recorded based on the Plan's specific interest in the underlying investments. As of December 31, 2014 and 2013, the Plan's interest in the net assets of the Master Trust was approximately 9.5% and 9.7%, respectively.

Eligibility:

Employees eligible to participate in the Plan are employees of the Company who are members of a collective bargaining unit or other classification of employees identified in the following categories and are not in one of the categories specifically stated as ineligible:

- 1) Effective January 1, 1996, Local 4601, United Steelworkers of America, Olean, New York (subsequently the United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industry and Service Workers International Union Local 4601, AFL-CIO, CLC at the Olean, New York Operations) (Olean Local 4601);

Participant accounts:

Individual accounts are maintained for each Plan participant. Each participant’s account is credited, as applicable, with: the participant’s and the Company’s contributions; a daily allocation of gains, losses and other investment income or loss from the Master Trust (Plan Earnings); interest income on notes receivable from participants; and directly charged for benefits paid, loan origination fees and other administrative expenses. Allocations of Plan Earnings are based upon investments held by the participant. The benefit to which a participant is entitled is limited to that which can be provided from the participant’s vested account.

Participants may direct contributions to be invested among various investment fund options managed by affiliates of Fidelity (the Trustee) which are held in the Master Trust. The Plan, at the direction of participants, instructs the Trustee to execute investment transactions, as well as distributions and participant loans. Participants may elect to change the allocation of their individual accounts among the investment options offered by the Plan at any time.

Contributions:

The Plan allows participants to make pre-tax and/or Roth contributions of up to 75% of their eligible earnings (which excludes bonuses and other types of incentive or award compensation). In addition, the Plan allows participants who have reached age fifty to make additional pre-tax and Roth contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Eligible employees who were: hired on or after June 15, 2011 and are represented by Olean Local 4601; hired on or after March 1, 2013 and are represented by Painted Post Local 313; or hired on or after June 11, 2013 and are represented by Burlington Local 1010 are provided certain Company contributions as follows:

- 1) A contribution equal to 3% of the active member’s eligible earnings each pay period (Basic). Basic contributions for the years ended December 31, 2014 and 2013 were \$294,125 and \$263,605, respectively.

Note 1. Plan Description (Continued)

Contributions (continued):

- 2) A matching contribution equal to 100% of the active member's contributions up to the first 3% of eligible earnings plus 50% of contributions to the extent that such contributions exceed 3% of eligible earnings but do not exceed 5% of eligible earnings (Matching). Matching contributions are calculated on a pay period basis. Matching contributions made for the years ended December 31, 2014 and 2013 were \$222,106 and \$172,642, respectively.
- 3) A one-time contribution equal to \$1,500 for each eligible employee represented by Painted Post Local 313 who was actively working for the Company on March 1, 2013. This one-time contribution was made in April 2013 and totaled \$510,000 for the year ended December 31, 2013.

Contributions are subject to certain limitations set by the Internal Revenue Code (the Code).

Vesting:

Participants are immediately vested with respect to their own contributions and Matching contributions, plus earnings thereon. Eligible participants were immediately vested in the one-time Company contribution noted above. Participants will become fully vested in Basic contributions after three years of service, as defined, at age sixty-five if sooner, or upon death or disability.

Forfeited accounts:

At December 31, 2014 and 2013 forfeited non-vested accounts totaled \$417 and \$5,618, respectively. The Plan allows for forfeited accounts to be used to: 1) reduce future Company contributions, 2) correct operational errors, or 3) pay plan expenses. In 2014 and 2013, \$13,390 and \$7,600 of forfeited non-vested accounts were used to pay administrative expenses of the Plan, respectively. No amounts were used to reduce Company contributions or correct operational errors.

Distributions to participants and beneficiaries:

Distributions are generally available upon termination of employment, death, disability, or retirement. A participant may elect to receive a lump sum distribution, have their funds rolled over to another qualified retirement account, or receive periodic payments. Prior to termination of employment, the Plan Administrator may grant a participant's request for a withdrawal of a participant's vested account balance if either 1) the withdrawal is deemed a hardship withdrawal, as defined, or 2) the participant is over the age of 59 ½ at the time of withdrawal. These withdrawals are subject to certain restrictions and taxes.

Note 1. Plan Description (Continued)

Administrative expenses:

Loan origination fees associated with notes receivable from participants and certain other administrative fees are paid for by the Plan. All other costs of administering the Plan are paid by the Company. Investment expenses related to fund management are included in net investment income, as they are paid through revenue sharing, rather than a direct payment from the Master Trust or Plan.

Note 2. Summary of Significant Accounting Policies

Basis of accounting:

The financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Investment valuation and income recognition:

The Plan's investments are reported at fair value. See Note 3 for a discussion of fair value measurements. The Investment Committee determines the Plan's valuation policies utilizing information provided by the Trustee and investment advisors.

The Master Trust records purchases and sales of securities on a trade-date basis; interest income on the accrual basis; and dividends on the ex-dividend date. Net investment income includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Fully benefit-responsive investment contracts:

While Plan investments are presented at fair value in the statements of net assets available for benefits, the difference between the fair value of the Plan's indirect interests in fully benefit-responsive investment contracts and their contract value is separately presented as an adjustment in the statements of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds indirect interests in fully benefit-responsive contracts through the Master Trust's investment in a collective trust fund.

Distributions to participants and beneficiaries:

Benefit payments are recorded when paid.

Note 2. Summary of Significant Accounting Policies (Continued)

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Defaulted loans, as defined, are treated as distributions. The Plan provides that a participant may borrow up to 50% of their vested account balance. The loan may not be less than \$1,000 and cannot exceed \$50,000. A participant may have only one loan outstanding at a time. The loans are secured by the balance in the participant's account. Terms of the loans generally require repayment over a term of no more than five years unless the participant borrows for the purchase of their primary residence which extends the term to no more than thirty years. The interest rate charged on loans is equal to the prime rate on the first day of the month in which the loan is made plus 1%. Interest rates on outstanding loans ranged from approximately 4.25% to 6.00% as of December 31, 2014 and 2013. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions that affect the reported amounts of net assets available for benefits and changes in those net assets. Actual results could differ from those estimates.

Subsequent events:

Subsequent events have been evaluated through September 28, 2015, which is the date the financial statements were available to be issued.

Note 3. Fair Value Measurements

The Fair Value Measurements and Disclosures Topic of the Financial Accounting Standards Board Accounting Standards Codification provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3– Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following is a description of the valuation methods and assumptions used by the Plan to estimate the fair value of the Plan's interest in the Master Trust:

Plan interest in the Master Trust: The fair value of the Plan's interest in the Master Trust reflects the Plan's specific interest in the fair values of the underlying investments of the Master Trust.

The following descriptions are of the valuation methods and assumptions used by the Plan to estimate the fair values of the underlying investments of the Master Trust:

Collective Trust Funds: The fair values of participation units in collective trust funds are based upon the net asset value (NAV) of such fund, after adjustments to reflect all fund investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported in the audited financial statements of the fund. The funds provide for daily redemptions by the Plan at reported net asset value per share. There are no significant redemption restrictions or advance notification requirements in connection with these investments.

NOTES TO FINANCIAL STATEMENTS

December 31, 2014 and 2013

Note 3. Fair Value Measurements (Continued)

Mutual Funds: Except for money market mutual funds, mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission (SEC). These funds are required to publish their daily NAV and to transact at that price. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. The funds held by the Plan are deemed to be actively traded.

Money Market Mutual Fund: Valued at the daily closing price as reported by the fund. Money market mutual funds held by the Plan are open-end mutual funds that are registered with the SEC that generally transact at a stable \$1.00 NAV representing its estimated fair value. On a daily basis the fund's NAV is determined by the fund based on the amortized cost of the fund's underlying investments.

The preceding methods described may produce a fair value that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with those of other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

See Note 5 for assets of the Master Trust measured at fair value on a recurring basis.

Note 4. Certified Investments and Notes Receivable from Participants

Fidelity, the Trustee of the Plan and Master Trust, held investment assets and notes receivable from participants and executed related transactions as of and for the years ended December 31, 2014 and 2013. Other than the fair value of the Plan's interest in the Master Trust relating to fully benefit-responsive investment contracts and related adjustment from fair value to contract value, information pertaining to the Plan's investments and notes receivable from participants, including income thereon, included in the financial statements has been certified by Fidelity. This information has not been audited by the independent auditors.

The fair value of the Plan's investments that represent 5% or more of the net assets available for benefits as of December 31, 2014 and 2013 are as follows:

	2014	2013
Interest in the Dresser-Rand Company Retirement Savings Plan Master Trust (contract value of \$49,849,063 and \$48,039,411 at December 31, 2014 and 2013, respectively)	\$ 50,050,447	\$ 48,256,257

At December 31, 2014 and 2013, outstanding notes receivable from participants were \$1,463,252 and \$1,280,466, respectively. Interest income from notes receivable from participants was \$52,087 and \$49,424 for the years ended December 31, 2014 and 2013, respectively.

Note 7. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated April 19, 2011, that the Plan and related Master Trust are designed in accordance with applicable sections of the Code. Although the Plan has been restated since applying for the determination letter, the Plan Administrator believes the Plan is designed and is currently being operated in compliance with the applicable provisions of the Code.

Accounting principles generally accepted in the United States of America requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a plan termination, participants would become 100% vested in their accounts.

Note 9. Party-In-Interest Transactions

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, certain participants, and others. The Plan allows participants to take loans from their accounts in the Plan. These notes receivable from participants qualify as party-in-interest transactions and totaled \$1,463,252 and \$1,280,466 at December 31, 2014 and 2013, respectively. Fidelity Investments is an affiliate of Fidelity, the Trustee of the Plan. Fees paid by the Plan to Fidelity Investments for administrative expenses amounted to \$22,115 and \$15,600 for the years ended December 31, 2014 and 2013, respectively, which qualify as party-in-interest transactions.

Note 10. Risks and Uncertainties

The Plan, through its interest in the Master Trust, invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, liquidity, and credit risks. Due to the level of risk associated with certain investment securities and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of the underlying investments of the Master Trust will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 11. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2014 and 2013 to Forms 5500:

The following is a reconciliation of the 2014 and 2013 change in net assets available for benefits per the financial statements to the net income reported in the 2014 and 2013 Forms 5500:
