Henkel of America Retirement Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Henkel of America Retirement Plan (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform and we did not perform, any auditing procedures with respect to the information summarized in Note 9, which was certified by State Street Bank and Trust Company, N.A. and Prudential Insurance Company of America, the trustees of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustees hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained a certification from the trustees as of December 31, 2014 and 2013 and for the years then ended, that the information provided to the plan administrator by the trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule, Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2014, is required by the DOL's Rules and Regulations for Reporting and Disclosures under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Henkel of America Retirement Plan

Notes to Financial Statements
December 31, 2014 and 2013

1. Description of Plan

The following description of the Henkel of America Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan established in 1977, covering non-union employees of Henkel of America, Inc. (the "Company") who were hired prior to January 1, 2003. The Henkel of America, Inc. Remuneration and Benefits Committee ("REMCO"), and the plan administrator, appointed by the Company, control and manage the operation and administration of the Plan. State Street Bank and Trust Company, N.A. ("State Street") and Prudential Insurance Company of America ("Prudential") (collectively, the "Trustees") serve as the trustees of the Plan. The Plan's investments are held primarily in the Henkel of America Master Trust (the "Master Trust"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective January 1, 2003, the Plan was frozen to participation.

On August 17, 2006, REMCO approved the merger of the Sovereign Chemical Corporation Retirement Plan for Salaried Employees and the Pierce and Stevens Hourly Wage Pension Plan into the Plan effective January 1, 2007.

Effective September 1, 2013, the Plan was amended to allow for certain terminated vested participants to receive a distribution of their vested benefits if certain requirements are met.

Pension Benefits

Eligible participants with five or more years of service are fully vested and entitled to pension benefits (beginning at normal retirement age, which is 65) equal to 1.15% of their average monthly earnings for the highest four consecutive calendar years during the last ten calendar years of service up to the Social Security Earnings Base, plus 1.55% of such average monthly earnings in excess of the Social Security Earnings Base, multiplied by the number of years of credited benefit service (maximum 30 years). Reduced early retirement benefits may be elected by a participant who reaches age 55 and has at least five years of credited service. Former participants of certain predecessor plans shall have their benefit calculated under this Plan offset by their benefit under the predecessor plan.

Generally, payment of benefits will be in the form of a single life annuity for unmarried participants and a joint and survivor annuity for married participants, unless the participant, with spousal consent, elects another form of benefit permitted by the Plan. Other forms of pension benefit payments are available at the participant's option. The distribution of a benefit to any participant entitled to receive a benefit will commence no later than April 1 of the following calendar year in which the participant (1) attains age 70½ or (2) the calendar year in which the participant retires.

Henkel of America Retirement Plan

Notes to Financial Statements
December 31, 2014 and 2013

Death and Disability Benefits

If a married vested participant dies prior to retirement, then a monthly survivor annuity is payable to the surviving spouse. If the participant dies after age 55, then the surviving spouse would receive the same benefit that would have been payable to the spouse had the participant retired on the day before his or her death. If the participant dies before age 55, then the surviving spouse would receive the same benefit that would have been payable to the spouse had the participant survived to age 55. If an active employee with five or more years of service dies after age 55, then the surviving spouse is eligible to receive an additional supplemental death benefit, as defined in the plan document.

A participant who becomes disabled while an employee of the Company is eligible to receive a benefit commencing at normal retirement based on continuous service, determined as though the participant had continued in active employment to age 65.

Transfers

The net transfers in of \$536,518 and \$210,436 as of December 31, 2014 and 2013, respectively, represent reallocations of assets within the Master Trust between the Plan and affiliated plans of the Company.

Reclassification

Certain prior year disclosures have been reclassified to conform to the current year's presentation.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Henkel of America Retirement Plan

Notes to Financial Statements
December 31, 2014 and 2013

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company, including actuarial fees, insurance premiums, legal fees, and accounting fees, are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying Statement of Changes in Net Assets Available for Benefits. In addition, certain investment related expenses are included in the Plan interest in the Master Trust investment income presented in the accompanying Statement of Changes in Net Assets Available for Benefits.

Investment Valuation and Income Recognition

Investments in the Master Trust and the group annuity contract are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. REMCO determines the Plan's valuation policies utilizing information provided by the trustees. See Note 6 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Investment income includes the Plan's interest in the Master Trust's and the group annuity contract gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits presented below is based on an actuarial valuation as of January 1, 2014, prepared by the Plan's actuary, Mercer, using the present value of accrued benefits, as required by the Pension Protection Act ("PPA").

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation and years of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances such as retirement, death, disability, and termination of employment are included, to the extent they are attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary as of January 1, 2014. The actuarial present value of accumulated plan benefits is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Henkel of America Retirement Plan

Notes to Financial Statements
December 31, 2014 and 2013

The actuarial present values of accumulated plan benefits as of January 1, 2014 is as follows:

Vested benefits:	
Retired participants and beneficiaries currently receiving benefit payments	\$ 146,387,382
Other participants	<u>209,688,742</u>
Total vested benefits	356,076,124
Nonvested benefits	<u>18,529,100</u>
Actuarial present value of accumulated plan benefits	<u>\$ 374,605,224</u>

The changes in actuarial present value of accumulated plan benefits for the year ended December 31, 2013 are as follows:

Actuarial present value of accumulated plan benefits, at beginning of year	\$ 412,037,606
Increase (decrease) during the year attributable to:	
Benefits accumulated and experience gains or losses	22,662,773
Increase for interest due to decrease in discount period	20,853,601
Benefits paid	(85,264,544)
Change in actuarial assumptions	<u>4,315,788</u>
Actuarial present value of accumulated plan benefits, at end of year	<u>\$ 374,605,224</u>

Significant assumptions underlying the actuarial computations are as follows:

Discount rate	5.80 percent for 2014
Mortality	RP-2014 Mortality Tables
Retirement age	Age 59

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The assumed rate of interest used to value the present value of accumulated plan benefits changed from 5.70 percent to 5.80 percent and the mortality tables used changed from the RP-2007 mortality tables to the RP-2014 mortality tables resulting in an increase of \$4,315,788 in the actuarial present value of accumulated benefits for the year ended December 31, 2013.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* ("ASU 2015-07"). ASU 2015-07 removes the requirement to include investments in the fair value hierarchy for which fair value is measured using the net asset value per share practical expedient under Accounting Standards Codification 820. ASU 2015-07 is effective for the Plan for years beginning after December 15, 2016 with early adoption permitted. Management is currently evaluating the impact of the pending adoption of ASU 2015-07 on the Plan's financial statements.

In July 2015, the FASB issued Accounting Standards Update No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - I. Fully Benefit-Responsive Investment Contracts; II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient* ("ASU 2015-12"). Part I of the accounting standards update requires fully-benefit responsive investment contracts to be measured, presented, and disclosed only at contract value. Part II of this update requires that investments (both participant-directed and nonparticipant-directed investments) be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways. Part II also eliminates the disclosure of individual investments that represent 5 percent or more of net assets available for benefits and the disclosure of net appreciation or depreciation for investments by general type, requiring only presentation of net appreciation (depreciation) in investments in the aggregate. Additionally, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is a fund that files a U.S. Department of Labor Form 5500, as a direct filing entity, disclosure of that investment's strategy is no longer required. Part III of the update permits plans to measure investments and investment-related accounts (e.g., a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end. The amendments in ASU 2015-12 are effective for fiscal years beginning after December 15, 2015, with early application permitted. The amendments within Parts I and II require retrospective application; whereas, the amendments within Part III should be applied prospectively. Management is currently evaluating the impact of the pending adoption of ASU 2015-12 on the Plan's financial statements.

Subsequent Events

The Plan has evaluated subsequent events for recognition or disclosure through October 13, 2015, the date the financial statements were available to be issued.

December 31, 2014 and 2013

3. Related Party Transactions and Party In Interest Transactions

The Plan's investments are administered under a contract with Street Bank and Trust Company, N.A. and Prudential Insurance Company of America, the trustees of the Plan. Contributions are held and managed by the trustees, who invest cash received, interest, and dividend income and make distributions to participants. These transactions qualify as party in interest transactions which are exempt from the prohibited transactions rules of ERISA.

Certain expenses of the trustees are paid by the Plan related to plan operations and investment activity described in Note 1. Additionally, certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

4. Funding Policy

The Plan's funding policy is for the Company to make annual contributions to the Plan as determined by the Plan's independent actuary in amounts necessary to provide the Plan with assets sufficient to fund participants' benefits by the time they retire. No participant contributions are permitted. The minimum funding requirements of ERISA were met for 2014 and 2013.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

5. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) up to the applicable limitations (discussed subsequently).
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All nonvested benefits.

Henkel of America Retirement Plan

Notes to Financial Statements
December 31, 2014 and 2013

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at the time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

6. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

Henkel of America Retirement Plan

Notes to Financial Statements
December 31, 2014 and 2013

The following is a description of the valuation methodologies used for assets measured at fair value by the Plan and in the Master Trust. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Short-term investments consist of cash and cash equivalents, foreign currencies, the State Street Short Term Investment Fund and U.S. Treasury Bills. The State Street Short Term Investment Fund is valued at net asset value ("NAV") of shares held at year end. Foreign currencies and U.S. Treasury Bills are valued based on quoted market prices in the active markets on which the individual securities are traded.

Common stocks are valued based on quoted market prices in the active markets on which the individual securities are traded.

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Master Trust are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Corporate debt obligations are valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote if available.

Collective trust funds are valued based on the unit values of such funds held by the Plan at year end. Unit values are based on the fair value of the underlying assets of the funds derived from inputs principally based on quoted market prices in an active market or corroborated by observable market data by correlation or other means. The investments are valued at NAV. The collective trusts do not have unfunded commitments or significant redemption restrictions as of December 31, 2014 and 2013. The fixed income funds' primary objective is maximum long-term total return. The fixed income funds invest in the highest-rated governmental and agency bonds and the equity fund seeks long-term capital appreciation by investing primarily in equity securities of emerging market country issuers.

U.S. government agency securities are valued using pricing models maximizing the use of observable inputs for similar securities.

The private equity limited partnership funds' objectives are to provide long term capital growth through investing in international governmental and corporate obligations, joint capital ventures and international securities. The Plan considers fair value measurements based on valuations provided by the general partners. The values assigned are based upon the general partners estimates and assessment of each underlying investment, incorporating valuation techniques that consider the evaluation of financing and sale transactions with third parties, expected cash flows and market-based information, including comparable transactions, and performance multiples, among other factors. Private equity limited partnership investments do not have unfunded commitments or significant redemption restrictions as of December 31, 2014 and 2013.

Henkel of America Retirement Plan

Notes to Financial Statements
December 31, 2014 and 2013

Real estate funds are valued based upon the NAV of the fund held at year end. Net asset values are based upon the fair value of the underlying assets using appraisals and other unobservable inputs. The funds invest in diversified residential real estate with the goal of capital appreciation.

Other investments include options on equity securities, valued based on other observable inputs directly or indirectly through corroboration with observable market data.

The group annuity contract is valued at contract value which approximates fair value based on unobservable inputs, as observable inputs are not available, using valuation methodologies to determine fair value to include matrix pricing and other similar techniques. As of December 31, 2014 and 2013, Prudential's credit ratings were as follows: A+ by A.M. Best Company, A+ by Fitch Ratings, A1 by Moody's Investors Service, and AA- by Standard & Poor's. The high credit ratings of Prudential as of the measurement date uphold the annuity contract's ability to meet obligations set forth in the contracts.

Contract value is the aggregation of contributions, plus interest, less withdrawals, if any. The crediting rates are a guaranteed rate. The contract has redemption restrictions based on the terms of the underlying contract and is an unfunded commitment as claims against the contract are solely supported by Prudential's ability to pay on such claims. The redemption restrictions do not have a material impact on contract value.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of that financial instrument, and the significant unobservable inputs and the ranges of values for those inputs.

December 31, 2014				
Instrument	Fair Value	Valuation Technique	Unobservable Inputs	Range of Significant Input Values
Prudential group annuity contract	\$ 1,364,340	Discounted Cash Flow	Risk-adjusted discount rate	4.75 %

December 31, 2014 and 2013

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the years ended December 31, 2014 and 2013:

	Group Annuity Contract
Balance, December 31, 2012	\$ 1,217,287
Interest and dividends	<u>71,820</u>
Balance, December 31, 2013	1,289,107
Interest and dividends	<u>75,233</u>
Balance, December 31, 2014	<u>\$ 1,364,340</u>

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

7. Contract with Insurance Company

In 2014 and 2013, the Plan was invested in an unallocated group annuity contract with Prudential. The group annuity contract represents coverage for a small number of employees under a predecessor plan. The crediting interest rate and average yield was 4.75% for the years ended December 31, 2014 and 2013.

8. Interest in Master Trust

The Master Trust was established for the investment of the Plan's assets and other sponsored employee benefit plans of the Company. As of December 31, 2014 and 2013, the Plan's undivided interest in the net assets of the Master Trust was approximately 44% and 43%, respectively.

The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. Investment income and administrative expenses of the Master Trust are allocated to the participating plans based on the plans' proportionate beneficial interest in the Master Trust during the year.

Notes to Financial Statements
December 31, 2014 and 2013

9. Information Certified by Trustees

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2014 and 2013. Accordingly, State Street Bank and Trust Company, N.A., the trustee of the Plan, has certified to the completeness and accuracy of those investments held by the Master Trust reported in the accompanying Statement of Net Assets Available for Benefits as of December 31, 2014 and 2013 and the related investment activity of the Master Trust reported in the Statement of Changes in Net Assets Available for Benefits for the years then ended.

Prudential Insurance Company of America, trustee of the Plan, has certified to the completeness and accuracy of the group annuity contract reported in the accompanying Statement of Net Assets Available for Benefits as of December 31, 2014 and 2013, the supplemental Schedule of Assets (Held at End of Year) as of December 31, 2014, and the related investment activity reported in the Statement of Changes in Net Assets Available for Benefits of the income of the group annuity contract for the years ended December 31, 2014 and 2013.

10. Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated August 3, 2012, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2014, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

11. Risks and Uncertainties

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

In addition, the Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statement of Net Assets Available for Benefits.

Actuarial Methods for Funding***Asset Methods***

The asset valuation method is an average of the adjusted market value for each year during the last 24 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** Only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods***Minimum Funding Methods***

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V — Summary of Plan Provisions***Benefits Included or Excluded***

Unless noted below, all benefits provided by the plan, as restated January 1, 2010 and amended through January 1, 2014, are included in this valuation.

- **Most recent plan amendments included:** Amendment #3, adopted August 30, 2013.
- **Plan amendments excluded:** None.
- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. This valuation includes increases for current participants over age 70.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan Provisions Specific to Funding***Additional Benefits Included or Excluded***

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Schedule SB, Part V — Summary of Plan Provisions**Summary of Major Plan Provisions*****Henkel of America Retirement Plan***

Effective date and plan year	Original plan: September 1, 1977 Restated plan: January 1, 2010 Plan year: Calendar Year
Status of the plan	Effective January 1, 2007, only participants whose age plus service on December 31, 2006 equaled 50 or more will continue to earn Benefit Service. All others will no longer accrue Benefit Service. The Plan closed to new hires on January 1, 2003.
Significant events that occurred during the year	None
Definitions	
• Covered employees	All employees of Henkel of America and any affiliated corporations that adopt the Plan and were hired prior to January 1, 2003, excluding employees covered by a Collective Bargaining Agreement that does not provide for participation.
• Employee contributions	None
• Hours of service	Each hour for which the employee is paid for the performance of duties for the Employer.
• Service	Measured from employment date in years and days.
• Benefit Service	Credited in years and months with credit for one month if one hour of service is credited for that month. Measured from first day of employment or date specified if from an acquired plan. Effective December 31, 2006, participants whose age + years of service was less than 50 will not accrue additional Benefit Service. Benefit Service is limited to 30 years.
• Compensation	Remuneration actually paid during any calendar year for base gross wages (including 401(k) deferrals), overtime, bonuses, commissions, incentive payments and foreign service allowances.
• Average Monthly Compensation	Average of highest four consecutive complete calendar years of Compensation during last ten years, divided by 12.
• Interest Credits on Loctite Cash Balance Accounts	30-year treasury rate during the month of October preceding the plan year.
• Covered Compensation	The 35-year average of Social Security wage bases ending in the year Social Security retirement occurs, calculated as though Social Security retirement occurs in the year of termination.

Schedule SB, Part V — Summary of Plan Provisions

- **Accrued Benefit** A monthly benefit equal to $[1 \times 2]$, with a minimum of 3, offset by 4 plus 5, but not less than 9:
