Notes to the Financial Statements

1. Description of Plan

The following description of Intrafusion GP, LLC 401(k) Profit Sharing Plan and Trust (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions. The Plan was amended and restated effective December 29, 2011.

General

The Plan is a defined contribution plan that covers all employees of Intrafusion GP, LLC (the “Company” or “Plan Sponsor”), with the exception of union and leased employees, nonresident aliens, and employees who only perform services for Metechos Management Group, LLC, and who have completed one year (at least 1,000 hours) of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions

The Company may make discretionary employer profit sharing and matching contributions. Contributions are subject to certain limitations.

Participants may elect to contribute up to 90% of eligible compensation. Highly compensated employees may contribute up to 6% of eligible compensation. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit plans.

Participant Accounts

Participants direct the investment of their contributions into various investment options offered by the Plan. Each participant’s account is credited with the participant’s contribution and allocations of the Company’s contributions and Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting

Participants are vested immediately in their contributions and actual earnings thereon. Vesting in the Company’s contribution portion of their accounts is based on years of continuous service. Company matching contributions have a six-year graded vesting period as follows:

<u>Completed Years of Service</u>	<u>Vested Percentage</u>
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Intrafusion GP, LLC 401(k) Profit Sharing Plan and Trust

Notes to the Financial Statements

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest, as determined by the Plan administrator. Principal and interest are paid through payroll deductions.

Notes receivable from participants are measured at their unpaid principal balance plus accrued, but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

On termination of service, a participant may elect to receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account. Any balance under \$1,000 is automatically paid out as soon as administratively possible. Hardship withdrawals are also available subject to certain limitations.

Forfeitures

Participant forfeitures of nonvested balances will be used to reduce future employer contributions and pay the expenses of the Plan. At December 31, 2014 and 2013, unallocated forfeitures totaled \$5,554 and \$5,541, respectively.

Administrative Expenses

Administrative expenses may be paid by either the Plan Sponsor or the Plan, as provided by the Plan document. Loan administration fees are paid by the participant electing the loan.

2. Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Intrafusion GP, LLC 401(k) Profit Sharing Plan and Trust

Notes to the Financial Statements

Guaranteed Interest Contracts

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required, the statements of net assets available for benefits present the fair value of the investment contracts. The statements of changes in net assets available for benefits are prepared on a contract value basis, which is equivalent to fair value.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be recognized to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 5 for disclosure of the fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through October 13, 2015, the date the financial statements were available to be issued.

3. Information Certified and Provided by John Hancock Life Insurance Company (U.S.A.)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, John Hancock Life Insurance Company (U.S.A.) ("John Hancock"), the custodian of the Plan, has certified the following information included in the accompanying financial statements and supplemental schedule:

- Investments and notes receivable from participants, as shown in the statement of net assets available for benefits and related disclosures as of December 31, 2014
- Investment income and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2014

Intrafusion GP, LLC 401(k) Profit Sharing Plan and Trust

Notes to the Financial Statements

- Investment information included in the accompanying schedule of assets (held at end of year) as of December 31, 2014
- The contract and fair value of the fully benefit-responsive investment contracts

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. Investments

The following presents investments that represent 5% or more of the Plan's net assets:

	December 31,	
	2014	2013
John Hancock Lifestyle Growth Active Strategy	\$ 415,933	\$ 379,547
John Hancock Lifestyle Balanced Active Strategy	148,840	141,931
Guaranteed Interest Contracts	137,476	126,336
T. Rowe Price Health Science Fund	125,621	*
Mutual Global Discovery	111,176	103,244

*Did not meet 5% criteria at respective financial statement date.

The Plan's investments, including gains and losses on investments bought and sold, as well as held during the years ended December 31, 2014 and 2013, appreciated in fair value by \$110,091 and \$303,349, respectively. The appreciation in fair value was attributable to pooled separate accounts.

5. Fair Value Measurements

The Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC"), *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB's ASC, *Fair Value Measurements and Disclosures*, are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Intrafusion GP, LLC 401(k) Profit Sharing Plan and Trust

Notes to the Financial Statements

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices for the asset or liability that are observable
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, Level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques that are used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013:

- Pooled separate accounts – Primarily valued at net asset value per share based on quoted market prices of underlying investments.
- Guaranteed interest contracts – Valued at contract value by the insurance company, which is equivalent to fair value. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only, and a market value adjustment is determined only in the event of contract termination. The value of the investment contract is the sum of participant contributions, interest earned, and transfers minus the sum of any distributions, transfers out, and any tax charged by a state or other governmental authority.

The methods above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

6. Guaranteed Interest Contracts

The Plan offers as an investment option benefit-responsive guaranteed interest contracts. John Hancock maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed interest contracts issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed interest contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed interest contracts. The guaranteed interest contracts are presented at fair value on the face of the statements of net assets available for benefits, which is equivalent to contract value. Contract

Notes to the Financial Statements

value, as reported to the Plan by John Hancock, represents contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the guaranteed interest contracts at December 31, 2014 and 2013 totaled \$137,476 and \$126,336, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe any events which would limit the Plan's ability to transact at contract value with participants are probable.

The guaranteed interest contracts do not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average yield consists of the following:

	Years Ended December 31,	
	2014	2013
Based on actual earnings	0.3%	0.5%
Based on interest rate credited to participants	0.3%	0.5%

7. Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by John Hancock. John Hancock is the custodian, as defined by the Plan and, therefore, these investments qualify as party-in-interest transactions.

The Plan Sponsor paid certain administrative expenses related to the Plan for the years ended December 31, 2014 and 2013.

8. Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contribution at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Plan Sponsor contributions.

Notes to the Financial Statements

9. Tax Status

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service and Department of Labor. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

Effective January 1, 2008 the Plan adopted a standardized form of a prototype plan. The prototype plan has received a determination letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

10. Risks and Uncertainties

The Plan invests in various investments. Investments are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

11. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:

	December 31,

Other	1	(1)
Net income per Form 5500	<u>\$ 135,941</u>	<u>\$ 449,344</u>

12. Nonexempt Transactions

During 2012, 2013, and 2014, the Plan Sponsor inadvertently failed to inform part-time employees of their eligibility requirements in order to participate in the Plan. The Plan Sponsor intends to reimburse the Plan for the missed deferral opportunity and lost earnings. The Plan Sponsor intends to submit a voluntary compliance filing and make a qualified non-elective contribution in 2015.

13. Subsequent Events

The Plan was amended and restated effective January 1, 2015 to change eligibility requirements and to allow for Roth deferrals. Effective January 1, 2015, employees are eligible to participate in the Plan beginning on the first day of the month following their date of hire.
