Note 1: Description of the Plan

The following description of the Matson, Driscoll & Damico, LLP Profit Sharing Plan & Trust (Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan, which became effective as of January 1, 2008, is a qualified retirement plan covering all eligible employees of Matson, Driscoll & Damico, LLP (Company) and provides for retirement benefits to all participants. Upon satisfying the requirements of attaining the age of 21½, completing six months of service, and continuing employment with employer, employees become eligible to participate in the Plan. Effective January 1, 2009, a participant became eligible to begin receiving profit sharing contributions on the first day of the calendar quarter coincident with or following attainment of age 21 and completion of six months of service. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA), as amended by subsequent legislation.

Contributions

The Company makes a safe harbor Qualified Non-Elective Contribution to the Plan in an amount not less than three percent (3%) of participants' compensation on behalf of each employee who is eligible to make elective deferrals during the plan year to the Company's 401(k) Plan.

The Company may, in its sole discretion, make a profit sharing contribution to the Plan on participants' behalf if participants have completed at least 1,000 hours of service during the Plan year and are employed by the Company on the last day of the plan year.

The amount that may be contributed to the Plan on participants' behalf in any year is limited to a fixed dollar amount and cannot exceed 100% of participants' compensation.

Investment Options

The Plan provides for each participant to direct the investments in their accounts in investment funds established for each such participant.

Participant Accounts

Each participant's account is credited with the allocation of the Company's contributions, administrative expenses and plan earnings. Plan earnings are allocated to participants' accounts in direct proportion to their respective account balances, based on the performance of participants' investment selections. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Notes to Financial Statements

Vesting

Participants have a fully vested and nonforfeitable interest in the Qualified Non-Elective Contributions plus the actual earnings thereon. The Profit Sharing Contribution Account vests based on years of vesting service described as follows:

Years of Service	Vested Interest
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

A participant or his beneficiary shall be fully vested in the entire value of the participant's account upon the participant's attainment of his normal retirement age, early retirement age or upon such participant's disability or death.

Payment of Benefits

If a participant retires, the balance of the participant's account is payable at his/her option in a lump-sum distribution, cash distribution or a rollover into a qualified plan or IRA unless the participant's balance in the Plan is less than \$1,000, in which case the participant will receive a lump-sum distribution. Upon death or termination of a participant, the custodian of the Plan advise the beneficiary or participant of the various methods of distribution of the participant's account available to the participant or his/her beneficiary. Beneficiaries are entitled to 100% of the participant's account balance upon death or disability, as defined.

Forfeitures

At December 31, 2014 and 2013, the unallocated forfeiture accounts amounted to \$878 and \$9,159, respectively. These accounts shall be used to restore forfeitures, reduce Company contributions (or reallocate as Company contributions), or to pay reasonable plan expenses. During 2014 and 2013, \$14,205 and \$21,832, respectively, of forfeitures were used to pay plan expenses during the year.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting, in accordance with the accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Fully Benefit-Responsive Investment Contract

Investment contracts held by a defined contribution plan are reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invested in a Fixed Income Account as of December 31, 2014 and 2013. The statement of net assets available for benefits presents the fair value of the investment in the fixed income account as well as the adjustment of the investment in the fixed income account from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on the contract basis.

The fair value of the Plan's interest in the funds is based on information reported by the issuer of the Fixed Income Account at year-end. The contract value of the funds represents contributions plus earnings, less participant withdrawals and administrative expenses. The average yield of the underlying investment contracts was 2.00% in 2014 and 2013. The average yield credited to participants was 2.00% in 2014 and 2013.

Valuation of Investments and Income Recognition

Investments held in pooled separate accounts are reported at fair value based on quoted market prices of each fund's underlying investments. The Fixed Income Account is valued based on information reported by Massachusetts Mutual Life Insurance Company.

The Plan provides for investments that, in general, are exposed to various risks such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Matson, Driscoll & Damico, LLP
Profit Sharing Plan & Trust
Notes to Financial Statements
December 31, 2014 and 2013

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

All direct expenses of the Plan relating to the custodian, plan administrator and investment fiduciary are paid or reimbursed by the Company. Certain other expenses of the Plan, such as distribution processing fees, are recognized by the Plan as incurred. Administrative expenses paid by the Plan totaled \$14,333 and \$22,257 for the years ended December 31, 2014 and 2013, respectively. Certain investment fees are netted in the net appreciation (depreciation) in fair value of investments.

Note 3: Investments

Investments that represent 5% or more of the Plan's net assets available for plan benefits at December 31, 2014 and 2013, are as follows:

	2014	2013
Fixed Income Account	1,316,681	1,383,621
BlackRock Lifepath 2020 A Fund	4,160,299	3,805,574
BlackRock Lifepath 2030 A Fund	5,077,758	4,248,277
BlackRock Lifepath 2040 A Fund	3,731,040	3,383,664

During the years ended December 31, 2014 and 2013, the Plan's pooled separate accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in the amount of \$(1,327,939) and \$1,128,560, respectively.

Note 4: Fair Value of Plan Assets and Liabilities

Generally accepted accounting principles provide a uniform framework for the definition, measurement and disclosure of fair value measurements. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The financial accounting standards establish a fair value hierarchy which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The financial accounting standards describe three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level or any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

At December 31, 2014, based on information provided by Mass Mutual Life Insurance Company the Fixed Income Account has been reclassified to Level 2 from Level 3 of the fair value hierarchy due to the existence of significant observable inputs. It is the Plan's policy to reflect transfers between levels as of the date of the statement of net assets available for benefits.

At December 31, 2014 and 2013, the fair value of participation unites held by the Plan in pooled separate accounts is based on their net asset values, as reported by the custodian and as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date.

The pooled separate accounts invest mainly in shares of underlying mutual funds. The fair value of the mutual funds are publicly quoted pricing Level 1 inputs, and the majority of the underlying securities have observable Level 1 quoted pricing inputs. Most of the security prices were obtained from a pricing service, Interactive Data Corporation. While the underlying asset values are quoted prices, the NAV of a separate account is not publicly quoted and therefore contains other observable Level 2 inputs.

Notes to Financial Statements December 31, 2014 and 2013

At December 31, 2014 and 2013, the Fixed Income Account is part of a group annuity contract under the general account at Mass Mutual Life Insurance Company (Mass Mutual), and is subject to Mass Mutual's general creditors. Mass Mutual credits interest on contributions made to the Fixed Income Account at a rate Mass Mutual declares for a period of time that it determines. Mass Mutual guarantees a minimum rate of interest. Guarantees are subject to Mass Mutual's claims paying ability. Mass Mutual generally processes distributions and transfers within a reasonable period of time, however, transfers from the Fixed Income Account may be limited or deferred, and distributions may be subject to a market value adjustment.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

Note 5: Information Certified by the Custodian

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Massachusetts Mutual Life Insurance Company, the custodian of the Plan, has certified to the completeness and accuracy of all investments, at fair value, and the adjustment from fair value to contract value for interest in fully benefit-responsive investment contracts, reflected on the accompanying statements of net assets available for benefits as of December 31, 2014 and 2013, the supplemental schedule of assets (held at end of year) as of December 31, 2014, and the investment income components, reflected in the statements of changes in net assets available for benefits for the years ended December 31, 2014 and 2013.

The Plan's independent auditors did not perform procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Profit Sharing Plan & Trust
Notes to Financial Statements
December 31, 2014 and 2013

Note 6: Income Tax Status

The Plan received a favorable determination letter dated March 30, 2011, in which the Internal Revenue Service (IRS) stated that the Plan is in compliance with the applicable provisions of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

Note 7: Plan Termination

Although it has not expressed any intent to do so, the Company have the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants become fully vested in their respective account balances.

Note 8: Party-in-Interest Transactions

Plan investments are held and managed by the custodian of the Plan. These transactions qualify as exempt party-in-interest transactions.

Note 9: Subsequent Events

Plan management has evaluated subsequent events through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.
