NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014 AND 2013

A. PLAN DESCRIPTION

The following brief description of the Power-One, Inc. 401(k) Retirement Savings Program (the “Plan”) provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General – The Plan is a defined contribution plan covering all employees of Power One, Inc. (the “Company”) who have attained the age of 18. Employees must complete six months of service to receive employer matching contributions. Leased and temporary employees, interns, consultants, and non-resident aliens with no U.S. source income from the Company are not eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Board of Trustees is responsible for oversight of the Plan. The Investment Committee determines the appropriateness of the Plan’s investment offerings, monitors investment performance and reports to the Plan’s Board of Trustees.

On April 21, 2013, ABB Ltd., a corporation organized under the Laws of Switzerland (“ABB”), Verdi Acquisition Corporation, a Delaware corporation and an indirect wholly-owned subsidiary of ABB acquired all of the issued and outstanding capital stock of Power-One, Inc.

Effective May 15, 2014, the Plan was amended and PAI Capital LLC became a participating employer. A segment of Power-One’s Power Solutions employees were transferred from Power-One, Inc. to PAI Capital LLC. Effective June 19, 2014 PAI Capital LLC was sold to Bell Fuse Inc.

Merger – On October 27, 2014, the Company approved the merger of the Plan into the ABB Inc. Retirement Savings Plan effective January 1, 2015. The plan assets, including loans, in the amount of \$29,458,082 were liquidated and transferred to the Successor Plan’s trust on December 31, 2014; the liquidated assets were reinvested into the Successor Plan’s investment options as of January 2, 2015 in accordance with the terms of the Plan. Effective January 1, 2015, participants of the Plan became eligible to participate in the Successor Plan.

Contributions - Each year, participants may elect to contribute up to 50% of eligible annual compensation, as defined in the Plan and up to the maximum deferral limit as determined in the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Each Plan year, the Employer makes a non-discretionary matching contribution in an amount equal to 100% of the first 4% of employee eligible compensation contributed to the Plan.

Investment Options – Upon enrollment in the Plan, a participant may direct employee and Company contributions as desired, in any of a variety of investment options offered by the Plan, as chosen by the Company. Participants may change their investment options daily.

A. PLAN DESCRIPTION (Continued)

Participant Accounts - Each participant's account is credited with the participant's contributions, the Company safe harbor matching contributions, and investment earnings resulting from the investment choices made by the participant, and are charged with participant distributions, and investment losses resulting from the investment choices made by the participant.

Vesting - The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Company contributions and related investment earnings are fully vested at all times. However, Company safe harbor contributions and related investment earnings vest over time and are based upon the participant's years of services with the Company as follows:

Less than 1 year of service	0%
1 year of service	50%
2 years of service	100%

Notes Receivable From Participants – To satisfy certain financial needs, participants may borrow amounts up to a maximum of 50% of their vested account balance not to exceed \$50,000 less any outstanding loan balance. Participants may have up to two loans outstanding at any time. The loans are secured by the balance in the participant's account and shall bear reasonable rates of interest. Loans must be paid back within five years (thirty years for loans to purchase a principal residence) of the date of issuance in accordance with terms established by the Plan Administrator. Principal and interest loan repayments are paid ratably through payroll deductions.

Payment of Benefits – Upon termination of employment, a participant will be entitled to an amount equal to the value of his or her vested account balance. When a participant attains normal retirement (or qualifying early retirement), incurs total and permanent disability, or dies while employed, the participant or their beneficiaries are entitled to 100% of the participant's account balance. Additionally, participants may receive distributions upon attaining age 59 ½.

The Plan also provides for hardship distributions subject to the qualifications and limitations prescribed in the Internal Revenue Code.

Forfeited Accounts - Forfeitures are used to reduce the Company matching contributions or to pay administrative expenses of the Plan. At December 31, 2013, forfeited non-vested accounts were \$25,023. The forfeiture balance at the end of the current plan year in the amount of \$2,798 was transferred to the Successor Plan at December 31, 2014.

Reclassification – Prior year amounts have been reclassified to conform with current year presentation, with no effect on the net assets available for benefits.

B. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments in registered investment companies are stated at fair value as determined by quoted market prices. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's administrative Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and the Plan's trustee. See Note D for discussion of fair value measure.

Purchases and sales of investments are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded as earned on the accrual basis. Net appreciation in fair value of investment includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged to participant accounts. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Substantially all of the Plan's expenses are paid by the Company. Certain other miscellaneous fees are paid by the Plan.

B. SUMMARY OF ACCOUNTING POLICIES (Continued)

Subsequent Events

Plan management has evaluated subsequent events through October 9, 2015, the date the financial statements were available to be issued.

C. INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

The Plan Administrator has elected the method of compliance permitted by Section 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following investment information was certified by

Fidelity Management Trust Company, the trustee, and was not subjected to any auditing procedures performed by the independent public accountants.

The trustee of the Plan has certified that the following data included in the accompanying financial statements is complete and accurate:

- Fair value of investments as shown in the Statements of Net Assets Available for Benefits as of December 31, 2014 and 2013 total \$0 and \$31,860,062, respectively.
- Net appreciation in fair value of investments as shown in the Statement of Changes in Net Assets Available for Benefits which was \$367,608 for the year ended December 31, 2014.
- Notes receivable from participants as shown in the Statements of Net Assets Available for Benefits as of December 31, 2014 and 2013 which total \$0 and \$409,135, respectively, and interest income on notes receivable from participants as shown in the Statement of Changes in Net Assets Available for Benefits which totals \$15,356 for the year ended December 31, 2014.
- Schedule of assets held for investment purposes as of December 31, 2014 as shown on Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year).

Investments representing over 5% or more of the Plan's net assets at market value as of December 31 are:

Description	2013
FA Stable Value Fund	\$8,009,917
MS S&P 500 Index A	\$2,492,422
Opphmr Real Estate A	\$1,978,893

During 2014, the Plan's registered investment company investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$367,608.

D. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Registered investment companies (mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust: The Fidelity Stable Value Fund is a fully benefit-responsive investment contract, and is presented at fair value on the statement of net assets available for benefits and then adjusted to contract value (see Note B). Contract value is based on the provisions of the contract. The portfolio uses independent pricing services approved by the trustee to value its investments. When current market prices or quotations are not readily available or reliable, valuations may be determined in

POWER-ONE, INC. 401(K) RETIREMENT SAVINGS PROGRAM

DECEMBER 31, 2014 AND 2013

D. FAIR VALUE MEASUREMENTS (Continued)

good faith in accordance with procedures adopted by the trustee. Factors used in determining value may include market or security specific events, changes in interest rates and credit quality. The average yield to maturity and crediting interest rate for the Fidelity Stable Value Fund was approximately 1.06% and .92% at December 31, 2014 and 2013, respectively. The average market yield was 1.69% and 1.70% at December 31, 2014 and 2013, respectively.

The primary investment objective of the portfolio is to seek the preservation of capital, as well as to provide a competitive level of income over time consistent with the preservation of capital. The portfolio does not have unfunded commitments relating to its investments. Participant-directed redemptions for in-service withdrawals or termination of employment can be made on any business day and do not have a redemption notice period. Participant-directed exchanges to another investment option may be made on any business day.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

<i>Assets at Fair Value as of December 31, 2013</i>				
Description	Level 1	Level 2	Level 3	Total
Mutual funds:				
Stock funds	\$ 14,547,866	\$ -	\$ -	\$ 14,547,866
Blended funds	7,675,019	-	-	7,675,019
Bond funds	1,627,260	-	-	1,627,260
Total mutual funds	23,850,145	-	-	23,850,145
Common collective trust	-	8,009,917	-	8,009,917
Total assets at fair value	\$ 23,850,145	\$ 8,009,917	\$ -	\$ 31,860,062

E. PARTY IN INTEREST TRANSACTIONS

Fidelity Management Trust Company, the trustee of the Plan, is a party-in-interest as defined by ERISA. Fidelity holds all the investments and also provides participant record keeping services to the Plan. Notes Receivable from participants and the related interest income are also considered party-in-interest transactions. Such transactions are not subject to the prohibited transaction rules.

POWER-ONE, INC. 401(K) RETIREMENT SAVINGS PROGRAM

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014 AND 2013

F. TAX STATUS

The Internal Revenue Service (“IRS”) issued its latest opinion letter on March 31, 2008 for the Volume Submitter Plan, which stated that the Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the Internal Revenue Code (“IRC”). The Plan has been amended since receiving the opinion letter. However, the Plan administrator and the Plan’s tax counsel believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

G. PARTIAL TERMINATION

The Company reserves the right to terminate the Plan as described in the Plan agreement and subject to provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

During the year ended December 31, 2013, the plan sponsor elected to voluntarily reduce its workforce which triggered a partial Plan termination. Effective October 1, 2013, all active participants of the Plan that were terminated as a result of the reduction in workforce were made fully vested in the employer contributions to their account, if they were not already fully vested.

H. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants’ account balances and the amounts reported in the Statements of Net Assets Available for Plan Benefits and the Statement of Changes in Net Assets Available for Plan Benefits.

The Plan invests through mutual funds in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments.

H. RISKS AND UNCERTAINTIES (Continued)

Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.
