Lexington Machining, LLC Retirement & Savings Plan

Notes to Financial Statements

December 31, 2014 and 2013

Note 1: Description of the Plan

The following description of the Lexington Machining, LLC Retirement & Savings Plan (Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan sponsored by Lexington Machining, LLC (Company) for the benefit of its employees who have at least six months of service and are age 19 or older. The Plan is subject to the *Employee Retirement Income Security Act of 1974* (ERISA). Fidelity Management Trust Company is the trustee and custodian of the Plan.

Contributions

The Plan permits eligible employees through a salary deferral election to have the Company make annual contributions of up to 60% of eligible compensation. Employee rollover contributions are also permitted. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. The Company makes matching contributions of $.50 for each $1.00 contributed by a participant, up to a maximum of 6% of the participant's compensation and profit-sharing. Company profit-sharing contributions are discretionary. Participants are considered eligible to receive an employer match if the employee is employed by the employer or a related employer on the last day of the contribution period.

Participant Investment Account Options

Investment account options available include various funds. Each participant has the option of directing his contributions into any of the separate investment accounts and may change the allocation daily.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution, plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefits to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus earnings thereon. Vesting in the Company's contribution portion of their accounts plus earnings thereon is based on years of continuous service in accordance with the following schedule:

Years of Service	Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account. Principal and interest are paid ratably through weekly and semi-monthly payroll deductions. Interest paid on the loan is credited to the participant's account. The loan interest rate is determined by the Plan Administrator based on prevailing interest rates charged under similar circumstances. Interest rates on current loans range from 4.25% to 6.25%. Loans must be repaid within five years, unless the loan is for the purchase of a primary residence, in which case the loan repayment period cannot extend beyond ten years from the date of the loan.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant or their beneficiaries may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts

At December 31, 2014 and 2013, forfeited non-vested accounts totaled $1,057 and $2,497, respectively. These accounts will be used to reduce future employer contributions and plan fees.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The Plan invests in investment contracts through a collective trust. The Statement of Net Assets Available for Benefits presents the fair value of the investment in the collective trust, as well as the adjustment of the investment in the collective trust from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Quoted market prices, if available, are used to value investments. Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year end. The Plan's interest in the collective trust is valued based on information reported by the investment advisor using the audited financial statements of the collective trust at year end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Transfers Between Fair Value Hierarchy Levels

Transfers in and out of Level 1 (quoted market prices), Level 2 (other significant observable inputs) and Level 3 (significant unobservable inputs) are recognized on actual transfer date.

Note 3: Certification of Plan Trustee

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure

under ERISA. Accordingly, Fidelity Management Trust Company, the trustee of the Plan, has certified the following information included in the accompanying financial statements and supplemental schedule are complete and accurate:

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits and related disclosures as of December 31, 2014 and 2013.
- Investment income and interest income from notes receivable from participants as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2014 and 2013.
- Investment information included in the accompanying schedule of assets (held at year end) as of December 31, 2014.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule

Note 4: Investments

The following presents investments that represented 5% or more of the Plan's net assets available for benefits at December 31, 2014 and 2013:

	2014	2013
SPTN 500 Index ADV	$ 2,217,863	$ 2,036,949
Dodge & Cox Stock	1,816,656	1,834,540
Fidelity Managed Income Portfolio	1,201,259	770,265
Pimco Total Return ADM	771,778	779,921
Fidelity Growth Company	750,284	736,731

The Plan's investments (including investments bought, sold and held during the year) appreciated (depreciated) in fair value as follows:

	2014	2013
Mutual funds	$ 322,860	$ 1,378,040
Collective trust fund	5,948	(9,564)
	$ 328,808	$ 1,368,476

Note 5: Related Party and Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

Certain Plan investments are shares of mutual funds and a collective trust fund managed by Fidelity Investments. Fidelity Investments is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment.

The Plan paid $4,324 and $1,635 of recordkeeping fees to Fidelity Investments during 2014 and 2013. The Company provides certain administrative services at no cost to the Plan.

Note 6: Disclosures About Fair Value of Plan Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level 3 Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Recurring Measurements

The following table presents the fair value measurements of assets and liabilities recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2014 and 2013:

		Fair Value Measurements Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Total assets at fair value	$ 8,506,778	$ 7,736,513	$ 770,265	$ -

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year

ended December 31, 2014. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities would be classified within Level 3 of the hierarchy. The Plan has no assets classified as Level 3.

Note 7: Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of the change in net assets available for benefits per the financial statements for the years ended December 31, 2014 and 2013 to net income per Schedule H of Form 5500:

	2014	2013

Net income per Schedule H of Form 5500	$ 899,944	$ 1,851,444

Note 8: Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provision of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

Note 9: Tax Status

The Plan operates under a nonstandardized adoption agreement in connection with a prototype retirement plan and trust/custodial document sponsored by Fidelity Management & Research Company. This prototype plan document has been filed with the appropriate agency. The Plan has not obtained or requested a determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

With a few exceptions, the Plan is no longer subject to U.S. federal, state and local or Non-U.S. income tax examinations by tax authorities for years before 2011.

Note 10: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 11: Subsequent Events

Subsequent events have been evaluated through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.

Plan Administrative Committee
Lexington Machining, LLC Retirement & Savings Plan
Rochester, New York

As part of our audit of the financial statements of Lexington Machining, LLC Retirement & Savings Plan (the Plan) as of and for the year ended December 31, 2014, we wish to communicate the following to you.

AUDIT SCOPE AND RESULTS

Auditor's Responsibility Under Auditing Standards Generally Accepted in the United States of America

An audit performed in accordance with auditing standards generally accepted in the United States of America is designed to obtain reasonable, rather than absolute, assurance about the financial statements. In performing auditing procedures, we establish scopes of audit tests in relation to the financial statements taken as a whole. Our engagement does not include a detailed audit of every transaction. Our engagement letter more specifically describes our responsibilities.

These standards require communication of significant matters related to the financial statement audit that are relevant to the responsibilities of those charged with governance in overseeing the financial reporting process. Such matters are communicated in the remainder of this letter or have previously been communicated during other phases of the audit. The standards do not require the auditor to design procedures for the purpose of identifying other matters to be communicated with those charged with governance.

An audit of the financial statements does not relieve management or those charged with governance of their responsibilities. Our engagement letter more specifically describes your responsibilities.

Qualitative Aspects of Significant Accounting Policies and Practices

Significant Accounting Policies

The Company's significant accounting policies are described in Note 2 of the audited financial statements.

Financial Statement Disclosures

The following areas involve particularly sensitive financial statement disclosures for which we are prepared to discuss the issues involved and related judgments made in formulating those disclosures:

- *Valuation of investments and related investment income*

Other Material Written Communications

Listed below is other material written communications between management and BKD related to the audit:

- *Management representation letter (attached)*

INTERNAL CONTROL OVER FINANCIAL REPORTING

In planning and performing our audit of the financial statements of Lexington Machining, LLC Retirement & Savings Plan as of and for the year ended December 31, 2014, in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses and, therefore, there can be no assurance that all deficiencies, significant deficiencies or material weaknesses have been identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be significant deficiencies and others that we consider to be deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements of the Company's financial statements on a timely basis. A deficiency in design exists when a control necessary to meet a control objective is missing or an existing control is not properly designed so that, even if the control operates as designed, a control objective would not be met. A deficiency in operation exists when a properly designed control does not operate as designed or when the person performing the control does not possess the necessary authority or competence to perform the control effectively.

A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Company's financial statements will not be prevented or detected and corrected on a timely basis.

A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

We observed the following matters that we consider to be deficiencies, or significant deficiencies.

Significant Deficiencies

Segregation of Duties

Management is responsible for establishing and maintaining effective internal controls over financial reporting. The Company, as is the case for many similar sized and operated companies, has certain segregation of duties issues. The following are considered to be significant deficiencies due to the fact that, by its nature and after consideration of compensating controls, there is a potential that misstatements could occur:

- During our review of the payroll controls, we noted that multiple individuals have access to the payroll master file and the ability to modify employee information. In addition, multiple individuals may have access to the payroll checks received from the payroll company, depending on various circumstances. This creates the possibility of an improper employee being added to the system and not being detected in a timely manner. We recommend removing the engineering administrator's access to either the payroll system or direct access to checks to help mitigate this potential conflict, and to assign those duties to another individual.

Performance and Documentation of Fiduciary Duties

The Plan Administrative Committee currently meets once every two years. As such, the potential exists for untimely response to changes in the plan, which would not satisfy the fiduciary duties to the plan. We recommend that the Plan Administrative Committee meet more frequently, at least annually, to ensure that all aspects of the Plan are addressed in a timely manner.

The DOL's 408(b) fee disclosure regulations require Plan Sponsors to review fee disclosures and the Service Organization Control (SOC 1) Report provided by their third-party administrators for reasonableness. Management has informed us that they have received the required fee disclosures and SOC 1 Report; however, no review was noted.

We recommend management's and Plan Administrative Committee's review of third-party administrator fees be documented in the minutes. A well-documented review of the reasonableness of these fees and expenses and SOC 1 Report helps demonstrate that management has prudently fulfilled its fiduciary duties under ERISA.

Deficiencies

Review of SOC 1- Report on Controls at a Service Organizations

During our review of the Plans' internal controls, we noted management is not reviewing the SOC 1 reports on the design and operating effectiveness of recordkeeping internal controls at Fidelity and Ceridian. As you know, many of the accounting and recordkeeping tasks of the Plans and payroll department have been outsourced to Fidelity and Ceridian.

Because the Plan Sponsor is expected to monitor the performance of these outsourced service providers, we recommend a member of management review these reports on an annual basis to determine if there were any internal control weaknesses at your third-party administrators noted in this report and to review the relevant user controls expected to be in place within the Plans. The review of these reports should be documented in the Plans' records.

Perform withholding on all eligible compensation

During participant contribution testing, it was noted that there were bonuses excluded from compensation used to calculate employee and employer contributions to the Plan. However, the Plan Document defines compensation as any earnings reportable as W-2 wages for federal income tax withholding purposes and earned income, plus elective contributions with no exclusions. The current year estimated effect is approximately $241, but does not include a calculation of lost earnings. This appeared to be an isolated incident, but if it was not, we would encourage management to evaluate whether these bonuses were intended to be considered eligible compensation for the Plan, and to either amend the Plan Document to exclude these bonuses or ensure withholding all employee deferrals and remitting an employer discretionary contribution upon these amounts. Furthermore, we would encourage management to consult with Fidelity and/or an ERISA attorney to see if a correction is needed for the employee missed deferral opportunity.
