ARNOFF MOVING & STORAGE, INC.
401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014 AND 2013

1. Description of plan:

The following description of Arnoff Moving & Storage, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan includes an employer funded discretionary defined contribution component and an employee funded discretionary 401(k) component covering eligible employees who have six months of service and a minimum age requirement of nineteen. The Plan allows automatic entry of new employees into the Plan on a rolling basis upon meeting the service and age requirements. The following companies participate in the Plan: Arnoff Moving & Storage Inc.; Arnoff Moving and Storage of Albany, Inc.; Arnoff Storage, Inc.; and Arnoff-Stewart Liner Transportation Corp., collectively referred to as the Companies. Arnoff Moving and Storage of Florida was a member of the Plan until December 31, 2014 when the assets were transferred to a separate plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Participants in the 401(k) plan may contribute through salary reduction up to 90 percent of annual compensation defined by the Plan, subject to annual statutory limit determined by the Internal Revenue Code. Upon meeting the service and age requirements, eligible employees will automatically have 2% of gross wages contributed to the Plan unless otherwise elected. Participants may also rollover amounts representing distributions from other qualified defined benefit or contribution plans. Employees over 50 may elect to make catch-up contributions in accordance with provisions of the Internal Revenue Code.

The employer discretionary profit sharing contribution for the Plan year ended December 31, 2013 was $49,506. There was no profit sharing contribution for the year ended December 31, 2014.

1. **Description of plan (continued):**

Participant accounts

Each participant's account is credited with the participant's contributions, allocation of the employer contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their salary reduction contributions plus actual earnings thereon. Vesting in the Company contributions portion plus earnings thereon is based on a participant's years of service. Such contributions, if any, vest in accordance with the Plan's vesting schedule. All active participants are 100 percent vested in the employer contributions upon completion of six years of credited service.

Participants' notes receivable

Participants may borrow from a minimum of $500 up to a maximum of $50,000 or 50 percent of their vested account balance. Loan terms range from one to five years or up to ten years for the purpose of purchasing a principal residence. Loans are collateralized by the balance in the participant's account and bear interest at the prime rate plus one percent, which is fixed at the time of the loan. Principal and interest is paid ratably through payroll deductions.

Payment of benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount, a direct transfer to another qualified retirement account equal to the participant's vested interest in his or her account, or in installments over a period of not more than the participant's or the participant's spouse's assumed life expectancy determined at the time of distribution. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution or rollover to another qualified plan.

Participants are eligible for in-service distributions from their 401(k) and profit sharing accounts upon attaining the age of 59½ years.

1. **Description of plan (continued):**

Forfeited accounts

Forfeitures result from a participant's termination of service prior to achieving full vesting in the Company contributions. Forfeited balances are used to reduce future employer contributions. Forfeitures were $1,562 and $494 for 2014 and 2013, respectively.

Investment options

The assets of the Plan are allocated to the various investment funds at the direction of the participant. Upon enrollment, a participant may direct his or her 401(k) contributions in their chosen increments in any of the various investment options offered under a group annuity contract issued by Reliance Trust Company.

Roth elective deferrals

The Plan now allows Roth elective deferrals to be made to the Plan, including an option allowing participants to convert deferrals into Roth deferrals.

2. **Summary of significant accounting policies:**

Basis of accounting

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) which utilizes the accrual method of accounting. Consequently, revenues and gains are recognized when earned, and expenses and losses are recognized when incurred.

Net assets available for benefits and changes in net assets available for benefits differ from that reported on Internal Revenue Service (IRS) Form 5500, *Annual Return/Report of Employee Benefit Plans*. This difference is the result of using the cash basis for governmental reporting purposes and the accrual basis for financial reporting purposes. See Note 7 for a reconciliation of the financial statements to Form 5500.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Trustee determines the Plan's valuation policies utilizing information provided by the investment advisers and custodians. See note 5 for discussion of fair value measurements.

2. **Summary of significant accounting policies (continued):**

Investment valuation and income recognition (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of estimates

The preparation of financial statements in conformity with GAAP requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Participants' notes receivable

Participants' notes receivable are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged to participants. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess contributions payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2014 excess contributions to the applicable participants prior to March 15, 2015.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of participants' notes receivable are charged directly to the participant's account and are not included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

2. Summary of significant accounting policies (continued):

Payment of benefits

Benefits are recorded when paid.

3. Summary of information certified by Plan trustee:

The statements of net assets available for benefits as of December 31, 2014 and 2013, the investment activities included in the statement of changes in net assets available for benefits for the year ended December 31, 2014, the accompanying notes to the financial statements and the supplemental schedule of assets held for investment (end of year) as of December 31, 2014 were prepared in part from investment information (including participant loans) certified by the trustee (Reliance Trust Company) in accordance with 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

4. Investments:

The Plan investments are held in a trustee administered trust account and the following table presents the value of investments that represent five (5%) percent or more of the Plan's net assets available for benefits:

	2014	2013
Mutual funds:		
JPMorgan U.S. Government Bond Fund	$ 328,321	$ 358,419
Aim Funds:		
Mid Cap Core Equity Fund	413,533	386,092
Pimco Total Return Fund	265,275	271,698

Total investments	$ 4,446,942	$ 4,358,953

4. Investments (continued):

Net appreciation (depreciation) in fair value of investments:

During 2014, the Plan's net appreciation (depreciation) in fair value of investments, including investments bought, sold and held during the year, consisted of dividend income and change in fair values of:

Mutual funds:	
Fixed income	$ 55,656
Growth	141,713
Foreign	26,283
Balanced	13,579
Other	249
Total	$ 237,480

5. Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

5. Fair value measurements (continued)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value, using the market approach. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

	Assets at fair value as of December 31, 2014			
Description	Total	Level 1	Level 2	Level 3

6. Tax status:

The IRS has determined and informed the Company by a letter dated July 14, 1989, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2011.

5. Fair value measurements (continued):

8. Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

9. Parties-in-interest:

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan or an employer whose employees are covered by the Plan. Accordingly, participants' loans and the management of the investments held by the custodian are considered party-in-interest transactions.

10. Distributions payable:

At December 31, 2014, net assets available for plan benefits included $202,379 for balances payable to participants who have separated from service or withdrawn from the Plan prior to the end of the Plan year.

11. Rollover contributions

A total of $17,353 was rolled into the Plan during the year ended December 31, 2014, and is included as rollover transfers within participant contributions on the statement of changes in net assets available for benefits.

12. Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA, as amended. In the event of Plan termination, participants would become 100% vested in their accounts.

13. Subsequent events:

Management has evaluated subsequent events through October 12, 2015, which is the date the financial statements are available for issuance, and have determined that there are no subsequent events which require disclosure under GAAP.
