LITTLEJOHN ENGINEERING 401(K) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

Note A – Description of Plan

The following description of the Littlejohn Engineering 401(k) Retirement Plan (“the Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

1. **General:** The Plan is a defined contribution plan covering all employees of Littlejohn Engineering Associates, Inc. (“the Company”) who have completed three months of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).
2. **Plan Administration:** The Company is the plan sponsor and plan administrator. The plan administrator is responsible for carrying out the duties imposed under ERISA. The Plan’s custodian, MG Trust Company, LLC, is responsible for the custody and management of the Plan’s assets.
3. **Contributions:** Each year, participants may elect to contribute a portion of pretax annual compensation, not to exceed annual limits established by law. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company may make matching contributions to the Plan. Such contributions will be determined annually at the Company’s discretion. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a variety of mutual funds as investment options for participants.
4. **Participants’ Accounts:** Each participant’s account is credited with the participant’s contribution and an allocation of (a) the Company’s contribution, and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.
5. **Vesting:** Participants are immediately vested in their voluntary contributions plus earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100 percent vested after six years of credited service in accordance with the following schedule:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

6. **Forfeited Accounts:** Forfeitures are used to reduce matching contributions that the Company may make to the Plan in the year following the forfeitures. During the year ended December 31, 2014, \$17,922 from terminated non-vested accounts was forfeited to the Plan and used to reduce matching contributions.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

Note A – Continued

7. **Payment of Benefits:** On termination of service with the Company, a participant will receive a lump-sum distribution amount equal to the value of the participant's vested interest in his or her account. Active employees may make withdrawals of all or a portion of their vested account balances subject to certain withdrawal and contribution rules of the Plan. Withdrawals are not allowed for participants who are less than 59½ years of age, except under certain hardship provisions.
8. **Participant Loans:** Participant loans are not allowed under the Plan.
9. **Amendments:** The Plan was originally effective March 1, 1992, and has been amended at various times to keep it in compliance with changes in federal pension laws as well as to make changes deemed appropriate by the Company. The most recent restatement of the Plan was effective April 24, 2011.

Note B – Summary of Significant Accounting Policies

1. **Basis of Accounting:** The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.
2. **Estimates:** The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of certain assets, liabilities, and disclosures. Accordingly, actual results may differ from those estimates. Any adjustments applied to estimated amounts are recognized in the year in which such adjustments are determined.
3. **Investment Valuation and Income Recognition:** The Plan's investments are stated at fair market value. Fair value is the price received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Shares of mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. See Note D for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is accrued as it is earned and dividends are recorded as of the ex-dividend date. Net realized and unrealized appreciation (depreciation) is recorded in the accompanying statement of changes in net assets available for benefits as net appreciation in fair value of investments.

Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of net appreciation in fair value of investments.

4. **Contributions:** Contributions from employees and the Company are recorded in the period in which the Company makes the payroll deductions from participant earnings.
5. **Payments of Benefits:** Benefits are recorded when paid.

Note B - Continued

6. **Administrative Expenses:** Certain expenses incurred in the administration of the Plan are paid directly by the Company.
7. **Subsequent Events:** For the year ended December 31, 2014, the Plan has evaluated subsequent events for potential recognition and disclosure through September 16, 2015, the date the financial statements were available to be issued.

Note C - Investments (Unaudited)

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The Plan's investments were held by MG Trust Company, LLC, the custodian. All investment information presented in the accompanying financial statements and supplemental schedules, including investments held and net appreciation/depreciation in fair value of investments and interest and dividends, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the custodian.

Investments as reported by the custodian that represent 5% or more of the Plan's net assets available for benefits as of December 31, 2014 and 2013, are summarized as follows:

Note D – Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2014.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year-end.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note E – Tax Status

The Internal Revenue Service has determined that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving its determination letter. The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a tax liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Note F – Transactions with Parties-in-Interest

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. During the plan year ended December 31, 2014, the Plan has not engaged in any non-exempt party-in-interest transactions. Investment management and administrative fees related to the administration of the Plan are paid either by the Plan or by the Company on behalf of the Plan.

LITTLEJOHN ENGINEERING 401(K) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

Note G - Risks and Uncertainties

The Plan's investments, in general, are subject to various risks, such as interest rate, credit, and overall market volatility risk. Additionally, the value, liquidity, and related income of the investment securities are sensitive to changes in economic conditions and may be affected by shifts in the market's perception of issuers and changes in interest rates. Certain investments (such as asset-backed securities, limited partnerships, and limited liability companies) are less liquid and may have restrictions on their sale. Forced liquidation, although not expected at this time, may affect the estimated value of such investments. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note H - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. However, no such action may deprive any participant or beneficiary under the Plan of any vested right. In the event of Plan termination, participants would become 100% vested in their accounts.

Note I - Plan Merger

On December 31, 2014, S&ME, Inc., a Raleigh, N.C. based engineering, environmental and construction services company, completed a 100% stock purchase acquisition of Littlejohn Engineering Associates, Inc. As a result of this acquisition, the Littlejohn Engineering 401(k) Retirement Plan will be merged with the 401(k) plan currently sponsored by S&ME, Inc. As of the date that these financial statements were available to be issued, the merger of the plans had not yet been accomplished. It is anticipated that the merger will be completed prior to March 31, 2016. To facilitate the merger, the new 401(k) plan will be amended to accept the transfer of the net assets of the Plan and to make participants in the Plan eligible to participate in the new plan, subject to an initial black-out period.
