Notes to Financial Statements

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements of the Duro Hilex Poly, LLC Tennessee Hourly Employees Retirement Savings Plan (the "Plan"), formerly known as Duro Bag Mfg. Co. Tennessee Hourly Employees Retirement Savings Plan, have been prepared on the accrual basis.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment Valuation

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rates, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Benefit Payments

Benefit payments are recorded when paid.

Estimates

The preparation of financial statements in conformity with United States generally accepted accounting principles ("GAAP") requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Expenses

Certain expenses and costs of the Plan were paid by the Duro Hilex Poly, LLC (the "Company") and accordingly, are not reflected in the Plan's financial statements. Investment related expenses are included in net appreciation in fair value of investments.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CON`TINUED)

Related-Party Transactions

Several employees of the Company provide administrative services to the Plan. These services include Plan oversight and day-to-day Plan administration. The Plan is not charged by the Company for the services of the employees to the Plan.

Subsequent Events

The Company has evaluated subsequent events through October 12, 2015, which is the date the financial statements were available to be issued.

NOTE 2 DESCRIPTION OF THE PLAN

The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan with a cash or deferred arrangement covering substantially all hourly employees at the Tennessee manufacturing plants of Duro Hilex Poly, LLC. (the "Company"), governed by a collective bargaining agreement who have completed one (1) year of service and have attained the age of twenty-one (21). The Plan was initially adopted on July 23, 2006, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). As part of an asset purchase agreement dated June 11, 2014, the rights and obligations of this Plan were transferred from Duro Bag Manufacturing Company to Duro Hilex Poly, LLC.

Contributions

The Plan provides for contributions by participants of an amount not to exceed the maximum amount deductible under the applicable provisions of the Internal Revenue Code of 1986, as amended (\$17,500 at December 31, 2014). For 2014, Section 414(v) of the Internal Revenue Code of 1986 as amended allowed a maximum catch-up contribution of \$5,500. The Company is permitted to make a profit sharing contribution equal to a discretionary percentage of eligible compensation (determined each year by the Company and as stated in the collective bargaining agreement). All Employees who have attained the age of twenty-one (21) and are actively employed at the end of the Plan year are eligible to receive the Company profit sharing contribution. During 2014, the Company elected to contribute 1.5% of eligible compensation earned during the plan year.

Participant Accounts

Each participant's account is credited with the participant's and Company's contributions and a pro-rata allocation of the Plan's earnings and expenses. The pro-rata allocation is based upon each participant's earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 2 DESCRIPTION OF THE PLAN (CONTINUED)

Rollover Contributions

Participants may roll over their taxable portion of funds previously held for their account in another qualified retirement plan to the Plan on a tax-free basis.

Vesting

All participants' contributions are immediately vested at the time such contributions are made. Participants become vested in Company's matching contributions as follows:

All participants' contributions are immediately vested at the time such contributions are made. Participants become vested in the Company profit sharing contributions made for Plan years beginning prior to January 1, 2007 as follows:

<u>Years of Services</u>	<u>Vested Percentage</u>
Less than 5 years	0%
Greater than or equal to 5 years	100%

Participants become vested in the Company profit sharing contributions made for Plan years beginning after December 31, 2006 as follows:

<u>Years of Services</u>	<u>Vested Percentage</u>
Less than 3 years	0%
Greater than or equal to 3 years	100%

Forfeited balances of terminated participants' non-vested accounts are applied to offset administrative expenses of the Plan or reduce Company contributions. At December 31, 2014 and 2013, forfeited non-vested accounts totaled \$-0- and \$5, respectively. During 2014, the Company used \$5 of forfeitures to offset Company match contributions.

Payment of Benefits

Upon a participant's retirement, death, total and permanent disability, other termination of employment with the Company, or termination of the Plan, the participant's account is distributed under several options. Participants may elect to receive their benefit in a lump sum or partial withdrawals of at least \$5,000.

In-service distributions are permissible from the Plan for participants that have attained the age of 60.

In conditions of "financial hardship", as defined, a participant may apply to the Plan administrator for approval to withdraw that portion of their elective deferrals necessary to meet the financial hardship, subject to the limitations of the Plan and the Internal Revenue Code.

NOTE 4 BENEFIT-RESPONSIVE INVESTMENT

MetLife Stable Value Fund

The Plan's investment in the MetLife Stable Value Fund (the Fund) is a benefit-responsive investment with the Reliance Trust Company. The Fund maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment is included in the financial statement at contract value as reported to the Plan by the Trustee. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Fund invests in a MetLife Group Annuity Contract (the Contract) which provides a fixed interest rate for a fixed period that will apply to the entire guaranteed value. The interest rate is reset every quarter as determined by MetLife with consideration of the fair value of the separate accounts, the anticipated market yields-to-maturity of benchmark indices of separate accounts, expected payments into and out of the contract, amortization of the difference, if any, between the fair value of the separate accounts and the guaranteed value of the contract, and the fees allowed under the contract. MetLife guarantees that the rate will never be less than zero.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield earned by the Contract at December 31, 2014 and 2013 was approximately 5.6% and 1.6%, respectively. The average yield credited to participants by the Contract at December 31, 2014 and 2013 was 3.0% and 3.3%, respectively. This represents the annualized earnings credited to participants in the Contract divided by the fair value of the Contract at year-end.

NOTE 4 BENEFIT-RESPONSIVE INVESTMENT (CONTINUED)

If a withdrawal is made from the Contract as a result of an employer or plan sponsor-initiated event or if a withdrawal is requested due to a complete or partial termination of a participating plan in the Fund before the Contract ends, and the Contract's fair value equals or exceeds the guaranteed value, payment is made in an amount equal to the amount of the guaranteed value which is attributable to the participating plan. If the Contract's fair value is less than its guaranteed value, the amount paid is equal to the guaranteed value reduced by the amount of fair value deficit allocable to the participating plan.

NOTE 5 FAIR VALUE INVESTMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs.

The hierarchy is broken down into three levels base on the ability to observe inputs as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement. The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2014 and 2013.

Registered investment companies: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

NOTE 5 FAIR VALUE INVESTMENTS (CONTINUED)

Common/collective trust: Valued at fair value of the collective trust account's underlying investments based on information reported by the investment advisor using the audited financial statements of the collective trust at year-end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014:

	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 1,122,475	\$ -	\$ -	\$ 1,122,475
Common/collective trust	-	206,067	-	206,067
Total assets at fair value	<u>\$ 1,122,475</u>	<u>\$ 206,067</u>	<u>\$ -</u>	<u>\$ 1,328,542</u>

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 979,645	\$ -	\$ -	\$ 979,645
Common/collective trust	-	160,106	-	160,106
Total assets at fair value	<u>\$ 979,645</u>	<u>\$ 160,106</u>	<u>\$ -</u>	<u>\$ 1,139,751</u>

NOTE 6 TAX STATUS

The Company has adopted a prototype plan which has received an opinion letter from the Internal Revenue Service dated March 31, 2008, which states the provider's prototype, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan itself has not received a determination letter from the Internal Revenue Service (IRS). The Plan was most recently amended on November 3, 2014 to change the Plan name and employer name. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC, therefore, no provision for income taxes has been included in the Plan's financial statements.
