1. Plan description

The following description of the First State Bank of Louise Employee Savings Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering employees, who are age 21 or older and have completed 1,000 hours of service in a six month period. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Employee Contributions

Each year, participants may contribute through deferral of their earned income, up to 100% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Employer Contributions

For the 2013 Plan year, the plan sponsor provided a safe harbor nonelective contribution of 3% of compensation for all eligible participants. For the 2014 Plan year, the plan sponsor provided a safe harbor matching contribution equal to 100% of employee contributions up to 3% of compensation plus 50% of employee elective deferrals that exceed 3% of compensation for the Plan year, but do not exceed 5% of compensation.

Participant accounts

The Plan currently offers a fully-benefit responsive investment contract, mutual funds and self-directed brokerage accounts as investment options for participants. Each participant's account is credited with the participant's contribution and allocations of Plan earnings and the employer's contribution. Allocations are based on participant earnings or account balances, as defined. Each participant is entitled to the benefit that can be provided from his or her vested account.

Vesting

Participants are immediately vested in employee and employer safe harbor contributions plus actual earnings thereon. Vesting in the plan sponsor's contribution portion of their accounts is based on years of continuous service. A participant is fully vested in employer discretionary matching and profit sharing contributions after six years of credited service.

Notes receivable from participants

Participants may borrow from their fund accounts up to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

Payments of benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of his or her account, or installments over a period of time, not to exceed the participant's life expectancy.

For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution, if the vested interest is less than $5,000. For vested interests greater than $5,000, the participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or installments over a reasonable period of time, not to exceed the participant's life expectancy.

Plan expenses

A portion of expenses incurred by the Plan have been paid for by the plan sponsor.

2. Summary of significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account. As of December 31, 2014, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Investment valuation and income recognition

The Plan's investments are stated at fair value based on quoted market prices. Shares of registered investment companies are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. Purchases and sales of securities are recorded on a trade-date basis. Interest income and capital gains are recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of benefits

Benefit payments to participants are recorded upon distribution.

Forfeitures

At December 31, 2014 and 2013, forfeited non-vested accounts totaled $714 and $4,184, respectively. These amounts were held in reserve and may be used to offset future employer contributions or pay administrative expenses. During 2014, forfeitures were used to reduce employer contributions by $3,236.

New Accounting Pronouncement

In July 2015, the Financial Accounting Standards Board issued *ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 31, 2015, with early adoption permitted. Management has elected to adopt ASU 2015-12 for the fiscal year ended December 31, 2014.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Date of management's review

Management has evaluated subsequent events through October 13, 2015, the date the financial statements were available to be issued. No additional disclosures or modifications were deemed necessary.

3. Fair value measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan.

The fair value of amounts held in self-directed brokerage accounts are based on quoted market prices.

		Fair Value Measurements at Reporting Date Using		
	Fair Value	Quoted Price in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2014				
Mutual funds	$ 3,132,404	$ 3,132,404	$ -	$ -
Self-directed brokerage account	162,753	162,753	-	-
	$ 3,295,157	$ 3,295,157	$ -	$ -
December 31, 2013				
Mutual funds	$ 3,429,638	$ 3,429,638	$ -	$ -
Self-directed brokerage account	171,705	171,705	-	-
	$ 3,601,343	$ 3,601,343	$ -	$ -

4. Fully benefit-responsive investment contracts

The Plan has a fully benefit responsive group annuity contract with an insurance company. The Key Guaranteed Portfolio Fund is issued by Great-West Life and Annuity Insurance Company, and provided to the Plan as a general account product. The insurance company is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: premature termination of the contract by the Plan, plant closings, layoffs, plan termination, bankruptcy, mergers, and early retirement incentives. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring. The insurance company may not terminate the contract at an amount less than contract value.

5. Tax status

The prototype plan obtained its latest determination letter on March 16, 2010, in which the Internal Revenue Service stated that the Plan, as currently designed, is in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits of any tax periods in progress. Plan management believes it is no longer subject to income tax examination for years prior to 2011.

Plan management discovered that contributions were not deferred for certain payments made to participants during 2014. The plan sponsor is in the process of correcting this error. Plan management expects that the corrective measures taken will not adversely affect the tax qualified status of the Plan.

6. Information certified by custodians

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified as complete and accurate by the custodians.

	2014	2013
Investments, at fair value	$ 3,295,157	$ 3,601,343
Fully benefit-responsive investment contracts, at contract value	504,627	-
Notes receivable from participants	109,217	122,860
Interest and dividend income	77,054	
Net appreciation in fair value of investments	6,321	
Interest income on notes receivable from participants	7,140	

7. Party-in-interest transactions

Great-West Trust Company, LLC is the custodian of the Plan's assets. As discussed in Note 4, the Key Guaranteed Portfolio Fund is issued by Great-West Life and Annuity Insurance Company. Therefore, investment transactions in the Key Guaranteed Portfolio Fund qualify as exempt party-in-interest transactions as defined by ERISA.

8. Plan termination

Although it has not expressed any intent to do so, the employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

9. Risks and Uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
