Independent Auditor's Report

To the Retirement Plans Oversight Committee and Plan Administrator
Antioch University Defined Contribution Plan for
Administrative Associate, Administrative and Faculty Employees
Yellow Springs, Ohio

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Antioch University Defined Contribution Plan for Administrative Associate, Administrative and Faculty Employees (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013 and the related statement of changes in net assets available for benefits for the year ended December 31, 2014 and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matters described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Teachers Insurance and Annuity Association of America and College Retirement Equities Fund (TIAA-CREF), as issuer for certain investments in the Plan and as agent for JPMorgan Chase Bank, the custodian for certain investments in the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that TIAA-CREF holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from TIAA-CREF as of December 31, 2014 and 2013 and for the year ended December 31, 2014, that the information provided to the Plan Administrator by TIAA-CREF is complete and accurate.

In addition, the Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the financial statements have been affected by these conditions.

Member of the RSM International network of independent accounting, tax and consulting firms.

Further, as described in Note 8, the Plan has excluded from investments in the accompanying statements of net assets available for benefits certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded from the accompanying statement of changes in net assets available for benefits. Under accounting principles generally accepted in the United States of America, these accounts and the related income and distributions should have been included in the accompanying financial statements. The amount of these excluded annuity and custodial accounts and the related income and distributions are not determinable.

Disclaimer of Opinion
Because of the significance of the matters described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter - Supplemental Schedule
The supplemental schedule of assets (held at end of year) as of December 31, 2014 is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purposes of additional analysis and is not a required part of the financial statements. The supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matters described in the Basis for Disclaimer of Opinion paragraphs we do not express an opinion on the supplemental schedule.

Note 1. Plan Description

The following brief description of the Antioch University Defined Contribution Plan for Administrative Associate, Administrative and Faculty Employees (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General: The Plan is a defined contribution plan generally available to administrative associate, administrative and faculty employees of Antioch University (the University), except student employees and adjunct professors. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan was restated effective January 1, 2009.

Contributions: Each year, the University makes contributions to all active participants based on job classification and age: 6% of compensation to eligible participants under age 29, 10% of compensation to administrative associate participants age 29 and over and 13% to administrative and faculty participants age 29 and over. The Plan also permits employees to contribute amounts representing distributions from other qualified plans.

Participant accounts: Each participant's account is credited with the University's contributions and Plan earnings. The allocation of the University's contributions follows the participant's directed investment options. Allocations of Plan earnings are based on participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their rollover contributions as well as the University's contributions, plus actual earnings thereon.

Investment options: Upon enrollment in the Plan, a participant may direct contributions in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options at any time.

Participant loans: Participant loans are not permitted per the terms of the Plan agreement.

Payment of benefits: On termination of service due to severance of employment, death, disability, or retirement, a participant or the beneficiary may elect to receive either a lump-sum amount equal to the vested value of his or her account, a partial payout, or installment payments as outlined by the Plan. A participant is also entitled to apply his or her individual account toward the purchase of an annuity contract.

Administrative expenses: Administrative expenses of the Plan are paid by the University. The expenses paid by the University are not reflected in the accompanying financial statements.

Plan termination: Although it has not expressed any intent to do so, the University has the right under the Plan to terminate the Plan subject to the provisions of ERISA.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract value for fully benefit-responsive investment contracts.

Accounting estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Except for certain contracts held by TIAA-CREF described in Note 5, investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The University determines the Plan's valuation policies utilizing information provided by the investment custodians and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions: Employer contributions are recognized each pay date when the related compensation is paid to employees.

Payment of benefits: Benefits are recorded when paid.

Risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Approximately 63% and 64% of the Plan's investments are held in two funds at December 31, 2014 and 2013, respectively. As such, this is considered a concentration of credit risk.

Generally accepted accounting principles require the financial statements to present the fair value of investments. The guaranteed annuity contract has been presented at contract value, which approximates fair value, as reported to the Plan by TIAA-CREF. This determination is based on TIAA-CREF's credit rating and yield during 2014 and 2013 being comparable to similar alternative investments and the interest rate which re-sets annually being comparable to a ten year treasury bond. In subsequent periods, if market conditions change, such as the insurance company credit rating or interest rate environment, the difference between contract value and fair value could become significant causing the financial statements to become materially misstated.

Note 2. Summary of Significant Accounting Policies (Continued)

Recently issued accounting pronouncements: In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent).* The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this Update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. Plan management is currently evaluating the impact this update will have on the Plan's financial statements.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force).* The purpose of this Update is to simplify plan accounting.

- The amendments in Part I of this Update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.

- The amendments in Part II of this Update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan* as a direct filing entity, disclosure of that investment's strategy will no longer be required.

- The amendments in Part III of this Update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the Plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The Update may be adopted in whole or by part (I, II and III), as applicable. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. Plan management is currently evaluating the impact this Update will have on the Plan's financial statements.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through October 13, 2015, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by Teachers Insurance and Annuity Association – College Retirement Equities Fund (TIAA-CREF)

The following is a summary of the plan's asset information as of December 31, 2014 and 2013 and for the year ended December 31, 2014, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by TIAA-CREF, as investment issuer for certain investments in the Plan and as agent for JPMorgan Chase Bank, the custodian for certain investments in the Plan and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from TIAA-CREF on behalf of the custodian that information provided to the Plan Administrator by the agent related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets.

The following table presents the fair value of the Plan's assets as certified by TIAA-CREF, as agent for JP Morgan Chase Bank, the custodian for certain investments in the Plan, as of December 31, 2014 and 2013, except for the guaranteed annuity contract which was certified at contract value. The fair value of individual assets that represent 5% or more of the Plan's net assets are separately identified:

	2014		2013	
Investments, at fair value:				
Mutual funds	$ 9,238,221		$ 6,926,812	
Variable annuity contracts				
CREF Stock	31,490,194	*	33,967,894	*
CREF Social Choice	10,727,485	*	10,435,181	*
Other variable annuity contracts	28,098,863		27,427,917	
	70,316,542		71,830,992	
Investments at contract value which approximates fair value:				
Guaranteed annuity contract				
TIAA Traditional	48,748,998	*	47,760,615	*
	$ 128,303,761		$ 126,518,419	

* Greater than 5% of Plan's net assets in the respective year.

TIAA-CREF also certified to the completeness and accuracy of the net appreciation (depreciation) in the fair value of investments and of interest and dividend income for the year ended December 31, 2014, which included the following:

Net appreciation (depreciation) in fair value of investments:	
Mutual funds	$ (146,540)
Variable annuity contracts	4,945,258
Guaranteed annuity contract	1,532,950
	$ 6,331,668
Interest and dividends	$ 1,164,312

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the Accounting Standards Codification (ASC) 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Variable annuity contracts: Valued at the total of the NAV of investments and cash held by the account at year-end. The Plan's interest in the variable annuity contracts is valued based on the information reported by the contract holder.

Guaranteed annuity contract: The fixed annuity contract is reported at contract value which approximates fair value (see Note 5). This determination is based on TIAA-CREF's credit rating and yield during 2014 and 2013 being comparable to similar alternative investments and the interest rate, which resets annually, being comparable to a ten-year U.S. Treasury bond.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(a) This category includes a variable annuity account whose objective is to seek a favorable long-term rate of return through capital appreciation and investment income by investing primarily in a broadly diversified portfolio of common stocks. The account typically invests at least 80% of its assets in a broadly diversified portfolio of domestic and foreign equity securities by using a combination of three investment strategies: active management, enhanced indexing and pure indexing. The account may invest in companies of any market capitalization size or investment style (growth, blend, or value) and will invest a small percentage of its foreign investments in emerging-market securities. It also may invest in fixed-income securities and money market instruments, including those traded on foreign exchanges, in other foreign securities markets or privately placed. Shareholders will be locked out of the account for 90 days if a purchase, sale and repurchase is made within a 60-day period.

(b) This category includes a variable annuity account whose objective is to seek high current income consistent with maintaining liquidity and preserving capital. The account invests primarily in high-quality, short-term instruments, such as commercial paper, bank obligations and U.S. government-issued securities. It can invest up to 30% of its assets in money market and debt instruments of foreign issuers denominated in U.S. dollars.

Note 4. Fair Value Measurements (Continued)

(c) This category includes a variable annuity account whose objective is to seek a long-term rate of return that outpaces inflation, primarily through investment in inflation-indexed bonds, which are fixed-income securities whose returns are designed to track a specified inflation index over the life of the bond. The account typically invests at least 80% of its assets in U.S. Treasury Inflation-Indexed Securities. It can also invest in other inflation-indexed bonds issued or guaranteed by the U.S. government or its agencies and by corporations and other U.S.-domiciled issuers as well as foreign governments. The account may also invest in money market instruments or other short-term securities. Shareholders will be locked out of the account for 90 days if a purchase, sale and repurchase is made within a 60-day period.

(d) This category includes a variable annuity account whose objective is to seek a favorable long-term rate of return, primarily through high current income consistent with preserving capital. The account invests at least 80% of its assets in a broad range of debt securities, including U.S. government securities, corporate bonds and mortgage-backed securities. It seeks to outperform its benchmark, the Barclays Capital U.S. Aggregate Bond Index, by overweighting or underweighting individual securities or sectors, relative to the benchmark. The account can invest up to 20% of its assets in non-investment-grade securities and in unrated securities. Shareholders will be locked out of the account for 90 days if a purchase, sale and repurchase is made within a 60-day period.

(e) This category includes a variable annuity account whose objective is to seek a favorable long-term rate of return through capital appreciation and income from a broadly diversified portfolio that consists primarily of foreign and domestic common stocks. The account invests at least 80% of assets in equity securities of foreign and domestic companies. The account uses a variety of different investment strategies to seek out attractively priced companies, of any capitalization size, that management believes are undervalued based on the company's prospects for growth in earnings, cash flow, revenues and other relevant measures. Particular focus is placed on companies with shareholder-oriented management teams dedicated to creating shareholder value. Shareholders will be locked out of the account for 90 days if a purchase, sale and repurchase is made within a 60-day period.

(f) This category includes a variable annuity account whose objective is to seek a favorable long-term rate of return that reflects the investment performance of the financial markets while giving special consideration to certain social criteria. The account is balanced with assets divided between domestic and foreign stocks (about 60%) and bonds and other fixed-income securities, including money market instruments (about 40%). The account invests only in companies that are suitable from a financial perspective and whose activities are consistent with the account's social criteria. Using specific environmental, social and governance criteria, the evaluation process seeks out companies that are: strong stewards of the environment, devoted to serving local communities and society in general, committed to high labor standards, dedicated to producing high-quality, safe products and those managed in an ethical manner. Shareholders will be locked out of the account for 90 days if a purchase, sale and repurchase is made within a 60-day period.

(g) This category includes a variable annuity account whose objective is to seek a favorable long-term rate of return, mainly through capital appreciation, primarily from a diversified portfolio of common stocks that present the opportunity for exceptional growth. The account invests primarily in large, established companies, particularly those with new or innovative products, services or processes that enhance future earnings prospects. The account may also invest in smaller companies with higher growth potential as well as companies in new and emerging areas of the economy. It may also invest up to 20% of its assets in foreign securities. Shareholders will be locked out of the account for 90 days if a purchase, sale and repurchase is made within a 60-day period.

Note 4. Fair Value Measurements (Continued)

(h) This category includes a variable annuity account whose objective is to seek a favorable long-term rate of return from a diversified portfolio selected to track the overall market for common stocks publicly traded in the United States, as represented by a broad stock market index. The account employs a passive investment strategy and invests primarily in stocks included in the Russell 3000 Index. Shareholders will be locked out of the account for 90 days if a purchase, sale and repurchase is made within a 60-day period.

(i) This category includes a variable annuity account whose objective is to seek favorable long-term returns primarily through rental income and appreciation of real estate investments owned by the account. It seeks to invest between 75% and 85% of its assets directly in real estate or real estate-related securities. The account purchases direct ownership interests in income-producing real estate, such as office, industrial, retail and multi-family residential properties. It may also hold other real estate or real estate-related investments through joint ventures, real estate partnerships or real estate investment trusts. The account can also hold foreign investments, although they are not expected to exceed 25% of the account's total assets. Investments in the variable annuity account within participant accounts can be redeemed daily at the net asset value per unit. Redemptions are limited to one per calendar quarter.

Changes in fair value levels: The availability of market data is monitored to assess the appropriate classification of investments within the fair value hierarchy. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2014, there were no transfers in or out of Level 1, 2, or 3.

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 investment assets for the year ended December 31, 2014:

	Guaranteed Annuity Contract
Balance, beginning of the year	$ 47,760,615
Realized gains	679,820
Unrealized gains relating to assets still held at the reporting date	853,130
Acquisitions	6,757,934
Dispositions	(7,302,501)
Balance, end of year	$ 48,748,998

Note 4. Fair Value Measurements (Continued)

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 investments, the valuation techniques used to measure the fair value of those investments and the significant unobservable inputs and the ranges of values for those inputs.

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values
TIAA Traditional	$ 48,748,998	Discounted cash flow Theoretical transfer (exit value)	Risk-adjusted discount rate applied	RA* 3.25% - 5%

* Retirement annuity

In estimating fair value of the investments in Level 3, the University may use third-party pricing sources or appraisers. In substantiating the reasonableness of the pricing data provided by third parties, the University evaluates a variety of factors including review of methods and assumptions used by external sources, recently executed transactions, existing contracts, economic conditions, industry and market developments and overall credit ratings.

Note 5. Investment Contracts with TIAA-CREF

The Plan has a guaranteed annuity contract with TIAA-CREF. Under this contract are sub-contracts, some of which are fully benefit-responsive while others are not. TIAA-CREF maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Each premium allocated to the guaranteed fixed annuity investment contract buys a guaranteed minimum amount of lifetime income based on the rate schedule in effect at the time the premium is credited.

For investment contracts that are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. These contracts are included in the financial statements at contract value, as reported to the Plan by TIAA-CREF. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. TIAA-CREF indicates that contract value approximates fair value for these investments at December 31, 2014 and 2013. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 3%. Such interest rates are viewed on an annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Note 5. Investment Contracts with TIAA-CREF (Continued)

The contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	2014	2013
Average Yields:		
Based on actual earnings	4.34%	4.19%
Based on interest rate credited to participants	4.15%	4.14%

Investment contracts that are not fully benefit responsive are included in the financial statements at contract value as reported by TIAA-CREF. TIAA-CREF has reported to the Plan that contract value approximates fair value for these investments at December 31, 2014 and 2013.

Note 6. Related Party Transactions

Certain Plan investments are managed by TIAA-CREF, the issuer for certain investments and agent for JPMorgan Chase Bank, custodian of certain other investments and therefore these transactions qualify as party-in-interest.

Certain employees of the University provide administrative services for the Plan and are not reimbursed for their services from the Plan.

Note 7. Tax Status

The plan terms have been drafted in reliance on the sample language provided by the Internal Revenue Service in Revenue Procedure 2007-71. The Plan is required to operate in conformity with the Internal Revenue Code (IRC) to maintain the exclusion from tax for plan participants. Plan management believes the Plan is currently designed and operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan. As of December 31, 2014 and 2013, management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain income tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. Generally, the statute of limitations restricts federal and state examinations by tax authorities to three to five years from the date of filing. When and if applicable, potential interest and penalty costs are accrued as incurred, with expenses recognized in income taxes in the statement of changes in net assets available for benefits.

Note 8. Excluded Contracts

The Plan Administrator has elected to exclude from investments certain annuity and custodial accounts that may have been issued to current and former employees without the Plan Administrator's knowledge prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded from the statement of changes in net assets available for benefits. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the accompanying financial statements. The Plan Administrator is not able to determine the amount of these excluded annuity and custodial accounts and the related income and distributions because records relating to these are not available or do not exist.
