Report on the Financial Statements

We were engaged to audit the accompanying financial statements of The University of Findlay Tax Deferred Annuity Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Teachers Insurance and Annuity Association (TIAA) and College Retirement Equities Fund (CREF) (collectively TIAA-CREF), including information certified by TIAA-CREF as agents for JPMorgan Chase Bank (JP Morgan), except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that TIAA-CREF and JP Morgan hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from TIAA-CREF, including certification from TIAA-CREF on behalf of JP Morgan, as of December 31, 2014 and 2013 and for the year ended December 31, 2014 that the information provided to the plan administrator by TIAA-CREF is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule H, Line 4i – Schedule of Assets (Held At End of Year) as of December 31, 2014 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for purposes of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by TIAA-CREF, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

THE UNIVERSITY OF FINDLAY
TAX DEFERRED ANNUITY PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2014 and 2013

NOTE 1 - PLAN DESCRIPTION

The following description of The University of Findlay Tax Deferred Annuity Plan ("the Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of The University of Findlay ("the University") except student employees, part-time employees and adjunct professors. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Contributions and Vesting: Participants may defer eligible earnings on a pre-tax or after-tax basis, upon their date of hire. The University does not make any matching contributions. The Plan allows participants who have attained age 50 by the end of the Plan year to make catch-up contributions in accordance with Code Section 414(v). Participants may contribute funds from another qualified plan as rollover contributions. A participant is immediately 100% vested in all contributions.

Investment Options: Upon enrolling in the Plan, a participant may direct the investment of their account into any of the investment options offered by the Plan. Participants generally may change their investment elections daily.

Participant Accounts: Each participant's account is credited with the participant's contribution, and Plan's earning. Participant's accounts are charged with applicable withdrawals and allocations of administrative expenses. Allocations are based on participant earnings or account balances, as defined.

Payment of Benefits: Upon termination of service, a participant may elect to receive the value of his or her account in the form of a joint and survivor annuity, a single life annuity, or a lump sum payment. A participant may withdraw all or a portion of the value of his or her vested interest prior to termination of employment upon meeting certain requirements as set forth in the Plan document.

Investment Management Expenses: Investment management expenses are charged to the Plan as a reduction of investment return and included in the investment income (loss) reported by the Plan.

Assets Pledged as Collateral: Participants are permitted to obtain loans directly from TIAA. Adequate security is required and a portion of the participant's account serves as collateral, to cover 110% of the outstanding loan in case of default. The collateral is held in the TIAA Traditional Annuity Account. In general, the amount of the loan may not exceed the lesser of \$50,000 reduced by the highest outstanding loan balance in a participant's vested account during the prior 12-month period. The minimum loan amount is \$1,000. The loans bear a rate of interest as determined in the controlling contract and may be fixed or variable. The amount of Plan assets which are held in the TIAA Traditional Annuity Account as collateral for loans issued by TIAA to participants was not material as of December 31, 2014 and 2013.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following are descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of its investments.

Mutual Funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Variable Annuity Contracts: The fair values of the Plan's investments held in TIAA-CREF variable annuity contracts are based on the net asset values reported by the fund managers as of the financial statement dates and recent transaction prices (level 2 inputs). The TIAA Real Estate Account ("REA"), reported as a commercial and multi-family residential real estate variable annuity account in subsequent disclosures, invests primarily in real estate properties and real estate related investments; however, a liquidity guarantee is provided by TIAA through its general account. Each variable annuity contract, other than the REA, provides for daily redemptions by the Plan with no advance notice requirements, and has redemption prices that are determined by the accounts' net asset value per unit. A plan participant will be prohibited from transacting in a CREF Variable Annuity Account (other than the CREF Money Market Account) for 60 days, if he or she buys, sells and repurchases units of the account within a 90-day period.

December 31, 2014 and 2013

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (Continued)

Transfers out of the REA are limited to one per calendar quarter and occur at redemption prices that are determined by the net asset value per unit. The variable annuity contracts, other than the REA, are classified based on the different investment management strategies in subsequent disclosures.

The equity accounts consist of the CREF Stock Account (60% in 2014; 62% in 2013), CREF Global Equities Account (12% in 2014; 12% in 2013), CREF Growth Account (20% in 2014; 13% in 2013) and the CREF Equity Index Account (8% in 2014; 13% in 2013). The CREF Stock Account invests approximately 67% in domestic equities and approximately 33% in foreign equities with the *objective* of obtaining a favorable long term rate of return through capital appreciation and investment income. The CREF Global Equities Account invests approximately 44% in foreign equities and approximately 56% in domestic equities with the objective of obtaining a favorable long term rate of return through capital appreciation and investment income. Under normal circumstances, the CREF Growth Account invests at least 80% of its assets in common stocks and other equity securities with the objective of obtaining a favorable long term rate of return through capital appreciation from a diversified portfolio of equity securities. The CREF Equity Index Account invests 100% in domestic equities with objective of obtaining a favorable long term rate of return from a diversified portfolio of domestic equities. The fixed income accounts consist of CREF Bond Market Account (46% in 2014; 44% in 2013), and the CREF Inflation Linked Bond Account (54% in 2014, 56% in 2013). Under normal circumstances, the Bond Market Account invests 80% of its assets in a broad range of fixed income securities with the objective of obtaining a favorable long-term rate of return through high current income consistent with preserving capital. Under normal circumstances, the CREF Inflation Linked Bond Account invests at least 80% of its assets in U.S. Treasury Inflation Indexed Securities with the objective of a long term rate of return that outpaces inflation through investment in fixed income securities. The specialty/balanced account include the CREF Social Choice Account, and the money market account includes the CREF Money Market Account. In each of these categories, generally over 80% of the respective underlying assets are invested in the particular type of securities implied by the variable annuity contracts' name. Generally, variable annuity contracts have individual prospectuses which describe the underlying investments and the investment objectives of the contracts.

Guaranteed Investment Contracts: The TIAA Traditional Contracts are individual guaranteed fixed annuity investment contracts issued by TIAA ("Issuer"). These contracts are reported at contract value, as TIAA and Plan management have determined contract value to be the most reasonable estimate of fair value. The fair values of the Plan's investment contracts are estimated by TIAA by discounting the projected cash flows using risk-adjusted market discount rates which correlate closely with TIAA Traditional Annuity's historical interest crediting rates (Level 3 inputs). Contract value equals the contributions deposited into the contracts, plus interest credited to the contracts, less contract withdrawals, and it reflects the value at which participant transactions are executed under the contracts. The contract values are guaranteed by TIAA and reflect the exit value available to the Plan and Plan participants. Based upon recent credit ratings for TIAA, management believes no adjustment to contract value is required related to credit quality.

Since investment contracts are not transferable, there is no market from which to obtain observable market prices for the contracts held by the Plan or comparable contracts. The plan administrator reviews and evaluates the TIAA Traditional Annuity contract valuation methodology and assumption provided by TIAA on an annual basis as of the Plan's financial statement date.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

	Fair Value Measurements Using Significant Unobservable Inputs (Level 3) <u>Investment Contracts</u>
Balance, January 1, 2014	\$4,899,959
Total gains or losses included in change in net assets available for benefits	
Interest income on investment contracts held at end of year	166,217

Balance, December 31, 2014	<u>\$5,095,323</u>

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements:
The following table presents quantitative information about recurring Level 3 fair value measurements at December 31, 2014:

	<u>Fair Value</u>	<u>Valuation Technique</u>	<u>Significant Unobservable Input</u>	<u>Range of input</u>
TIAA Traditional Annuity Contracts	\$ 5,095,323	Discounted Cash Flow	Discount rates and projected interest crediting rates	GRSA – 3.00% - 4.25% RA – 3.25% - 5.00% SRA – 3.00% - 4.25%

The significant unobservable inputs used in the fair value measurement of the Plan's investment in TIAA Traditional Annuity are the discount rates and the projected interest crediting rates. Based upon historical TIAA Traditional Annuity's crediting rates, the discounted cash flows analysis assumes that the risk-adjusted market discount rates approximate the future interest crediting rates under the contracts. Accordingly, changes in these rates have directly offsetting impacts upon the fair value estimate of these contracts.

Fully Benefit-Responsive Investment Contracts: While Plan investments are presented at fair value in the statement of net assets available for benefits, any material difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statement of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds a direct interest in a fully benefit-responsive contract. No adjustments from fair value to contract value are presented in the statements of net assets available for benefits, as Plan management has determined contract value to be the most reasonable estimate of fair value.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (Continued)

Risks and Uncertainties: The Plan holds various investments. The investments are exposed to various risks, such as interest rate, market, liquidity, and credit risks. Due to the level of risk associated with certain investments and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the fair values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participants' individual account balances.

Payment of Benefits: Benefits are recorded when paid.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

NOTE 3 - PLAN TERMINATION

Although it has not expressed any intent to do so, the University has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA and its related regulations.

NOTE 4 - INVESTMENTS – UNAUDITED INFORMATION

Teachers Insurance and Annuity Association ("TIAA") and College Retirement Equities Fund ("CREF"), and JPMorgan Chase Bank N.A., a directed custodian of the Plan, hold investment assets and execute investment transactions therein, and substantially all information pertaining to investments included in the financial statements have been certified by the custodians or by agents on behalf of the directed custodian. This information has not been audited by independent accountants.

The following table presents investments that represent 5% or more of the Plan's net assets:

NOTE 4 - INVESTMENTS – UNAUDITED INFORMATION (Continued)

During 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held, during the year) appreciated in value by \$444,868 as follows:

	Year ended December 31, 2014
Variable Annuity Contracts	\$ 511,126
Mutual Funds	<u>(66,258)</u>
Net appreciation	<u>\$ 444,868</u>

During 2014, the Plan earned interest and dividend income of \$588,240.

NOTE 5 - TIAA TRADITIONAL INDIVIDUAL FIXED ANNUITY ACCOUNTS

The Plan holds fully benefit responsive investment contracts through its investment holdings in the TIAA Traditional Account (TIAA; Issuer). The TIAA Traditional Individual Fixed Annuity Contracts are individual guaranteed fixed annuity investment contracts issued by TIAA. Within the TIAA Traditional Individual Fixed Annuity Contracts are six types of contracts available to participants: the Retirement Annuity (RA), the Group Retirement Annuity (GRA), the Retirement Choice (RC), the Supplemental Retirement Annuity (SRA), the Group Supplement Retirement Annuity (GSRA), and the Retirement Choice Plus (RCP). Each of these contracts have unique provisions and qualities. There are certain liquidity restrictions on the RA, GRA, and RC contracts. Participants with RA, GRA, and RC contracts have certain restrictions over the availability of lump-sum withdrawals from the contracts as well as over the number of installments in which participant-initiated transfers and participant-initiated withdrawals are made. Based on these provisions, the RA, GRA, and RC contracts are considered to be non fully benefit-responsive. As there are no comparable restrictions over the SRA, GSRA and RCP contracts, those contracts are considered fully benefit-responsive. Participants in the Plan hold investments in both non-fully benefit-responsive and fully benefit-responsive contracts through the TIAA Traditional Account. As of December 31, 2014 and 2013, the Plan's investments in the fully-benefit responsive contracts are \$4,535,763 and \$4,359,154, respectively.

For both the fully benefit-responsive and the non fully-benefit responsive contracts within the TIAA Traditional Account, TIAA maintains the contributions in its general account. TIAA's general account is credited with earnings on the underlying investments and is charged for participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. There are no reserves against contract value for credit risk of the Issuer or otherwise.

All investment contracts through the TIAA Traditional Account are directly between TIAA and the participants. Benefit payments from the contracts are paid as an annuity or a lump-sum, as defined in the contracts and as elected by the participant upon meeting the eligibility requirements. There are no conditions specified in any of the contracts under which participant withdrawals and transfers would be restricted or made at a value other than contract value or the annuity or lump-sum benefit, as defined in the contracts. The contracts do not provide any provisions that would allow the Issuer to terminate the contracts between the Issuer and the participants.

TAX DEFERRED ANNUITY PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2014 and 2013

NOTE 5 - TIAA TRADITIONAL INDIVIDUAL FIXED ANNUITY ACCOUNTS (Continued)

The crediting interest rates of the fully benefit-responsive contracts may vary from participant to participant. The crediting rates are based on an agreed upon formula with the Issuer, as defined in the contract agreement. The guaranteed annual interest rate is 3% for all premiums remitted since 1979 under the RA, SRA and GSRA contracts. Such interest rates are reviewed on a periodic basis and may from time to time have a new rate substituted for the one in the current certificate. A new rate will apply only to benefits arising from any premiums, additional amounts, and internal transfers applied to the Traditional Annuity while such rate schedule is in effect and will not affect any benefits purchased prior to the change, as defined in the contracts. The key factors that influence future interest crediting rates could include the following: the level of market interest rates; the amount and timing of participant contributions, transfers and withdrawals into/out of the contracts; and the duration of the underlying investments backing the contract.

The Plan's value of assets held in these fully benefit-responsive contracts are an accumulation of many individual contracts between participants and TIAA. These various contracts may have many different effective crediting rates. Based upon this fact and the complexity of the contract provisions of the various TIAA Traditional Annuity contracts, management has determined that it is not practicable to calculate the Plan's average yields from the contracts based on annualized earnings or the average yields based on the interest rate credited to participants.

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor ("DOL") regulations as any fiduciary of the plan, any party rendering service to the plan, the employer, and certain others. The Plan holds variable annuity contracts, mutual funds and investment contracts issued by TIAA-CREF; therefore, these transactions and the Plan's payment of investment management fees to TIAA-CREF qualify as party-in-interest transactions. Certain administrative functions are performed by officers or employees of the Plan sponsor. No such officer or employee receives compensation from the Plan. Some administrative expenses of the Plan are paid directly by the University. The Plan paid \$3,480 for investment advisory services for the Plan year 2014, these fees also constitute party-in-interest transactions.

NOTE 7 - TAX STATUS

Effective during 2013, the Internal Revenue Service began accepting applications for opinion and advisory letters for prototype and volume submitter 403(b) Plans. As of the date on the independent auditor's report, the Plan has not yet received a favorable opinion or advisory letter. Although a favorable letter has not yet been received, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, the Plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the Department of Labor or Internal Revenue Service; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.
