Global Tech Retirement Plan

Notes to Financial Statements

Note 1: Description of Plan

The following description of the Global Tech Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering all employees of Global Tech, Inc., doing business as (d/b/a) eGlobalTech (“eGlobal” or the “Company”). All full time or part time employees who are age 21 or older and have completed three months of service are eligible to make salary deferrals and receive the Company’s contribution portion to the Plan which includes a non-elective contribution and a matching percentage. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute the maximum roth or percentage allowable of pretax annual compensation, not to exceed the limits of the Internal Revenue Code, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined contribution plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the Plan. During 2014, the Company elected not to make a non-elective contribution. The Company contributes a matching contribution of 50% of the aggregate salary reduction contribution to the extent aggregate contribution does not exceed 6% of compensation. The Company’s contributions are invested in accordance with the participant’s investment choices.

Participant Accounts

Each participant’s account is credited with the participant’s contributions and allocation of (a) the Company’s non-elective and match contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in Company’s non-elective and matching contributions portion of their account is based on years of continuous service. A participant vests 25% per year over four years of credited service until being fully vested.

Global Tech Retirement Plan
Notes to Financial Statements

Note 1: Description of Plan (continued)

Notes Receivable from Participants

Participants may borrow from the pre-tax balance of their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested interest in the Plan. The loans are secured by the balance in the participants' accounts and bear interest ranging from 4.25% to 5.25% which are commensurate with local prevailing rates at the time of the loan, as determined by the trustees. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits

On termination of service due to death, disability, retirement, or other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. An in-service distribution may be taken by any participant that has attained the age of 59 and ½.

Forfeited Accounts

Forfeitures occur when a former participant has three consecutive years of a break in service. These accounts will be used to reduce future employer contributions and Plan administrative expenses. At December 31, 2014 and 2013 forfeited non-vested accounts totaled \$25,091 and \$29,382, respectively. Forfeited account balances at December 31, 2014 will be used to reduce future employer contributions. Also, in 2014, employer contributions were reduced by \$102,252 from forfeited nonvested accounts.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Trustees to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for fair value measurements.

See Independent Auditor's Report

Global Tech Retirement Plan
Notes to Financial Statements

Note 2: Summary of Significant Accounting Policies (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest ranging from 4.25% to 5.25% which are commensurate with local prevailing market rates at the time of loan issuance. Principal and interest is paid ratably through monthly payroll deductions. If a participant ceases to make loan repayments and the Trustees deem the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2014 excess contributions to the applicable participants prior to March 15, 2015.

Payment of Benefits

Benefits are recorded when paid.

Administrative Fees

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participants' accounts and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events

For the year ended December 31, 2014, the Trustees have evaluated subsequent events for potential recognition and disclosure through September 1, 2015, the date on which the financial statements were available to be issued.

Global Tech Retirement Plan
Notes to Financial Statements

Note 3: Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2014 that the Plan is designated in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Trustees and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan may be subject to a routine audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Trustees believe it is no longer subject to income tax examinations for years prior to 2011.

Note 4: Information Certified by Custodians (unaudited)

The Trustees have elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2014. Accordingly, John Hancock Life Insurance Company (U.S.A.), the custodian during 2013 and 2014 and Ascensus Inc. (acting on behalf of Ascensus Trust Company), the custodian during 2014, have certified the completeness and accuracy of the investment activity.

Note 5: Investments and Fair Value Measurement (unaudited)

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Global Tech Retirement Plan
Notes to Financial Statements

Note 5: Investments and Fair Value Measurement (unaudited) (continued)

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact that price. The mutual funds held by the Plan are deemed to be actively traded.

Corporate bonds and equity securities: Valued at the closing price reported on the active markets on which the individual securities are traded. If the quoted price of the identical asset or liability is not available, those securities are valued using pricing models maximizing the use of observable inputs for similar securities.

Investment allocations between levels may change from year to year based on new investment choices available to Plan participants. The following tables sets forth by level, within the fair value hierarchy, the Plan's investments.
