Report on the Financial Statements

We were engaged to audit the accompanying financial statements of St. Luke's Health System 401(k) Plan, which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified investment information described in Note 3, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the entities that certified the investment information meet the requirements of 29 CFR 2520.103-8. The plan administrator has obtained certifications as of December 31, 2014 and 2013, and for the year ended December 31, 2014, stating that the investment information provided to the plan administrator is complete and accurate.

Disclaimer of Opinion on Financial Statements

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Compliance of Form and Content with Department of Labor's Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the certified investment information, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

St. Luke's Health System 401(k) Plan

Notes to Financial Statements

December 31, 2014

1. Description of Plan

The following description of the St. Luke's Health System 401(k) Plan (the Plan) provides general information about the Plan's provisions. St. Luke's Health System (the System) is the Plan Sponsor. Participants should refer to the plan document and summary plan description for a more complete description of the Plan's provisions, copies of which may be obtained from the Plan Sponsor.

In April 2013, the Episcopal Diocese of Texas signed a definitive agreement for the transfer of St. Luke's Episcopal Health System to Catholic Health Initiatives (CHI). The transaction was completed on May 31, 2013.

Plan Merger

Effective January 1, 2015, the Plan merged into the Catholic Health Initiative 401(k) Retirement Saving Plan (CHI Plan). As such, all account balances and plan assets were transferred to the CHI Plan on January 2, 2015. The following describes the Plan just prior to the merger.

General

The Plan was a defined contribution plan covering certain employees of the System and adopting employers. The Plan was administered by a Committee (the CHI Retirement Plans Subcommittee). AIG Federal Savings Bank was the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Eligibility

Employees of an employer that had adopted the Plan were eligible to participate in the Plan beginning on the first date the employee completes one hour of employment. "Employee" generally meant all common-law employees of each adopting employer. However, employees classified by the Committee as residents, Fellows, or ICU House Physicians were not eligible to participate in the Plan for purposes of matching contributions.

Contributions

Participants automatically had 3% of their pretax annual compensation contributed to the Plan as a salary deferral contribution, unless the participant elected not to contribute or to contribute an alternate amount, subject to Internal Revenue Service (IRS) limitations. Participants could also contribute rollover amounts representing distributions from other qualified plans.

St. Luke's Health System 401(k) Plan

Notes to Financial Statements (continued)

1. Description of Plan (continued)

Each payroll period, participants received an employer match of an amount equal to 50% of the participant's pretax contribution made during the plan year, not to exceed 6% of such participant's compensation for the plan year.

Participants directed the investment of their account balances into one or more of the investment options offered by the Plan.

Participant Accounts

Each participant's account was credited with the participant's contributions and the System's matching contributions and allocations of plan earnings, and was charged with an allocation of administrative expenses. Plan earnings were allocated based on the participant's share of net earnings or losses of their respective elected investment options. Allocations of administrative expenses were based on the participant's account balances, as defined. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Vesting

Participants were immediately vested in their contributions plus actual earnings thereon. Vesting in the System's matching contributions was based on years of continuous service. A participant was 100% vested after three years of service.

Forfeitures

Upon termination of employment, participants forfeited their nonvested balances. If a participant was rehired within a five-year period, the forfeited contributions were reinstated. Forfeited balances of terminated participants' nonvested accounts were used to reduce future System contributions. There were no unallocated forfeiture balances as of December 31, 2014 and 2013, and forfeitures used to reduce System contributions for 2014 were approximately \$6,900.

St. Luke's Health System 401(k) Plan

Notes to Financial Statements (continued)

1. Description of Plan (continued)

Participant Loans

Participants could borrow from their accounts a minimum of \$1,000 and up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms ranged from 1 to 5 years or up to 15 years for the purchase of a primary residence. The \$50,000 limit was reduced by the participant's highest outstanding loan balance during the preceding 12-month period. A participant could not have more than two loans outstanding at any point in time. The loans were secured by the balance in the participant's account and bore a reasonable rate of interest, which was established by the Committee. Principal and interest were paid ratably through monthly payroll deductions. If a participant terminated employment with the System, the loan was payable in full, unless the participant transferred to an entity related to the Plan Sponsor that had not adopted the Plan or to Texas Heart Institute (and, thus, was no longer an employee); in this case, the participant continued to repay the loan by cash, check, money order, or in such manner as the Committee determined at its discretion. If the loan was not repaid after three months, it was automatically treated as a distribution to the participant.

Payment of Benefits

Upon separation from service with the System due to death, disability, retirement, or termination, a participant could elect to receive either a lump-sum amount or monthly installment payments equal to the vested value of their account.

In-service withdrawals were available in certain limited circumstances, as defined by the Plan. Hardship withdrawals were allowed for participants incurring an immediate and heavy financial need, as defined by the Plan. Hardship withdrawals were strictly regulated by the IRS, and a participant must have exhausted all available loan options and available distributions prior to requesting a hardship withdrawal.

Administrative Expenses

Certain administrative expenses of the Plan were paid by the System, as provided by the Plan's provisions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States. Benefit payments to participants are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Notes Receivable From Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion and disclosures related to fair value measurements.

The Plan entered into a group unallocated fixed-annuity contract with The Variable Annuity Life Insurance Company (VALIC). The investment contract is recorded at fair value (see Note 4); however, since this contract is fully benefit-responsive, an adjustment is reflected in the accompanying statements of net assets available for benefits to present these investments at

St. Luke's Health System 401(k) Plan

2. Summary of Significant Accounting Policies (continued)

contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value of the fully benefit-responsive investment contracts represents contributions plus earnings, less participant withdrawals and administrative expenses.

In accordance with Accounting Standards Codification (ASC) 820, *Fair Value Measurements*, assets and liabilities measured at fair value are categorized into the following fair value hierarchy:

Level 1 – Fair value is based on unadjusted quoted prices for identical assets or liabilities in an active market that the Plan has the ability to access at the measurement date.

Level 2 – Fair value is based on quoted prices in markets that are not active, quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability.

Level 3 – Fair value is based on prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable. These inputs reflect management's judgment about the assumptions that a market participant would use in pricing the investment and are based on the best available information, some of which may be internally developed.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought, sold, and held during the year.

3. Investments

Individual investments that represent 5% or more of the Plan's net assets available for benefits are as follows:

	December 31	
	2014	2013
Dodge & Cox International	\$ –	\$ 231,516
Neuberger Ber Genesis Trust	–	158,661
NuVeen Winslow Large Cap Gr 1	–	123,425
VALIC Fixed-Interest (stated at contract value)	–	563,342
Vanguard 500 Index Signal	–	174,703
Vanguard TGT RTMT 2035	–	164,491

All investment information disclosed in the accompanying financial statements, notes, including cash, investments held, notes receivable from participants, and the adjustment from fair value to contract value for fully benefit-responsive investment contracts at December 31, 2014 and 2013, and net appreciation in fair value of mutual funds, interest, dividends, and interest income on notes receivable from participants for the year ended December 31, 2014, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by AIG Federal Savings Bank, the trustee of the Plan, and VALIC, the custodian of the VALIC Fixed-Interest Fund.

4. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

St. Luke's Health System 401(k) Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable, either directly or indirectly, for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liability (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data, by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest-level input that is significant to the fair value measurement in its entirety.

Following is a description of the valuation techniques and inputs used for major categories of assets measured at fair value by the Plan:

Mutual funds: Valued at the net asset values of shares held by the Plan at year-end, based on quoted market prices

Group annuity investment contract: See Note 5

4. Fair Value Measurements (continued)

Due to the merger discussed in Note 1, all investments held by the Plan were liquidated, and the Plan held non-interest bearing cash at December 31, 2014, pending transfer to the CHI Plan.

The following table set forth, by level within the fair value hierarchy, the Plan's assets carried at fair value at December 31, 2013:

	Level 1	Level 2	Level 3	Total
Mutual funds:				
U.S. equities	\$ 782,393	\$ —	\$ —	\$ 782,393
International equities	231,516	—	—	231,516
Life cycle funds	614,971	—	—	614,971
Group annuity investment contracts	—	—	539,806	539,806
Total assets at fair value	<u>\$ 1,628,880</u>	<u>\$ —</u>	<u>\$ 539,806</u>	<u>\$ 2,168,686</u>

Level 3 Gains and Losses

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2014:

	Group Annuity Investment Contract
Balance, beginning of year	\$ 539,806
Realized gain/(losses)	23,536
Purchases	23,757
Sales	(587,099)
Balance, end of year	<u>\$ —</u>

5. Investment Contract With Insurance Company

The Plan invested in a fully benefit-responsive investment account, the VALIC Fixed-Interest Fund, through the group unallocated fixed-annuity contract with VALIC. The account was supported by the VALIC general account and had no maturity date. The account was recorded at fair value and then adjusted to contract value. Contract value, as reported to the Plan by VALIC, represented contributions made under the contract plus earnings, less participant withdrawals. If all participants were eligible for a distribution of their full accounts from the Plan on the reporting date, the amount payable on demand on the reporting date would be the contract value. The fair value was determined by VALIC using the cash flow due to the Plan under the surrender provisions of the contract, considering current crediting rates and benefit-eligible events, and discounting according to risk-adjusted market rates. There were no reserves against contract value for the credit risk of VALIC.

The crediting interest rate for the VALIC Fixed-Interest Fund was set in advance of the period to which it relates and was at least 2% per year. The crediting interest rate was declared periodically, but not less than annually, and applied to the entire contract value, or separately to amounts accumulated in separate time periods. Crediting rates were set in response to several factors: (1) the totality of investments previously made by participants, (2) their anticipated payout timing requirements, (3) the current investment climate, (4) contractual minimum interest rate guarantees, (5) competitive requirements, and (6) required return on invested capital supporting the product. The average yield earned by the Plan was approximately 2.17% and 2.61% at December 31, 2014 and 2013, respectively. This is the same average yield credited to participants.

The group unallocated fixed-annuity contract did not specify any events that would have limited the ability of the Plan to transact at contract value with the issuer or any events that would have allowed the issuer to terminate the contract and settle for an amount different from contract value. In connection with the merger discussed in Note 1, the contract was surrendered and no penalty was incurred by plan participants.

6. Risks and Uncertainties

The Plan invested in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.

St. Luke's Health System 401(k) Plan

Notes to Financial Statements (continued)

7. Related-Party Transactions

Certain investments of the Plan were managed by AIG Federal Savings Bank, the trustee of the Plan, and VALIC, the custodian of certain assets of the Plan, and, therefore, these transactions qualified as party-in-interest transactions. All of these transactions are exempt from the prohibited transactions rules.

8. Tax Status

The Plan has received a determination letter from the IRS dated June 18, 2014, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code), and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

9. Reconciliation of Financial Statements to the Form 5500

The following is a reconciliation of the net assets available for benefits per the financial statements to the Form 5500:

	December 31	
	2014	2013
Net assets available for benefits per the financial statements	\$ 1,665,959	\$ 2,270,991
Transfer out due to plan merger (<i>Note 1</i>)	1,665,959	—
Net assets available for benefits per the Form 5500	\$ —	\$ 2,270,991

9. Reconciliation of Financial Statements to the Form 5500

The following is a reconciliation of the transfers per the financial statements to the Form 5500:

	Year Ended December 31, 2014
Transfers out per the financial statements	\$ —
Transfer out due to plan merger (<i>Note 1</i>)	1,665,959
Transfer of assets from this plan per the Form 5500	<u>\$ 1,665,959</u>

The accompanying financial statements have been prepared just prior to the merger of the Plan into the CHI Plan disclosed in Note 1; whereas, the Form 5500 has been prepared just after to the merger. As such, the transfer out due to Plan merger represents a reconciling item.

10. Subsequent Events

Management has evaluated subsequent events for the Plan through October 12, 2015, the date the accompanying financial statements were available to be issued.
