NOTES TO FINANCIAL STATEMENTS

December 31, 2014 and 2013

Note 1 – Description of the Plan

P.A.M. Transport, Inc. (the Company or Employer) sponsors the P.A.M. Transport, Inc. 401(k) Retirement Savings Plan (the Plan). The following description provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established for the benefit of the Company's employees, except for employees covered under a collective bargaining agreement, nonresident aliens, leased employees or employees of any member of a controlled group who does not affirmatively adopt this Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is administered by a committee appointed by the Company. Prior to December 1, 2014, Transamerica Financial Life Insurance Company, Inc. (TFLIC) and State Street Bank and Trust Company (collectively, the Former Custodians) served as the custodians of the Plan and State Street Bank and Trust Company (the Former Trustee) also served as the trustee of the Plan. Transamerica Retirement Solutions Corporation (Transamerica), processed and maintained the records of the participant data and is affiliated with the Former Custodians. Effective December 1, 2014, Minnesota Life Insurance Company (the Current Custodian) serves as the custodian of the Plan and holds the Plan's assets. Securian processes and maintains the records of the participant data. Certain officers of the Company serve as the Plan's trustees.

Eligibility

Nonexcluded employees who have reached 18 years of age and have completed one month of service, during which at least one hour of service is completed, are eligible to participate in the Plan. Participants may enroll in the Plan on the first day of the month immediately following or coinciding with the date eligibility requirements are met.

Contributions

Each year, participants may contribute up to 100% of pretax compensation, as defined. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Plan provides for Employer matching contributions equal to 50% of the participant's elective contributions up to a maximum of 1.5% of the participant's compensation. Employer matching contributions are calculated annually. Additional amounts may be contributed by the Employer under the Plan's profit sharing provisions at the discretion of the Company's board of directors. Allocations of such profit sharing contributions are based on the proportion of each participant's compensation to the total of all participants' compensation. No discretionary profit sharing contributions were made for the year

ended December 31, 2014. Participants must have completed one year of service, as defined, be employed on the last day of the year and be at least age 18 in order to be eligible for Employer contributions. These requirements are waived in the case of death, disability or retirement.

Contributions are subject to certain limitations.

Participant accounts

Each participant's account is credited with the participant's contributions and Employer matching contributions, as well as allocations of Employer profit sharing contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Employer's contributions is based upon years of continuous service as follows:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than one year	0%
One, but less than two	20%
Two, but less than three	40%
Three, but less than four	60%
Four, but less than five	80%
Five years or more	100%

Participants automatically become 100% vested upon: 1) normal retirement (attainment of age 65); 2) disability; or 3) death. Participants who terminate for any other reason are entitled to the vested amount of their accounts.

Notes receivable from participants

Notes receivable from participants are not permitted by the Plan.

Payment of benefits

Upon retirement, termination, disability or death, a participant may elect to receive a distribution equal to the value of the participant's vested interest in his or her account. The normal distribution is one lump-sum payment. Other distribution options available for account balances exceeding \$5,000 include installment or partial withdrawals. Additionally, participants may take an in-service distribution upon reaching the age of 59½. Upon termination, automatic distributions are required for balances of less than \$1,000. Generally, certain minimum distributions are required for participants who have separated from service and have reached age 70½.

The Plan allows hardship withdrawals, subject to account balance limits and applicable laws.

Forfeitures

Forfeitures are used to reduce Employer contributions. For the year ended December 31, 2014, forfeitures in the amount of \$38,931 were used to reduce Employer contributions. The Plan had no unallocated forfeitures at December 31, 2014, and \$11,582 in unallocated forfeitures at December 31, 2013.

Administrative expenses

The Plan allows certain administrative expenses to be paid from Plan assets.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The investment committee determines the Plan's valuation policies utilizing information provided by the Current and Former Custodians. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of benefits

Benefit payments are recorded when paid. There were no benefits requested before year-end that were not paid.

Subsequent events

The Plan administrator has evaluated subsequent events through October 13, 2015, the date the financial statements were available to be issued.

Note 3 – Information Certified by the Plan's Current Custodian and Former Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure

under ERISA. Accordingly, the Current Custodian and Former Trustee have certified that the following data included in the accompanying financial statements and supplemental schedule of assets (held at end of year) is complete and accurate:

- Investments as shown on the statements of net assets available for benefits as of December 31, 2014 and 2013;
- Net investment activity as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2014;
- Investment information included in the footnotes and on the supplemental schedule of assets (held at end of year) as of December 31, 2014.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule of assets (held at end of year).

Common collective trust funds	338,132
Mutual funds	85,685
Pooled separate accounts	(101,277)
	<u>\$ 322,540</u>

Note 5 – Fair Value Measurements

Accounting guidance provides a framework for measuring fair value and provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described as follows:

Level 1	Unadjusted quoted prices for identical, unrestricted assets or liabilities in active markets that a plan has the ability to access.
Level 2	Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means for substantially the full term of the assets or liabilities.
Level 3	Significant unobservable inputs.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the methodologies used at December 31, 2014 and 2013. During the year ended December 31, 2014, there were no transfers of financial instruments into or out of Level 3. Following is a description of the valuation methodologies used for assets measured at fair value:

Common collective trust funds – Stated at fair value as determined by the issuer of the common collective trust funds based on the fair market value of the underlying investments. There were no restrictions on redemptions from the common collective trust funds, and there were no unfunded commitments as of December 31, 2013.

Guaranteed investment contract (GIC) – Valued at the beginning balance of the account, plus any deposits and credited interest, less any withdrawals, charges or expenses. Generally, Plan participants may withdrawal from the GIC upon a 30-day advance written notice to TFLIC. In the event of a withdrawal from the GIC, the Plan will be subject to a market value adjustment, as described in the contract. Monies transferred from the GIC to a non-Fixed Income Fund may not thereafter be transferred to a Fixed Income Fund for at least three months. There are no unfunded commitments as of December 31, 2013.

Mutual funds – Valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end.

Pooled separate accounts – Stated at fair value as determined by the issuer of the pooled separate accounts based on the fair market of the underlying investments. There are no restrictions on redemptions from the pooled separate accounts, and there are no unfunded commitments as of December 31, 2014.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis consisted of the following types of instruments as of December 31:

Note 6 – Guaranteed Investment Contract with Insurance Company

The Plan entered into a benefit responsive investment contract with TFLIC. TFLIC maintained the contributions in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The GIC issuer was contractually obligated to repay the principal and a specific interest rate that was guaranteed to the Plan.

Because the GIC was fully benefit responsive, contract value was the relevant measurement attribute for that portion of the net assets available for benefits attributable to the GIC. The GIC is presented on the face of the statements of net assets available for benefits at contract value, which approximated fair value. Contract value, as reported to the Plan by TFLIC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants ordinarily directed the withdrawal or transfer of all or a portion of their investment at contract value.

There were no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract was \$1,242,924 at December 31, 2013. The crediting interest rate was based on a formula agreed upon with the issuer, and was reviewed on an annual basis for resetting.

As a result of contract discontinuance, withdrawals from the GIC were subject to a \$65,784 market value adjustment. The market value adjustment was charged to applicable participants' accounts prior to the transfer of their accounts to the Current Custodian.

Average Yields	2014	2013
Based on actual earnings	-	1.59%
Based on interest rate credited to participants	-	1.25%

Note 7 – Related Party and Party-in-Interest Transactions

Certain administrative expenses, totaling approximately \$23,000, were paid by the Company on behalf of the Plan for the year ended December 31, 2014. The Company does not expect reimbursement from the Plan for these expenses. Certain administrative functions are performed by officers and employees of the Company. No officer or employee receives compensation from the Plan for these services.

Certain Plan investments are/were managed by the Current and Former Custodians, or other affiliated entities. These transactions qualify/qualified as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net appreciation in fair value of investments.

Note 8 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in the Employer contribution portion of their account.

Note 9 – Tax Status

The Company adopted a volume submitter profit sharing plan with CODA (the VSPS Plan) sponsored by Minnesota Life Insurance Company. The Internal Revenue Service has determined and informed the VSPS Plan sponsor by a favorable opinion letter dated March 31, 2014, that the VSPS Plan is designed in accordance with the applicable sections of the Internal Revenue Code (the Code). The VSPS Plan's opinion letter is being relied on by the Plan. Plan management believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code, and therefore, believes the Plan is qualified and the related trust is tax-exempt. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

Note 10 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported on the statements of net assets available for benefits.

Note 11 – Prohibited Transaction

During the year ended December 31, 2014, the Company inadvertently failed to deposit \$11,778 of participant contributions within the required timeframe as stated by the DOL. The DOL considers late deposits to be nonexempt prohibited transactions. The Company will pay the lost earnings and file Form 5330 with the applicable excise tax in 2015. The excise tax payments will be made from the Company's assets and not from Plan assets.

Note 12 – Reconciliation of Financial Statements to Form 5500
