NOTES TO FINANCIAL STATEMENTS

As of December 31, 2014 and 2013 and for the Year Ended December 31, 2014

NOTE 1 - Description of the Plan

The following description of the Dynapower Company LLC Collective Bargaining Unit of VT, (the "Plan"), provides only general information. Participants should refer to the plan document for a more complete description of the plan's provisions.

General

The Plan is a defined contribution plan established by Dynapower Corporation ("Company" and "Plan Sponsor"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). All union employees, who have completed at least one year of service with the Company, as defined in the plan, are eligible to participate. An eligible employee will become a participant in the plan on the first day of the month coinciding with or next following date the requirements are met. Upon enrollment in the plan, a participant may direct Company and his or her contributions to any combination of available investment options.

Contributions

Each year, participants may contribute up to 90% of pretax annual compensation (salary reduction contributions), as defined in the Plan document, up to the maximum limits of the Internal Revenue Code ("IRC"). Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions). The Company matches 100% of participant contributions up to 6% of the participant's compensation. Additional Company contributions may be contributed at the discretion of the Company's Board of Directors. No discretionary contributions were made for the year ended December 31, 2014. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions, rollover contributions and an allocation of the Company's contributions and plan earnings (net of administrative expenses). Allocations are based on the participant's eligible compensation or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus earnings thereon. Participants who leave the plan because of death, early or normal retirement, or disability retirement, as defined in the plan, are considered 100% vested. Company contributions and earnings thereon vest in accordance with provisions of the plan as follows:

<u>Vesting Years of Service</u>	<u>Percentage Vested</u>
1	25%
2	50%
3	75%
4	100%

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2014 and 2013 and for the Year Ended December 31, 2014

NOTE 1 - Description of the Plan (cont.)

Notes Receivable From Participants

Participants may borrow from their contributions account a minimum of \$500 up to a maximum equal to 50% of their vested account balance. These loans are secured by the balance in the participant's account. The loans bear interest at 4.25%, which is commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through payroll deductions. Terms range from one to five years or greater for the purchase of a primary residence.

Payment of Benefits

Benefits may be paid to the participant or beneficiary upon death, disability, retirement or termination of employment, as defined in the Plan agreement. The Plan provides for normal retirement at age 65. The total vested portion of a participant's account balance is distributed in the form of a lump-sum payment, installments, or ad-hoc as defined in the Plan. The Plan allows for in-service distributions for those over the age of 59½. Participants experiencing financial hardship may also withdraw a portion of their account balance if certain criteria are met, as defined in the Plan document.

Administrative Expenses

The Company pays a portion of the Plan's administrative expenses. In addition, certain administrative expenses of the Plan are paid through asset-based fee payments from investment managers and also through Plan assets. During the year ended December 31, 2014, the Plan received approximately \$12,000 in revenue sharing payments, which was applied to reduce administrative expenses. These payments are not shown on the Plan's financial statements rather netted against the investment appreciation.

Related Plan Transfers

When participants in this plan become eligible to be participants in a related plan sponsored by Dynapower Company, the participant's balance in this plan is reported as a transfer to the related plan on the Statement of Changes in Net Assets Available for Plan Benefits. There were no transfers to other plans for the years ended December 31, 2014 and 2013.

Forfeited Accounts

As of December 31, 2014 and 2013, forfeited nonvested accounts totaled \$501 and \$75, respectively. Forfeitures may first be used to pay administrative expenses and then used to reduce any Company contribution. Forfeitures of \$2,251 were applied to reduce Company contributions for the Plan year ended December 31, 2014.

Termination of Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

NOTE 2 - Summary of Significant Accounting Policies

Basis of Accounting and Use of Estimates

The accompanying financial statements have been prepared on the accrual basis of accounting. The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America (US GAAP) requires the plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Refer to Note 4, Fair Value of Financial Instruments, for details on inputs, valuation techniques and fair value measurement level within the fair value hierarchy.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation includes the gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as benefit payments to participants based upon the terms of the plan document. Related fees are recorded as administrative expenses and are expensed when incurred. Interest income is recorded on an accrual basis. There are no allowances for uncollectible notes receivable from participants recorded as of December 31, 2014 and 2013.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board issued Accounting Standards Update No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent) ("ASU 2015-07"). ASU 2015-07 removes the requirement to include investments in the fair value hierarchy for which fair value is measured using the net asset value per share practical expedient under Accounting Standards Codification 820. ASU 2015-07 is effective for the Plan for years beginning after December 15, 2016, with early adoption permitted. Management is currently evaluating the impact of the pending adoption of ASU 2015-07 on the Plan's financial statements.

NOTE 2 - Summary of Significant Accounting Policies (cont.)

Recent Accounting Pronouncements (cont.)

In July 2015, the FASB issued Accounting Standards Update No. 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - I. Fully Benefit-Responsive Investment Contracts; II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient ("ASU 2015-12"). Part I of the accounting standards update requires fully-benefit responsive investment contracts to be measured, presented, and disclosed only at contract value. Part II of this update requires that investments (both participant-directed and nonparticipant-directed investments) be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways. Part II also eliminates the disclosure of individual investments that represent 5 percent or more of net assets available for benefits and the disclosure of net appreciation or depreciation for investments by general type, requiring only presentation of net appreciation (depreciation) in investments in the aggregate. Additionally, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is a fund that files a U.S. Department of Labor Form 5500, as a direct filing entity, disclosure of that investment's strategy is no longer required. Part III of the update permits plans to measure investments and investment-related accounts (e.g., a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end. The amendments in ASU 2015-12 are effective for fiscal years beginning after December 15, 2015, with early application permitted. The amendments within Parts I and II require retrospective application; whereas, the amendments within Part III should be applied prospectively. Management is currently evaluating the impact of the pending adoption of ASU 2015-12 on the Plan's financial statements.

NOTE 3 - Information Prepared and Certified by Trustee - Unaudited (cont.)

Investments, in general, are subject to various risks, including credit, interest, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in values of investment securities will occur in the near term, and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

NOTE 4 - Fair Value of Financial Instruments

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. The Plan's mutual funds and money market accounts are Level 1 investments.

Level 2 - Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. The Plan does not have any Level 2 investments.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement. The Plan does not have any Level 3 investments.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

NOTE 4 - Fair Value of Financial Instruments (cont.)

The Plan Sponsor is responsible for the determination of fair value. Accordingly, they perform periodic analysis on the prices received from the pricing services used to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, the Plan Sponsor has not historically adjusted the prices obtained from the pricing services. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013.

As of December 31, 2014 and 2013 and for the Year Ended December 31, 2014

NOTE 5 - Parties-In-Interest

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association or relatives of such persons.

Certain plan investments are shares of mutual funds managed by affiliates of the Trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are offset by participant expenses and are party in interest transactions. These fees are netted against investment income. Additionally, the Plan issues loans to participants, which are secured by the participant's account balances. These transactions qualify as party in interest transactions.

The Plan incurs expenses related to general administration and record keeping. The Company pays these expenses and certain accounting and auditing fees relating to the Plan and provides administrative services at no cost to the Plan. No such officer or employee receives compensation from the Plan.

NOTE 6 - Tax Status

The prototype non-standardized profit sharing plan whose provisions the Plan adopted, obtained its latest determination letter on March 31, 2008, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax exempt.

U.S. GAAP requires management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2014, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress

NOTE 7 - Subsequent Events

The Plan has evaluated subsequent events through October 6, 2015, which is the date that the financial statements were approved and available to be issued, for events requiring recording or disclosure in the Plan's financial statements.
