Report on the Financial Statements

We were engaged to audit the accompanying financial statements of JR Engineering, Inc. Defined Contribution Plan, which comprise the statement of net assets available for benefits as of December 31, 2014, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2014, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the 2014 financial statements.

Other Matter – Supplemental Schedule

The supplemental schedule on page 12 as of December 31, 2014 is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

Other Matter – 2013 Financial Statements

The financial statements of the Plan as of and for the year ended December 31, 2013, were audited by a predecessor auditor. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the predecessor auditor not to perform, and they did not perform, any auditing procedures with respect to the information certified by the trustee. Their report dated October 3, 2014, indicated that (a) because of the significance of the information that they did not audit, they were unable to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion, and accordingly, they did not express an opinion on the financial statements; and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the trustee, were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the 2014 financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

JR ENGINEERING, INC. DEFINED CONTRIBUTION PLAN

NOTES TO FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2014 AND 2013

1. Description of the Plan:

The following brief description of the JR Engineering, Inc. Defined Contribution Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering all employees of JR Engineering, Inc. (the Company), who have completed one year of service (defined as completing 1,000 hours of service) and are age 18 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company's plan administrator is responsible for oversight of the Plan, determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions:

Participants may elect to contribute up to 90% of their compensation (as defined) to the Plan on a pre-tax basis. The amount participants can contribute on an annual basis is limited to the amount set by the Internal Revenue Service (IRS). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. Effective August 15, 2014, participants can elect to have their investment accounts managed by an unrelated investment manager for a fee percentage (determined in accordance with the investment management agreement) based on the dollar amount of the investments being managed. Contributions received in 2014 are net of a liability of \$5,145 to an active participant to return excess contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. The amount is included in the statement of net assets available for benefits as excess contribution payable at December 31, 2014, and was paid in January 2015.

The Company may make discretionary matching contributions to each participant's account as determined by the Company's President. The matching contribution is based on a percentage of the participant contribution. The Company did not make matching contributions in either 2014 or 2013.

The Plan also has a discretionary non-elective contribution feature. The non-elective contribution is allocated to each participant's account in proportion to the participant's compensation. The Company did not make a non-elective contribution in either 2014 or 2013.

Participant accounts:

Each participant's account is credited with the participant's contributions and the Company's matching contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of Plan losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined.

YEARS ENDED DECEMBER 31, 2014 AND 2013

1. Description of Plan (continued):

Vesting:

Participants are immediately vested in their contributions plus actual earnings thereon. Participants vest in the Company's contribution portion of their accounts after three years of continuous service.

Notes receivable from participants:

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Note transactions are treated as transfers between investment funds and the participant note fund. Repayment of the note must be made over a period not to exceed five years, unless the note is used to purchase a principal residence, in which case the note must be repaid over a period not to exceed ten years. The notes are secured by the balance in the participant's account. The interest rate is set at a reasonable rate as determined by the plan administrator (5.25% at December 31, 2014 and a range of 5.25% to 8.50% at December 31, 2013). Principal and interest is paid ratably through payroll deductions.

Payment of benefits:

Participants who suffer serious financial hardship, as defined by the Plan, may withdraw a portion of their vested account in order to meet their financial needs. Once participants attain age 59-1/2, they may also elect to withdraw from their account, any amount not to exceed their vested portion. All accounts are subject to distribution upon the participant's termination, retirement or death.

On termination of service, a participant may receive a lump-sum distribution if their vested account balance is less than \$1,000. If their account balance is between \$1,000 and \$5,000, their vested balance may be transferred to an individual retirement account (IRA) in their name. A participant with an account balance in excess of \$5,000 may receive a lump-sum distribution or may elect to remain in the Plan and have his or her benefits distributed in a single lump-sum on his or her normal or early retirement date.

Forfeitures:

Forfeited nonvested accounts totaled \$1,930 at December 31, 2014 and 2013. Forfeitures shall first be used to pay administrative expenses of the Plan, with any remaining forfeitures being used to reduce the Company's contributions. Forfeitures were not used in 2014 and 2013.

2. Summary of significant accounting policies:

Basis of accounting:

The financial statements of the Plan are prepared using the accrual basis of accounting.

JR ENGINEERING, INC. DEFINED CONTRIBUTION PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

YEARS ENDED DECEMBER 31, 2014 AND 2013

2. Summary of significant accounting policies (continued):

Use of estimates:

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates and assumptions.

Investment valuation and income recognition:

The Plan's investments are reported at fair value as provided by Fidelity Management Trust Company (Fidelity), the trustee of the Plan. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an ordinary transaction between market participants at the measurement date. The plan administrator determines the Plan's valuation policies utilizing information provided by the investment advisers and trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants:

Notes receivable from participants are measured at the unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as part of the note balance. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make note repayments and the plan administrator deems the note receivable to be in default, the note receivable is reduced and a benefit payment is recorded.

Benefit payments:

Benefit payments are recorded when paid.

Expenses:

Administrative expenses are paid by the Plan with the expense allocated to each participant. Certain expenses of maintaining the Plan are paid directly by the Company, and are excluded from these financial statements. Administrative expenses of the Plan paid by the Company totaled \$6,110 in 2014 and \$6,117 in 2013. Certain administrative functions are performed by employees of the Company. No such employee, nor the Company, receives compensation from the Plan for these functions.

Additionally, investment related expenses are included in net appreciation (depreciation) in fair value of investments on the statements of changes in net assets available for benefits.

2. Summary of significant accounting policies (continued):

Reclassifications:

Certain amounts in the 2013 financial statements have been reclassified to conform to the 2014 presentation.

Subsequent events:

In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through October 14, 2015, the date the Plan's financial statements were available to be issued.

3. Investments:

The following table presents the fair value of investments at December 31, 2014 and 2013. Investments that represent 5% or more of the Plan's net assets in either year are separately identified. All investments of the Plan were participant-directed at December 31, 2014 and 2013.

4. Fair value:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the methodology include:

- Quoted market prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

The mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The money market fund is valued at its face value, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation techniques are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Certified investments:

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2014 and 2013, and net appreciation (depreciation) in fair value of investments, interest and dividends for the years ended December 31, 2014 and 2013, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity, in accordance with Section 2520.103-5 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA.

6. Party-in-interest transactions:

Certain investments are managed by Fidelity Investments Institutional Operations Company, Inc., who is an affiliate of Fidelity and, therefore, these transactions qualify as party-in-interest transactions.

JR ENGINEERING, INC. DEFINED CONTRIBUTION PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

YEARS ENDED DECEMBER 31, 2014 AND 2013

7. Tax status:

On March 31, 2008, the IRS stated that the volume-submitter plan adopted by the Plan, as then designed, qualifies under the appropriate section of the Internal Revenue Code (the Code). The Plan has not received a determination letter specific to the Plan itself. The Plan has been amended since receiving the opinion on the volume-submitter plan; however, the plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS and the DOL. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

8. Plan termination:

Although the Company has not expressed any intent to do so, it has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. If the Plan were to terminate or partially terminate, all participants would become 100% vested in their accounts.

9. Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
