REPORT OF INDEPENDENT AUDITORS

To the Participants and Administrator of
Sun Community Federal Credit Union 401(k) Plan and Trust

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Sun Community Federal Credit Union 401(k) Plan and Trust (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by CMFG Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2014 and 2013, and for the year ended December 31, 2014, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter – Supplemental Schedules

The Schedule of Assets (held at end of year) as of December 31, 2014 and the Schedule of Delinquent Contributions for the year ended December 31, 2014, are required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purpose of additional analysis and not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on this supplementary information.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplementary information, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 - Description of Plan

The following brief description of the Sun Community Federal Credit Union 401(k) Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan document, as amended, for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of Sun Community Federal Credit Union (Credit Union). The Plan was amended effective January 1, 2013. These amendments changed the provisions of the Plan allowing safe harbor contributions by the Credit Union at a minimum of 3% per year and accelerated vesting from a graded six-year schedule to becoming 100% vested after one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility - All employees of the Credit Union who have at least 6 months of service and are at least 21 years of age are eligible to become participants in the Plan.

Contributions - Each year, participants may contribute a portion of their calendar year compensation, subject to annual individual deferral limitations under the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing rollover distributions from other qualified defined benefit or defined contribution plans. The Credit Union will make annual safe harbor non-elective contributions equal to three percent of each participant's compensation for the plan year. The Credit Union may also make matching contributions equal to a discretionary percentage of each participant's elective deferrals. The Credit Union may also make a discretionary profit-sharing contribution. For the year ended December 31, 2014, the Credit Union made safe harbor contributions totaling $146,175 and matching contributions totaling $140,457. Contributions are subject to regulatory limitations.

Participant accounts - Each participant's account is credited with the participant's contribution, Credit Union contributions and allocation of the Plan earnings (losses). Allocations are based on account balances and participant earnings (losses), as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account subject to plan provisions.

Vesting - Participants are immediately vested in their voluntary contributions plus actual earnings (losses) thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100 percent vested after one year of credited service.

Note 1 - Description of Plan (continued)

Notes receivable from participants - Participants may borrow from their vested account balances a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or fifty percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 3.25% to 4.25%, as of December 31, 2014, with maturities extending to June 2023. Loan terms may range from 1-5 years, or longer if used to purchase the primary residence of the participant, up to 10 years. Principal and interest are paid ratably through payroll deductions.

Payment of benefits - On termination of service due to retirement, or prior to retirement, on death, disability, resignation, discharge, termination or proven hardship, a participant is eligible to receive benefit payments in the amount equal to the value of the participant's vested interest in his or her account. A participant may elect to receive either a lump-sum amount equal to their account balance, or monthly, quarterly, or annual installments over a period of time that shall not exceed the life expectancy of the participant or designated beneficiary.

Forfeited Accounts - Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. Forfeitures are used to offset the amount of future employer contributions to the Plan. As of December 31, 2014 and 2013, there were no forfeited balances remaining in the Plan. For the year ended December 31, 2014, $80 of forfeiture funds was used to reduce employer contributions.

Note 2 - Summary of Significant Accounting Policies

Basis of accounting - The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Use of estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment valuation - Investments are stated at fair value as certified by the Plan's custodian, CMFG Life Insurance Company. Fair value is the price that would be received to sell an asset or paid to transfer a liability (the "exit price") in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Note 2 – Summary of Significant Accounting Policies (continued)

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan administrator has determined the difference between contract value and fair value of the fully benefit-responsive investment contracts at December 31, 2014 and 2013 is not significant, and as such, the investment in the deposit administration contract is reflected on the statements of net assets available for benefits at fair value, which approximates contract value.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the expected dividend date. The net appreciation in fair value of investments consists of both the realized gains and losses and unrealized appreciation and depreciation of those investments.

Notes receivable from participants – Notes receivable from participants are measured at amortized cost, which represents the unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions upon the occurrence of a distributable event.

Payments of benefit – Benefits are recorded when paid.

Expenses – Certain expenses of maintaining the Plan are paid directly by the Credit Union and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before financial statements are available to be issued.

The Plan has evaluated subsequent events through October 9, 2015 which is the date the financial statements were available to be issued.

Note 3 - Investments

Investments representing 5% or more of net assets available for benefits consist of the following as of December 31, 2014 and 2013:

	2014	2013
Pooled separate accounts	$ 1,382,717	$ 1,080,718
Deposit administration contract	77,506	118,902

Note 4 - Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in active markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 4 – Fair Value Measurements (continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Deposit administration contract: CMFG Life Insurance Company evaluates the value of this contract by calculating the market rate of interest less the interest rate earned in the most recent time period (expressed as a decimal) interest multiplied by a factor of 3. The result is subtracted from 1 and multiplied by the balance at the date of calculation. A reduction is made on the value of one-half of any excess over 100%.

Pooled separate accounts: Units held in pooled separate accounts (PSAs) are valued using the net asset value (NAV) of the PSA as reported by the account managers. The NAV is based on the fair value of the underlying assets owned by the PSA, minus its liabilities, and then divided by the number of units outstanding. The NAV of a PSA is calculated based on the compilation of primarily observable market information. PSAs can be redeemed on a daily basis. The PSAs invest in the following categories of mutual funds:

Target date/asset allocation funds (Managed portfolio funds): includes investments with pre-built portfolios based on personal investment style and funds with strategies that change as they approach a specific retirement date. Conservative funds seek income first, then capital appreciation; moderate funds seek a combination of income and capital appreciation; and aggressive funds seek capital appreciation. Target retirement date funds are investment portfolios where the investment option furthest away from the retirement date has a greater percentage of stocks than bonds. The portfolio changes over time becoming increasingly conservative as the target date nears.

Bonds (Conservative bond funds): seek a high level of current income through investment in a diversified portfolio of fixed income securities with maturities up to 30 years.

Bonds (Aggressive bond funds): fund seeks high current income. Capital growth is a secondary goal consistent with achieving high current income.

Large cap stocks (Moderate stock funds): seek a high level of long-term capital appreciation by investing in common stocks. Funds invest in common stocks of small and medium companies, seek to parallel the Standard & Poor's 500 Index funds, or common stocks of companies anticipating significant growth.

Mid cap stock (Conservative stock funds): investments that seek long-term growth of capital, with income as a secondary consideration. These funds primarily invest in common stocks of companies with financial and market strengths and long-term indicators of performance.

Note 4 - Fair Value Measurements (continued)

Small cap stocks (Growth stock funds): seek a long-term growth of capital by investing in equity securities of small-capitalization issuers, primarily common stock. For the purposes of these funds, small-capitalization issuers have market capital no larger than the largest capitalized issuer included in the Russell2000® Index.

International stock (Aggressive stock funds): primarily seeks long-term capital growth, with income as a secondary goal. Some fund options invest primarily in emerging growth common stocks of companies outside of the United States, and others, investing primarily in emerging growth common stocks of domestic companies.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There are no redemption restrictions or unfunded commitments on the Plan's investment holdings.

The following tables disclose by level, the fair value hierarchy of Plan's assets at fair value, as of December 31, 2014 and 2013:

The following table presents activity in the Plan's assets measured at fair value using Level 3 inputs for the year ending December 31, 2014:

	Deposit Administration Contract
Balance, December 31, 2013	$ 118,902
Increase (decrease) during the year attributed to:	
Interest	2,115
Contributions	2,886
Benefits paid	(46,397)
Net decrease	(41,396)
Balance, December 31, 2014	$ 77,506

Note 5 - Deposit Administration Contract

The Plan's deposit administration contract is a benefit-responsive group annuity contract with CMFG Life Insurance Company. This account is credited with interest at the rate specified in the contract and charged with participant withdrawals. As described in Note 2, because the deposit administration contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the deposit administration contract. Contract value, as reported to the Plan by CMFG Life Insurance Company, represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses. The plan administrator may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value, less applicable penalties.

Note 5 – Deposit Administration Contract (continued)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. Crediting rates on the investment contract are based on a formula agreed upon with the issuer, but may not be less than 0%. Interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value are probable of occurring.

Accounting standards require that the Plan provide the following disclosures regarding its investment in the deposit administration contract:

	Average Yield	Crediting Interest Rate	Deposit Administration Contract		Adjustment to Contract Value
			Fair Value	Contract Value	
December 31, 2014	1.61%	1.50%	$ 77,506	$ 77,506	$ -
December 31, 2013	1.97%	1.50%	$ 118,902	$ 118,902	$ -

Note 6 – Tax Status

The Plan is a volume submitter defined contribution plan that received a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2008, which stated that the Plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code. Although the Plan has been amended since receiving the opinion letter, the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, Plan administrators evaluated the Plan's tax positions and do not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements as of December 31, 2014. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 7 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities that changes in the value of the investments in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

Note 8 - Information Certified by the Custodian

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, CMFG Life Insurance Company, the custodian of the Plan, has certified to the completeness and accuracy of:

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2014 and 2013.
- Net appreciation in fair value of investments, interest on deposit administration contract, and interest income from notes receivable from participants reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2014.
- Investments reflected on the supplementary schedule of assets (held at end of year).

Note 9 - Party-in-Interest Transactions

Plan investments include pooled separate accounts and a deposit administration contract managed by CMFG Life Insurance Company. CMFG Life Insurance Company is the custodian of the Plan and, therefore, transactions with these entities qualify as exempt party-in-interest transactions.

Note 10 - Plan Termination

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan and discontinue its contributions at any time. If the Plan is terminated, amounts allocated to a participant's account remain fully vested.
