A. PLAN DESCRIPTION

The following description of The Shamrock Companies, Inc. (the “Company” or “Plan Sponsor”) 401(k) Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan document and adoption agreement for a complete description of the Plan’s provisions.

General - The Plan is a defined contribution plan with an Internal Revenue Code (“IRC”) Section 401(k) arrangement which allows plan participants to defer current taxation on a portion of their salaries by electing a percentage of their salary to be contributed to the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Eligibility - The Plan covers all employees of the Company age twenty-one or older who have completed twelve months of service. Those eligible to participate in the Plan may enroll on the first day of the quarter following the date of eligibility.

Contributions - Eligible employees may contribute up to 100% of their compensation on a pre-tax or post-tax (“Roth”) basis subject to the IRC 402(g) limit. Participants who have attained age fifty before the end of the Plan year are eligible to make catch-up contributions. The Plan Sponsor, however, may be required to limit contributions of certain employees to comply with the IRC.

The Plan Sponsor may, at its option, match a portion of participants’ salary deferrals. No matching contribution was made in 2014.

The Plan Sponsor may make additional discretionary contributions to the Plan. All eligible employees, as defined, may receive these discretionary contributions but must be actively employed as of December 31. No discretionary contributions were made by the Plan Sponsor for the year ended December 31, 2014.

The Plan also permits rollover contributions from other qualified retirement plans and certain IRAs.

Participant Accounts - Each participant’s account is credited with the participant’s contributions, employer matching contributions, allocation of the Company’s discretionary contributions, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions as defined. The benefit to which the participant is entitled is the benefit that can be provided from the participant’s vested account.

Participants direct the investment of their contributions into the various funds provided, including a self-directed brokerage account. Participants may change their allocation of contributions or transfer money between investment options any time during the year.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company’s contribution portion of their accounts is based on years of continuous service. A participant is 100% vested in employer discretionary matching and non-matching discretionary contributions after six years of credited service.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013.

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years unless used for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate determined at the time the loan is taken based on Prime (3.25% at December 31, 2014 and 2013, respectively). Principal and interest are paid ratably through payroll deductions.

Payment of Benefits - Upon termination of service, the participant may elect to receive his or her account balance as a lump-sum payment or in periodic installments. The Plan Administrator may automatically make a lump-sum distribution for account balances less than \$5,000. Participants terminated are entitled to receive their benefits as soon as administratively feasible. Distributions of a participant's 401(k) account balance may be authorized at any time by the Plan administrator under certain hardship conditions.

Forfeitures - Unvested amounts forfeited by terminated participants may be used by the Plan for the payment of Plan expenses. Any remaining forfeitures attributable to matching contributions will be used to reduce employer matching contributions. No forfeitures were used for the year ended December 31, 2014.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under terms of the Plan. The statements of net assets available for benefits present the fair value of the investment in the Fixed Account as well as the adjustment of the investment in the Fixed Account from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis. See Note E.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment advisors, custodian, and trustee. See Note F for discussion of fair value instruments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits - Benefits are recorded when paid.

Administrative Expenses - Administrative expenses consisting of trustee and audit fees may be paid by Plan forfeitures. All other expenses of maintaining the Plan, including third party administration fees and investment advisory fees, are paid by the Company. Investment related expenses are included in net appreciation in fair value of investments.

C. INFORMATION CERTIFIED BY THE CUSTODIAN

The Plan Administrator has elected to restrict the scope of the auditor's examination with regard to statements or information prepared and certified by Voya, the custodian.

Voya, formerly known as ILIAC, has certified as to the completeness and accuracy of the investments it holds and changes in net assets arising from said investment activity as of December 31, 2014 and 2013, and for the year ended December 31, 2014.

Voya has certified as to the completeness and accuracy of the schedule of assets (held at end of year) for the year ended December 31, 2014.

E. INVESTMENT IN FIXED ACCOUNT

The Fixed Account, an annuity product issued by Voya, is an account credited with a declared rate of interest and valued daily. There are two guaranteed interest rates: 1) an annual effective yield guaranteed between 1% and 3% for each calendar year period within the life of the contract; 2) a calendar year floor interest rate which will never be less than the minimum guaranteed interest rate but which may be adjusted upwards on a quarterly basis. Once credited, the interest becomes part of the principal. The Fixed Account surrender value may bear a market value adjustment should the contract be terminated.

Amounts allocated to the Fixed Account are held in the general account of Voya, are managed on an aggregate basis, and support the general activities of Voya.

The Fixed Account is included in the financial statements at fair value, with an adjustment to contract value, as reported to the Plan. Contract value represents contributions and reinvested income, less any withdrawals plus accrued interest, because these investments have fully benefit-responsive features. For example, participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract values for credit risk of contract issues or otherwise. The average yield was approximately 3.00% for both 2014 and 2013.

F. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The levels of the fair value hierarchy under Financial Accounting Standards Board guidance in these financial statements are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The Shamrock Companies, Inc. 401(k) Retirement Plan
Notes to the Financial Statements
December 31, 2014 and 2013

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Pooled separate accounts - The separate account owns and holds the underlying mutual fund shares which are valued daily at their net asset value ("NAV"). Plans and participants hold units of participation in the separate account. The accumulation unit value ("AUV") is the value of each unit in the separate account and the separate account is valued daily as the number of accumulation units held multiplied by the AUV.

Fixed Account - Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (see Note E).

Self-directed brokerage account - The value of the account, as provided by the brokerage firm, is determined using external sources.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2014, money market funds were transferred from Level 1 to Level 2 in the fair value hierarchy.

G. RELATED-PARTY TRANSACTIONS

Certain Plan investments are within funds issued by Voya who also serves as custodian to the Plan. The transactions involving these investments are allowable party-in-interest transactions under ERISA.

Notes to the Financial Statements
December 31, 2014 and 2013

H. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, each participant would have a non-forfeitable right to his or her total account balance as of the date of termination.

I. FEDERAL INCOME TAX STATUS

The Plan adopted a volume submitter document effective July 1, 2011. No determination letter was requested by the Company. The Plan has been amended since the restated volume submitter received an Internal Revenue Service ("IRS") Opinion Letter dated March 16, 2010. However, the Plan Administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the company has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2014, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2011.

J. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

K. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The Plan's investments are recorded as pooled separate accounts on the financial statements but are recorded as mutual funds on the Form 5500. Since Voya does not report their separate accounts directly as a Direct Filing Entity, the Plan cannot categorize those assets as separate account assets on the Form 5500. The Plan must categorize the assets according to the underlying assets. Because the separate accounts are fully invested in mutual funds, the investments are shown as mutual funds on the Form 5500.
