Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution profit sharing pension plan covering all Company employees that are represented by the Union. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The Company contributes to the Plan such amounts that are specified by written agreements between the Company and the Union. The contributions to the Plan are based on a prescribed amount of cents multiplied by the hours worked by eligible employees, and are allocated to each participant's account based on the participant's actual hours worked. The contribution rate in effect was \$.60 per labor hour for 2014 and 2013.

Employees of the Company that meet certain criteria are eligible to receive a death benefit of \$1,000 upon retirement. An account is separately maintained within the investments of the Plan to fund the payments. There were no contributions to the fund during 2014 and 2013. The account had a balance of \$37,514 and \$43,732 at December 31, 2014 and 2013, respectively.

Eligibility

Any Company employee who is represented by the Union is eligible to participate in the Plan. An eligible employee shall cease to be an eligible employee if and when he/she ceases to be employed by the Company or represented by the Union.

Participant Accounts and Vesting

Each participant's account is credited with the Company's contribution based on the actual hours worked by each participant. Participant accounts are also credited with plan earnings based on account balances.

Participants are fully vested when the Company makes a contribution to their account. Participants are entitled to 100% of their account balance at normal or late retirement age. Normal retirement age is sixty-five. Upon termination of employment, participants are entitled to 100% of their account balance. At the election of the participant, benefits are paid in a single lump sum or in equal installments over a period not to exceed ten years.

Effective January 1, 2004, if a participant of the Plan is no longer represented by the Union but is still employed by the Company, the participant may transfer their account balance to another defined contribution pension plan maintained by the Company.

Similarly, if a non-union employee takes a union position with the Company, the participant may transfer their account balance from their existing defined contribution pension plan with the Company to the Plan.

Payment of Benefits

Benefits are payable in an amount equal to the value of the participant's vested interest in his or her account, either in a lump sum payment or in a direct rollover to an IRA or other employer plan.

NOTE A – DESCRIPTION OF PLAN (continued)

Plan Termination

Although they have not expressed any intent to do so, the Company and the Union have the right to terminate the Plan at any time. Upon termination, the employer may direct benefits to be paid in one lump sum to participants. A complete discontinuance of contributions by the employer shall constitute a termination.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Investment Valuation

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

The Plan invests in a collective investment trust which holds fully benefit-responsive investment contracts that are required to be reported at contract value as that is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Authoritative guidance requires that the Statements of Net Assets Available for Benefits present the fair value of the Plan's investments, as well as the adjustment from fair value to contract value for fully benefit-responsive investment contracts. The Statements of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses of the Plan are paid by the Plan, except for certain transaction fees, which are charged directly to the respective participants' accounts.

NOTE C – INVESTMENTS

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2014 and 2013 and net change in investment income and expenses for the years then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Plan's trustee.

Net appreciation in fair value of investments	\$ 408,124	\$ 1,380,268

The net appreciation in fair value of investments includes the adjustment from fair value to contract value for fully benefit responsive investment contracts of (\$29,893) and (\$20,055) at December 31, 2014 and 2013, respectively.

NOTE D – FAIR VALUE MEASUREMENTS

Financial accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 fair values are based on unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 fair values are based on inputs other than quoted prices within Level 1 that are observable for the asset, either directly or indirectly.

Level 3 fair values are based on at least one significant unobservable input for the asset.

NOTE D – FAIR VALUE MEASUREMENTS (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at quoted market prices which represent the net asset value (NAV) of shares held by the Plan at year end.

Common/collective trusts (CCT): Units held in collective investment trusts are valued using the NAV of the fund. The NAV is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The NAV of a collective investment fund is calculated based on a compilation of primarily observable market information. The number of units of the fund that are outstanding on the calculation date is derived from observable purchase and redemption activity in the fund. Accordingly, the unit value for a collective investment fund is classified within level 2 of the valuation hierarchy.

The estimated fair value of the collective trust fund is net asset value. The use of net asset value fair value is deemed appropriate as the collective trust funds do not have finite lives, unfunded commitments relating to these types of investments, or significant restrictions on redemptions.

The CCT's principal objective is to protect principal while providing a higher rate of return than shorter maturity investments, such as money market funds or certificates of deposit. To achieve this, the CCT invests in instruments which are not expected to experience significant price fluctuation in most economic or interest rate environments.

The CCT primarily invests in investment contracts, including traditional guaranteed investment contracts (GICs) and security-backed contracts issued by insurance companies and other financial institutions. The CCT also invests in a synthetic stable value fund, which has the same investment objective as the CCT, and a short-term investment fund, which invests in highly liquid assets. The CCT uses the short-term investment fund investments for daily liquidity needs.

GICs issued by insurance companies and other financial institutions at fixed rates are carried at contract value. Security-backed contracts are carried at contract value in the aggregate, which consists of the fair value of the underlying portfolio, accrued interest on the underlying portfolio assets, the fair value of the contract, and the adjustments to contract value. The fair value of a GIC is based on the present value of future cash flows using the current discount rate. The fair value of a security-backed contract includes the value of the underlying securities and the value of the wrapper contract. The fair value of a wrapper contract provided by a security-backed contract issuer is the present value of the difference between the current wrapper fee and the contracted wrapper fee.

The net asset value of the CCT is calculated daily and net investment income and realized and unrealized gains on investments are not distributed but rather reinvested and reflected in the net asset value of the fund. Units of the CCT are issued and redeemed at the current net asset value. The CCT does not believe that the occurrence of any such market value event, which would limit the Fund's ability to transact at contract value with participants, is probable.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTES TO FINANCIAL STATEMENTS

December 31, 2014 and 2013

NOTE E – RISKS AND UNCERTAINTIES

The Plan provides various investment options which are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE F – TAX STATUS

The Plan obtained its latest determination letter in 2011, in which the Internal Revenue Service stated that the Plan was in compliance with the applicable requirements of the Internal Revenue Code.

NOTE G – PARTY-IN-INTEREST

Certain Plan investments are managed by Schneider Downs Wealth Management Advisors, an affiliate of Schneider Downs and Co, Inc., the plan record keeper. Therefore, transactions with these entities qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment and administrative services amounted to \$77,162 and \$78,557 for the years ended December 31, 2014 and 2013, respectively.

NOTE I – SUBSEQUENT EVENTS

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through October 9, 2015, which is the date the financial statements were available to be issued.
