1. Description of the Plan

The following description of the Pentland USA, Inc. 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering eligible employees of Pentland USA, Inc. (the "Company"). The Plan provides for elective deferral of wages and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Guardian Insurance & Annuity Company (the "Guardian") was the investment custodian of the Plan as of December 31, 2014 and for the period of March 3, 2014 to December 31, 2014. Prior to March 3, 2014, the Plan engaged Transamerica Financial Life Insurance Company ("Transamerica") to act as the Plan's investment custodian. Guardian and Transamerica are collectively referred to as the "Investment Custodians." The Plan's investments are held by the Plan's Investment Custodians. The Investment Custodians and the Plan administrator are appointed by the Company. For the year ended December 31, 2104, Plan assets of $977,182 were transferred to the Hunter Boot, USA 401(k) Plan.

Eligibility

The Plan covers all eligible employees of the Company who have completed two months of service, and have attained the age of 21. The Plan excludes those employees who are leased and non-resident aliens. Entrance in the Plan is the first day of the month subsequent to meeting the above eligibility requirements.

Participant Contributions

Participants may make rollover contributions and voluntary contributions, on a before-tax basis to be placed into a trust fund for their benefit. Participants are also allowed to make Roth contributions. Participants may elect to defer any amount of their eligible compensation subject to the limitations discussed below. Compensation for Plan purposes includes income reported on form W-2 adjusted to exclude all pre-tax contributions, military and disability continuation payments and non-cash compensations.

Total participant contributions are limited to a maximum of $17,500 for 2014. Additionally, individuals who are at least 50 years of age can make a "catch-up" contribution not to exceed $5,500 for 2014. The maximum annual addition for 2014 that may be contributed or allocated to a participant's account under the Plan shall not exceed the lesser of 100% of a participant's compensation or $52,000.

1. Description of the Plan

Employer Contributions

The Company provides for matching contributions of 100% of a participant's elective deferrals up to $10,000. The Company also make a discretionary profit-sharing contribution which is allocated to each participant based on their compensation to the total of all eligible participant's compensation. To be entitled to a profit-sharing contribution the participant must be employed at year-end and have worked 1,000 hours in the Plan year. The Company did not made a profit-sharing contribution in 2014.

Rollover Contributions

A Plan participant may make a transfer to the Plan of a benefit from a qualified retirement plan of another employer, referred to as a rollover, with certain restrictions.

Investments

Participants direct the investment of their contributions into various pooled separate accounts and a fixed rate option which is an unallocated contract in Guardian's general account, offered by the Plan. Participants may change their investment allocation on any business day.

Vesting

Participants are immediately vested in their voluntary and rollover contributions, employer matching and profit-sharing contributions and earnings thereon.

Participant Accounts

The Plan administrator establishes and maintains a separate account for each participant, which is credited for voluntary and rollover contributions the participants make, employer matching and profit sharing contributions, and Plan earnings. Income earned and net appreciation or depreciation on Plan investments, for a given investment, are allocated in proportion to the participant's accounts balances in that investment. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants

Each participant may borrow up to the lesser of: (1) 50% of the present value of the participant's vested interest in the account or (2) $50,000, less currently outstanding notes receivable. No note shall be less than $1,000 and only two notes outstanding at any time are permitted.

1. Description of the Plan

Notes Receivable from Participants

An outstanding note is repayable, with interest, in full at any time or in monthly installments by means of a payroll deduction from the participant's salary over a term not to exceed five years. However, if the note is for the purchase of a principal residence, the Plan administrator may permit a longer repayment term. The notes are secured by the vested balance in the participant's account, not to exceed 50% of such vested balance. The notes shall bear a reasonable rate of interest as determined by the Plan administrator. The interest rate on notes outstanding at December 31, 2014, on all loans ranged from 3.25% to 5.25%.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued and unpaid interest. Delinquent notes are treated as distributions based upon the terms of the Plan document.

Forfeitures

At both December 31, 2014 and 2013, forfeited non-vested accounts totaled $0. These accounts may be used to reduce future Company contributions or to pay administrative expenses of the Plan.

Retirement

The normal retirement age is defined as when the participant reaches the age of 65. Early retirement is not permitted. A participant, who becomes disabled, is eligible for a disability distribution.

Distribution of Benefits

A participant, or a designated beneficiary, is entitled to withdraw the entire vested amount (or in some cases, a portion thereof) in the event of normal retirement, death, disability, termination of employment, termination of the Plan, attainment of age 65, or under hardship circumstances, as defined in the Plan document. Distributions are made only in the form of a lump sum distribution.

Terminated employees whose vested balance exceeds $5,000 at termination may elect to leave their account balances in the Plan. Terminated participants must begin receiving Required Minimum Distributions, under Internal Revenue Service ("IRS") guidelines, upon reaching the age of 70 ½. Terminated employees whose vested balances are under $5,000 will be subject to an involuntary distribution.

1. Description of the Plan

Administrative Expenses

Administrative expenses may be paid out of the Plan or by the Company. Administrative expenses that are to be paid by the Plan are allocated to all participants on a pro rata basis. The Company incurred certain administrative expenses relating to the Plan without charge to the Plan during 2014.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates and Assumptions

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value, except the fixed rate option at December 31, 2014 and stable value fund at December 31, 2013, these investments are in an unallocated account in the general account with the Investment Custodians whose valuation is discussed below. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits presents the investments in the general account with the Investment Custodians at contract value as contract value approximates fair value.

2. Summary of Significant Accounting Policies

Investment Valuation and Income Recognition

Investment earnings are automatically reinvested into the investment from which they are derived. Purchases and sales of securities are recorded as of the trade date. Dividend income is recorded on the ex-dividend date. Interest income is accrued when earned. The Plan presents, in the Statement of Changes in Net Assets Available for Benefits, the net appreciation (depreciation) of the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments.

Payment of Benefits

Benefit payments to participants or beneficiaries are recorded upon distribution or when deemed distributed.

Risks and Uncertainties

The Plan provides for various investment options. Investment securities are exposed to various risks including but not limited to, interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Income Tax Status

The Plan is an adoption of a standardized prototype plan that received an IRS opinion letter on March 31, 2008, stating that the prototype plan, as then designed, was then in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving that determination letter. The Plan administrator and the Plan's legal counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. No provision for income taxes has been included in the financial statements since the Plan has no unrelated business income tax.

2. Summary of Significant Accounting Policies

Income Tax Status

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Department of Labor ("DOL") or the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and had concluded that as of December 31, 2014, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by the DOL or the IRS, however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Subsequent Events

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through October 2, 2015, which is the date the financial statements were available to be issued.

3. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a Plan termination, participants would become 100 percent vested in their employer contributions.

4. Investments

The following table presents the individual investment securities that exceeded 5 percent of the Plan's net assets available for benefits as of December 31, 2014 and 2013:

***** Represents less than 5% of net assets available for benefits in the respective year

For the year ended December 31, 2014, the Plan's pooled separate accounts investments appreciated (including gains and losses on investments bought and sold, as well as held during the year) in value by $289,455.

5. Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

5. Fair Value Measurements

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Below is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013:

Pooled separate accounts are valued at the net asset value ("NAV") of units of the underlying pooled separate account maintain by the Investment Custodians. The NAV, as provided by the Investment Custodians, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participants transactions (purchases or sales) may occur daily.

5. Fair Value Measurements

The fixed rate option at December 31, 2014, and the stable value option at December 31, 2013, are investment contracts with the Investment Custodians which are insurance companies, which are valued at contract value which represents the amount of contributions deposited, plus interest credited daily as determined, by the contract, less any participant withdrawals and administrative expenses. Contract value approximates fair value. This investment is kept by the Investment Custodians in its general account in an unallocated contract.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

6. Party-in-Interest Transactions

The Plan's investments at December 31, 2014 and 2013, are managed by the Investment Custodians. Also, administrative expenses are paid to the Investment Custodians. The transactions with the Investment Custodians qualify as party-in-interest transaction. Notes receivable due from Plan participants also qualify as part-in-interest transactions. The above transactions are not, however, considered prohibited transactions under CFR 408(b) of the ERISA regulations.

7. Unaudited Information Certified by the Plan's Investment Custodians

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information which was certified by the Investment Custodians, as complete and accurate, except for comparing such information certified by the Investment Custodians to information included in the Plan's financial statements and supplemental schedule:

As of December 31,:	**2014**	**2013**
