Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Clopay Ames Pension Plan (the Plan), which comprise the statement of net assets available for benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified or provided by Wells Fargo Bank, N.A., the trustee of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the trustee as of December 31, 2014 and 2013, and for the years then ended, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) and Schedule H, Line 4j - Schedule of Reportable Transactions as of and for the year ended December 31, 2014, are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purposes of additional analysis and are not a required part of the financial statements. The supplemental schedules are the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 - Description of Plan

General

Clopay Ames Pension Plan (the Plan) is a noncontributory defined benefit pension plan which includes all Ames True Temper, Inc. (Ames) employees with the exception of hourly employees of the Reno, Bernie, and Falls City facilities and employees of Clopay Corporation (Clopay) with a benefit earned under the former Clopay Pension Plan (Clopay Plan). Ames and Clopay will collectively be referred to as the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Information about the Plan agreement and the vesting and benefit provisions is contained in the plan document. Copies of the plan document are available from the Company's Plan Administrator.

Effective January 1, 2014, plan management changed the name of the Plan to Clopay Ames Pension Plan.

Ames True Temper, Inc. Pension Plan (Ames Plan)

Effective May 1, 2005, the Ames Plan was amended to cover Lewistown, Pennsylvania hourly employees. Effective May 16, 2006, the Ames Plan was amended to include non-highly compensated salaried employees at the Ames's Bernie, Missouri facility retroactive to January 1, 2004. In addition, certain amendments were made to the Ames Plan in 2006 to reflect the terms of collective bargaining agreements covering certain participants.

Effective May 31, 2008, except for the collectively bargained participants of the Jackson and Union City locations, the Ames Plan was frozen. Effective June 30, 2008, the Ames Plan was frozen for the collectively bargained participants at the Union City location. Effective December 31, 2009, the Ames Plan was frozen for the collectively bargained participants at the Jackson location. Employees not meeting the participation requirements by the applicable freeze date will not be eligible to participate in the Ames Plan. Benefit accruals for participants of the Ames Plan will cease as of the applicable freeze date. Beginning after the applicable freeze date, Ames provided certain participants in the Ames Plan with enhanced matching contributions under an existing 401(k) defined contribution plan (401(k) Plan). The eligibility for and amount of enhanced matching contributions under the 401(k) Plan was determined by an employee's combined years of benefit service accrued under the Ames Plan and age as of December 31, 2008.

Clopay Pension Plan (Clopay Plan)

Effective January 1, 1968, Clopay originally established the Clopay Corporation Salaried Employee Pension Plan (the Salaried Plan). Effective December 31, 1987, Clopay ceased benefit accruals under the Salaried Plan. Effective February 28, 1988, Clopay terminated the Salaried Plan, used assets thereof to purchase an annuity contract for benefits accrued thereunder and received excess assets therefrom. Clopay reestablished the Salaried Plan effective March 1, 1988.

Effective January 1, 1975, Clopay originally established the Clopay Corporation Augusta Plan Pension Plan for Hourly Paid Employees (the Augusta Plan). Effective January 1, 1976, Clopay originally established the Clopay Corporation Hialeah Plant Pension Plan for Hourly Paid Employees (the Hialeah Plan) and the Clopay Corporation Russia Plant Pension Plan for Hourly Paid employees (the Russia Plan). Effective January 1, 1989, Clopay merged the Hialeah Plan and Russia Plan to form the Clopay Corporation Hialeah and Russia Plants Pension Plan for Hourly Paid Employees (the Russia/Hialeah Plan).

Note 1 - Description of Plan (continued)

Clopay Pension Plan (Clopay Plan) (continued)

Effective December 31, 2000, Clopay amended the Salaried Plan, Augusta Plan and Russia/Hialeah Plan to cease benefit accruals thereunder and merge the Augusta Plan and Russia/Hialeah Plan into the Salaried Plan. Effective January 1, 2001, the Clopay renamed the Salaried Plan as the Clopay Pension Plan and amended the Clopay Plan to provide a new transition benefit for certain participants of the Salaried Plan.

Pension Benefits

The amount of benefit, as defined in the plan document, depends upon, among other things, the years of service of the participant and/or the participant's compensation during the service periods, in which division of the Company the employee works, whether the employee is covered under collectively bargained employment contracts or whether the employee is hourly or salaried.

An amendment to the Plan was adopted in 2012 which stated that from October 15, 2012 through November 30, 2012, certain participants and beneficiaries could elect to receive their benefit in an immediate lump-sum payment. To be eligible for this election, participants and beneficiaries had to meet each of the following three conditions. First, they must have terminated employment prior to October 15, 2012, and not yet commenced payments. Second, they must have been 100% vested as of the date of their termination of employment. Third, the lump sum value of their accrued benefit could not be more than \$50,000 (based on the Plan's definition of actuarial equivalence). The eligible participants had to provide notification of their election to receive this lump-sum payment no later than November 30, 2012.

Should the Plan terminate at some future time, its assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

Upon termination of service other than by retirement, disability, or death, a participant will generally receive an automatic lump sum payment if the total of their vested benefit does not exceed \$1,000. If the vested benefit exceeds \$1,000, the assets will remain in the Plan until the participant's early or normal retirement date.

Death and Disability Benefits

If a participant with a vested benefit dies prior to their benefit commencement date, their surviving spouse, if married at least one year, will be eligible for a death benefit based on the participant's vested interest in the Plan. If an active participant who has accrued the required years of vesting or benefit service based on the Plan formula, becomes disabled according to the Plan, they will be eligible for a disability benefit.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Common/Collective Trust Fund Fees

Net investment returns reflect certain fees paid by the common/collective trust funds to their affiliated investment advisors, transfer agents, and others as further described in each fund prospectus or other published documents. These fees are deducted prior to allocation of the Plan's investment earnings activity and thus not separately identifiable as an expense.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to service rendered by the participants as of the valuation date based on the Projected Unit Credit Actuarial Cost Method. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, and (b) present participants or their beneficiaries. Benefits for retired or terminated participants or their beneficiaries are based on credited service earned to the applicable freeze date. The accumulated plan benefits for active participants was based on credited service to date of valuation. Benefits payable under all circumstances such as retirement, death, disability, and termination of employment are included, to the extent they are deemed attributable, to employee service rendered to the valuation date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates. The Plan uses an actuary to determine the actuarial present value of accumulated plan benefits. A change in the actuarial assumptions used could significantly change the amount of the actuarial present value of accumulated plan benefits reported in the accompanying financial statements.

Note 2 - Summary of Significant Accounting Policies (continued)

Payment of Benefits

Benefit payments to participants are recorded when paid.

Administrative Costs

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

Recent Accounting Pronouncement

In May 2015, the FASB issued ASU 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in ASU 2015-07 remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. ASU 2015-07 is effective for annual periods beginning after December 15, 2016, and interim periods within those fiscal years, with early adoption permitted. The Plan is currently evaluating the impact that the adoption of this standard will have on its financial statements.

Note 3 - Fair Value Measurements

FASB ASC 820, *Fair Value Measurement and Disclosures*, provides the framework for measuring fair value. The guidance establishes a fair value hierarchy that is intended to increase consistency and comparability in fair value measurements and related disclosures. The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable. Observable inputs reflect assumptions market participants would use in pricing an asset or liability based on market data obtained from independent sources while unobservable inputs reflect a reporting entity's pricing based upon their own market assumptions. The fair value hierarchy consists of the following three levels:

Level 1 - Inputs are quoted prices in active markets for identical assets or liabilities.

Level 2 - Inputs are quoted prices for similar assets or liabilities in an active market, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable and market-corroborated inputs, which are derived principally from or corroborated by observable market data.

Level 3 - Inputs are derived from valuation techniques in which one or more significant inputs or value drivers are unobservable.

Clopay Ames Pension Plan

Notes to Financial Statements

December 31, 2014 and 2013

Note 3 - Fair Value Measurements (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no significant changes in the methodologies used at December 31, 2014 and 2013.

The fair values of the money market fund and mutual funds are based on quoted net asset values of the shares held by the Plan at year end.

Investments in common/collective trust funds are valued based upon the units of such common/collective trust funds held by the Plan at year end multiplied by the respective unit value. The unit values of the common/collective trust funds are based upon significant observable inputs, although they are not based upon quoted market prices in an active market. These investments are classified within Level 2 of the valuation hierarchy.

The underlying investments of the common/collective trust funds consist solely of mutual funds, each of which follows a separate investment strategy in accordance with the categorization described in the table on the following page. Due to the nature of these securities, there are no unfunded commitments or redemption restrictions.

The fair value of the other investment, Blue Rock Capital Fund, L.P., is based on a monthly net asset valuation of the underlying funds, which is valued by an independent, third party administrator, as well as directly valuing the one separate account the Fund controls. The underlying securities of these investment funds are typically Level 1 securities valued at their closing price on a recognized exchange. There are no unfunded commitments. Other than general language surrounding general redemption restrictions in market crisis type environments (i.e. the closure of a recognized exchange precluding valuation), there are no redemption restrictions or gates. This investment is classified within Level 2 of the valuation hierarchy.

The Plan does not hold any Level 3 investments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers, if any, between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2014 and 2013, there were no transfers in or out of Level 3.

Note 4 - Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits presented below is determined by an actuary from BPS&M, LLC, a Wells Fargo Company as of January 1, 2014 and 2013, and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits as of January 1, 2014 and 2013 is as follows:

	<u>2014</u>	<u>2013</u>

Eligible participants in the Clopay Plan are assumed to all retire at the age of 65.

The actuarial assumptions used by the Plan are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 5 - Information Certified and Provided by the Trustee

The following is a summary of the Plan's asset information as of December 31, 2014 and 2013, and for the years then ended, included throughout the Plan's financial statements and supplemental schedules that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that the information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following assets. Investments that represent 5% or more of the Plan's net assets at December 31, 2014 and 2013 are separately identified.

December 31, 2014 and 2013

Note 6 - Tax Status

The Plan has received determination letters from the Internal Revenue Service (IRS) for the Ames Plan dated January 30, 2012 and the Clopay Plan dated March 31, 2008 stating that the Plans are qualified under Section 401(a) of the Internal Revenue Code (Code) and, therefore, the related trusts are exempt from taxation. Before and after these determinations by the IRS were approved, the Plans were amended. Once qualified, the Plans are required to operate in conformity with the Code to maintain its qualification. The Plan Administrator and the Plans' advisors believe that the Plans are currently designed and being operated in compliance with the applicable requirements of the Code and, therefore, believe that the Plans, as amended, are qualified and the related trusts are tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 7 - Related Party Transactions and Party-in-Interest Transactions

Certain Plan investments are managed by Wells Fargo Bank, N.A., the trustee of the Plan. Therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management and custody services amounted to \$485,616 and \$407,191 for the years ended December 31, 2014 and 2013, respectively. All other transactions which may be considered parties-in-interest transactions relate to normal plan management, investment and administrative services, and the related payment of fees.

Additionally, certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Note 8 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note 9 - Funding Policy

The Company's funding policy is to make annual contributions to the Plan as determined by the Plan's independent actuary in amounts necessary to provide the Plan with assets sufficient to fund participants' benefits by the time they retire. No participant contributions are permitted. The minimum funding requirements of ERISA were met for 2014 and 2013.

Note 10 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and the Code.

In the event that the Company voluntarily takes steps to terminate the Plan in a standard termination, all liabilities under the Plan will be paid by the Plan and the Plan must have assets sufficient to pay all of the benefit liabilities. If assets are not sufficient to satisfy all benefit liabilities, the Company will be required to contribute an amount sufficient to enable the Plan to satisfy all benefit liabilities.

In the event that the Plan is terminated in a distress or involuntary termination and assets are not sufficient to pay all benefit liabilities, Plan assets will be distributed in accordance with the requirements of ERISA in the following order:

1. Accrued benefits attributable to voluntary contributions, if any;
2. Accrued benefits attributable to mandatory contributions, if any;
3. Benefits that were being paid or could have been paid (i.e., payable if the participant actually retired or could have retired) as of the beginning of the three-year period ending on the termination date based on the terms of the Plan in effect during the five years before the termination under which the benefit would be the least;
4. All other benefits guaranteed by the PBGC;
5. Benefits that would be provided if ERISA Section 4022(b)(5)(B) didn't apply (i.e., benefits for majority owners as defined in ERISA Section 4022(b)(5)(A));
6. All other vested benefits; and
7. All other benefits under the Plan.

In the event that there are insufficient assets to provide all benefits within one of the above groups, the remaining assets will be allocated pro rata among the participants or beneficiaries within that group on the basis of the present value of such benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability, and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

December 31, 2014 and 2013

Note 10 - Plan Termination (continued)

Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a ceiling, which is adjusted periodically, on the amount of monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

Note 11 - Subsequent Events

Plan management has evaluated subsequent events through October 13, 2015. This date is the date the financial statements were available to be issued. No material events subsequent to December 31, 2014 were noted.

Rates of Retirement

Eligible participants in Clopay are assumed to all retire at age 65. For all other groups, eligible participants are assumed to retire based on the following:

Age	Rate
60	20%
61	35%
62	45%
63	25%
64	25%
65	100%

Commencement Dates and Forms of Payment

Retiring or terminating participants are assumed to elect a Life Annuity.

Spouses of deceased employees are assumed to elect a Life Annuity commencing at the earliest available date.

Percentage Married

80% of Clopay participants are assumed to be married with husbands assumed to be 3 years older than wives. For all other groups, 80% of participants are assumed to be married with husbands the same age as wives.

Mortality Improvement

The mortality tables above include mortality improvement projected after year 2000 under Projection Scale AA to 15 years beyond the valuation date for non-annuitants and to 7 years beyond the valuation date for annuitants. The resulting rates are used for all age cohorts.

Maximum Limitations

The maximum annual benefit limitation and the annual compensation limit are assumed to remain at their current levels.

Expenses

Expenses are assumed to be equal to the prior year's actual expenses.

At-Risk Assumptions

At-Risk liabilities are calculated using the assumptions outlined above, modified to assume that all participants eligible to retire within eleven years of the valuation date will do so at the later of the end of the plan year or the participant's earliest retirement date under the plan.

Summary of Actuarial Methods

Actuarial Cost Method

All liabilities and normal costs shown in this report are calculated based on the Traditional Unit Credit method as described in IRC Section 430 and relevant proposed regulations. This method is prescribed for funding, PBGC, and ASC 960 calculations.

Under the Traditional Unit Credit method, the liability is the present value of all benefits that have been accrued or earned under the plan as of the first day of the plan year. The normal cost is the present value of all benefits that are expected to accrue or be earned during the plan year, including any expected increase in compensation during the year.

Asset Valuation Method

The actuarial value of assets is equal to the average of the market value of assets as of the valuation date and the adjusted market value of assets for the prior two years. The adjusted market value of assets as of a prior determination date is the market value of assets as of that date adjusted for contributions, benefit payments, expenses, and expected earnings for periods after the determination date but prior to the current valuation date. In no event will the actuarial value of assets be less than 90%, or greater than 110% of the current market value of assets.

Miscellaneous

The limitations under IRC Sections 401(a)(17) and 415(b) have been taken into account in our calculations.

Any actual or potential limitations under IRC Section 436 have not been taken into account for any purpose.

To the best of our knowledge, all benefits payable from the plan, including retirement-type and ancillary benefits, have been incorporated into our calculations.

No liability is included for participants who terminated without vested benefits prior to the first day of the plan year.

No liability is included for any employees who are not yet participants as of the first day of the plan year.

Summary of Plan Provisions – Clopay

Covered Employees

Participants in the former Salaried Plan, Augusta Plan, or Russia/Hialeah Plan as of December 31, 2000. No new participants will enter the plan after December 31, 2000.

Definitions

Transition Participant:	Employees (i) who attained age 41 prior to January 1, 2001 and (ii) whose sum of whole years of age and whole years of Credited Service as of January 1, 2001 is at least 47.
Vesting Service:	Elapsed time; one year of service is earned for each consecutive 12 month period. Fractional years of Vesting Service will be credited to the completed month.
Credited Service:	Elapsed time; one year of service is earned for each consecutive 12 month period. Fractional years of Credited Service will be credited to the completed month. For Non-Transition Participants, no Credited Service will be earned after December 31, 2000. For Transition Participants, no Credited Service will be earned after December 31, 2010.
Normal Retirement Date:	The first day of the calendar month coincident with or next following the later of age 65 and the 5th anniversary of participation in the plan.
Early Retirement Date:	Any Participant who has earned at least 10 years of Vesting Service may elect early retirement on the first day of any calendar month on or after age 55.

Annual Benefits Paid Upon the Following Events

Normal Retirement Benefit:	Non-Transition Participant: The frozen Normal Retirement Benefit as of December 31, 2000 as provided under the former Salaried Plan, Augusta Plan, or Russia/Hialeah Plan. Benefit accruals ceased effective December 31, 2000. Transition Participant: The sum of (i) the frozen Normal Retirement Benefit as of December 31, 2000 as provided under the former Salaried Plan, Augusta Plan, or Russia/Hialeah Plan and (ii) the Transition Benefit. Benefit accruals ceased effective December 31, 2010.
Transition Benefit:	The Transition Benefit is the lesser of (a) and (b).

- (a) The sum of (1) and (2):
 (1) The Applicable Accrual Percentage, times Final Average Monthly Compensation, times Future Years of Credited Service
 (2) The Applicable Accrual Percentage, times Final Average Monthly Compensation in excess of Monthly Covered Compensation, times Future Years of Credited Service subject to the 35-year limit
(b) 1.5% times Final Average Monthly Compensation, times Future Years of Credited Service

Early Retirement Benefit: Normal Retirement Benefit reduced by 1/180th for each of the first 60 months and 1/360th for each of the next 60 months that commencement precedes Normal Retirement Date.

Disability Benefits: Former Salaried Plan Participants: If a participant becomes totally and permanently disabled prior to retirement, he shall be eligible to receive an immediate monthly benefit if he has completed 10 years of Vesting Service. The amount of the benefit shall be the Normal Retirement Benefit reduced for early commencement.

Former Augusta Plan or Russia/Hialeah Plan Participants: If a participant becomes totally and permanently disabled prior to retirement, he shall be eligible to receive an immediate monthly benefit if he has completed 10 years of Vesting Service and attained age 50. The amount of the benefit shall be the Normal Retirement Benefit unreduced for early commencement.

Death Benefits: If a participant dies prior to commencement of benefits, his surviving spouse, if any, will be eligible to receive a monthly benefit if he is vested in his Normal Retirement Benefit. The amount of the survivor benefit shall be the same amount as though the participant had terminated employment, survived to his earliest retirement age, retired with a Joint and 50% Survivor annuity, and died the next day.

Forms of Payment

Normal Form: Annuity payable for life.

Optional Forms: Joint and Survivor Annuity with 50%, 75%, or 100% continued to the beneficiary; Life Annuity with 120, 180, or 240 monthly payments guaranteed.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
