Marmon Consolidated Retirement Plan

Notes to Financial Statements December 31, 2014 and 2013

Note 1 - Plan Description

The following description of Marmon Consolidated Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan document with supplements and related union agreements, if applicable, for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering certain participants of the Participating Employers (the "Companies"). Eligibility is based on the provisions set forth in the applicable supplement for each Participating Employer. Participant eligibility to make 401(k) and after-tax contributions, if allowed, ranges from the completion of one hour of service to the completion of one year of service. Two supplements are frozen to new participants. Participant eligibility to receive employer contributions, if allowed, ranges from the completion of one hour of service to the completion of one year of service. Additional employer contribution eligibility requirements vary by supplement and potentially include a last day rule. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Contributions are based on the provisions and limitations set forth in the applicable supplement for each participating employer. If provided in the applicable supplement, the Plan provides for employee salary 401(k) contributions up to the maximum tax-deferred limitations established by the Internal Revenue Code. Maximum employee 401(k) percentage of annual compensation varies by supplement and ranges from 6 percent to 60 percent. If provided in the applicable supplement, the Plan allows participants to contribute a portion of their compensation on an after-tax basis. Maximum after-tax percentage of annual compensation varies by supplement and ranges from 10 percent to 30 percent. If provided in the applicable supplement, participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

If provided in the applicable supplement, the Plan provides for employer matching contributions ranging from 15 to 50 percent of the participant's contribution not to exceed 5 or 6 percent of the employee's deferred compensation depending on the applicable supplement or, for one supplement, 50 percent to 100 percent of the first \$7 or \$15 of after-tax contributions contributed by the participant each week.

If provided in the applicable supplement, the Plan also allows for employer discretionary contributions, as determined based on each supplement, and are allocated either on a flat dollar amount per employee or on a per share (hours worked) basis ranging from \$0.02 to \$2.43 per share.

Marmon Consolidated Retirement Plan

Notes to Financial Statements December 31, 2014 and 2013

Note 1 - Plan Description (Continued)

Participant Accounts - Each participant's account is credited with the participant's contribution, allocations of the Companies' contributions, if applicable, and plan earnings, and charged with an allocation of administrative expenses. Depending on the type of allocation, allocations are based on the participant's compensation, hours worked, deferrals, transactions, or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Benefit Payments - Distributions are payable upon retirement, death, disability, or termination of employment. If provided in the applicable supplement, the Plan allows 59½ and after-tax withdrawals. Based on the applicable supplement, a participant's vested account will be paid in the form of a lump sum or annuity.

Hardship Withdrawals - If provided in the applicable supplement, the Plan allows for participants to request that all or a portion of their account be distributed in the case of severe financial hardship, as defined in the plan document.

Vesting - Participants are immediately 100 percent vested in employee 401(k), after-tax, and rollover contributions and any income or loss thereon. Vesting in the Companies' contribution portion of their accounts, plus actual earnings thereon, is based on years of service, as defined by the plan document and supplements. Participants' vesting varies based on the applicable supplement and range from zero percent vesting each year becoming 100 percent vested after three years of service to a percentage of vesting for each year of service becoming 100 percent vested after six years of service.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions.

Participant Notes Receivable - If provided in the applicable supplement, the Plan allows participants to borrow from their accounts a minimum of \$500 or \$1,000 up to a maximum of 50 percent of their account balance, not to exceed \$50,000. The participant notes receivable are secured by the balance in the participant's account and bear interest at rates equal to the prevailing rates as determined periodically by the plan administrator. Principal and interest are paid ratably through payroll deductions. A participant may not have more than one note receivable outstanding at any time.

Marmon Consolidated Retirement Plan

Notes to Financial Statements December 31, 2014 and 2013

Note 1 - Plan Description (Continued)

Termination - While the Marmon Retirement Administrative Committee has not expressed any intent to do so, the Marmon Retirement Administrative Committee, solely and without consent of the Companies, has the right under the Plan to terminate the Plan subject to the provisions set forth in the plan document, related union agreements, and ERISA. While the Companies have not expressed any intent to do so, the Companies have the right under the Plan to discontinue their contributions at any time subject to the provisions set forth in the plan agreement, related union agreements, and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value except as noted below. The stable value common collective trust fund investment is valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the stable value common collective trust fund is based on the fair value of the underlying net assets at the measurement date by the issuer of the fund. The stable value common collective trust fund primarily holds synthetic guaranteed investment contracts, which hold portfolios of fixed-income securities with wrap contracts. The fair value of the fixed-income securities is valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve as well as other relevant economic measures. The fair value of wrapper contracts provided by the contract issuer is based on the replacement cost methodology which is the present value of the difference between the replacement wrapper fee and the contracted wrapper fee. The remaining common collective trust funds are valued at net asset value per share (or its equivalent) of the funds, which are based on the fair value of the funds' underlying net assets.

All other investments are valued based on quoted market prices. See Note 5 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Marmon Consolidated Retirement Plan

Notes to Financial Statements December 31, 2014 and 2013

Note 2 - Summary of Significant Accounting Policies (Continued)

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Companies or the plan sponsor.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including October 6, 2015, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Reliance Trust Company (the "Trustee") holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Trustee.

Marmon Consolidated Retirement Plan

Notes to Financial Statements December 31, 2014 and 2013

Note 3 - Unaudited Information (Continued)

Investments that exceed 5 percent of end of year net assets are as follows:

	2014	2013
Mutual funds - At fair value:		
American Funds Europacific Growth Fund - R6	\$ 10,049,914	\$ 9,217,398
Dodge & Cox Common Stock Fund	7,816,839	7,383,067
PIMCO Total Return Institutional Fund	8,315,684	7,681,002

Vanguard Employee Benefit Index Fund - At fair value	15,108,567	13,509,600

Note 4 - Tax Status

The Plan has received a determination letter dated July 20, 2015 from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code. Accordingly, no provision for income taxes has been made in the accompanying statements.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2011.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2014 and 2013.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Marmon Consolidated Retirement Plan

Notes to Financial Statements December 31, 2014 and 2013

Note 5 - Fair Value Measurements (Continued)

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

If provided in the applicable supplement, the Plan provides for employee salary 401(k) contributions up to the maximum tax-deferred limitations established by the Internal Revenue Code. Maximum employee 401(k) percentage of annual compensation varies by supplement and ranges from 6 percent to 60 percent. If provided in the applicable supplement, the Plan allows participants to contribute a portion of their compensation on an after-tax basis. Maximum after-tax percentage of annual compensation varies by supplement and ranges from 10 percent to 30 percent. If provided in the applicable supplement, participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

If provided in the applicable supplement, the Plan provides for employer matching contributions ranging from 15 to 50 percent of the participant's contribution not to exceed 5 or 6 percent of the employee's deferred compensation depending on the applicable supplement or, for one supplement, 50 percent to 100 percent of the first \$7 or \$15 of after-tax contributions contributed by the participant each week.

If provided in the applicable supplement, the Plan also allows for employer discretionary contributions, as determined based on each supplement, and are allocated either on a flat dollar amount per employee or on a per share (hours worked) basis ranging from \$0.02 to \$2.43 per share.

Notes to Financial Statements December 31, 2014 and 2013

Note 1 - Plan Description (Continued)

Participant Accounts - Each participant's account is credited with the participant's contribution, allocations of the Companies' contributions, if applicable, and plan earnings, and charged with an allocation of administrative expenses. Depending on the type of allocation, allocations are based on the participant's compensation, hours worked, deferrals, transactions, or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Benefit Payments - Distributions are payable upon retirement, death, disability, or termination of employment. If provided in the applicable supplement, the Plan allows 59½ and after-tax withdrawals. Based on the applicable supplement, a participant's vested account will be paid in the form of a lump sum or annuity.

Hardship Withdrawals - If provided in the applicable supplement, the Plan allows for participants to request that all or a portion of their account be distributed in the case of severe financial hardship, as defined in the plan document.

Vesting - Participants are immediately 100 percent vested in employee 401(k), after-tax, and rollover contributions and any income or loss thereon. Vesting in the Companies' contribution portion of their accounts, plus actual earnings thereon, is based on years of service, as defined by the plan document and supplements. Participants' vesting varies based on the applicable supplement and range from zero percent vesting each year becoming 100 percent vested after three years of service to a percentage of vesting for each year of service becoming 100 percent vested after six years of service.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions.

Participant Notes Receivable - If provided in the applicable supplement, the Plan allows participants to borrow from their accounts a minimum of \$500 or \$1,000 up to a maximum of 50 percent of their account balance, not to exceed \$50,000. The participant notes receivable are secured by the balance in the participant's account and bear interest at rates equal to the prevailing rates as determined periodically by the plan administrator. Principal and interest are paid ratably through payroll deductions. A participant may not have more than one note receivable outstanding at any time.

Note 1 - Plan Description (Continued)

Termination - While the Marmon Retirement Administrative Committee has not expressed any intent to do so, the Marmon Retirement Administrative Committee, solely and without consent of the Companies, has the right under the Plan to terminate the Plan subject to the provisions set forth in the plan document, related union agreements, and ERISA. While the Companies have not expressed any intent to do so, the Companies have the right under the Plan to discontinue their contributions at any time subject to the provisions set forth in the plan agreement, related union agreements, and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value except as noted below. The stable value common collective trust fund investment is valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the stable value common collective trust fund is based on the fair value of the underlying net assets at the measurement date by the issuer of the fund. The stable value common collective trust fund primarily holds synthetic guaranteed investment contracts, which hold portfolios of fixed-income securities with wrap contracts. The fair value of the fixed-income securities is valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve as well as other relevant economic measures. The fair value of wrapper contracts provided by the contract issuer is based on the replacement cost methodology which is the present value of the difference between the replacement wrapper fee and the contracted wrapper fee. The remaining common collective trust funds are valued at net asset value per share (or its equivalent) of the funds, which are based on the fair value of the funds' underlying net assets.

All other investments are valued based on quoted market prices. See Note 5 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to Financial Statements December 31, 2014 and 2013

Note 2 - Summary of Significant Accounting Policies (Continued)

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Companies or the plan sponsor.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including October 6, 2015, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Reliance Trust Company (the "Trustee") holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Trustee.

Note 4 - Tax Status

The Plan has received a determination letter dated July 20, 2015 from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code. Accordingly, no provision for income taxes has been made in the accompanying statements.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2011.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2014 and 2013.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Marmon Consolidated Retirement Plan

Notes to Financial Statements December 31, 2014 and 2013

Note 5 - Fair Value Measurements (Continued)

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Vanguard Employee Benefit Index Fund - At fair value	15,108,567	13,509,600

Note 4 - Tax Status

The Plan has received a determination letter dated July 20, 2015 from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code. Accordingly, no provision for income taxes has been made in the accompanying statements.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2011.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2014 and 2013.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Notes to Financial Statements December 31, 2014 and 2013

Note 5 - Fair Value Measurements (Continued)

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Fee and Compensation Disclosure Report

This document is intended to assist a plan administrator (“you”) in completing the Form 5500 Schedule C1 by identifying different types of compensation paid with respect to the MassMutual product utilized by your plan.

As permitted under the Schedule C rules, compensation is disclosed in the attached report as an actual dollar amount, an estimate or a formula or rate.

- Where an actual dollar amount of compensation is disclosed, no further notation regarding compensation calculations is generally provided.
- Where an estimate of the compensation amount is disclosed, we have used a reasonable method to arrive at the estimate and we have described the method used to arrive at the estimated amount.
- Where a formula or rate is provided to report compensation, we have used a reasonable method to arrive at the estimate and we have described the method used to arrive at the estimated amount. This formula or rate may be disclosed to describe the compensation to which it applies under the Schedule C rules. Alternatively, for purposes of Schedule C disclosure or in connection with your fiduciary review of the compensation paid with respect to the services, products and investment options utilized by the plan, you may calculate and disclose an actual or estimated dollar amount by multiplying the rate by the total assets to which it applies.

Please note that, unless otherwise indicated in the descriptions contained in this report, direct compensation is presented on a plan year basis 01/01/2014 - 12/31/2014 and indirect compensation is presented on a calendar year basis ending 12/31/2014.

This report includes compensation actually paid to or by the MassMutual within the indicated plan year as part of your MassMutual-serviced product. *(Note: If the plan year period or plan year end indicated in this Schedule C reporting package is incorrect, please notify your MassMutual customer service representative immediately).* This report does not include amounts deducted from plan assets and paid to third parties (other than MassMutual). In addition, the report does not include compensation related to investments held by the plan that are not serviced on our recordkeeping system. You should contact your other service providers for reportable compensation information. You may also receive information on the compensation reported here from other service providers as is described below.

Please note that we have provided suggested service codes with respect to services provided through our product. Please review all Schedule C and other Form 5500 materials with your experienced benefits counsel and other professionals to determine the most appropriate codes for your plan. In addition, please note that because plans with fewer than 100 participants (as of the beginning of the plan year) are generally not required to file Schedule C, you should refer to the instructions provided by the IRS for Schedule C and/or review the applicability of Schedule C to your plan with your experienced tax/benefits counsel, to determine whether it is necessary for the plan to report the information contemplated by this report.

Please contact your MassMutual Service Team should you require additional information regarding the compensation paid to or by MassMutual with respect to your plan.

Information provided in this document and related materials we provide are not intended to be and shall not be deemed tax advice, tax form preparation services, legal advice, advice to plans regarding compliance with ERISA reporting compliance, or accounting or other professional services. As described above, the information contained in this report may not cover all of the compensation received by the plan’s service providers. We strongly encourage you to review all Schedule C and other Form 5500 materials with experienced benefits counsel and other professionals.

¹ Please refer to the Schedule C of the Form 5500 and its instructions (available at: <http://www.dol.gov/ebsa/5500main.html>), and please confer with experienced benefits counsel and other professionals, to determine the applicability of Schedule C to your plan.

Indirect Compensation

Float compensation	Payor: Reliance Trust Company	EIN: 58-1428634	\$425.41
---------------------------	-------------------------------	-----------------	-----------------

This is an estimate based on the average annual rate of float compensation (0.17% for 2014) earned on certain processing bank accounts for the 2014 calendar year multiplied by an estimate of the assets related to uncashed checks.* This estimate does not include float earned for any other reason (e.g., if amounts remitted to MassMutual cannot be immediately invested because they are not in good order). Please review or request a copy of the current float disclosure for more information about the other circumstances in which float is earned.

* A complete listing of distribution checks that remain outstanding is available on the Retirement Plan Access web site under the Standard Reports section (Report R03998-Outstanding Distribution Checks). Uncashed check assets will continue to remain in a float-earning bank account until such time direction is received from the Plan Sponsor, subject to applicable regulation. The Plan Sponsor should consult with the Plan's/Plan Sponsor's tax advisor or benefits counsel to determine if assets attributable to uncashed checks should be included on the Form 5500 filing.

Non Monetary Compensation

Please note that items of nonmonetary compensation need to be reported for Schedule A or C (Form 5500) purposes if they exceed certain *de minimus* amounts. Transactions generating nonmonetary compensation may include gifts, gratuities, or certain types of in-kind benefits. MassMutual's Code of Ethics and Business Conduct generally restricts MassMutual employees from giving to or receiving gifts from customers and/or business partners having a value of over \$100, in any individual situation, without prior approval. However, it is possible that one or more of your service providers for the calendar year, including MassMutual, engaged in transactions generating nonmonetary compensation. Information concerning reportable transactions undertaken between or among non-MassMutual parties may not be available to The MassMutual.

Please consult with your legal or tax advisors if you have any questions.

The list includes any investment option held by the plan on at least one month end during the 2014 calendar year. To arrive at an estimate of the dollar amount that MassMutual received from each fund, multiply the rate of fees received from each fund by your plan's year-end balance (or if the fund was liquidated prior to year end, the balance on the liquidation date) and, if applicable, the per participant fee by the number of participants in the fund at year end (or the liquidation date if earlier). This will be an estimate because your plan's balance and number of participants will vary over the course of the year, so the year-end balance and number of participants may be higher or lower than the daily balance. In addition, these fees are calculated on a daily basis.
