Orlando Bathing Suit, LLC 401(k) Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Orlando Bathing Suit, LLC 401(k) Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by Standard Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the custodian as of December 31, 2014 and 2013, and for the year ended December 31, 2014, that the information provided to the Plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule H, line 4i - assets (held at end of year) as of December 31, 2014, and schedule H, line 4a - delinquent participant contributions, are required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. DESCRIPTION OF PLAN

The following description of the Orlando Bathing Suit, LLC 401(k) Plan (the "Plan") provides only general information. For a more complete description of the Plan's provisions, refer to the Plan document.

General

The Plan is a defined-contribution plan covering all employees of Orlando Bathing Suit, LLC (the "Company" or "Plan Sponsor"), except for union employees and nonresident aliens, who have completed three consecutive months of service or, if earlier, one year of service, as defined, and are age 21 or older. Participants are able to enter the Plan on the first day of the Plan year or the first day of the seventh month of the Plan year. Additionally, the Plan excludes employees who are bonafide residents of Puerto Rico from Plan participation. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Participant Contributions

Each year, participants may contribute up to 100% of pretax annual compensation and Roth 401(k) contributions, as defined in the Plan, not to exceed the limits under Internal Revenue Code ("IRC") Sections 401(k), 404 and 415. Participants who have attained age 50 before the end of the Plan year are eligible to make catchup contributions. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and a guaranteed investment contract as investment options for participants.

A participant may, with the consent of the Plan administrator, make a rollover contribution to the Plan at any time. Rollover contributions are assets transferred to the Plan from a qualified savings plan in which an employee participated prior to their employment by the Company.

Employer Contributions

The Company may make discretionary matching contributions based on participants' elective deferrals. In addition, the Company may make discretionary profit sharing contributions to the Plan. No discretionary employer matching or profit sharing contributions were made to the Plan for the year ended December 31, 2014.

Participants' Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants

The Plan provides that loans can be made to participants in amounts up to 50% of an employee's vested account balance, limited to $50,000, with the remaining 50% securing the loan. Interest on the loan is charged at a rate commensurate with local prevailing rates. The maximum term for loans is generally five years.

When a loan is made, the employee's account is charged, thereby reducing the balance in the employee's account, which earns income.

The repayment of the loan, including interest, is credited to the specific employee account as received (i.e., the interest paid on the loan is all credited to the account of the individual borrower).

1. DESCRIPTION OF PLAN (CONTINUED)

Notes Receivable from Participants (continued)

If a participant fails to make a payment when a loan is due under the terms of the loan, that participant will be in default. In the event of default, the loan shall become due and payable immediately and interest will continue to accrue until the entire loan balance is repaid. The Plan will take all reasonable actions to collect the balance owed on the loan. Under certain circumstances, the loan in default could be considered a distribution from the Plan and could be considered income to the participant. In any event, failure to repay a loan will reduce the benefit to which a participant would otherwise be entitled from the Plan.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's discretionary matching and profit sharing contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after five years of credited service.

Participant Distributions

Upon termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the participant's vested interest in his or her account or annual installments as determined at the time of distribution. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Further, hardship withdrawals may be authorized by the Company for the following reasons: a) to assist in purchasing a primary residence; b) to assist in paying post-secondary school tuition expenses for the participant and dependents for the next 12-month period; c) to assist in paying medical expenses for the participant and dependents that are not covered by insurance; d) to prevent eviction or foreclosure on the participant's principal residence; e) to assist in paying funeral expenses of a parent, spouse, or dependents; f) to assist in paying for repairs of the participant's principal residence that would qualify for a casualty loss deduction. Participants taking a hardship withdrawal may not make voluntary contributions to the Plan for six months.

Forfeited Accounts

Upon termination of a participant's employment, the non-vested portion of his or her account is forfeited. Forfeitures may be used to offset administrative expenses of the Plan, or may be used to reduce employer discretionary matching and profit sharing contributions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements were prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 11 for discussion of fair value measurements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition (continued)
Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Fair Value Measurements
Financial Accounting Standards Board Accounting Standards Codification ("FASB ASC") 820, *Fair Value Measurement*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Under this standard, fair value is defined as the exit price, or the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date.

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and, inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits
Benefits are recorded when paid.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Other

Substantially all administrative expenses are paid by the Company.

Fully Benefit-Responsive Investment Contracts

While Plan investments are presented at fair value in the statements of net assets available for benefits, any material difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment in the statements of net assets available for benefits, because contract value is the relevant measure attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to the contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds a direct interest in a fully benefit-responsive contract through its investment in a guaranteed investment contract at December 31, 2014 and 2013.

New Accounting Pronouncement

In July 2015, the FASB issued Accounting Standards Update ("ASU") No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* ASU No. 2015-12 simplifies accounting for employee benefit plans as follows: (i) fully benefit-responsive investment contracts will be measured, presented and disclosed at contract value, (ii) the requirement to disclose investments that represent 5 percent or more of net assets available for benefits has been eliminated, (iii) the net appreciation or depreciation in investments for the period should be presented in the aggregate, but is no longer required to be disaggregated and disclosed by general type, (iv) investments (both participant-directed and nonparticipant-directed investments) will be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways, (v) if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820, and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy will no longer be required, and (vi) permits plans to measure (as a practical expedient) benefit plan assets on a month-end date nearest to the employer's fiscal year end when the fiscal period does not coincide with a month end. All provisions under FASB ASU No. 2015-12 will be effective for fiscal years beginning after December 15, 2015, with early application permitted. Plan's management is in the process of evaluating the impact of this new guidance on its financial statements.

In May 2015, the FASB issued ASU 2015-07, *Fair Value Measurement (Topic 820).* The new guidance removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. Investments that are measured at net asset value per share (or its equivalent) but for which the practical expedient is not applied, will continue to be included in the fair value hierarchy. The update also eliminates the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using the net asset value per share practical expedient. This guidance will be effective for fiscal years beginning after December 15, 2016, with early adoption permitted. Plan's management is in the process of evaluating the impact of this new guidance on its financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Subsequent Events

In accordance with FASB ASC 855, *Subsequent Events*, the Plan has evaluated subsequent events through August 26, 2015, the date on which these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

3. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

4. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants are entitled to the entire amount of their account.

5. TAX STATUS

The Plan uses a prototype plan document sponsored by Sungard Business Systems, LLC ("Sungard"). Sungard received an opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2008, which states that the prototype document satisfied the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. Although the Plan has been amended since the third-party administrator received its opinion letter from the IRS for the prototype plan adopted by the Plan, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by federal taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to tax examinations for years prior to 2011.

6. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 as of December 31, 2014 and 2013:

	2014	2013
Net assets available for benefits per the financial statements	$ 674,325	$ 821,870
Add: excess contributions payable	30,340	51,705
Net assets available for benefits per Form 5500	$ 704,665	$ 873,575

6. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500 (CONTINUED)

The following is a reconciliation of the decrease in net assets available for benefits per the financial statements to Form 5500 for the year ended December 31, 2014:

	2014
Decrease in net assets available for benefits per the financial statements	$ (147,545)
Add: current-year excess contributions payable	30,340
Less: prior-year excess contributions payable	(51,705)
Decrease in net assets available for benefits per Form 5500	$ (168,910)

7. INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The following tables summarize investment and other asset information regarding the Plan as of December 31, 2014 and 2013, and for the year ended December 31, 2014, included in the Plan's financial statements and supplemental schedule, that was prepared by, or derived from, information prepared by Standard Insurance Company ("Standard"), the custodian, and furnished to the Plan administrator. The Plan administrator has obtained certifications from Standard that such information is complete and accurate.

	2014	2013
Assets:		
Investments greater than 5% of net assets:		
Standard Mainstay Map I	$ 117,497	$ 114,843

Total investments	$ 698,067	$ 867,381

Investment income consisted of the following for the year ended December 31, 2014:

Pooled separate accounts	$ 44,137
Guaranteed investment contract	25
Net appreciation in fair value of investments	$ 44,162

8. PARTY-IN-INTEREST TRANSACTIONS

Substantially all of the Plan's investments consist of pooled separate accounts and a guaranteed investment contract managed by the trustees. Accordingly, these transactions qualify as party-in-interest transactions and are denoted as such on the supplemental schedule of assets.

9. NET ASSET VALUE PER SHARE

The following tables set forth a summary of the Plan's investments with a reported net asset value ("NAV") per share at December 31, 2014 and 2013:

	Fair Value Estimated Using NAV per Share December 31, 2014

Foreign large blend funds (p)	64,623	-	Daily	None	None
Total	$ 867,381	$ -			

The fair values of the investments have been estimated using the NAV of the investments:

(a) The stable value fund seeks to achieve a stable unit value, a competitive current return, a high-quality diversified portfolio, and liquidity by investing in high-quality insurance company and bank investment contracts, private placements, money markets, and other investments.

(b) The target date funds seek the highest total return over time consistent with an emphasis on both capital growth and income. The funds invest in a broad range of underlying mutual funds that include stocks, bonds, and short-term investments and are subject to the risks of different areas of the market. The funds emphasize potential capital appreciation during the early phases of retirement asset accumulation, balance the need for appreciation with the need for income as retirement approaches, and focus more on income and principal stability during retirement.

9. NET ASSET VALUE PER SHARE (CONTINUED)

(c) The conservative allocation fund seeks the highest total return over time consistent with an emphasis on both capital growth and income. The fund's "Neutral allocations," which are what T. Rowe Price considers broadly appropriate for investors seeking a static asset allocation during their retirement years, are 40% stock funds and 60% bond funds. These allocations are intended to provide lower market risk for investors desiring lower portfolio volatility near retirement.

(d) The moderate allocation funds seek above average income consistent with the prudent employment of capital. A secondary objective is the reasonable opportunity for growth of capital and income. The funds normally invest in equity securities and debt instruments.

(e) The bond funds seek maximum total return, consistent with preservation of capital and prudent investment management. The funds normally invest at least 65% of their total assets in a diversified portfolio of Fixed Income Instruments of varying maturities, which may be represented by forwards or derivatives such as options, futures contracts, or swap agreements. "Fixed Income Instruments" include bonds, debt securities and other similar instruments issued by various U.S. and non-U.S. public- or private-sector entities.

(f) The small value funds seek to track the performance of a benchmark index that measures the investment return of small-capitalization value stocks.

(g) The small blend funds seek long-term growth of capital. Investing primarily in common stocks of small-cap companies that management believes can generate sustainable growth in revenue, earnings and cash flow that is not fully reflected in investor expectations or equity valuations.

(h) The small growth funds seek long-term capital growth by investing primarily in common stocks of small, rapidly growing companies.

(i) The mid-cap value funds seek growth from capital appreciation. Under normal circumstances, the funds invest at least 80% of their assets in equity securities of mid-cap companies.

(j) The mid-cap blend funds seek to track the performance of a benchmark index that measures the investment return of mid-capitalization stocks.

(k) The mid-cap growth funds seek to track the performance of a benchmark index that measures the investment return of mid-capitalization growth stocks.

(l) The large value funds seek long-term growth of capital and income. The funds normally invest at least 80% of their net assets (plus borrowings made for investment purposes) in common stocks and other equity securities of companies that pay or are expected to pay dividends. They normally invest primarily in common stocks of companies with market capitalizations greater than $3.5 billion. The funds may invest in real estate investment trusts and in non-U.S. securities, including emerging market securities.

9. NET ASSET VALUE PER SHARE (CONTINUED)

(m) The large blend funds seek total return. The funds invest at least 80% of their net assets (plus borrowings for investment purposes) in equity securities of companies included in the S&P 500 Index or equity securities of companies that are representative of the index (including derivatives). They invest principally in common stock and employ a "passive management" approach designed to track the performance of the index, which is dominated by stocks of large U.S. companies.

(n) The large growth funds seek long-term growth of capital, and secondarily, increasing dividend income. The funds normally invest at least 80% of their assets in common stocks. They may also purchase foreign stocks, hybrid securities, futures, and options. The portfolio may also lend portfolio securities on a short-term or long-term basis, up to 33% of assets.

(o) The foreign large growth funds seek long-term growth of capital and income. The funds normally pursue their objective by investing in a diversified portfolio consisting primarily of equity securities of established companies either located outside of the United States or whose primary business is carried on outside the United States.

(p) The foreign large blend funds seek long-term capital appreciation. The funds invest primarily in a diversified portfolio of common stocks of non-U.S. companies. The funds may invest in non-U.S. markets throughout the world, including emerging markets.

10. EXCESS PARTICIPANT CONTRIBUTIONS PAYABLE

At December 31, 2014 and 2013, substantially all of the excess participant contributions payable consist of payments due to certain participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provision of the Plan. At December 31, 2014 and 2013, excess contributions amounting to $30,340 and $51,705, respectively, are recorded as liabilities in the accompanying statements of net assets available for benefits and are recorded as deductions of net assets in the statement of changes in net assets available for benefits for the year ended December 31, 2014. The Plan reimbursed excess contributions to its participants during March of 2015 and 2014.

11. FAIR VALUE MEASUREMENTS

Assets and liabilities measured at fair value are based on one or more of three valuation techniques identified in the tables below. The valuation techniques are as follows:

(a) *Market approach.* Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities;

(b) *Cost approach.* Amount that would be required to replace the service capacity of an asset (replacement cost); and

(c) *Income approach.* Techniques to convert future amounts to a single present amount based on market expectations (including present value techniques, option-pricing and excess earnings models).

11. FAIR VALUE MEASUREMENTS (CONTINUED)

The following tables summarize the Plan's assets measured at fair value on a recurring basis, categorized by GAAP's valuation hierarchy as of December 31, 2014 and 2013:

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Pooled separate accounts: valued using the NAV provided by the custodian. The NAV is based on the value of the underlying assets owned by the trust, minus its liabilities, and then divided by the number of shares outstanding.

Guaranteed investment contracts: the fair value is calculated by discounting the related cash flows based on current yields of similar institutions with comparable durations.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

11. FAIR VALUE MEASUREMENTS (CONTINUED)

The table below includes a roll-forward for investments (including the change in fair value) classified by the Plan within Level 3 of the fair value hierarchy for the years ended December 31, 2014 and 2013:

	2014	2013
Balance, beginning of year	$ 4,777	$ 4,075
Interest	25	46
Fund transactions:		
Purchases	1,768	2,455
Sales	(2,323)	(2,110)
Transfer in	89	316
Transfer out	(619)	(5)
Balance, end of year	$ 3,717	$ 4,777

12. GUARANTEED INVESTMENT CONTRACTS WITH INSURANCE COMPANIES

The Plan entered into a fully benefit-responsive guaranteed investment contract with Standard named the Stable Asset Fund II (the "Fund"). Standard maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charges for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statements of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits, if material. Contract value, as reported to the Plan by the custodian, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The average yield based on actual earnings for the contract for the years ended December 31, 2014 and 2013, was 1.00%. The crediting interest rate to participants for the contracts as of December 31, 2014 and 2013, was 1.00%. The Fund makes this guarantee, and although the Fund may credit a higher interest rate, the credit rate will never fall below the lifetime guaranteed minimum of 1.00%.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. As of December 31, 2014 and 2013, the contract value was estimated to be $3,717 and $4,777, respectively, which approximates fair value. The market value adjustments were not shown on the statements of net assets available for benefits, as the adjustments were deemed to be immaterial in relation to the total net assets available for benefits as of December 31, 2014 and 2013. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

12. GUARANTEED INVESTMENT CONTRACTS WITH INSURANCE COMPANIES (CONTINUED)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.
