NOTE 1

PLAN DESCRIPTION

The following description of the CAD Enterprises, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan available to all employees of CAD Enterprises, Inc. (the Company) who have completed one year of service. A year of service is defined as a plan year during which an employee works at least 1,000 hours during the 12-month period following their hire date with the Company. The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 (ERISA). The effective date of the Plan is January 1, 2007.

Contributions:

The Plan provides that participants may contribute up to the limits prescribed in the Internal Revenue Code. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified retirement plans. The Company may contribute a match, a non-elective or discretionary amount, as determined and authorized by the Company. Additional profit sharing amounts may be contributed at the option of the Company. Contributions are subject to limitations.

In 2014, the Company made an employer profit sharing contribution equal to 7.5% of each participant's eligible compensation.

Participant accounts:

Each participant's account is credited with the participant's contribution and the Company's matching and profit sharing contribution. Realized and unrealized gains and losses, interest, and dividend income are adjusted based on participant account balances. The benefit to which a participant is entitled is the balance of the participant's vested account.

Vesting:

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's matching and profit sharing contributions and actual earnings thereon, are based on years of credited service. A participant is 20% vested after two years of credited service with an additional 20% vesting per year until the participant is 100% vested after six years of credited service. Additionally, participants become fully vested upon normal retirement as defined in the Plan document.

Investment options:

Participants may direct the investments in their accounts among alternative investment funds provided by the Plan. Participants may change their investment options at any time.

CAD ENTERPRISES, INC. 401(k) PLAN

Notes to Financial Statements

NOTE 1 (Continued)

PLAN DESCRIPTION

Notes receivable from participants:

Participants may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance from their fund account. The notes are secured by the balance in the participant's account and bear interest rates of 4.25%. The note must be repaid over a period not to exceed 5 years. Principal and interest are paid ratably through payroll deductions, if available.

Payment of benefits:

Benefits begin at retirement age, termination of employment, total and permanent disability, or death of the participant. Distribution of benefits can be made in one lump sum payment or could be rolled-over to an IRA provider or to another qualified retirement plan. If a participant terminates employment other than by retirement, disability or death, the vested portion of the participant's account may be distributed upon termination and anytime thereafter.

Forfeited accounts:

Forfeitures may be used by the Plan to reduce future employer profit sharing contributions or to pay plan administrative expenses. There were \$93,578 and \$57,989 of unallocated forfeitures as of December 31, 2014 and 2013, respectively which are unallocated.

NOTE 2

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the Plan's significant accounting policies follows:

Basis of accounting:

The financial statements of the Plan are prepared on the accrual basis of accounting.

Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See *Note 5* for discussion of fair value measurements.

CAD ENTERPRISES, INC. 401(k) PLAN
Notes to Financial Statements

NOTE 2 (Continued)
SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Investment valuation and income recognition (continued):

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The custodian nets interest and dividend income with the appreciation/depreciation of investments. This net appreciation/depreciation includes the Plan's realized and unrealized gains and losses on investments bought and sold as well as held during the year.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis. The custodian determined that contract value was deemed to approximate fair value at December 31, 2014 and 2013.

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014. If any participant loan remains unpaid for more than 90 days after due, the loan is determined to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits:

Benefits are recorded when paid.

Administrative expenses:

Administrative expenses of maintaining the Plan may be paid by the Company. The expenses that are paid from Plan assets are either shared by all participants or charged directly to the account of the participant on whose sole behalf the expense is incurred. Expenses paid by the Plan are included in net appreciation of fair value of investments.

Subsequent events:

Plan management has evaluated subsequent events through October 8, 2015, which is the date the financial statements were available to be issued.

NOTE 4 INFORMATION CERTIFIED AND PROVIDED BY THE CUSTODIAN

The following is a summary of the asset information as of December 31, 2014 and 2013, and for the year ended December 31, 2014, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by Transamerica Life Insurance Company (Transamerica), the custodian of the Plan, and furnished to the plan administrator. The plan administrator has obtained certifications from the custodian that the information provided to the plan administrator by the custodian related to the following investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule of assets (held at end of year) relating to the following assets as of December 31:

	<u>2014</u>	<u>2013</u>
Investment at fair value:		
Pooled separate accounts	\$ 2,364,366	\$ 1,820,631
Group annuity contract	\$ 848,101	\$ 787,254

Transamerica also certified to the completeness and accuracy of \$130,729 of net appreciation in fair value of investments and \$5,434 of interest income on notes receivable from participants for the year ended December 31, 2014. This net appreciation relates to realized and unrealized gains and losses on investments bought and sold as well as held during the year with interest and dividends.

NOTE 5

FAIR VALUE MEASUREMENT

Fair value measurements are based on a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Pooled separate accounts: Pooled separate account whose sole assets are underlying mutual funds is reported at fair value based on the quoted market prices of the underlying mutual funds. Pooled separate accounts that consist of investment funds made up of a variety of different investment assets are valued based on the aggregate fair value of the underlying assets. The units of these pooled separate accounts are not actively traded. Accordingly, each individual underlying asset is evaluated to determine where its fair value measurement falls within the fair value hierarchy. The entire pooled separate account fund is then included within the fair value hierarchy based on the lowest level of any asset, or group of assets, that is significant to the overall fair value measurement.

Group annuity contract: Valued at contract value, which approximated fair value, in light of the credit-worthiness of the issuer, Transamerica, and the frequent adjustment in the crediting interest rate (*Note 6*).

CAD ENTERPRISES, INC. 401(k) PLAN

Notes to Financial Statements

NOTE 5 (Continued) FAIR VALUE MEASUREMENT

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

GROUP ANNUITY CONTRACT

The Plan maintains a fully benefit-responsive guaranteed investment contract with Transamerica. Transamerica maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Transamerica, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract approximates contract value. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The aggregate average yield of the investment contracts for the years ended December 31, 2014 and 2013 was 1.60% and 1.70%, respectively. The crediting interest rate for the investment contracts as of December 31, 2014 and 2013 was 1.60% and 1.70%, respectively. The guaranteed investment contract does not permit the custodian to terminate the agreement prior to the scheduled maturity date.

NOTE 7
RELATED PARTY TRANSACTIONS

Certain Plan investments are managed by Transamerica. Transamerica is the custodian and record keeper as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services are included in net appreciation in fair value of investments.

Notes receivable from participants and the related interest income are considered related party transactions.

NOTE 8 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

NOTE 9 TAX STATUS

The Plan obtained its latest determination letter dated September 30, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in accordance with the applicable requirements of the Internal Revenue Code. The plan administrator believes that the Plan is being operated in compliance with the applicable requirements of the Internal Revenue Code.

The plan administrator has concluded that as of December 31, 2014 and 2013, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to examination by the Internal Revenue Service; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

NOTE 10 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market fluctuation and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
