NOTE 1 – DESCRIPTION OF PLAN

The following description of the Tool Flo 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

The Plan, which covers all employees of Tool Flo Manufacturing, Inc. (the Company), was established September 1, 1997, as a 401(k) profit sharing plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The amended and restated provisions of the Plan became effective on March 1, 2010. This restatement was made to conform the Plan to new tax laws and some provisions may be retroactively effective.

Eligibility – Qualifying employees may enter the Plan on the first day of each month of the Plan year after attaining 18 years of age and completing six months of service.

Contributions – Each year, participants may elect to contribute from 1% to 15% of their eligible earnings, not to exceed the maximum dollar amount allowed by law. Participants age 50 or older during the calendar year may also make catch-up contributions. Participants may increase or decrease their contribution percentage or suspend contributions at any pay date.

The Company may make a matching or nonelective contribution to the Plan. For 2014, the Company made a contribution of $110,019.

Rollover contributions are permitted from other eligible retirement plans and certain IRAs.

Participant Accounts – Each participant's account is credited with their contributions, rollovers, employer contributions, and an allocation of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their contributions and rollovers plus actual earnings thereon. Vesting in the employer contribution portion of their accounts plus actual earnings thereon is based on years of service, with participants becoming 100% vested at six years of credited service.

Investment Options – Participants direct the investment of their entire interest in the Plan into various investment securities offered by the Plan. The Plan currently offers collective investment trusts and mutual funds as investment securities with different investment objectives. Participants may modify investment elections, transfer existing account balances, and obtain information regarding their investments each business day.

Note Receivable From Participants – Loans are available to participants on a uniform and non-discriminatory basis. Participants may borrow from their vested account balance a minimum of $500 and up to 50% of their vested account balance in the Plan not to exceed $50,000, reduced by the highest outstanding loan balance during the previous 12-month period. The loans are adequately secured by the balance in the participant's account and bear interest at rates that are reasonable. Principal and interest payments are repaid through payroll deductions over a term not to exceed 5 years, unless the loan was obtained to acquire a primary residence.

Payment of Benefits – Upon termination of employment due to termination, death, disability, or retirement, a participant may elect to receive either a single lump-sum payment equal to the value of the participant's vested interest in their account or a direct rollover to a qualified plan or retirement account or annuity. The Plan is allowed to automatically rollover a participant's vested account into a qualified IRA if it is more than $1,000, but less than $5,000, the participant is not age 65, and the participant does not make a distribution election.

Account balances less than $1,000 will be paid in a single lump-sum payment. A participant may receive an in-service distribution upon reaching age 59½. Hardship withdrawals are governed by Internal Revenue Service (IRS) regulations and are only permitted for immediate and heavy financial hardship.

Forfeited Accounts – The non-vested portion of a participant's account balance is forfeited upon termination of employment. Forfeited amounts may first be used to pay Plan expenses and then used to offset employer contributions. At December 31, 2014, forfeited non-vested accounts totaled $342.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of Estimates – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See *Note 3* for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Other income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013.

Benefits Paid to Participants – Benefits are recorded when paid. As of December 31, 2014, there were no amounts allocated to participants who elected to withdraw from the Plan, but have not been paid.

Administrative Expenses – Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events – The Plan has evaluated subsequent events through October 1, 2015, the date the financial statements were available to be issued.

NOTE 3 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of hierarchy under FASB ASC 820 are described as follows:

- **Level 1** – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- **Level 2** – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- **Level 3** – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Cash Equivalent – Valued using pricing models maximizing the use of observable inputs for similar securities.

Collective Investment Trusts – Valued at the net asset value (NAV) of units of a collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. The practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily.

Mutual Funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

NOTE 4 – INFORMATION CERTIFIED BY TRUSTEE (UNAUDITED)

Investments and investment activities included in the accompanying statements of net assets available for benefits, the statement of changes in net assets available for benefits, *Note 5*, and the supplemental schedule have been certified as accurate and complete by State Street Bank and Trust Company, the trustee, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, under such election, the Company instructed the Plan's independent auditors not to perform auditing procedures with respect to this information, except for comparing the information to the information included in the financial statements and supplemental schedule.

NOTE 5 – INVESTMENTS (UNAUDITED)

At December 31, 2014 and 2013, all investments of the Plan were participant-directed. The following presents investments that represent 5% or more of the Plan's net assets at December 31:

	2014	2013
SSGA Cash Series US Govt L*	**$ -**	$ 280,942

PIMCO Total Return Fund – R	**-**	126,771

* Indicates a party in interest.

During 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

Collective trust funds	$ 82,225
Mutual funds	(47,775)
Net appreciation in fair value of investments	$ 34,450

NOTE 6 – COLLECTIVE INVESTMENT TRUSTS

The Plan entered into a fully benefit-responsive contract (Stable Value Fund) with ADP Retirement Services which invests in GICs, collateralized mortgage obligations, managed bond portfolios and cash. The Stable Value Fund seeks to achieve stability by preserving principal and accumulated earnings. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

Because the Stable Value Fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the Stable Value Fund. The Stable Value Fund is presented on the face of the statements of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits.

Contract value, as reported by the trustee, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. Certain events limit the ability of the Plan to transact at contract value with the issuer. The Company believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

NOTE 7 – RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

Certain Plan investments are managed by the trustee and, therefore, these transactions qualify as party in interest transactions. Such transactions are permitted under the provisions of the Plan and are exempt from the prohibited transactions rules under ERISA.

NOTE 8 – PLAN TERMINATION

While the Company hopes and expects to continue the Plan indefinitely, the Company reserves the right to terminate, discontinue making contributions to, amend, or modify the Plan at any time. Upon termination of the Plan, all participants will become 100% vested in their total account balance. The Company will arrange for distributions upon Plan termination as soon as administratively feasible.

NOTE 9 – TAX STATUS

The Company adopted a prototype standardized profit sharing plan with CODA sponsored by ADP Inc. The prototype plan obtained its latest opinion later on March 31, 2008, in which the IRS stated that the plan, as then designed, was acceptable under section 401 of the Internal Revenue Code (IRC) for use by employers for the benefit of their employees. The Plan has not requested its own determination letter from the IRS. Although the Plan has been amended since receiving the opinion letter, the Company believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires the Company to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 10 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the participants' account balances and the amounts reported in the statement of net asset available for benefits.

NOTE 11 – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2014 and 2013, to Form 5500:
