Retirement Savings Plan – Contract Employees
Notes to Financial Statements
December 31, 2014 and 2013

Note 1: Description of the Plan

The following description of Johnson Service Group, Inc. (Company) 401(k) Retirement Savings Plan - Contract Employees (Plan) is provided for general information purposes only. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA), as amended by subsequent legislation.

Transamerica Life Insurance Company acts as trustee of the Plan at December 31, 2014 and 2013, and for the years then ended.

During 2013, an employee's classification was changed, thus the employee was not eligible for participation in the Plan. Accordingly, the participant's account balance of $87,764 was transferred to the Johnson Service Group, Inc. 401(k) Retirement Savings Plan - Staff Employees.

Eligibility

Employees of the Company who are not participants of a collective bargaining unit are eligible to participate. A participant is eligible to enter the Plan after attaining 21 years of age.

Contributions

Each year participants may elect to contribute to the Plan a percentage of their annual compensation, as defined in the Plan. Contributions to the Plan can be classified as pre-tax or Roth contributions. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of all contributions into various pooled separate accounts investment options offered by the Plan. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of plan earnings, and charged with an allocation of applicable administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or installments, as provided for in the Plan. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts

Non-vested forfeited accounts are used to pay administrative expenses. During 2014 and 2013, $9 and $2,017, respectively, of forfeitures were used to pay administrative expenses. At December 31, 2014 and 2013, forfeited non-vested accounts totaled $4,483 and $4,489, respectively.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

The values of the Plan's investments in pooled separate accounts are based on their net asset values and as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan provides for investments that, in general are exposed to various risks such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that such changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Administrative Expenses

Certain administrative fees are paid by the Company on behalf of the Plan. Additionally, certain employees of the Company provide administrative and trustee services to the Plan and are not reimbursed by the Plan for such services. Administrative expenses paid by the Plan of $16,537 and $16,387 during 2014 and 2013, respectively, are recognized as incurred. Investment management fees are also netted in the net appreciation in fair value of investments.

Note 3: Information Certified by the Plan's Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Transamerica Life Insurance Company, the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

- Investments, at fair value, as shown in the statements of net assets available for benefits as of December 31, 2014 and 2013.
- Net appreciation in fair value of investments, as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2014 and 2013.
- The investments, at fair value, in the schedule of assets (held at end of year) as of December 31, 2014.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4: Investments

At December 31, 2014 and 2013, the following presents investments at fair value that represent 5% or more of the Plan's net assets:

	2014	2013
Aegon Cash Reserve	$ 458,519	$ 451,399
Alger Capital Appreciation Fund	308,572	213,498

Neuberger Berman Genesis Fund	*	208,644
Vanguard Small-Cap Value Index Fund	406,737	305,399
Invesco Small Cap Growth Fund	386,699	*

*Investment less than 5% of net assets available for benefits.

During 2014 and 2013, the Plan's investments in pooled separate accounts (including gains and losses on investments bought, sold and held during the year) appreciated in value by $188,681 and $632,014, respectively.

Note 5: Fair Value Measurements

Generally accepted accounting principles establish a uniform framework for the definition, measurement and disclosure of fair value measurements. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Generally accepted accounting principles also establish a fair value hierarchy which requires the plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

The fair value of participation units held by the Plan in pooled separate accounts is based on their net asset values, as reported by Transamerica Life Insurance Company and as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date. The fair values of pooled separate accounts that invest only in securities traded on nationally recognized securities exchanges and active dealer markets are classified within Level 2 of the fair value hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

		Fair Value Measurements at Reporting Date Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Investments in all pooled separate accounts held by the Plan may be redeemed daily, without prior notice, at the current net asset value per share based on the fair value of the underlying assets.

(a) This pooled separate account invests in U.S. dollar denominated money market investments with maturities less than 90 days.

(b) These pooled separate accounts invest in specific industries including real estate and developing markets investments.

(c) These pooled separate accounts consist of balanced and asset allocation funds. They seek reduction of capital risk while generating income by investing in a mix of stocks, bonds and cash that are actively managed to favor stability over growth.

(d) These pooled separate accounts invest in intermediate-term, fixed income investments.

(e) These pooled separate accounts invest in growth companies and international bonds with their principal place of business outside the U.S.

(f) These pooled separate accounts seek long-term capital growth by investing in common stocks of large and medium capitalization companies, derivative instruments and companies that appear to offer opportunities for capital growth.

(g) These pooled separate accounts invest in common stocks of small capitalization companies with strong earnings growth potential.

Note 6: Tax Status

The Company adopted a Volume Submitter 401(k) Profit Sharing Plan with a cash or deferral arrangement sponsored by Jennings Law Firm LTD, which received a favorable opinion letter from the Internal Revenue Service dated March 31, 2008, which stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. Although the prototype plan has been amended since receiving the opinion letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

Note 7: Related Party Transactions

Certain Plan investments are shares of pooled separate account managed by Transamerica Life Insurance Company. Transamerica Life Insurance Company is the trustee as defined in the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Note 8: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA.

Note 9: Subsequent Events

Plan management has evaluated subsequent events through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.
