Gray America Corp. Savings & Retirement Plan

Notes to Financial Statements

Note 1. Description of the Plan

The following description of the Gray America Corp. (the "Company" or "Employer") Savings & Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan was established January 1, 1994. The Plan is a defined contribution plan covering all employees of Gray America Corp., and its subsidiaries: L&H Threaded Rods Corp.; A-Lab Corp.; Scarlet & Gray Corp.; and New Dimension Metals Corp., who have attained age 21 on the Plan entry dates of January 1, April 1, July 1 or October 1. Leased employees are not eligible to participate. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA). The Plan was most recently restated effective April 1, 2011.

The Trustees are responsible for the oversight of the Plan, including determining the appropriateness of the Plan's investment offerings and monitoring investment performance. TransAmerica Life Insurance Company (TransAmerica) serves as the custodian of the Plan assets. Creative Retirement Solutions is the third party administrator and record keeper. No such officer or employee receives compensation from the Plan.

Contributions: Each year, participants may contribute up to 100 percent of eligible compensation, as defined in the Plan. Participants who have attained age 50 before the end of the year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company may also make discretionary matching contributions at an amount determined annually by management. All eligible participants of the Plan are eligible to receive the matching contribution. For 2014, the Company matched 50 percent of the participant's compensation deferred, with a maximum match of \$780.

In addition, the Company may make a discretionary annual profit sharing contribution, which is allocated to each eligible participant based on the ratio of the participant's compensation to the total compensation of all participants. Participants must complete 12 months of service to be eligible for the profit sharing contribution. The Employer profit sharing contribution was \$20,636 for the year ended December 31, 2014. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contributions and Company discretionary matching and profit sharing contributions, if any, as well as an allocation of Plan earnings. The contributions are allocated within each participant account based upon the participant's investment elections to the various fund options offered under the Plan. Administrative expenses are charged to individual accounts for specific participant-initiated transactions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions, plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is one hundred percent vested after six years of credited service.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$1,000, up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are collateralized by the balance in the participant's account. The loan interest rate, determined monthly, is set at 1 percent above the prime rate, as defined. Principal and interest is paid ratably through payroll deductions.

Gray America Corp. Savings & Retirement Plan

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

Payment of benefits: On termination of service due to death, disability, termination or retirement, a participant may elect a lump-sum amount equal to the value of the participant's vested interest in his or her account or elect to roll over the balance to an individual retirement account or another employer's tax qualified plan. In-service distributions are permitted once a participant has attained age 59½. Upon proof, to the satisfaction of the Plan Administrator, of an immediate and heavy financial need, amounts contributed may be withdrawn for a hardship purpose.

Forfeited accounts: At December 31, 2014 and 2013, forfeited nonvested accounts totaled \$5,377 and \$3,027, respectively. These accounts will be used to reduce administrative expenses of the Plan or any Employer contribution. During 2014, Employer contributions and administrative expenses were reduced by \$3,049 from forfeited nonvested accounts.

Note 2. Summary of Significant Accounting Policies

Basis of presentation: The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed at the beginning of the loan. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits: Benefits are recorded when paid

Expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and withdrawals are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent events: The Plan has evaluated subsequent events through October 13, 2015, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by the Plan's Custodian

The following is a summary of the Plan's asset information as of December 31, 2014 and 2013, and for the year ended December 31, 2014, included throughout the Plan's financial statements and supplemental schedule, that were prepared or derived from information provided by TransAmerica and that information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets. Investments that represent 5 percent or more of the Plan's net assets are separately identified.

	December 31,	
	2014	2014
Investments at fair value:		
American Funds Balanced Fund	\$1,009,023	\$ 648,647
American Funds Growth Fund of America Fund	348,121	308,129
Oppenheimer Global Fund	204,194	196,561
RidgeWorth Large Cap Value Equity Fund	145,496	126,739
Other investments, none greater than 5% of net assets available for benefits	851,482	723,360
Investments at contract value which approximate fair value:		
TransAmerica Stable Value Fund	<u>197,804</u>	<u>154,300</u>
	<u>\$2,756,120</u>	<u>\$2,157,736</u>

TransAmerica also certified to the completeness and accuracy of \$168,106 of net appreciation in fair value of investments for the year ended December 31, 2014.

During 2014, investments appreciated in value as follows:

- Pooled separate accounts
- Investment contract with insurance company

Note 4. Investment Contract with Insurance Company

During 2013, the Plan entered into an investment contract with TransAmerica. TransAmerica maintains the contributions in a general account, the Stable Value Fund. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. TransAmerica is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the Stable Value Fund is considered fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the Stable Value Fund. The Stable Value Fund is presented on the statement of net assets available for benefits at fair value which equals contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2014 was \$197,804. Prior to each January 1, and July 1, the effective annual rate of interest is established for the following six month period. Interest is credited based upon the daily balance at a rate that is the daily equivalent of the effective annual rate of interest applicable for the six month period. There is no stated minimum or maximum interest rate for the Stable Value Fund.

Gray America Corp. Savings & Retirement Plan

Notes to Financial Statements

Note 4. Investment Contract with Insurance Company (Continued)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include certain transfers, withdrawals for purposes other than benefits, or termination of the contract. The Plan Administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are not probable of occurring.

The Stable Value Fund does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average yields earned by the Stable Value Fund are as follows at December 31, 2014:

Average Yields:	
Based on actual earnings	.80%
Based on interest rate credited to participants	.80%

Note 5. Party-in-Interest Transactions

Certain investments are shares of mutual funds managed by TransAmerica Life Insurance Company. TransAmerica Life Insurance Company is the custodian of these Plan assets and, therefore, these transactions qualify as party-in-interest transactions.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become one hundred percent vested in their employer contributions.

Note 7. Tax Status

The Internal Revenue Service has determined and informed the Company by an opinion letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Gray America Corp. Savings & Retirement Plan

Notes to Financial Statements

Note 9. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the overall fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2014 and 2013.

Pooled separate accounts:

Valued based on the quoted market prices of the underlying securities of the account, with adjustments for dividend rates and a management fee. The underlying mutual funds are deemed to be actively traded and are valued based on the closing price as reported by the fund.

Investment contract with insurance company:

Valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (see Note 3). Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only.

The Plan was restated effective March 15, 2015 to incorporate provisions previously adopted by amendments.

Gray America Corp. Savings & Retirement Plan

Notes to Financial Statements

Note 11. Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board issued Accounting Standards Update No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. Plan management is currently evaluating the impact this update will have on the Plan's financial statements.

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 964) - (1) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this Update is to simplify plan accounting.

- The amendments in Part I of this Update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly, there will no longer be an adjustment from fair value to contract value on the face of the financial statements.
- The amendments in Part II of this Update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan*, as a direct filing entity, disclosure of that investment strategy will no longer be required.
- The amendments in Part III of this Update reduces complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The Update may be adopted in whole or by part (I, II and III), as applicable. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively.
