Note 1. Plan Description

The following description of the Boyd Corporation 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General and eligibility: Adopted February 3, 1998, the Plan is a defined contribution plan with a 401(k) arrangement covering substantially all employees of Boyd Corporation (the Company) who have attained one month of service, except for employees solely compensated under a collective bargaining agreement, nonresident aliens and independent contractors. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may contribute up to 20 percent of their eligible compensation for the year up to the statutory limit.

For the year ended December 31, 2014, the Company made discretionary matching contributions equal to 50 percent of each participant's deferrals up to a maximum of 6 percent of gross compensation. Participants must be employed by the Company on December 31 of each Plan year to receive their portion of the matching contribution, unless termination is due to death, disability or the attainment of age 65 (the Plan's normal retirement age). The Company made discretionary matching contributions of $339,559 for the year ended December 31, 2014.

The Company may also make an additional non-elective contribution, subject to certain statutory limits, which the Company's Board of Directors determines at its discretion. No non-elective contributions were made to the Plan for the year ended December 31, 2014.

Participant accounts: Each participant's account is credited with the participant's contributions, gains and losses on investments in the participant's account balance and allocations of (a) the Company's contribution and (b) participant loan administrative expenses, if applicable. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Notes receivable from participants: Participants may borrow from their fund accounts in amounts ranging from $1,000 to $50,000, but not in excess of 50 percent of the vested account balance. Loans are repaid at a reasonable rate of interest through payroll deductions within five years or, in the event the loan is used to acquire a principal residence, at a term not to exceed 15 years. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document. In the event payment is delinquent more than three months, the loan is considered to be in default.

Vesting: Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company matching and non-elective contributions is based on years of continuous service. Participants vest at a rate of 50 percent upon completion of one year of service and are completely vested after two years of service. Participants become fully vested upon death, disability or attainment of normal retirement age.

Payment of benefits: Upon termination of service, a participant may elect to receive benefits equal to the value of his or her vested account balance through a single lump-sum payment or on an installment basis. Terminated participants with vested account balances of $1,000 or less will be paid in a lump-sum cash amount.

Note 1. Plan Description (Continued)

Forfeitures: The Plan provides for forfeitures of terminating participants' nonvested accounts to be allocated to participants that are eligible for the discretionary matching contribution. For the year ended December 31, 2014, there were no forfeitures reallocated to participant accounts. Unallocated forfeitures as of December 31, 2014 and 2013 were $26,358 and $20,309, respectively.

Participant investment options: Participants must direct their contributions from salary deferrals and their allocated share of employer contributions into investment options as made available and determined by the Plan Administrator, which are more fully described in the Plan's literature.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Fair value measurements: The Plan's assets are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The authoritative guidance describes a fair value hierarchy based on three levels of inputs, of which the first two are considered observable and the last unobservable, that may be used to measure fair value.

The three levels of the fair value hierarchy under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820 are described below:

- Level 1: Quoted prices in active markets for identical assets or liabilities.
- Level 2: Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Valuation of investments: The Plan's investments are held by the Plan's trustee, State Street Bank & Trust Company (State Street). Shares of registered investment companies are valued at quoted market prices. Investments in common collective trust funds are stated at estimated fair value based primarily on the net asset value (NAV) of underlying securities that have observable inputs, including quoted prices for similar assets in active or inactive markets. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Note 2. Significant Accounting Policies (Continued)

As described in the Investment Companies—Balance Sheet Topic of the FASB ASC, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. In particular, the Topic affects the presentation of the amounts related to the Plan's participation in the common collective trust. The statements of net assets available for Plan benefits present the fair value of the common collective trust fund as well as the adjustment from fair value to contract value. The statement of changes in net assets available for Plan benefits is prepared on a contract-value basis.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Income recognition: Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued daily. Dividends are recorded on the ex-dividend date.

Benefits: Benefits are recorded when paid.

Use of estimates: The preparation of the Plan's financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for Plan benefits.

New accounting pronouncements: In May 2015, the FASB issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value Per Shares (or Its Equivalent)*. The amendments in ASU 2015-07 remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the NAV per share practical expedient. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using the practical expedient. The amendments are effective for fiscal years beginning after December 15, 2016. A reporting entity should apply the amendments retrospectively to all periods presented. Early adoption is permitted. The adoption of ASU 2015-07 is not expected to have a material impact on subsequent periods.

Note 2. Significant Accounting Policies (Continued)

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient,* which amends ASC 960, *Plan Accounting—Defined Benefit Pension Plans,* ASC 962, *Plan Accounting—Defined Contribution Pension Plans,* and ASC 965, *Plan Accounting—Health and Welfare Benefit Plans.* Part I and Part II of the ASU simplify financial reporting requirements for benefit plans by eliminating or reducing certain investment disclosures. Part III provides an alternative method for measuring investments for plans having fiscal year-ends that do not fall on a month-end date. The new guidance is effective for reporting periods beginning after December 15, 2015 and shall be applied retrospectively for Part I and Part II and prospectively for Part III. Upon adoption, the amended guidance is expected to have an impact on certain investment disclosures and no impact on net assets available for benefits.

Subsequent events: The Plan Administrator has evaluated subsequent events through October 9, 2015, the date the financial statements were available to be issued.

Note 3. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 4. Information Certified and Provided by the Trustee

The following is a summary of the Plan's asset information as of December 31, 2014 and 2013, and for the year ended December 31, 2014, included throughout the Plan's financial statements and the supplemental schedules, that was prepared by or derived from information provided by State Street, the trustee, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information that appears throughout the financial statements and the supplemental schedules.

The nature, risks and investment objectives of the investment categories described in the tables above can be found in the Plan's enrollment literature.

Note 5. Fair Value of Investments in Certain Entities That Calculate NAV Per Share or its Equivalent

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share (or its equivalent) as of December 31, 2014:

Investment Category	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common Collective Trust Funds	$ 2,266,407	$ -	Daily	None

Note 5. Fair Value of Investments in Certain Entities That Calculate NAV Per Share or its Equivalent (Continued)

The Plan invests in common collective trust funds with Wilmington Trust Company and State Street. Investment funds in this category can be issued and redeemed daily based on the NAV of the funds, which are determined daily. Investment transactions are accounted for on a trade-date basis. Gains or losses on securities sold are determined by comparing the average cost with the proceeds from the sale. Investment income is recorded on the accrual basis when earned. These funds seek to maximize current income while maintaining principal and to provide for withdrawals for certain participant-initiated transactions without penalty or adjustments. These funds invest primarily in fixed-income (debt) securities and short-term investments. Fixed-income (debt) securities are valued on the basis of market valuations provided primarily by an independent pricing service, which utilizes the most appropriate method of market valuation, consisting of one of the following methods: (a) use of the last quoted price on the securities' major trading exchange, (b) use of quotes received from dealers or market makers in the relevant securities, or (c) matrix pricing. These market valuation methods are considered Level 2 investments. Short-term investments consist of money market funds that are valued at cost, which approximates fair value, and consist of quoted prices in active markets for identical assets, which are considered Level 1 investments.

Note 6. Tax Status

Effective January 1, 2013, the Plan adopted a nonstandardized form of a prototype plan sponsored by Automatic Data Processing, Inc. The prototype plan has received an opinion letter, dated March 31, 2008, from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed in compliance with the applicable provisions of the Internal Revenue Code.

Note 7. Administrative Expenses

Certain administrative functions are performed by employees of the Company. No such officer or employee receives compensation from the Plan.

Note 8. Related-Party Activity

The Plan invests in a common collective trust managed by State Street. State Street is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions.

Note 9. Delinquent Participant Contributions

The Plan had not deposited certain participant contributions within the regulations specified by the Department of Labor. Such amounts consisted of approximately $541,955 for the year ended December 31, 2012, for which the Plan Sponsor deposited additional lost earnings of $2,351 in 2014. Such amounts also consisted of approximately $8,662 for the year ended December 31, 2014, for which the Plan Sponsor will deposit additional lost earnings of $191 in 2015.
