The Plan is a defined contribution plan with a 401(k) feature and covers all employees of entities under common ownership of the Sponsor (Community Hospitalists, LLC; The Premium Group, Inc.; Family Care Centers (ceased operations in 2013); Northeast Ohio Group Practice, Ltd.; Phoenix Collection Services (ceased operations in 2013); 21st Management; Main Street Locums; and Ten Pins of Michigan) (the "Affiliated Entities") who meet the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The trustees are responsible for oversight of the Plan and determining the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions:

Participants may elect to contribute a percentage of their eligible compensation to the Plan on a pre-tax basis. The amount a participant can contribute is limited to the annual amount set by the Internal Revenue Service. Participants who have obtained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan.

The Sponsor must make a non-elective contribution for each participant in an amount equal to 3% of compensation (or a higher percentage of compensation elected by employer) for the Plan year. The Sponsor's nonelective contribution was 3% of compensation in 2014 and 2013. A participant's interest is 100% vested immediately in these contributions which totaled \$550,971 in 2014 and \$462,880 in 2013.

The employer may elect to make a discretionary contribution to the Plan. The amount of this contribution is determined annually by the employer. A discretionary contribution was not made for 2014 and 2013.

Participant accounts:

Separate accounts for each participant are maintained and each account is credited with participant and employer contributions and earnings from investments held in the account.

Participants may change their investment elections daily. Participants may direct their contributions, including the employers' contributions into any combination of 28 investment funds. Participants may not borrow from their account.

Upon termination of service, a participant may elect to receive either a lump sum amount equal to the value of the participant's interest in his or her account or installment payments. All accounts are subject to distribution upon the participant's termination, retirement, total disability or death.

Participants who suffer serious financial hardship, as defined by the Plan, may withdraw a portion of their vested account in order to meet their financial needs.

Basis of accounting:

The financial statements of the Plan are prepared using the accrual method of accounting.

2. Summary of significant accounting policies:

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates and assumptions.

2. Summary of significant accounting policies (continued):

Investment valuation and income recognition:

The Plan's investments in mutual funds are recorded at fair value at December 31, 2014 and 2013, as provided by Reliance Trust Company (Reliance).

The basis of investments sold is determined by the fair value at the beginning of the year or the purchase price, if acquired during the year. The amounts are provided by Reliance. As provided by Reliance, purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

In accordance with accounting principles generally accepted in the United States of America, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The collective investment trust is presented at contract value in the statements of net assets available for benefits at December 31, 2014 as provided by Reliance. The contract value approximates fair value and, therefore, there was no adjustment from contract value to fair value for this fully benefit-responsive contract at December 31, 2014. The 2014 statement of changes in net assets available for benefits is prepared on a contract value basis. The Plan's Fixed Fund account was recorded at the estimated contract value, as provided by Reliance at December 31, 2013.

The investment contracts which were held by the MFS Fixed Fund (the "Fixed Fund") were terminated in November 2013 and December 2013, and as a result there were no investment contracts held by the Fixed Fund at December 31, 2013. The Fixed Fund was liquidated on June 30, 2014. Since the Fixed Fund was no longer holding investment contracts, the Fixed Fund was no longer considered a fully benefit-responsive contract and therefore, there was no adjustment to contract value at December 31, 2013.

Payment of benefits:

Benefits are recorded when paid.

3. Investments:

The following table presents the fair value of investments (all participant directed) at December 31, 2014 and 2013. Investments that represent 5% or more of the Plan's net assets in either year are separately identified.

The Plan's investments (including investments bought, sold and held during the year) increased in value by \$347,299 in 2014 and \$893,134 in 2013 as follows:

Collective investment trusts	<u>2,283</u>	<u>866</u>
	<u>\$ 347,299</u>	<u>\$ 893,134</u>

4. Fair value:

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described as follows:

- Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access
- Level 2 inputs to the valuation methodology include the following:
 - Quoted prices for similar assets or liabilities in active markets
 - Quoted prices for identical or similar assets or liabilities in inactive markets
 - Inputs other than quoted prices that are observable for the asset or liability
 - Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

YEARS ENDED DECEMBER 31, 2014 AND 2013

4. Fair value (continued):

If the asset has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust funds – Valued at the NAV of units of the collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the funds less its liabilities. This practical expedient is not used when it is determined to be probable that the funds will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trusts, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manor.

Assets measured at fair value on a recurring basis at December 31, 2014 and 2013 were as follows:

5. Administrative expenses:

Administrative expenses of the Plan paid by the Sponsor amounted to \$11,688 in 2014 and \$12,998 in 2013. Certain administrative functions are performed by employees of the Plan Sponsor. No such employee, nor the Plan Sponsor, receives compensation from the Plan.

Additionally, investment related expenses are included in the net appreciation (depreciation) in fair value of investments.

6. Information certified by trustee:

Management of the Plan engaged Reliance as trustee of the Plan. The financial information included in the Plan's financial statements, except for contributions receivable and accounts payable, participant have been derived from information certified as complete and accurate by the trustee, in accordance with Section 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA.

7. Income tax status:

The Plan received a favorable determination letter dated March 31, 2008 in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

7. Income tax status (continued):

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service and the Department of Labor. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

8. Party-in-interest transactions:

During 2014, the Invesco Stable Value V Trust Fund paid fees to Massachusetts Mutual Life Insurance Company (Mass Mutual) for issuing benefit responsive wrap or similar contracts. Mass Mutual is affiliated with Reliance (the trustee of the Plan) and, therefore, these transactions qualify as party-in-interest. At December 31, 2013, the MFS Fixed Fund had retained Hartford or one of its affiliates as its marketing agent. Hartford is affiliated with Reliance (the trustee of the Plan) and, therefore, these transactions qualify as party-in-interest.

9. Plan termination:

The Plan Sponsor expects to continue the Plan but reserves the right at any time and within its sole discretion to reduce, suspend or discontinue contributions to the Plan or to terminate the Plan.

10. Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

11. Subsequent events:

In preparing these financial statements, the Plan's management has evaluated events and transactions for potential recognition or disclosure through October 12, 2015 the date the Plan's financial statements were available to be issued.

Effective April 1, 2015, the Plan was amended to allow participants to borrow from the vested portion of their account balance.

Effective May 8, 2015, the Plan was amended to allow the payment of expenses the Plan Sponsor has not elected to pay on behalf of the Plan to be charged against forfeitures or charged pro rata against participant accounts.
