Note 1. Plan Description

The following brief description of the Home State Bancorp, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan that covers all employees of Home State Bank, N.A. and Home State Leasing Corporation ("Companies") who are age twenty-one or older; excluding those who are union employees, nonresident aliens who have no earned income from sources within the United States, and leased employees. Participants enter the Plan on the first day following their meeting the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Trustee's Board of Directors.

Contributions: Each year, participants may elect to contribute up to the maximum amount allowed by law of their compensation as pre-tax contributions or post-tax Roth contributions, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollover). The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 2 percent of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. The Companies may make matching employer contributions equal to a discretionary percentage of a participant's compensation or a discretionary dollar amount; the dollar amount to be determined by the Companies on a uniform basis for all participants. Employees must complete one year of service in order to participate in any Company contributions. Since the Plan's inception, no employer contributions have been made. Contributions are subject to certain IRS limitations.

Investment options: Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds as investment options. Participants may change their investment options at any time.

Participant accounts: Each participant's account is credited with the participant's contributions and an allocation of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in all Plan contributions plus actual earnings thereon.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. Loan terms range from 2 to 15 years. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1%. Principal and interest are paid ratably through payroll deductions.

Payment of benefits: On termination of service, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Upon the death of a participant, a participant or their beneficiary may receive the value of the vested interest as a lump sum distribution. In-service distributions may be made to participants who have not separated from service provided the participant has attained age 59 ½. Participants, who have demonstrated incurring a hardship event, as defined in the Plan, may elect to receive a distribution of the lesser of the value of their vested interest or the amount necessary to satisfy the immediate and heavy financial need of the participant.

Forfeited accounts: At December 31, 2014 and 2013, the Plan had no forfeited non-vested accounts.

Note 2. Summary of Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Committee determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

Reclassifications: Certain items in the financial statements as of December 31, 2013 have been reclassified to conform to current year presentation. The reclassifications had no effect on net assets or changes in net assets available for benefits.

Transfers-in: On July 17, 2014, the Companies' Boards of Directors approved a merger of the Home State Bank, N.A. Profit Sharing Plan into the 401(k) Plan effective December 31, 2014. Participant account balances from the Home State Bank, N.A. Profit Sharing Plan were transferred to the Plan in January 2015 and are presented as a receivable to the Plan at December 31, 2014. Additionally, the transfers in includes a $200,000 profit sharing contribution applicable to 2014 plan year was deposited into the Plan in February 2015.

Note 3. Information Certified or Provided by Alerus Financial, N.A.

The following is a summary of the Plan's asset and income information as of December 31, 2014 and 2013, and for the year ended December 31, 2014, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by Alerus Financial, N.A. (Alerus), the custodian, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from Alerus that the information provided to the Plan Administrator by Alerus related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets and income:

Shares of registered investment companies	$ 2,780,348	$ 2,483,757

During 2014, the Plan's investments in shares of registered investment companies (including gains and losses on investments bought, sold as well as held during the year) appreciated in value by $6,724.

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Note 5. Fair Value Measurements (Continued)

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to their fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Note 5. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

Note 6. Related Party Transactions

The Plan's investments are held by Alerus, the custodian of the Plan. Alerus is the custodian and record-keeper for the plan, therefore these transactions qualify as party-in-interest transactions. Fees paid by the Plan to Alerus amounted to $3,203 for the year ended December 31, 2014.

Certain employees of the Company provide administrative services for the Plan and are not reimbursed for their services from the Plan.

Note 7. Plan Termination

Although they have not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 8. Tax Status

The Internal Revenue Service has determined and informed the Companies by a letter dated July 8, 2010, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The plan trust agreement was adopted from a volume submitter 401(k) profit sharing plan. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefor believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the U.S. federal, state, or local tax authorities. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10. Subsequent Events

Effective January 1, 2015, the plan adopted a prototype plan sponsored by PenServe Plan Services, Inc. In conjunction with the change, the Plan's custodian changed to MG Trust Company d.b.a. Matrix Trust Company and PenServe Plan Services, Inc. became the Plan's third party administrator.

The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through October 7, 2014, the date the financial statements were available to be issued.
