A. DESCRIPTION OF THE PLAN

The following description of the Frederick Wildman & Sons Limited 401(k) Retirement Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

The Plan is a defined contribution plan covering all employees of Frederick Wildman & Sons Limited ("the Company") who have completed a consecutive six months of service and have reached the age of 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The benefits under this plan are not insured by the Pension Benefit Guaranty Corporation.

2. Contributions

a. Each participant may contribute through payroll deferral not less than 1% of earnings and up to 100% of pre-tax annual earnings subject to the Internal Revenue Code rules and regulations.

b. The Company matching contribution as defined under this Plan is an amount equal to 50% on the first 5% of the participant's elective contributions. The Company may in its discretion make a nonelective contribution to the Plan that will be allocated to all employees eligible to participate as defined in the Plan.

c. The eligible participants who are projected to reach age fifty (50) during a Plan year will be eligible to make a catch-up contribution at any time during that Plan year. A. DESCRIPTION OF THE PLAN (CONT.)

3. Participant Accounts

a. Each participant's account is credited with his/her contribution during the plan year. Each participant will have full responsibility for the investment results of his/her investment choices as offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account, taking into consideration the participant's vesting in the employer's contribution as provided in the Plan. All significant costs of plan administration are being absorbed by the employer.

b. Eligible participants may transfer funds from other qualified plans, with the consent of the administrator, provided that it does not jeopardize the qualified status of the Plan or trust or otherwise create adverse tax consequences for the Company. A separate participant account is created with the transferred amount and the transfer is 100% vested as defined in the Plan. The transferred amount shall be invested and administered as a part of the trust fund.

4. Vesting and Forfeitures

The participant shall be vested in his or her nonelective contribution account as determined under the schedule set forth below and defined in the Plan.

Years of service	Vested percentage
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5 or more	100%

The participant is always 100% vested in his or her own contribution account. Also, the participant will always be automatically 100% vested in his or her nonelective contribution account upon reaching retirement age (65), at death or disability, or upon termination of the Plan. For the purpose of vesting, all years of service are credited from date of hire to determine a participant's vesting service. Forfeitures are used first to pay plan expenses and the remaining balance to reduce the Company's future matching contributions.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014 AND 2013

A. DESCRIPTION OF THE PLAN (CONT.)

5. Payment of benefits

All distributions of benefits under this plan shall be made by the companies holding the investments in accordance with the terms and conditions set forth in the group contract. Benefits less than $5,000 can be distributed either by one lump sum payment or direct rollover. Benefits over $5,000 can be distributed (in addition to one lump sum payment or direct rollover) either in monthly installments or the payments can be deferred until the participant reaches age 70½.

In the event of the death of the participant, the surviving spouse, an alternate payee, or another beneficiary may be able to treat the payment as a lump sum distribution if the employee met the appropriate age requirements.

6. Loans and withdrawals

A participant may elect to withdraw from his or her account by demonstrating an immediate and heavy financial hardship and that the money can not be obtained from any other source. Immediate and heavy financial hardships are: post-secondary tuition payments for the education of the participant and immediate family members; the purchase of a principal residence; non-elective medical expenses; and payments to prevent the eviction of the participant from a principal residence.

A participant may elect to receive a loan in the amount that may not exceed the lesser of $50,000 or one-half of the participant's vested amount. The interest on a new loan is the prime rate plus 1% as published by the Federal Reserve Bank on a nondiscriminatory basis. Each loan amount (principal and interest) must be completely paid within five (5) years with the exception of loans used for the purchase of a principal residence which may exceed five years. Loan and interest repayments are deducted ratably from the participant's compensation each payroll period.

7. Forfeited accounts

Forfeited credits as defined in the Plan will be applied to pay administrative expenses and reduce employer's contributions. There were no forfeited credits at December 31, 2014 and 2013.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014 AND 2013

B. SUMMARY OF ACCOUNTING POLICIES

Date of management's review

Subsequent events were evaluated through October 5, 2015, which is the date the financial statements were available to be issued.

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for a discussion of fair value measurement. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and loses on investments bought and sold as well as held during the year.

Notes receivable from participants

Loans to participants are reported at their unpaid principal balances plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2014 and 2013, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

B. SUMMARY OF ACCOUNTING POLICIES (CONT.)

Payment of benefits

Benefits are recorded when paid.

C. FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The method used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the assets or liabilities, either directly or indirectly, including quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the assets and liabilities; and inputs that are derived principally from or corroborated by observable market data by correlation or other means, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 and 2 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

C. FAIR VALUE MEASUREMENTS (CONT.)

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014 and 2013:

		Fair value measurements using:	
	Fair value	Quoted prices in active markets for identical assets (Level 1)	Significant unobservable inputs (Level 3)
December 31, 2014			
Common/collective Trusts	$ 385,833	$	$ 385,833
Mutual funds	14,140,719	14,140,719	
Total	$ 14,526,552	$ 14,140,719	$ 385,833
December 31, 2013			
Common/collective Trusts	$ 881,294	$	$ 881,294
Mutual funds	13,046,190	13,046,190	
Total	$ 13,927,484	$ 13,046,190	$ 881,294

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

Level 2 Fair Value Measurements

According to the trustee and custodian, the pooled separate accounts are invested in investments such as stocks, mutual funds, etc. Wells Fargo Bank, N.A and Principal Life Insurance Company own the underlying investments in the separate accounts. The underlying measurements for the separate accounts have observable (Level 1 or 2) inputs, including quoted prices; the net asset value of a separate account is not publically quoted, accordingly, the fair value of the referenced accounts are reported at Level 2.

Level 3 Fair Value Measurements

The investments in common/collective trusts with the Trustee are not actively traded and significant other observable inputs are not available. Thus, the fair value of the investment in common/collective trusts is determined by comparative performance benchmark indices and a universe of investment funds which primarily invest in the same investment category according to an independent mutual fund database provider.

C. FAIR VALUE MEASUREMENTS (CONT.)

Level 3 Fair Value Measurements (cont.)

The guaranteed investment contracts issued by the Principal Life Insurance Company are backed by the insurance company's general account but do not have specific underlying assets assigned and are therefore considered to have unobservable inputs. The guaranteed interest accounts are reported at contract value which is the aggregation of contributions, plus interest, less withdrawals, if any. The methodology for calculating the interest crediting rate is defined in the contract under the term "Composite Guaranteed Rate." Fair value is considered contract vale adjusted to take into account the current rates of interest available in the market place. Fair value is computed utilizing a combination of the current interest rates based on remaining investment term at the reporting date as well as the actual interest rate on the account.

The following table reconciles the beginning and ending balances of fair value measurements using significant unobservable inputs (Level 3) of the common/collective trusts and the guaranteed investment contracts for the years ended December 31, 2014 and 2013:

	Total	Common/ collective trusts	Investment contracts with insurance company
December 31, 2014			
Beginning balance	$ 881,294	$ 881,294	$
Purchases, sales, issuances, and settlements (net)	(495,461)	(495,461)	
Ending balance	$ 385,833	$ 385,833	$
December 31, 2013			
Beginning balance	$ 267,672	$	$ 267,672
Purchases, sales, issuances, and settlements (net)	613,622	881,294	(267,672)

F. PLAN TERMINATION

NOTES TO FINANCIAL STATEMENTS

G. TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated July 7, 2003 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

H. RELATED - PARTY TRANSACTIONS

Certain Plan investments are guaranteed interest accounts managed by the custodian. Accordingly, these transactions qualify as party-in-interest transactions. The Company pays for most of the expenses incurred in the administration of the Plan.

I. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

A. DESCRIPTION OF THE PLAN

The following description of the Frederick Wildman & Sons Limited 401(k) Retirement Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

The Plan is a defined contribution plan covering all employees of Frederick Wildman & Sons Limited ("the Company") who have completed a consecutive six months of service and have reached the age of 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The benefits under this plan are not insured by the Pension Benefit Guaranty Corporation.

2. Contributions

a. Each participant may contribute through payroll deferral not less than 1% of earnings and up to 100% of pre-tax annual earnings subject to the Internal Revenue Code rules and regulations.

b. The Company matching contribution as defined under this Plan is an amount equal to 50% on the first 5% of the participant's elective contributions. The Company may in its discretion make a nonelective contribution to the Plan that will be allocated to all employees eligible to participate as defined in the Plan.

c. The eligible participants who are projected to reach age fifty (50) during a Plan year will be eligible to make a catch-up contribution at any time during that Plan year. Catch-up contributions are contributions that exceed either the statutory limit as defined by the Internal Revenue Code Rules and Regulations, or the limit as defined by the Plan or any restrictions on contributions for certain highly paid employees. The limit on catch-up contributions for the year 2014 was $5,500.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014 AND 2013

A. DESCRIPTION OF THE PLAN (CONT.)

3. Participant Accounts

a. Each participant's account is credited with his/her contribution during the plan year. Each participant will have full responsibility for the investment results of his/her investment choices as offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account, taking into consideration the participant's vesting in the employer's contribution as provided in the Plan. All significant costs of plan administration are being absorbed by the employer.

b. Eligible participants may transfer funds from other qualified plans, with the consent of the administrator, provided that it does not jeopardize the qualified status of the Plan or trust or otherwise create adverse tax consequences for the Company. A separate participant account is created with the transferred amount and the transfer is 100% vested as defined in the Plan. The transferred amount shall be invested and administered as a part of the trust fund.

4. Vesting and Forfeitures

The participant shall be vested in his or her nonelective contribution account as determined under the schedule set forth below and defined in the Plan.

Years of service	Vested percentage
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5 or more	100%

The participant is always 100% vested in his or her own contribution account. Also, the participant will always be automatically 100% vested in his or her nonelective contribution account upon reaching retirement age (65), at death or disability, or upon termination of the Plan. For the purpose of vesting, all years of service are credited from date of hire to determine a participant's vesting service. Forfeitures are used first to pay plan expenses and the remaining balance to reduce the Company's future matching contributions.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014 AND 2013

A. DESCRIPTION OF THE PLAN (CONT.)

5. Payment of benefits

All distributions of benefits under this plan shall be made by the companies holding the investments in accordance with the terms and conditions set forth in the group contract. Benefits less than $5,000 can be distributed either by one lump sum payment or direct rollover. Benefits over $5,000 can be distributed (in addition to one lump sum payment or direct rollover) either in monthly installments or the payments can be deferred until the participant reaches age 70½.

In the event of the death of the participant, the surviving spouse, an alternate payee, or another beneficiary may be able to treat the payment as a lump sum distribution if the employee met the appropriate age requirements.

6. Loans and withdrawals

A participant may elect to withdraw from his or her account by demonstrating an immediate and heavy financial hardship and that the money can not be obtained from any other source. Immediate and heavy financial hardships are: post-secondary tuition payments for the education of the participant and immediate family members; the purchase of a principal residence; non-elective medical expenses; and payments to prevent the eviction of the participant from a principal residence.

A participant may elect to receive a loan in the amount that may not exceed the lesser of $50,000 or one-half of the participant's vested amount. The interest on a new loan is the prime rate plus 1% as published by the Federal Reserve Bank on a nondiscriminatory basis. Each loan amount (principal and interest) must be completely paid within five (5) years with the exception of loans used for the purchase of a principal residence which may exceed five years. Loan and interest repayments are deducted ratably from the participant's compensation each payroll period.

7. Forfeited accounts

Forfeited credits as defined in the Plan will be applied to pay administrative expenses and reduce employer's contributions. There were no forfeited credits at December 31, 2014 and 2013.

Date of management's review

Subsequent events were evaluated through October 5, 2015, which is the date the financial statements were available to be issued.

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for a discussion of fair value measurement. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and loses on investments bought and sold as well as held during the year.

Notes receivable from participants

Loans to participants are reported at their unpaid principal balances plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2014 and 2013, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

B. SUMMARY OF ACCOUNTING POLICIES (CONT.)

Payment of benefits

Benefits are recorded when paid.

C. FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The method used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the assets or liabilities, either directly or indirectly, including quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the assets and liabilities; and inputs that are derived principally from or corroborated by observable market data by correlation or other means, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 and 2 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

C. FAIR VALUE MEASUREMENTS (CONT.)

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014 and 2013:

		Fair value measurements using:	
	Fair value	Quoted prices in active markets for identical assets (Level 1)	Significant unobservable inputs (Level 3)
December 31, 2014			
Common/collective Trusts	$ 385,833	$	$ 385,833
Mutual funds	14,140,719	14,140,719	
Total	$ 14,526,552	$ 14,140,719	$ 385,833
December 31, 2013			
Common/collective Trusts	$ 881,294	$	$ 881,294
Mutual funds	13,046,190	13,046,190	
Total	$ 13,927,484	$ 13,046,190	$ 881,294

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

Level 2 Fair Value Measurements

According to the trustee and custodian, the pooled separate accounts are invested in investments such as stocks, mutual funds, etc. Wells Fargo Bank, N.A and Principal Life Insurance Company own the underlying investments in the separate accounts. The underlying measurements for the separate accounts have observable (Level 1 or 2) inputs, including quoted prices; the net asset value of a separate account is not publically quoted, accordingly, the fair value of the referenced accounts are reported at Level 2.

Level 3 Fair Value Measurements

The investments in common/collective trusts with the Trustee are not actively traded and significant other observable inputs are not available. Thus, the fair value of the investment in common/collective trusts is determined by comparative performance benchmark indices and a universe of investment funds which primarily invest in the same investment category according to an independent mutual fund database provider.

C. FAIR VALUE MEASUREMENTS (CONT.)

Level 3 Fair Value Measurements (cont.)

The guaranteed investment contracts issued by the Principal Life Insurance Company are backed by the insurance company's general account but do not have specific underlying assets assigned and are therefore considered to have unobservable inputs. The guaranteed interest accounts are reported at contract value which is the aggregation of contributions, plus interest, less withdrawals, if any. The methodology for calculating the interest crediting rate is defined in the contract under the term "Composite Guaranteed Rate." Fair value is considered contract vale adjusted to take into account the current rates of interest available in the market place. Fair value is computed utilizing a combination of the current interest rates based on remaining investment term at the reporting date as well as the actual interest rate on the account.

The following table reconciles the beginning and ending balances of fair value measurements using significant unobservable inputs (Level 3) of the common/collective trusts and the guaranteed investment contracts for the years ended December 31, 2014 and 2013:

	Total	Common/ collective trusts	Investment contracts with insurance company
December 31, 2014			
Beginning balance	$ 881,294	$ 881,294	$
Purchases, sales, issuances, and settlements (net)	(495,461)	(495,461)	
Ending balance	$ 385,833	$ 385,833	$
December 31, 2013			
Beginning balance	$ 267,672	$	$ 267,672
Purchases, sales, issuances, and settlements (net)	613,622	881,294	(267,672)

G. TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated July 7, 2003 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

H. RELATED - PARTY TRANSACTIONS

Certain Plan investments are guaranteed interest accounts managed by the custodian. Accordingly, these transactions qualify as party-in-interest transactions. The Company pays for most of the expenses incurred in the administration of the Plan.

I. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

DECEMBER 31, 2014 AND 2013

A. DESCRIPTION OF THE PLAN

The following description of the Frederick Wildman & Sons Limited 401(k) Retirement Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

The Plan is a defined contribution plan covering all employees of Frederick Wildman & Sons Limited ("the Company") who have completed a consecutive six months of service and have reached the age of 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The benefits under this plan are not insured by the Pension Benefit Guaranty Corporation.

2. Contributions

a. Each participant may contribute through payroll deferral not less than 1% of earnings and up to 100% of pre-tax annual earnings subject to the Internal Revenue Code rules and regulations.

b. The Company matching contribution as defined under this Plan is an amount equal to 50% on the first 5% of the participant's elective contributions. The Company may in its discretion make a nonelective contribution to the Plan that will be allocated to all employees eligible to participate as defined in the Plan.

c. The eligible participants who are projected to reach age fifty (50) during a Plan year will be eligible to make a catch-up contribution at any time during that Plan year. Catch-up contributions are contributions that exceed either the statutory limit as defined by the Internal Revenue Code Rules and Regulations, or the limit as defined by the Plan or any restrictions on contributions for certain highly paid employees. The limit on catch-up contributions for the year 2014 was $5,500.

401(K) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014 AND 2013

A. DESCRIPTION OF THE PLAN (CONT.)

3. Participant Accounts

a. Each participant's account is credited with his/her contribution during the plan year. Each participant will have full responsibility for the investment results of his/her investment choices as offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account, taking into consideration the participant's vesting in the employer's contribution as provided in the Plan. All significant costs of plan administration are being absorbed by the employer.

b. Eligible participants may transfer funds from other qualified plans, with the consent of the administrator, provided that it does not jeopardize the qualified status of the Plan or trust or otherwise create adverse tax consequences for the Company. A separate participant account is created with the transferred amount and the transfer is 100% vested as defined in the Plan. The transferred amount shall be invested and administered as a part of the trust fund.

4. Vesting and Forfeitures

The participant shall be vested in his or her nonelective contribution account as determined under the schedule set forth below and defined in the Plan.

Years of service	Vested percentage
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5 or more	100%

The participant is always 100% vested in his or her own contribution account. Also, the participant will always be automatically 100% vested in his or her nonelective contribution account upon reaching retirement age (65), at death or disability, or upon termination of the Plan. For the purpose of vesting, all years of service are credited from date of hire to determine a participant's vesting service. Forfeitures are used first to pay plan expenses and the remaining balance to reduce the Company's future matching contributions.

401(K) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014 AND 2013

A. DESCRIPTION OF THE PLAN (CONT.)

5. Payment of benefits

All distributions of benefits under this plan shall be made by the companies holding the investments in accordance with the terms and conditions set forth in the group contract. Benefits less than $5,000 can be distributed either by one lump sum payment or direct rollover. Benefits over $5,000 can be distributed (in addition to one lump sum payment or direct rollover) either in monthly installments or the payments can be deferred until the participant reaches age 70½.

In the event of the death of the participant, the surviving spouse, an alternate payee, or another beneficiary may be able to treat the payment as a lump sum distribution if the employee met the appropriate age requirements.

6. Loans and withdrawals

A participant may elect to withdraw from his or her account by demonstrating an immediate and heavy financial hardship and that the money can not be obtained from any other source. Immediate and heavy financial hardships are: post-secondary tuition payments for the education of the participant and immediate family members; the purchase of a principal residence; non-elective medical expenses; and payments to prevent the eviction of the participant from a principal residence.

A participant may elect to receive a loan in the amount that may not exceed the lesser of $50,000 or one-half of the participant's vested amount. The interest on a new loan is the prime rate plus 1% as published by the Federal Reserve Bank on a nondiscriminatory basis. Each loan amount (principal and interest) must be completely paid within five (5) years with the exception of loans used for the purchase of a principal residence which may exceed five years. Loan and interest repayments are deducted ratably from the participant's compensation each payroll period.

7. Forfeited accounts

Forfeited credits as defined in the Plan will be applied to pay administrative expenses and reduce employer's contributions. There were no forfeited credits at December 31, 2014 and 2013.

FREDERICK WILDMAN & SONS LIMITED

401(K) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014 AND 2013

B. SUMMARY OF ACCOUNTING POLICIES

Date of management's review

Subsequent events were evaluated through October 5, 2015, which is the date the financial statements were available to be issued.

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for a discussion of fair value measurement. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and loses on investments bought and sold as well as held during the year.

Notes receivable from participants

Loans to participants are reported at their unpaid principal balances plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2014 and 2013, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

B. SUMMARY OF ACCOUNTING POLICIES (CONT.)

Payment of benefits

Benefits are recorded when paid.

C. FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The method used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the assets or liabilities, either directly or indirectly, including quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the assets and liabilities; and inputs that are derived principally from or corroborated by observable market data by correlation or other means, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 and 2 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

C. FAIR VALUE MEASUREMENTS (CONT.)

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014 and 2013:

		Fair value measurements using:	
	Fair value	Quoted prices in active markets for identical assets (Level 1)	Significant unobservable inputs (Level 3)

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

Level 2 Fair Value Measurements

According to the trustee and custodian, the pooled separate accounts are invested in investments such as stocks, mutual funds, etc. Wells Fargo Bank, N.A and Principal Life Insurance Company own the underlying investments in the separate accounts. The underlying measurements for the separate accounts have observable (Level 1 or 2) inputs, including quoted prices; the net asset value of a separate account is not publically quoted, accordingly, the fair value of the referenced accounts are reported at Level 2.

Level 3 Fair Value Measurements

The investments in common/collective trusts with the Trustee are not actively traded and significant other observable inputs are not available. Thus, the fair value of the investment in common/collective trusts is determined by comparative performance benchmark indices and a universe of investment funds which primarily invest in the same investment category according to an independent mutual fund database provider.

C. FAIR VALUE MEASUREMENTS (CONT.)

Level 3 Fair Value Measurements (cont.)

The guaranteed investment contracts issued by the Principal Life Insurance Company are backed by the insurance company's general account but do not have specific underlying assets assigned and are therefore considered to have unobservable inputs. The guaranteed interest accounts are reported at contract value which is the aggregation of contributions, plus interest, less withdrawals, if any. The methodology for calculating the interest crediting rate is defined in the contract under the term "Composite Guaranteed Rate." Fair value is considered contract vale adjusted to take into account the current rates of interest available in the market place. Fair value is computed utilizing a combination of the current interest rates based on remaining investment term at the reporting date as well as the actual interest rate on the account.

The following table reconciles the beginning and ending balances of fair value measurements using significant unobservable inputs (Level 3) of the common/collective trusts and the guaranteed investment contracts for the years ended December 31, 2014 and 2013:

	Total	Common/ collective trusts	Investment contracts with insurance company

G. TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated July 7, 2003 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

H. RELATED - PARTY TRANSACTIONS

Certain Plan investments are guaranteed interest accounts managed by the custodian. Accordingly, these transactions qualify as party-in-interest transactions. The Company pays for most of the expenses incurred in the administration of the Plan.

I. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
