Stanley Black & Decker, Inc.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Pension Plan for Hourly Paid Employees of Stanley Black & Decker, Inc. (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Independent Auditors' Report (continued)

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4 and Note 9, which was certified by The Bank of New York Mellon, the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2014 and 2013, that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Pension Plan for Hourly Paid Employees of Stanley Black & Decker, Inc.

Notes to Financial Statements

Years Ended December 31, 2014 and 2013

1. Background and Description of the Plan

The Pension Plan for Hourly Paid Employees of Stanley Black & Decker, Inc. (the Hourly Plan or the Plan) is a noncontributory defined benefit plan which provides retirement and disability benefits for certain union and non-union hourly-paid employees of Stanley Black & Decker, Inc. and its participating U.S. subsidiaries (the Company). Effective December 31, 2012, all of the assets and liabilities of the following defined benefit pension plans merged into the Plan: The Pension Plan for Hourly Rate Employees of the Heli-Coil Division; Pension Plan for Hourly Rate Employees of the Warren Division; Pension Plan for Hourly-Rate Employees of the Threaded Fastener Division, Campbellsville Plant; and the Pension Plan for Hourly Rate Employees of the POP Fasteners Division, Hopkinsville Plant (collectively “the Merged Plans”). As a result of these mergers, participants covered under the Merged Plans became participants in the Plan. Notwithstanding the foregoing, separate benefit formulas and other provisions pertaining to benefit determinations are set forth in the Plan that apply after December 31, 2012, to the participants who were covered under the Merged Plans.

Effective April 30, 2001, benefits from The Stanley Works Retirement Plan (the Retirement Plan), for certain salaried and non-union hourly-paid employees, were spun off to the Hourly Plan. The Retirement Plan was then terminated effective July 31, 2001.

Notes to Financial Statements (continued)

1. Background and Description of the Plan (continued)

Generally, the benefits provided pursuant to the Hourly Plan's regular benefit formula for certain union and non-union hourly-paid employees are based on a benefit unit multiplier and credited service. In addition to the regular formula benefits, the Hourly Plan provides a floor benefit for certain union and non-union hourly-paid employees and also certain salaried employees (known as the Investment Protection Account (IPA) or notional benefit) that is offset by the value of certain contributions, including 401(k) contributions made before July 1, 1998 to the Stanley Account Value Plan, (effective January 1, 2011, the plan name was changed to Stanley Black & Decker Retirement Account Plan (RAP)) at the time of distribution of such contributions from the RAP. The floor benefit is a guarantee to participants in the RAP that the rate of return on the pertinent contributions made to the RAP prior to July 1, 1998 will at least equal the return on two-year Treasury notes for the period such contributions are invested in the Stanley Black & Decker Stock Fund under the RAP. The IPA guarantee is subject to a minimum annual rate of return of 5.0% and a maximum annual rate of return of 12.5%. There is a minimum guarantee calculated as of July 31, 2001, based on the assumption that the IPA benefit was determined on that date. During 2014 and 2013, there were no payments to eligible participants pursuant to this guarantee. The Hourly Plan also provides frozen contributory pension benefits for certain salaried and non-union hourly-paid employees with respect to "contributory benefit contributions" made before January 1, 1987. These contributions include funds that were originally contributed to the Retirement Plan and are now held under the RAP and also certain funds that were contributed to the RAP. The foregoing benefit provisions do not, however, apply to participants formerly covered under the Merged Plans, who are subject to separate benefit formulas and other provisions pertaining to benefit determinations that apply after December 31, 2012.

The Company's funding policy is to contribute amounts sufficient to meet minimum funding requirements as set forth in employee benefit and tax laws plus such additional amounts as the Company may determine to be appropriate. For 2014 and 2013 there were no minimum required contributions to the Plan. The Company made contributions to the Plan of \$5,000,000 and \$7,000,000 pertaining to 2014 and 2013, respectively. The Hourly Plan's funding policy provides for payment of normal cost plus amortization of the unfunded actuarial accrued liability over 25 years. The Plan has met the Employee Retirement Income Security Act (ERISA) minimum funding requirements.

Pension Plan for Hourly Paid Employees of Stanley Black & Decker, Inc.

Notes to Financial Statements (continued)

1. Background and Description of the Plan (continued)

After termination of employment, disability, or retirement under the Hourly Plan, a participant may receive his or her vested accrued benefit, reduced, if applicable, for payment before the normal retirement date. In order to comply with regulatory requirements, the accrued benefits as of July 31, 2001 of all active participants under the Hourly Plan on July 31, 2001, became 100% vested. Participants become fully vested in the benefit that accrues after July 31, 2001 under the Hourly Plan's regular benefit formula upon attaining five years of service, except that, effective as of January 1, 2008, a participant who has an IPA or notional benefit under the Hourly Plan and performs at least one hour of service on or after January 1, 2008 will become 100% vested in the benefit that accrues after July 31, 2001 under the Hourly Plan's regular benefit formula upon attaining three years of service. Should the number of terminated participants reach levels specified by rulings issued pursuant to the Internal Revenue Code (IRC), such terminated participants may become fully vested. The foregoing benefit provisions do not, however, apply to participants, who are subject to separate benefit formulas and provisions pertaining to vesting and benefit determinations that apply after December 31, 2012, under terms of the Merged Plans that remain in effect under the Hourly Plan.

Information about the Plan, the vesting and benefit provisions under the Plan, and the Pension Benefit Guaranty Corporation's (PBGC) benefit guarantee is contained in the Summary Plan Description of the Plan. Copies are available from the Plan administrator.

The Plan administrator is Stanley Black & Decker, Inc.

In order to comply with regulatory requirements, pursuant to the terms of the Hourly Plan, the benefit liabilities of that plan as of July 31, 2001 (the termination date of the Retirement Plan), including IPA benefit liabilities, notional benefit liabilities and contributory benefit liabilities (based on the amount of such IPA benefits, notional benefits and contributory benefits that would have been paid on July 31, 2001), are funded by a \$35,556,248 nontransferable, allocable annuity insurance contract effective on June 13, 2002, except for certain benefit liabilities that are covered by a rider to that insurance contract.

Pension Plan for Hourly Paid Employees of Stanley Black & Decker, Inc.

Notes to Financial Statements (continued)

2. Significant Accounting Policies

Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that can affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investment consists of an interest in the Stanley Black & Decker, Inc. Pension Master Trust (Master Trust) (Note 4). The fair value of the Plan's interest in the Master Trust is based on the assets held in the Master Trust as adjusted for contributions, investment earnings and losses and actual benefit distributions.

Marketable securities within the Master Trust are stated at fair value. Securities traded on national exchanges are valued at the last reported sales price on the last business day of the plan year; investments traded in the over-the-counter market and listed securities for which no sale was reported on that date are valued at the average of the last reported bid and ask prices. The Plan, through its investment in the Master Trust, utilizes derivative financial instruments to manage market risk, including futures contracts for trading or hedging purposes. These derivative financial instruments are marked to market and reflected in the net appreciation amount at fair value in the Statements of Changes in Net Assets Available for Benefits.

The change in the difference between current value and the cost of investments is reflected as unrealized appreciation or (depreciation) in the aggregate current value of investments. The realized gain or (loss) on investments is the difference between the proceeds received and the average cost of investments sold. The total unrealized appreciation or (depreciation) and the realized gain or (loss) is reflected as net appreciation or (depreciation) of Plan assets within the operating results of the Master Trust.

Fair Value of Investments

The Plan follows Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurement and Disclosures* (ASC 820), for all financial assets and liabilities and nonfinancial assets and liabilities that are recognized or disclosed at fair value in the financial statements on a recurring basis. ASC 820 defines fair value, establishes a fair value hierarchy, and expands disclosures about fair value measurements.

Pension Plan for Hourly Paid Employees of Stanley Black & Decker, Inc.

Notes to Financial Statements (continued)

2. Significant Accounting Policies (continued)

Fair Value of Investments (continued)

ASC 820 defines fair value as the price that would be received upon sale of an asset or paid upon the transfer of a liability in an orderly transaction between market participants at the measurement date and in the principal or most advantageous market for that asset or liability.

The fair value is calculated based on assumptions that market participants would use in pricing the asset or liability, not on assumptions specific to the entity. In addition, the fair value of liabilities includes consideration of non-performance risk including the Plan's own credit risk.

In addition to defining fair value, ASC 820 expands the disclosure requirements around fair value and establishes a fair value hierarchy for valuation inputs. The hierarchy prioritizes the inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market. Each fair value measurement is reported in one of three levels which is determined by the lowest level input that is significant to the fair value measurement.

These levels are:

Level 1 – Inputs are based upon unadjusted quoted prices for identical instruments traded in active markets.

Level 2 – Inputs are based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Inputs are generally unobservable and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability. The fair values are therefore determined using model-based techniques that include option pricing models, discounted cash flow models, and similar techniques.

Following is a description of the valuation methodologies used for assets measured at fair value within the Master Trust. There have been no changes in the methodologies used to determine fair value at December 31, 2014 and 2013.

Short-Term Investments – Level 1 short-term investments are valued at the closing price reported on the active market on which the individual securities are traded. Level 2 short-term investments are valued based on quoted prices for identical or similar assets or liabilities in non-active markets or pricing models for which inputs are observable.

Pension Plan for Hourly Paid Employees of Stanley Black & Decker, Inc.

Notes to Financial Statements (continued)

2. Significant Accounting Policies (continued)

Fair Value of Investments (continued)

Equity Investments – Level 1 securities are valued at the closing price reported on the active market on which the individual securities are traded. Level 2 securities are valued using the net asset value or unit value as reported by the investment managers. Level 3 securities consist mainly of limited partnership funds valued based on third party valuations for which significant unobservable inputs are not reasonably available.

Government Securities – Level 1 government securities are valued at the closing price reported on the active market on which the individual securities are traded. Level 2 government securities are valued at the closing price of similar assets in active markets.

Corporate Securities – Level 2 securities are valued at the closing price of similar assets that have recently traded.

Benefits

Benefit claims are recorded as deductions when they have been approved for payment and paid by the Plan. In addition to benefit deductions funded from the Master Trust, benefit deductions reported included \$4,147,715 and \$2,592,861 in 2014 and 2013, respectively, that were reimbursed by the allocable annuity insurance contract. These reimbursements have been recorded in the statements of changes in net assets available for benefits as transfers from other accounts.

Administrative Expenses

To the extent permitted under ERISA, certain Plan actuarial and investment advisory fees, PBGC premiums, and some other direct expenses were paid by the Plan from Master Trust assets. Certain other expenses are paid by the Company.

Pension Plan for Hourly Paid Employees of Stanley Black & Decker, Inc.

Notes to Financial Statements (continued)

2. Significant Accounting Policies (continued)

Allocable Annuity Contract

Pursuant to the regulatory guidelines pertaining to the spin-off of assets and liabilities from the Retirement Plan to the Plan and the termination of the Retirement Plan, a \$35,556,248 allocable annuity insurance contract was purchased in June 2002 based on the identification and valuation of obligations relating to certain plan participants as of July 31, 2001. As a result of the purchase of the allocable annuity insurance contract, the insurer has a legal obligation to make all benefit payments for which it has received the premiums or requested consideration. Thus, the allocable annuity insurance contract, and the related benefit obligation is not reflected in the Plan's net assets available for benefits. The Plan was reimbursed \$4,147,715 and \$2,592,861 by the allocable insurance contract during 2014 and 2013, respectively, for benefit payments made by the Plan for participants of the previously terminated Retirement Plan. These amounts are reported as transfers from other accounts. There was no interest earned on the allocable insurance contract for the years ended December 31, 2014 and 2013.

New Accounting Pronouncements

In May of 2015, FASB issued Accounting Standards Update (ASU) 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent)*. ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by ASC 820, *Fair Value Measurement*. Disclosures about investments in certain entities that calculate net asset value per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. ASU 2015-07 is effective for entities (other than public business entities) for fiscal years beginning after December 15, 2016, with retrospective application to all periods presented. Early application is permitted. The Plan has elected to adopt ASU 2015-07 early; however the guidance under ASU 2015-07 is not applicable to the Plan as of December 31, 2014 and 2013.

Recently Adopted Accounting Pronouncements

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - I. Fully Benefit-Responsive Investment Contracts; II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient*. This three-part ASU simplifies current benefit plan accounting and requires (i) fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value and accordingly removes the requirement to reconcile their contract value to fair value; (ii) benefit plans to disaggregate their investments measured using fair value by general type, either on the face of the financial statements or in the notes to the financial statements; (iii) the net appreciation or depreciation in investments for the period to be presented in the aggregate rather than by general type, and removes certain disclosure requirements relevant to individual investments that represent five percent or more of net assets available for benefits. The amendments in this ASU also eliminate the requirement to disclose the investment strategy for certain investments that are measured using net asset value per share using the practical expedient in ASC 820 if that investment fund files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan*, as a direct filing entity. Part III of the ASU provides a practical expedient to permit employee benefit plans to measure investments and investment-related accounts as of the month-end that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end, while requiring certain additional disclosures. The amendments in Parts I and II of this standard are effective retrospectively for fiscal years beginning after December 15, 2015. The amendments in Part III of this standard are effective prospectively for fiscal years beginning after December 15, 2015. Early application for all amendments is permitted. The Plan has elected to adopt ASU 2015-12 early, and the disclosures in Notes 4 and 9 are presented accordingly. The adoption of ASU 2015-12 removed the net appreciation/depreciation in investments by general type and investments representing five percent or more of net assets available for benefits disclosures in the financial statements presented.

Pension Plan for Hourly Paid Employees of Stanley Black & Decker, Inc.

Notes to Financial Statements (continued)

3. Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions, that are attributable under a plan's provisions to the service employees have rendered. These include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Many benefits are based on a benefit unit multiplier and credited service.

The accumulated plan benefits for active employees are determined based on their years of credited service and the benefit unit multiplier in effect on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances (i.e. retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plans' third party actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment between the valuation date and the expected date of payment.

Accumulated plan benefit information at the beginning of the Plan year, is as follows:

	January 1,	
	2014	2013
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants currently receiving payments	\$ 32,323,339	\$ 31,041,905

3. Accumulated Plan Benefits (continued)

The following is a reconciliation of the actuarial present value of accumulated benefits (PVAB) as of January 1, 2014:

Present value of accumulated benefits as of January 1, 2013	\$ 75,763,089
Changes during the year due to:	
Benefits accumulated	1,468,319
Actuarial losses	1,966,874
Decrease in the discount period	4,677,708
Benefits paid	(4,776,150)
Changes in actuarial assumptions	(6,493,426)
Plan amendments	2,069,464
Changes in actuarial mortality assumptions	547,336
Net decrease	(539,875)
Present value of accumulated benefits as of January 1, 2014	<u>\$ 75,223,214</u>

Significant assumptions underlying the Plan actuarial computations are as follows:

	<u>2014</u>	<u>2013</u>
Discount rate	7.00%	6.25%
Mortality basis	RP-2014 base mortality table (blue collar adjustment) with separate rates for males and females adjusted back to 2006 with Scale MP-2014 and then Scale BB-2D for future mortality improvements from 2006.	Static tables under Section 430(h)(3)(A) of the IRC.

3. Accumulated Plan Benefits (continued)

The rates at which participants are assumed to retire by age are:

	2014	2013
Age 60:	4-6%	4-6%
Age 61:	4-8%	4-8%
Age 62:	10-50%	10-50%
Age 63:	6-50%	6-50%
Age 64:	10-50%	10-50%
Age 65:	60-90%	60-90%
Age 66:	15-95%	15-95%
Age 67:	20-100%	20-100%
Age 68:	25-100%	25-100%
Age 69:	25-100%	25-100%
Age 70+:	100%	100%

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. Investments

Stanley Black & Decker, Inc. maintains the Defined Benefit Plan Master Trust Agreement, effective as of July 1, 2008, between Stanley Black & Decker, Inc. (formerly known as The Stanley Works) and The Bank of New York Mellon (successor by operation of law to Mellon Bank, N.A.), as Master Trustee, for The Stanley Works Pension Plan Master Trust (SW Master Trust).

Effective January 1, 2013, The Bank of New York Mellon was appointed as successor trustee with respect to the assets of the Merged Plans previously held under The Black & Decker Defined Benefit Plan Master Trust (BD Master Trust), and all of the assets held previously by State Street Bank & Trust Company under the BD Master Trust, were transferred to and held under the SW Master Trust.

Notes to Financial Statements (continued)

4. Investments (continued)

Effective January 1, 2013, the SW Master Trust was amended and renamed the “Stanley Black & Decker, Inc. Pension Master Trust” (Master Trust) and, effective January 1, 2013, the Plan, including the Merged Plans, participated in the Master Trust. The Bank of New York Mellon (successor by operation of law to Mellon Bank, N.A.) is Master Trustee under the Master Trust. All investment information related to the Master Trust disclosed in the accompanying financial statements, including investments held at December 31, 2014 and 2013, net appreciation of assets, interest income and expenses, for the years then ended, was obtained or derived from information supplied to the administrator of the Plan, and certified as complete and accurate by The Bank of New York Mellon (Trustee).

5. Income Tax Status

The Internal Revenue Service has ruled that the form of the Plan is qualified under Sections 401(a) of the IRC and therefore is not subject to tax under present income tax law. Since the form of the Plan is qualified, the Plan is required to operate in accordance with its terms in order to maintain its qualification. The Plan administrator is not aware of any course of action or series of events that have occurred that might adversely affect the Plan’s qualified status. An updated determination letter regarding the Plan was issued by the IRS on September 30, 2011.

Taking into account certain corrections made pursuant to the Employee Plans Compliance Resolution System (EPCRS), including certain matters submitted in 2014 pursuant to the Voluntary Correction Program of the EPCRS, with respect to which a compliance statement, dated September 23, 2014, was received from the IRS and the required corrections were made under the Plan, the Plan administrator, which consults regularly with legal counsel regarding Plan matters, believes that the Plan is currently being operated in accordance with its terms. Therefore, no provision for income taxes has been included in the Plan’s financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

6. Risks and Uncertainties

The Plan, through its participation in the Master Trust, invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

7. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. That portion of a participant's benefit derived from his or her own contributions.
- b. Benefits that former employees or their beneficiaries have been receiving for at least three years as of the date of the Plan termination, or that employees who were eligible to retire at least three years prior to the date of the Plan termination would have been receiving if they had retired and received benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest amount that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under the Plan provisions in effect at any time during the five years preceding Plan termination.
- c. Other vested benefits insured by the PBGC up to the applicable limitations (discussed below).
- d. All other vested benefits not insured by the PBGC.
- e. All non-vested benefits.

Pension Plan for Hourly Paid Employees of Stanley Black & Decker, Inc.

Notes to Financial Statements (continued)

7. Plan Termination (continued)

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. There is also a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2014 and 2013, the monthly ceiling was \$4,943 and \$4,790, respectively. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination, whichever comes later. For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceiling is actuarially adjusted downward.

The PBGC guarantee described above does not apply to the Plan benefits that are provided pursuant to Group Annuity Contract No. 88311 issued by MetLife Insurance Company of Connecticut (MetLife). This contract is held by the Trustee to provide Plan benefits accrued as of July 31, 2001, including any IPA benefit or contributory pension benefit determined as of July 31, 2001 (as if distributions of such benefits were made on such date).

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, the financial condition of the Company and the level of benefits guaranteed by the PBGC.

If participants receive all of their benefits pursuant to the termination of the Plan, any assets remaining after the benefits are provided will be returned to the Company.

8. Party-in-Interest Transactions

Plan assets include investments in funds held by The Bank of New York Mellon which serves as the Plan's Trustee, and performs certain administrative services for the Plan and as such, these transactions qualify as party-in-interest transactions under ERISA. These party-in-interest transactions are deemed not to be prohibited because they are covered by statutory and administrative exemptions pursuant to the IRC and the rules under ERISA regarding prohibited transactions.

9. Investment in Master Trust

The Plan's investments consist of an interest in the Master Trust. The Master Trust was created and maintained for certain employee pension benefit plans sponsored by the Company, including the Plan. The Plan's interest in the net assets of the Master Trust was 8.1%, amounting to \$95,674,708 and 7.5%, amounting to \$79,372,738 for the years ended December 31, 2014 and 2013, respectively. Investment income and administrative expenses related to the Master Trust are allocated to the individual pension benefit plans for which assets are held under the Master Trust, based upon average monthly balances invested for each plan.

The following is a summary of the financial information and data for the Master Trust certified by the Trustee as complete and accurate in accordance with Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA:

At December 31, 2014 and 2013, the Master Trust held approximately 61% and 60%, respectively, of its assets in government and corporate debt securities with the remainder allocated among various equity investments as well as a small allocation to alternative investments. The debt securities were split between levels 1 and 2 based on their liquidity, with U.S. Treasury securities being assigned to Level 1 and corporate debt securities assigned to Level 2. The Master Trust's equity holdings were split between levels 1 and 2 based on the type of investment, with publically quoted equities held in a separately managed account placed in Level 1 and investments held in commingled funds and similar vehicles, which are recorded at the net asset value based on the market prices of the underlying securities, placed in Level 2.

The following table sets forth a summary of changes in the fair value of the Level 3 assets of the Master Trust assets for the years ended December 31, 2014 and 2013, respectively:

	Years Ended December 31, 2014	2013
Balance, beginning of year	\$ 34,754,822	\$ 32,619,412
Purchases	5,622,500	3,010,000

10. Fair Value Measurement (continued)

The Master Trust's investments include limited partnership interests, which had an aggregate fair value of \$34,693,459 and \$34,754,822 at December 31, 2014 and 2013, respectively. The fair value of these limited partnership interests is determined by the general partners based upon the Master Trust's pro rata ownership in the investments held by the partnerships. Investments in limited partnerships are recorded at market value using external pricing sources or, when such sources are not readily available or deemed inappropriate, at fair values determined in good faith by the general partners. The determination by the general partners of estimated fair values of certain illiquid investments includes, among other methods such as the use of external pricing models, obtaining valuation-related information from third-party investment firms and pricing services, and performing other research activities. Such determinations involve subjective judgment as the value of these limited partnership investments is generally ultimately determined by negotiation between parties in a sales transaction. The carrying value recorded in the financial statements of the Master Trust's investments in these limited partnership interests may differ materially from the amounts ultimately realized from these limited partnership interests and from the values that would have been reported in the financial statements had a ready market for these partnership interests existed.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Master Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

At December 31, 2014, the Master Trust held no derivative financial instruments. The following table summarizes the contractual amount and fair value of the Master Trust's derivative financial instruments as of December 31, 2013:

	Contractual Amount	Fair Value
Futures contracts *:		
Long (purchased)	\$ 45,000,000	\$ (103,865)

All of the derivative contracts are short-term and mature within one year.

*Contractual amount represents the notional value of the futures.

Notes to Financial Statements (continued)

10. Fair Value Measurement (continued)

The following table summarizes the realized and unrealized gain (loss) associated with the Master Trust's derivative financial instruments during the years ended December 31, 2014 and 2013. These amounts are included in net appreciation on the Statement of Changes in Net Assets Available for Benefits.

	Realized Gain (Loss)	Unrealized Appreciation (Depreciation)	Net Realized and Unrealized Appreciation (Depreciation)
December 31, 2014			
Futures contracts:			
Long (purchased)	\$ (45,168)	\$ 103,865	\$ 58,697
December 31, 2013			
Futures contracts:			
Long (purchased)	\$ (111,186)	\$ (136,335)	\$ (247,521)

The Master Trust is exposed to credit-related losses in the event of nonperformance by counterparties to its futures contracts. The Master Trust, through its investment managers, monitors creditworthiness of the counterparties and presently does not expect default by any of the counterparties. The Master Trust does not obtain collateral in connection with its derivative financial instruments.

11. Subsequent Events

The Plan has evaluated events occurring between December 31, 2014 and September 30, 2015, the date the financial statements were available to be issued. There were no subsequent events identified.

Monthly preretirement death benefit	The monthly surviving spouse's benefit is 50% of the benefit the participant would have received if he had retired early on the date of his death (or at the earliest age eligible to receive benefits, if later) and elected to receive his benefit in the form of a 50% joint and survivor annuity.
--	---

Eligibility for Benefits

Normal retirement	A participant is eligible for normal retirement on his 65th birthday.
Early retirement	A participant who has completed the number of years of continuous employment specified in the Plan Specification Schedule and who has attained age 60 is eligible to retire on the first day of any month and receive an early retirement benefit.
Postponed retirement	Retirement after NRD
Deferred vested termination	A participant whose employment is terminated before death or retirement but after 5 or more years of employment is eligible for a vested deferred retirement benefit.
Disability	A participant who has completed ten years of continuous employment prior to his normal retirement date and who becomes totally and permanently disabled for a period of 6 or more months is eligible for a disability benefit.
Preretirement death benefit	The surviving spouse (married to the participant for at least 12 months) of a participant who dies after five or more years of vesting service shall receive a monthly life annuity.

Benefits Paid Upon the Following Events

Normal retirement	The monthly pension benefit is equal to the pension benefit rate set forth in the appropriate Plan Specification Schedule multiplied by the participant's years of credited service.
Early retirement	The normal retirement benefit formula is used but the benefit is reduced by the factor set forth in the Plan Specification Schedule for each full calendar month between the date benefit payments begin and the participant's normal retirement date.
Postponed retirement	The monthly pension benefit determined as of the actual retirement date

SCHEDULE SB ATTACHMENTS

Deferred vested termination	The participant's monthly pension benefit under the normal retirement benefit.
Disablement	The normal retirement benefit formula is used except the minimum benefit shall not be less than \$75 per month until the participant becomes eligible for Social Security benefits. The benefit is reduced by any Worker's Compensation benefits payable to the participant.
Preretirement death	The monthly surviving spouse's benefit is 50% of the benefit the participant would have received if he had retired early on the date of his death (or at the earliest age eligible to receive benefits, if later) and elected to receive his benefit in the form of a 50% joint and survivor annuity.

Other Plan Provisions

Forms of payment	For a single participant the normal form of payment is a monthly pension ceasing at the retired participant's death. For a married participant the normal form of payment is a reduced monthly pension which allows for a continuation of payments equal to one half of the reduced pension to the surviving spouse after the participant's death. Any participant may elect, by written application, to receive the normal benefit or other optional forms of benefit payment.
-------------------------	---

Optional forms of payment include: life annuity, 50%, 66-2/3%, 75% and 100% joint and survivor annuities, 10-year certain and continuous annuity and lump sums (only for participants in Specification Schedule HA). A participant who retires prior to age 62 may elect to receive his benefit under the Social Security level benefit option (SSLO). Conversion factors for all except the lump sum, SSLO, and 75% joint and survivor annuities are based on arithmetic tables, with factors varying by age of the participant and beneficiary. The lump sum and the SSLO are based on the statutory interest rate and mortality under 417(e)(3). 75% joint and survivor annuity is based on 5% and UP94 male mortality.

Limits on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost.

IPA

In addition to the formula benefits described above, the plan is responsible to provide the excess, if any, of the notional account balances of all (salaried and hourly) Stanley savings plan participant contributions (including rollover contributions) made prior to July 1, 1998 over the market value of the actual account balances. This excess is determined when the participant receives a distribution of his savings plan account balance and continues to grow with notional interest until a distribution is taken from this plan.

Net Contributory Benefit

The Plan is responsible for providing the net contributory benefit from the former salaried retirement plan for those participants who elect to receive their net benefit in the form of a monthly payment and who direct to have the appropriate funds transferred from their Account Value Plan account to this Plan.

Future Plan Changes

No future plan changes were recognized in determining pension cost.

SCHEDULE SB ATTACHMENTS

Credited service includes service accrued by participants in Stanley-Berry Pension Plan prior to May 1, 1973 and who were employed by the Company on that date.

Postponed retirement supplemental benefit

Retired participants shall receive a monthly pension supplement of \$8.20 at normal retirement date to offset a portion of Medicare Part "B" premium.

Preretirement death

An unmarried participant may name a designated beneficiary to receive the preretirement death benefit similar to the spouse of a married participant.

Other Plan Provisions

Forms of payment

Lump sum option is available for employees who retire on or after September 1, 1991.

Limits on benefits and pay

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost.

Permanent Job Loss

For participants who lose their jobs as a result of a structural decision made by Stanley (permanent outsourcing or relocation of the job, permanent discontinuance of product or product line, or automation of processes that result in permanent job elimination) between May 10, 2003 and May 17, 2013, the following special provisions apply:

All participants who are due a vested benefit are eligible to commence their monthly benefit at any time prior to their normal retirement date, subject to a reduction of 0.6% for each calendar month by which the benefit commencement date precedes the normal retirement date, up to a maximum reduction of 72%

Participants who are age 55 with at least 25 years of vesting service at the time they lose their jobs are eligible to commence their monthly benefit at any time prior to their normal retirement date with a reduction of 0.4% per month for each month that the benefit commencement date precedes age 60.

Lump sum option is also available.

Future Plan Changes

No future plan changes were recognized in determining pension cost.

Changes in Benefits Valued Since Prior Year

The pension rate was changed to \$36 effective June 1, 2013. Death benefit extended to non-spousal beneficiaries.

Payments commence on the first day of the month coinciding with or following the participant's normal or actual retirement date.

Early retirement

Actuarial equivalent of accrued normal retirement pension as of early retirement date or date benefit is to commence, if later.

Payments commence on the first day of the month coinciding with or following the month the participant retires and elects benefit commencement.

Plan Name: Pension Plan for Hourly Paid Employees of Stanley Black & Decker, Inc.
 EIN / PN: 06-0548860 / 002
 Plan Sponsor: Stanley Black & Decker, Inc.
 Valuation Date: January 1, 2014

SCHEDULE SB ATTACHMENTS

Deferred vested termination Starting at age 65, a pension calculated as for normal retirement, based on Benefit Service Credit to date of termination. If a former employee had ten years of vesting service, a benefit is payable commencing between ages 55 and 65 reduced by the same factors applicable to early retirement.

Payments commence on the first day of the month coinciding with, or following the participant's normal retirement date, or the participant may elect to have payments commence as early as the first day of the month coinciding with or next following his attainment of age 55, in an amount reduced for early commencement.

Disablement Actuarial equivalent, as in early retirement, of accrued normal retirement pension as of disability retirement date is payable until age 65. Accrued normal retirement pension as of disability retirement date is payable after age 65.

Preretirement death For an employee who dies after attaining age 55, the pension is calculated as if the employee had retired on first day of the month in which he died with the automatic form of pension in effect. For an employee who dies prior to attaining age 55, the pension commences when the deceased employee would have attained age 55 and is calculated as if the employee had terminated employment on his date of death and commenced receiving a reduced deferred benefit at age 55 with the automatic form of pension in effect. For participants who terminated prior to January 1, 1992, pensions of the employees and their surviving spouses are reduced to reflect the cost of the coverage during the period it is in effect

Other Plan Provisions

Forms of payment Single Life Annuity, Spouse's Joint and 50% Survivor Annuity, and Spouse's Joint and 75% Last Survivor Annuity.

A participant whose present value of benefits is \$1000 or less will receive an automatic cashout.

Limits on benefits and pay All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

SCHEDULE SB ATTACHMENTS

Deferred vested termination The participant's accrued benefit as of the termination date under normal retirement benefit formula and payable at age 65. If the former employee has at least 10 years of Vesting Service Credit at termination, an actuarially reduced benefit is payable at age 60 (same factor as early retirement).

Normal retirement date or age 60 if the former employee has at least 10 years of Vesting Service Credit at termination.

Disablement Accrued benefit as of date of disability.

Payments commence as soon as practicable following the approval of the application for benefits.

Preretirement death For an employee who dies after attaining age 55 (or 60 prior to October 14, 2005), the pension is calculated as if the employee had retired on first of the month in which he died with the automatic form of pension in effect. For an employee who dies prior to attaining age 55 (or 60 prior to October 14, 2005), the pension commences when the deceased employee would have attained age 55 (or 60 prior to October 14, 2005) and is calculated as if the employee had terminated employment on his date of death, commenced receiving a reduced deferred benefit at age 55 (or 60 prior to October 14, 2005) with the automatic form of pension in effect. For participants who terminated prior to January 1, 1992, pensions of the employees and their surviving spouses are reduced to reflect the cost of the coverage during the period it is in effect.

Payments commence on the date that the member would have been eligible to receive benefits or date of death, if later.

Methods – Pension Cost and Funded Position

Valuation date First day of plan year

Funding target Present value of accrued benefits

Target normal cost Present value of benefits expected to accrue during the plan year plus plan-related expenses.

Actuarial value of assets for determining minimum required contributions Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2013 plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

The valuation does not reflect special termination benefits for employees in Schedule HA who lose their jobs prior to May 17, 2013, or any other special termination benefits associated with unpredictable contingent events.

The plan liabilities do not include obligations for the benefits accrued through April 30, 2001 that have been guaranteed by a contract with the MetLife Insurance Company. Plan assets also exclude the value of that insurance contract.

Towers Watson has reviewed the plan provisions with the plan sponsor and, based on that review, is not aware of any additional significant benefits required to be valued that were not.

Significant events since last actuarial valuation report

None

Change in assumptions and methods since prior valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2012 to September 2013 and subsequently revised by applying the interest rate corridors of HATFA for funding and benefit restriction purposes.
- The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements.
- The administrative expense assumption was changed to add \$200,000 to the prior year's expenses.
- The retirement assumption for Stanley Hourly HA and HAV was updated at age 62 with 25 and 30 years respectively from 30% to 33%.

Data Sources

Stanley Black & Decker, Inc., through its third party administrator Wells Fargo, furnished participant data as of January 1, 2014. Data were reviewed for reasonableness and consistency, but no audit was performed.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
