Independent Auditor's Report

To the Administrator of the
Bosch Braking Systems Thrift Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Bosch Braking Systems Thrift Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013 and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Mercer Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2014 and 2013 and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the financial statements.

Other Matter

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2014 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Bosch Braking Systems Thrift Plan

Notes to Financial Statements

December 31, 2014 and 2013

1. Description of the Plan

The following description of the Bosch Braking Systems Thrift Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. Robert Bosch LLC (the "Company") is the Plan administrator.

General

The Plan, established April 1, 1996, is a defined-contribution plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Employees of a participating unit, as defined, who are covered by a collective bargaining agreement, are eligible for participation in the Plan. Full-time employees are eligible to participate upon completion of a 90 day probationary period (including service as a temporary employee). Part-time employees are eligible to participate after one year of service, as defined in the Plan document.

Contributions

The Plan provides for participant contributions to be made on both a pre-tax and an after-tax basis. Each pay period in which participants receive wages, they may contribute between 1% and 85% of their eligible pre-tax or post-tax compensation, as defined in the Plan document, subject to maximum amounts established by the Internal Revenue Code (the "Code"), pursuant to Section 401(k) of the Code. Participants may also contribute amounts representing catch-up contributions (if age 50 or older), and distributions from other qualified defined-benefit or defined-contribution plans.

The Company makes a matching contribution of 50% of the first 3% of eligible compensation contributed by participants who have completed one year of service.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Company contributions plus actual earnings vest based upon the earliest of the following to occur: (1) completion of 5 years of service; (2) death; (3) disability; (4) termination due to retirement; or (5) attaining age 65. Forfeited balances of terminated participants' nonvested accounts are used to reduce future Company contributions. Forfeited nonvested accounts totaled \$25,434 and \$25,130 at December 31, 2014 and 2013, respectively. No forfeitures were used to reduce employer contributions in Plan years 2014 or 2013.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions, Plan earnings and administrative expenses. Allocations of Plan earnings are based on participant account balances in the respective investment options. The benefit to which a participant is entitled is the vested balance that can be provided from the participant's account.

Investment Options

Participants may direct contributions in any of the investment options offered, which include mutual funds and collective trusts, as well as the Bosch Stable Value Fund, which holds a liquidity fund and several synthetic guaranteed investment contracts. Changes in allocations of future contributions and transfers among funds of presently invested contributions are permitted pursuant to Plan provisions. The Plan's investments are held by Mercer Trust Company (the "Trustee").

Notes to Financial Statements

December 31, 2014 and 2013

Effective September 29, 2014, the Plan replaced the JPMorgan SmartRetirement Fund C Class Investment Funds according to the table below:

<u>Previous Investment</u>	<u>Investment effective September 29, 2014</u>
JPMorgan SmartRetirement 2015 Fund C Class	JPMorgan SmartRetirement 2015 Fund – Inst
JPMorgan SmartRetirement 2020 Fund C Class	JPMorgan SmartRetirement 2020 Fund – Inst
JPMorgan SmartRetirement 2030 Fund C Class	JPMorgan SmartRetirement 2030 Fund – Inst
JPMorgan SmartRetirement 2040 Fund C Class	JPMorgan SmartRetirement 2040 Fund – Inst
JPMorgan SmartRetirement 2050 Fund C Class	JPMorgan SmartRetirement 2050 Fund - Inst

Effective October 1, 2014, the Plan replaced the JPMorgan SmartRetirement 2010 Fund C Class with the JPMorgan SmartRetirement Income Fund – Inst.

Notes Receivable from Participants

Participants may borrow from their Plan accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 (subject to certain limitations as defined in the Plan document) or 50% of their vested account balance. All notes receivable from participants are amortized over a reasonable period of time, generally not to exceed five years. Terminated participants with outstanding loan balances may continue to pay back their loans through coupons. In accordance with Plan policy, participants who do not make regular loan payments will be considered in default. A participant may have only one loan outstanding at any time. The loans are secured by the vested balance in the participant's account and bear interest at a rate commensurate with local prevailing rates at inception. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Principal and interest are generally to be paid through payroll deductions.

Benefit Payments

In the event of retirement, termination of service, death, or disability, the participant may receive a lump sum or installment payments equal to the vested value of his or her account. Participants may also obtain withdrawals of any portion of their participant contributions after attaining the age of 59-1/2 or for certain financial hardship situations. Hardship withdrawals will be authorized only upon satisfaction of criteria as enumerated in the Plan document.

If the payment is for termination of service, the amount may be transferred directly to an Individual Retirement Account or another qualified plan. If the participant does not elect a direct plan-to-plan transfer, the Internal Revenue Service ("IRS") requires the Plan to withhold 20% of the final distribution for payment of federal income taxes.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan is terminated, the accounts of all participants shall immediately be fully vested and distributed to the participants.

Administrative Expenses

An annual recordkeeping fee of \$62.50 (\$15.63 per quarter) is charged to participant accounts by the recordkeeper. This amount is reflected in administrative expenses in the accompanying financial statements. Administrative expenses also include audit fees and charges for overnight mail.

2. Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting and in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued ASU 2015-07, *Fair Value Measurement (Topic 820) Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent) (the "Update")*, which removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The reporting entity should continue to disclose information on investments for which fair value is measured at net asset value (or its equivalent) as a practical expedient to help users understand the nature and risks of the investments and whether the investments, if sold, are probable of being sold at amounts different from net asset value. ASU 2015-07 will be effective for the Plan beginning in the first quarter of 2017, however early adoption is allowed. Management has elected to adopt ASU 2015-07 effective with the December 31, 2014 financial statements. As required by the Update, previously reported financial information pertaining to 2013 has been restated to present that information on a comparable basis. Adoption of the Update did not have a material impact on the financial statements.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Contribution Pension Plans (Topic 962): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management has elected to adopt Parts I and II of ASU 2015-12 effective with the December 31, 2014 financial statements. This adoption did not have a material impact on the financial statements.

Investment Valuation and Income Recognition

The Plan's investments, except for the synthetic guaranteed investment contracts, are stated at fair value. Mutual funds are valued at quoted market prices based on the net asset value of shares held by the Plan at year-end. The fair value of collective trusts is determined using the net asset value of units held by the Plan at year-end as a practical expedient, based on information reported by the investment advisor using the financial statements of the collective trusts.

Bosch Braking Systems Thrift Plan

Notes to Financial Statements

December 31, 2014 and 2013

Investment contracts held by a defined-contribution plan are required to be reported at fair value, except for the synthetic guaranteed investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts within the Bosch Stable Value Fund option.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents in the Statements of Changes in Net Assets Available for Benefits the net appreciation (depreciation) in the fair value of its investments which consists of the gains and losses on investments bought and sold as well as held during the year.

Synthetic Guaranteed Investment Contracts

The Plan holds synthetic guaranteed investment contracts ("GICs") as part of the Bosch Stable Value Fund. The synthetic GICs provide for a fixed return on principal over a specified time through fully benefit-responsive wrapper contracts issued by AIG Financial Products, Royal Bank of Canada, and State Street Bank. The assets underlying the synthetic GICs substantially consist of an intermediate bond collective trust fund.

Fully benefit-responsive synthetic GICs are valued at contract value, rather than fair value, for determining the net assets available for benefits. Contract value represents contributions, plus earnings, less participant withdrawals and administrative expenses. The wrapper contracts used by the Plan are fully benefit-responsive because the wrapper contract issuers are contractually obligated to make up any shortfall in the event that the underlying asset portfolio has been liquidated and is inadequate to cover participant withdrawals and transfers at contract value. There are currently no reserves against contract values for credit risk of the contract issuers or any other risk.

The crediting interest rate, which is reset quarterly, based on a formula agreed upon with each wrapper contract issuer, can never fall below zero. The crediting rate formula smoothes the impact of interest rate changes on participant returns by amortizing any difference between market value and book value over a period of years equal to the duration of the portfolio benchmark. The credit rating for AIG Financial Products was A+ at both December 31, 2014 and 2013, and the credit ratings for Royal Bank of Canada and State Street Bank were AA- at both December 31, 2014 and 2013.

Certain events limit the ability of the Plan to transact at contract value with the issuer. These events include restructurings, early retirement plans, divestitures, bankruptcies or as the result of legal, tax or regulatory changes. The Plan administrator believes that the occurrence of any such event is not probable.

The providers of the wrapper contracts can only terminate at a value different than contract value under an event of default (that was not remedied) such as failure to follow the terms of the contract.

Benefit Payments

Benefits are recorded when paid.

3. Certification of Investment Information

In accordance with the provisions of 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, Mercer Trust Company has certified as complete and accurate certain investment information included in the accompanying financial statements and supplemental schedule as of and for the years ended December 31, 2014 and 2013. The following table presents a summary of the certified amounts as of and for the years ended December 31, 2014 and 2013.

	2014	2013
Investments, at fair value	\$ 5,887,900	\$ 5,806,834
Investments, at contract value	1,363,211	1,174,578
Investment interest and dividends	102,806	76,156
Net appreciation in fair value of investments	443,328	1,272,535
Notes receivable from participants	211,637	223,458
Interest income on notes receivable from participants	8,429	8,464

4. Fair Value Measurements

The FASB established a framework to increase consistency and comparability in fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Bosch Braking Systems Thrift Plan

Notes to Financial Statements

December 31, 2014 and 2013

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

For a description of the valuation methodologies used for assets measured at fair value see Investment Valuation and Income Recognition under Note 2. There have been no changes in the methodologies used at December 31, 2014 and 2013. In determining the reasonableness of the methodology, the Investment Committee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings.

These methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

For the years ended December 31, 2014 and 2013, there were no significant transfers in or out of Levels 1, 2 or 3.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2014 and 2013:

Investment Assets at Fair Value as of December 31, 2014				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 1,424,189	\$ -	\$ -	\$ 1,424,189
Total assets in the fair value hierarchy	1,424,189	-	-	1,424,189

- (a) In accordance with Subtopic 820-10, certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

Common collective trusts consist of pools of investments used by institutional investors to obtain equity and fixed income market exposures by investing in funds which are intended to mirror

market indices. They are valued on the basis of the relative interest of each participating investor in the fair value of the underlying assets of each of the respective common collective trusts. The funds are valued using the net asset value ("NAV") as provided by the investment account manager as a practical expedient. Certain of these investments can only be traded within a certain window within each monthly period. Common collective trusts included in the Plan include:

5. Tax Status

The Internal Revenue Service has determined and informed the Company in a letter dated February 4, 2013, that the Plan and related trust are designed in accordance with applicable sections of the Code. Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's ERISA counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Bosch Braking Systems Thrift Plan

Notes to Financial Statements

December 31, 2014 and 2013

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax asset or liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of an asset or liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes that the Plan is generally no longer subject to income tax examinations for plan years beginning prior to January 1, 2011.

6. Party-in-Interest Transactions

Notes receivable from participants qualify as exempt party-in-interest transactions.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

8. Subsequent Events

Effective April 1, 2015, the annual recordkeeping fee changed to \$59 (\$14.75 per quarter).

The Plan has evaluated the events and transactions that have occurred through October 13, 2015, the date the financial statements were available to be issued, and concluded there were no other subsequent events to recognize or disclose.
