NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014

NOTE A - DESCRIPTION OF PLAN

The following description of the Cadillac Rubber and Plastics, Inc. Employees Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

The Plan is a defined contribution plan covering all employees of the Company who have attained age eighteen, work twenty-five hours or more per week, and who have completed ninety days of continuous service. The Plan was established in August of 2006, and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

2. Participant Contributions

Participants may contribute up to 50 percent (to a maximum of \$17,500 if under age 50 and \$23,000 if age 50 or older) of their annual wages. Each participant can select the type of investments held in their own voluntary contribution account (directed investment account).

3. Employer Contributions

Eligible employees who have completed ninety days of service and are at least age 18 will receive a match. The Company makes nondiscretionary contributions of 100% of the first 3% of participant contributions but not to exceed more than 3% of each participant's compensation for a given plan year.

The Company may contribute an additional discretionary amount which shall be proportionately allocated among participants according to compensation level. There were no discretionary profit-sharing contributions for 2014 and 2013.

4. Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of the Company's contribution and plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

5. Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest rates between 4.25% and 9.25%, which are commensurate with local prevailing rates. Principal and interest is paid ratably through bi-weekly payroll deductions.

6. Vesting

Participants are immediately vested in their voluntary contributions and employer contributions plus actual earnings thereon.

7. Payment of Benefits

On termination of service due to death, retirement or termination, the participant or the participant's beneficiary receives the value of the funds allocated to his account in the form of a lump sum payment or installments.

CADILLAC RUBBER AND PLASTICS, INC. EMPLOYEES RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014

8. Forfeited Accounts

There are no forfeitures due to 100% vesting of salary deferrals, rollover contributions, and company match.

NOTE B - SUMMARY OF ACCOUNTING POLICIES

1. Accounting Basis

The financial statements and schedules of the Plan are prepared on the accrual basis of accounting.

2. Use of Estimates

The preparation of the Plan's financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

3. Investment Valuation and Income Recognition

Investments are reported at fair values. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

4. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principle balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

5. Payment of Benefits

Benefits are recorded when paid.

6. Expenses

Certain administrative costs of the Plan, including trust, legal, and audit fees are paid by the Company.

7. Subsequent Events

Management has evaluated subsequent events through October 7, 2015, the date in which the financial statements were available to be issued.

NOTE C - CERTIFIED FINANCIAL DATA & INVESTMENTS

During the year ending December 31, 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value by \$772,784. Of this change, \$500,916 took place in the Pooled Separate Accounts, \$223,228 took place in mutual funds and the remaining \$48,640 was from other investment earnings.

NOTE D - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted observable quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to

CADILLAC RUBBER AND PLASTICS, INC. EMPLOYEES RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014

unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Pooled Separate Accounts: Prudential Retirement Insurance and Annuity Company (PRIAC) separate accounts are measured via units. When Prudential invests in an alliance fund, they buy shares, which have a stated value, to create a Separate Account. When an individual chooses one of their separate accounts for their retirement savings, they own units of the separate account. The value of the participant portion of PRIAC's Separate Account is the net unit value (NUV) multiplied by the number of units the participant owns. The value of the portion of the mutual fund owned by the Separate Account is determined by multiplying the net asset value (NAV) by the number of shares owned. The NUV includes dividends and capital gains that are automatically reinvested for the pooled market value separate account and deducts a small Prudential charge for administering the account. The daily changes in the pooled market value separate account's NUV represents the pooled market value separate account's performance.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

CADILLAC RUBBER AND PLASTICS, INC. EMPLOYEES RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014

Insurance Company General Account (unallocated contracts): Guaranteed investment contracts (GIC) are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. Prudential's Guaranteed Income Fund is an insurance company issued Evergreen Group Annuity with no maturity date and interest rates are reviewed on a semi-annual basis. The contract value represents deposits made to the contract, plus earnings at guaranteed rates, less withdrawals and fees. It is not a traditional GIC and therefore there are not any known cash flows that could be discounted. The contract value is the amount payable on demand at the reporting date, and therefore, the contract value is also the fair market value to be disclosed.

The following tables present by level, within the fair value hierarchy, the Plan investment assets at fair value, as of December 31, 2014 and 2013. As required by FASB ASC 820, investment assets are classified in their entirety based upon the lowest level of input that is significant to the fair value measurement.

NOTE E - RELATED PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Prudential Retirement Insurance and Annuity Company, the trustee of the Plan, manages certain Plan investments. Therefore, these transactions qualify as party-in-interest transactions and are denoted as such on the supplemental Schedule of Assets (Held at End of Year).

The Plan engaged in transactions involving Prudential Retirement Insurance and Annuity Company, the Plan's administrator and trustee, Baird, Cotter and Bishop, P.C., the Plan auditor, and Cadillac Rubber & Plastics, Inc., the Plan sponsor, which are party-in-interest with respect to the Plan. These transactions are not considered "prohibited transactions" under the Code and are not prohibited by ERISA.

NOTE F - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

CADILLAC RUBBER AND PLASTICS, INC. EMPLOYEES RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014

NOTE G - TAX STATUS

The Internal Revenue Service has ruled in a determination letter that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

NOTE H - RISKS AND UNCERTAINTIES

The Plan provides for investment options in various investment securities. Investments securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2014 and 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014

NOTE A - DESCRIPTION OF PLAN

The following description of the Cadillac Rubber and Plastics, Inc. Employees Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

The Plan is a defined contribution plan covering all employees of the Company who have attained age eighteen, work twenty-five hours or more per week, and who have completed ninety days of continuous service. The Plan was established in August of 2006, and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

2. Participant Contributions

Participants may contribute up to 50 percent (to a maximum of \$17,500 if under age 50 and \$23,000 if age 50 or older) of their annual wages. Each participant can select the type of investments held in their own voluntary contribution account (directed investment account).

3. Employer Contributions

Eligible employees who have completed ninety days of service and are at least age 18 will receive a match. The Company makes nondiscretionary contributions of 100% of the first 3% of participant contributions but not to exceed more than 3% of each participant's compensation for a given plan year.

The Company may contribute an additional discretionary amount which shall be proportionately allocated among participants according to compensation level. There were no discretionary profit-sharing contributions for 2014 and 2013.

4. Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of the Company's contribution and plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

5. Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest rates between 4.25% and 9.25%, which are commensurate with local prevailing rates. Principal and interest is paid ratably through bi-weekly payroll deductions.

6. Vesting

Participants are immediately vested in their voluntary contributions and employer contributions plus actual earnings thereon.

7. Payment of Benefits

On termination of service due to death, retirement or termination, the participant or the participant's beneficiary receives the value of the funds allocated to his account in the form of a lump sum payment or installments.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014

8. Forfeited Accounts

There are no forfeitures due to 100% vesting of salary deferrals, rollover contributions, and company match.

NOTE B - SUMMARY OF ACCOUNTING POLICIES

1. Accounting Basis

The financial statements and schedules of the Plan are prepared on the accrual basis of accounting.

2. Use of Estimates

The preparation of the Plan's financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

3. Investment Valuation and Income Recognition

Investments are reported at fair values. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

4. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principle balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

5. Payment of Benefits

Benefits are recorded when paid.

6. Expenses

Certain administrative costs of the Plan, including trust, legal, and audit fees are paid by the Company.

7. Subsequent Events

Management has evaluated subsequent events through October 7, 2015, the date in which the financial statements were available to be issued.

NOTE C - CERTIFIED FINANCIAL DATA & INVESTMENTS

The following is a summary of the unaudited information regarding the Plan as of December 31, 2014 and 2013, and for the years then ended, included in the Plan's financial statements and supplemental schedule,

During the year ending December 31, 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value by \$772,784. Of this change, \$500,916 took place in the Pooled Separate Accounts, \$223,228 took place in mutual funds and the remaining \$48,640 was from other investment earnings.

NOTE D - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted observable quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to

CADILLAC RUBBER AND PLASTICS, INC. EMPLOYEES RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014

unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Pooled Separate Accounts: Prudential Retirement Insurance and Annuity Company (PRIAC) separate accounts are measured via units. When Prudential invests in an alliance fund, they buy shares, which have a stated value, to create a Separate Account. When an individual chooses one of their separate accounts for their retirement savings, they own units of the separate account. The value of the participant portion of PRIAC's Separate Account is the net unit value (NUV) multiplied by the number of units the participant owns. The value of the portion of the mutual fund owned by the Separate Account is determined by multiplying the net asset value (NAV) by the number of shares owned. The NUV includes dividends and capital gains that are automatically reinvested for the pooled market value separate account and deducts a small Prudential charge for administering the account. The daily changes in the pooled market value separate account's NUV represents the pooled market value separate account's performance.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

CADILLAC RUBBER AND PLASTICS, INC. EMPLOYEES RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014

Insurance Company General Account (unallocated contracts): Guaranteed investment contracts (GIC) are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. Prudential's Guaranteed Income Fund is an insurance company issued Evergreen Group Annuity with no maturity date and interest rates are reviewed on a semi-annual basis. The contract value represents deposits made to the contract, plus earnings at guaranteed rates, less withdrawals and fees. It is not a traditional GIC and therefore there are not any known cash flows that could be discounted. The contract value is the amount payable on demand at the reporting date, and therefore, the contract value is also the fair market value to be disclosed.

The following tables present by level, within the fair value hierarchy, the Plan investment assets at fair value, as of December 31, 2014 and 2013. As required by FASB ASC 820, investment assets are classified in their entirety based upon the lowest level of input that is significant to the fair value measurement.

NOTE E - RELATED PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Prudential Retirement Insurance and Annuity Company, the trustee of the Plan, manages certain Plan investments. Therefore, these transactions qualify as party-in-interest transactions and are denoted as such on the supplemental Schedule of Assets (Held at End of Year).

The Plan engaged in transactions involving Prudential Retirement Insurance and Annuity Company, the Plan's administrator and trustee, Baird, Cotter and Bishop, P.C., the Plan auditor, and Cadillac Rubber & Plastics, Inc., the Plan sponsor, which are party-in-interest with respect to the Plan. These transactions are not considered "prohibited transactions" under the Code and are not prohibited by ERISA.

NOTE F - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

CADILLAC RUBBER AND PLASTICS, INC. EMPLOYEES RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014

NOTE G - TAX STATUS

The Internal Revenue Service has ruled in a determination letter that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

NOTE H - RISKS AND UNCERTAINTIES

The Plan provides for investment options in various investment securities. Investments securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014

NOTE A - DESCRIPTION OF PLAN

The following description of the Cadillac Rubber and Plastics, Inc. Employees Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

The Plan is a defined contribution plan covering all employees of the Company who have attained age eighteen, work twenty-five hours or more per week, and who have completed ninety days of continuous service. The Plan was established in August of 2006, and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

2. Participant Contributions

Participants may contribute up to 50 percent (to a maximum of \$17,500 if under age 50 and \$23,000 if age 50 or older) of their annual wages. Each participant can select the type of investments held in their own voluntary contribution account (directed investment account).

3. Employer Contributions

Eligible employees who have completed ninety days of service and are at least age 18 will receive a match. The Company makes nondiscretionary contributions of 100% of the first 3% of participant contributions but not to exceed more than 3% of each participant's compensation for a given plan year.

The Company may contribute an additional discretionary amount which shall be proportionately allocated among participants according to compensation level. There were no discretionary profit-sharing contributions for 2014 and 2013.

4. Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of the Company's contribution and plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

5. Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest rates between 4.25% and 9.25%, which are commensurate with local prevailing rates. Principal and interest is paid ratably through bi-weekly payroll deductions.

6. Vesting

Participants are immediately vested in their voluntary contributions and employer contributions plus actual earnings thereon.

7. Payment of Benefits

On termination of service due to death, retirement or termination, the participant or the participant's beneficiary receives the value of the funds allocated to his account in the form of a lump sum payment or installments.

8. Forfeited Accounts

There are no forfeitures due to 100% vesting of salary deferrals, rollover contributions, and company match.

NOTE B - SUMMARY OF ACCOUNTING POLICIES

1. Accounting Basis

The financial statements and schedules of the Plan are prepared on the accrual basis of accounting.

2. Use of Estimates

The preparation of the Plan's financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

3. Investment Valuation and Income Recognition

Investments are reported at fair values. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

4. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principle balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

5. Payment of Benefits

Benefits are recorded when paid.

6. Expenses

Certain administrative costs of the Plan, including trust, legal, and audit fees are paid by the Company.

7. Subsequent Events

Management has evaluated subsequent events through October 7, 2015, the date in which the financial statements were available to be issued.

NOTE C - CERTIFIED FINANCIAL DATA & INVESTMENTS

Of this change, \$500,916 took place in the Pooled Separate Accounts, \$223,228 took place in mutual funds and the remaining \$48,640 was from other investment earnings.

NOTE D - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted observable quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to

CADILLAC RUBBER AND PLASTICS, INC. EMPLOYEES RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014

unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Pooled Separate Accounts: Prudential Retirement Insurance and Annuity Company (PRIAC) separate accounts are measured via units. When Prudential invests in an alliance fund, they buy shares, which have a stated value, to create a Separate Account. When an individual chooses one of their separate accounts for their retirement savings, they own units of the separate account. The value of the participant portion of PRIAC's Separate Account is the net unit value (NUV) multiplied by the number of units the participant owns. The value of the portion of the mutual fund owned by the Separate Account is determined by multiplying the net asset value (NAV) by the number of shares owned. The NUV includes dividends and capital gains that are automatically reinvested for the pooled market value separate account and deducts a small Prudential charge for administering the account. The daily changes in the pooled market value separate account's NUV represents the pooled market value separate account's performance.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

CADILLAC RUBBER AND PLASTICS, INC. EMPLOYEES RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014

Insurance Company General Account (unallocated contracts): Guaranteed investment contracts (GIC) are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. Prudential's Guaranteed Income Fund is an insurance company issued Evergreen Group Annuity with no maturity date and interest rates are reviewed on a semi-annual basis. The contract value represents deposits made to the contract, plus earnings at guaranteed rates, less withdrawals and fees. It is not a traditional GIC and therefore there are not any known cash flows that could be discounted. The contract value is the amount payable on demand at the reporting date, and therefore, the contract value is also the fair market value to be disclosed.

The following tables present by level, within the fair value hierarchy, the Plan investment assets at fair value, as of December 31, 2014 and 2013. As required by FASB ASC 820, investment assets are classified in their entirety based upon the lowest level of input that is significant to the fair value measurement.

NOTE E - RELATED PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Prudential Retirement Insurance and Annuity Company, the trustee of the Plan, manages certain Plan investments. Therefore, these transactions qualify as party-in-interest transactions and are denoted as such on the supplemental Schedule of Assets (Held at End of Year).

The Plan engaged in transactions involving Prudential Retirement Insurance and Annuity Company, the Plan's administrator and trustee, Baird, Cotter and Bishop, P.C., the Plan auditor, and Cadillac Rubber & Plastics, Inc., the Plan sponsor, which are party-in-interest with respect to the Plan. These transactions are not considered "prohibited transactions" under the Code and are not prohibited by ERISA.

NOTE F - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE G - TAX STATUS

The Internal Revenue Service has ruled in a determination letter that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

NOTE H - RISKS AND UNCERTAINTIES

The Plan provides for investment options in various investment securities. Investments securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
