KMM RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2014 and 2013

1. Description of Plan

The following description of the KMM Retirement Plan (the Plan) provides only general information and is presented to assist in understanding the Plan's financial statements. The financial statements and notes are representations of the Plan's management, which is responsible for their integrity and objectivity. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of KMM Telecommunications and Subsidiaries (the Company), excluding non-management employees of Team Alliance, Inc., who have completed one year of service with at least 1,000 hours of service within a 12 consecutive month eligibility computation period. Participants will then enter the Plan on January 1 or July 1 that coincides with or next follows the date on which the participants satisfy the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each eligible employee may elect to make pretax contributions by authorizing his or her compensation to be reduced by any percentage up to 15%, not to exceed the current year's statutory limits. Each year participants may contribute up to the maximum allowed under the Internal Revenue Code (the Code), as defined in the Plan. For participants age 50 or older, an additional catch-up contribution was allowed up to limits established by the IRS for the year ended December 31, 2014. Participants may also make after-tax Roth contributions and roll over amounts representing distributions from other qualified defined benefit or contribution plans.

The employer may make matching contributions equal to a discretionary percentage, to be determined by the Board of Trustees, of the participant's elective deferrals. The employer's matching contributions for both 2014 and 2013 were equal to $.50 for each $1.00 of employee 401(K) contributions, up to 4% of the participant's annual compensation. The employer matching and any related forfeitures will vest based on years of continuous service. Each participant may direct the matching contributions into an available investment fund, as defined.

Employer profit-sharing contributions to the Plan are made at the discretion of the Board of Trustees. The employer's annual contributions for both 2014 and 2013 were allocated to all eligible participants at an amount equal to 5% of their compensation.

Participants' accounts

Each participant's matching and profit-sharing accounts are credited with an allocation of a) the employer's contribution and b) Plan earnings. Allocations are based on participants' earnings or account balances, as defined. Each participant's 401(K) account is credited with the participant's contribution and allocation of the Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions to the Plan plus actual earnings thereon. Vesting in the Company's matching and profit-sharing contributions is based upon years of service as defined. Participants do not vest in their respective Company contributions until completing three years of continuous service, at which time they become 100% vested. A covered year of service is a twelve-month period ending December 31 during which a participant worked for the Company at least 1,000 hours. A participant is also fully vested upon reaching normal retirement age, upon death, or upon becoming totally and permanently disabled.

1. Description of Plan (continued)

Payment of benefits

On retirement or termination of service, a participant may elect to receive either a lump sum amount equal to the value of his or her account, or annual installments over a fixed reasonable period of time, not exceeding the life expectancy of the participant and his or her spouse. Participants may withdraw their contributions upon demonstrating hardship or attaining 59½.

Forfeited accounts

Forfeited non-vested accounts are used to reduce the employer's contributions. At December 31, 2014 and 2013, amounts used to reduce employer contributions totaled $5,652 and $2,795, respectively.

Notes receivable from participants

Participants may borrow up to the lesser of $50,000 or 50% of their vested account balance. The minimum amount that can be borrowed is $1,000. Loan repayment periods are five years or less except for home loans, which can be for as long as 30 years. The loans are collateralized by the balance in the participant's account and bear interest at the prime rate plus 1%. The interest rate on all the participant notes receivable was 4.25% at December 31, 2014 and 2013. Principal and interest is repaid ratably through payroll deductions.

2. Summary of accounting policies

Basis of accounting

The financial statements of the Plan are prepared under the modified cash basis of accounting. Therefore, contributions and expenses are recognized only as cash is received or paid, and receivables and payables are not reflected, while investment earnings are accrued as earned. If the financial statements of the Plan were prepared under the accrual basis of accounting, the reported employer profit-sharing contributions (receivables) would have been $374,577 and $366,004 as of December 31, 2014 and 2013, respectively, and the reported employer matching contributions would have been $80,734 and $68,391 as of December 31, 2014 and 2013, respectively. At December 31, 2013, the Plan would have also accrued corrective distributions payable of $7,470, which are contributions that were refunded in order to pass the Actual Deferral Percentage Test for 2013.

Use of estimates

The preparation of financial statements requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition

The Plan's investments are stated at fair value. Shares of registered investment funds are valued at the net asset value of shares held by the Plan at year end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the Plan year.

Payment of benefits

Benefits are recorded when paid.

2. Summary of accounting policies (continued)

Notes receivable from participants

Loans are valued at the unpaid balances plus any unpaid accrued interest. In the event of a default, the participant's account balance is reduced by the amount of the unpaid loan balance.

Tax status

The Plan sponsor adopted a prototype non-standardized profit-sharing plan with a cash or deferral arrangement which received a favorable opinion letter from the Internal Revenue Service dated May 3, 2002, which states that the Plan is designed in accordance with the applicable sections of the Internal Revenue Code (IRC) and is, therefore, not subject to tax under present income tax law. The Plan has been amended since receiving the opinion letter. The Plan is required to operate in conformity with the IRC to maintain its qualification. Management is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status.

Uncertain tax positions

As of December 31, 2014, management believes that based on evaluation of the Plan's tax positions that any liability as a result of uncertain tax positions would not be material. Management continually evaluates expiring statutes of limitations, changes in tax law, and new authoritative rulings to assist in evaluating the Plan's tax positions. Accrued interest and penalties associated with uncertain tax positions, if any, would be recognized as a liability. Tax returns are filed in the U.S. federal jurisdiction. U.S. federal tax returns prior to fiscal year 2011 are closed.

3. Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statement of net assets available for benefits.

4. Certification of trustee

We have been informed by the Plan administrator that State Street Bank and Trust Company held the Plan's investment assets and executed investment transactions for the years ended December 31, 2014 and 2013. The Plan administrator has obtained certification from the trustee as of and for the years ended December 31, 2014 and 2013, that the information provided to the Plan administrator by the trustee is complete and accurate. 6. Fair value measurement of investments

The Codification establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (level 1 measurements).

The three levels of the fair value hierarchy are as follows:

Level 1 – Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date;

Level 2 – Inputs other than quoted prices that are observable for the assets or liability either directly or indirectly, including inputs that are not considered to be active;

Level 3 – Inputs that are unobservable.

Inputs are used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk. Inputs may include price information, volatility statistics, specific and broad criteria data, liquidity statistics, and other factors. An investment's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. However, the determination of what constitutes "observable" requires significant judgment by the Plan. The Plan considers observable data to be that market data which is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, provided by multiple, independent sources that are actively involved in the relevant market. The categorization of an investment within the hierarchy is based upon the pricing transparency of the investment and does not necessarily correspond to the Plan's perceived risk of that investment.

Fair value for the Plan's investments was determined as follows:

Level 1

The fair values of registered investment company shares are determined by obtaining quoted prices on nationally recognized securities exchanges.

Level 2

The common collective trust invests in stable value investment vehicles such as traditional guaranteed investment contracts, separate account guaranteed investment contracts, and synthetic guaranteed investment contracts issued by highly-rated financial institutions and corporations as well as in cash or cash equivalents. The trusts, which are not exchange traded, are valued at the net asset value of units held, which is an observable input and is considered by Plan management to be the best approximation of fair value.

Level 3

The Plan has no level 3 investments.

6. Fair value measurement of investments (continued)

The Plan's investments consist of the following:

	December 31, 2014 Fair market value

7. Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

8. Transactions with parties-in-interest

The Company pays for professional fees relating to services provided to the Plan. Fees paid on behalf of the Plan during each of the years ended December 31, 2014 and 2013 were $7,500 and $0, respectively. The Company also provides certain accounting and administrative services to the Plan for which no fees are charged.

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. In 2013, the Plan held shares of a mutual fund owned by the Plan's consultant, Morgan Stanley, who provided investment advisory and regulatory compliance services to the Plan. In 2014, the Plan discontinued using Morgan Stanley's services, sold their shares in the Morgan Stanley fund, and began using a new consultant who does not offer their own investments. The Plan's recordkeeper, ADP Retirement Services (a subsidiary of Automatic Data Processing, Inc.) is also paid investment management fees as a percentage of assets in certain fund investments. These transactions are exempt from prohibited transaction rules. The fees paid by the Plan for investment management services are included as a reduction in the net appreciation (depreciation) in fair value of investments. Direct fees were also paid to ADP Retirement Services during the years ended December 31, 2014 and 2013 of $9,113 and $5,262, respectively.

9. Subsequent events

Subsequent events have been evaluated through October 11, 2015, which is the date the report was available to be issued.
