NOTE A - DESCRIPTION OF THE PLAN

The following description of the Remodelers Supply Center 401(k) Plan (the Plan) provides only general information. Interested parties should refer to the plan document for a more complete description of the Plan's provisions.

1. General

   The Plan is a defined contribution profit sharing and 401(k) plan covering eligible employees of Logan Square Aluminum Supply, Inc. (the Company). Employees are eligible to participate upon completion of one year of service, defined as at least 1,000 hours of service, and attaining age 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2. Contributions

   The Plan is funded by voluntary contributions of participants and discretionary matching and profit sharing contributions of the Company. Participants may contribute to the Plan, through regular payroll deductions, an amount subject to limitations imposed by the Internal Revenue Code. Participants may also roll over amounts representing distributions from other qualified employee benefit plans. The Company made no discretionary matching or profit sharing contributions to the Plan for the year ending December 31, 2014.

3. Investment Options

   Participants must direct their salary deferral contributions and the Company's contributions into a variety of investment funds made available and determined by the Plan Administrator. Participants may change their investment options at any time.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

4. Participant Accounts

Each participant's account is credited with the participant's contribution, an allocation of the Company's discretionary matching and profit sharing contributions, and an allocation of plan earnings. The Company's discretionary matching contribution is allocated as of the last day of the plan year and is based on a percentage of the participant's contribution. The Company's discretionary profit sharing contribution is allocated as of the last day of the plan year and is based on a ratio of each eligible participant's compensation to total compensation for all eligible participants. Plan earnings are allocated to participants' accounts in direct proportion to their respective account balances, based on the performance of participants' investment selections. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

5. Vesting

Participants are immediately fully vested in participant and rollover contributions plus the actual earnings thereon. The portion of the participants' accounts attributable to the Company's contributions becomes 20% vested after two years of service and continues to vest at the rate of 20% for each successive year until 100% vested after six years of service. In the event of death, disability, or retirement at designated ages, participants become fully vested.

6. Payment of Benefits

On termination of service, a participant may elect to receive a single, lump-sum payment equal to the value of his or her vested account balance or a direct rollover distribution. Hardship withdrawals are also permitted by the Plan.

7. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Participants are permitted to take loans from the Plan up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. The loans are collateralized by the borrowers' respective vested account balances and bear interest at 3.25%. Principal and interest are paid through payroll deductions over a period not to exceed five years, unless for the purchase of a primary residence. Related interest income totaled $2,435 for the year ended December 31, 2014.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

8. Administrative Expenses

Administrative expenses of the Plan are paid by the Company and the Plan. Administrative expenses paid by the Company approximated $12,200 for the year ended December 31, 2014.

9. Forfeitures

At December 31, 2014 and 2013, unallocated plan assets resulting from forfeited nonvested accounts were insignificant. When applicable, forfeitures are used to reduce future discretionary Company contributions or pay administrative expenses. No forfeitures were used to reduce discretionary Company contributions or pay administrative expenses during 2014.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Current accounting standards require investment contracts held by a defined contribution plan to be reported at fair value.

However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts. The statement of changes in net assets available for benefits is prepared on the contract value basis.

As of December 31, 2014 and 2013, contract value approximated fair value for the portion of the Plan's assets that are considered to be fully benefit-responsive; therefore, no such adjustments are reflected in these financial statements.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2. Fair Value Measurements

Current accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include the following:

* Quoted prices for similar assets or liabilities in active markets;
* Quoted prices for identical or similar assets or liabilities in inactive markets;
* Inputs other than quoted prices that are observable for the asset or liability;
* Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for the Plan's investments measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2. Fair Value Measurements (Continued)

Pooled separate accounts: Valued at net asset value ("NAV") per unit as determined by the insurance company or contract administrator. Such NAV is based on the value of the underlying assets and liabilities of the account. The investment objectives of the accounts vary and can be differentiated by the nature of their holding as disclosed below. Participants may transfer in and out of such trusts on a daily basis without any prohibitive restrictions.

Guaranteed interest account: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer (see Note D).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes that its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014 and 2013.

The Plan held shares of interests in a guaranteed interest account at December 31, 2014 and 2013. The guaranteed interest account invests primarily in a general account of Voya Retirement Insurance and Annuity Company (formerly known as ING Life Insurance and Annuity Company), with a guaranteed rate of return which may change periodically (see Note D). There were no unfunded commitments at December 31, 2014 or 2013. Participant-directed withdrawals may be made on any business day. Withdrawals directed by the Plan Sponsor may be requested in writing, on any business day. Amounts payable under the contract become due based upon the payment options made available under the contract.

The following tables set forth additional disclosures of the Plan's pooled separate account investments whose fair value is estimated using NAV (or its equivalent) as of December 31, 2014 and 2013.

   (a) Invests in common stocks of small to large capitalization foreign companies.

   (b) Invests in common stocks of mid capitalization domestic companies.

   (c) Invests in a mix of common stocks of large capitalization domestic companies.

   (d) Invests in common stocks of small to large capitalization domestic companies.

   (e) Invests in the portfolios of Voya Retirement Insurance and Annuity Company (formerly known as ING Life Insurance and Annuity Company), with broad exposure to the domestic and foreign equity and fixed income markets based upon targeted retirement dates.

   (f) Invests in high quality, publicly traded bonds, Treasury notes and bonds, short-term money market investments, and government agency bonds.

3. Income Recognition

   Purchases and sales of securities are recorded on a trade-date basis. Unrealized gains or losses from appreciation or depreciation of investments are recognized as increases or decreases in net assets available for benefits.

4. Use of Estimates

   In preparing the Plan's financial statements, management is required to make estimates and assumptions that affect the reported amounts of net assets, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

5. Payment of Benefits

   Benefits are recorded when paid.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

6. Accounting for Uncertainty in Income Taxes

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress.

NOTE C - INVESTMENTS

Investments held at December 31, 2014 and 2013, and net appreciation in the fair value of investments and interest for the year ended December 31, 2014, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Voya Retirement Insurance and Annuity Company (formerly known as ING Life Insurance and Annuity Company), the custodian. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by the custodian.

The following table presents the fair value of the investments in the Plan. Individual amounts representing more than 5% of the Plan's net assets as of December 31, 2014 and/or 2013, are separately identified.

	2014	2013
Voya Retirement Insurance and Annuity Company

Fidelity VIP Mid Cap Portfolio	$ 236,972	$ 216,265
T. Rowe Price Growth Equity Portfolio	1,089,170	1,006,595

Guaranteed interest account		
Voya Fixed Account	326,178	307,756
	$ 3,364,071	$ 3,052,380

NOTE C - INVESTMENTS (Continued)

During the year ended December 31, 2014, the Plan's investments (including investments purchased, held, and sold during the year) in pooled separate accounts appreciated in value by $166,785.

NOTE D - GUARANTEED INTEREST ACCOUNT

The Plan has entered into a guaranteed interest account with Voya Retirement Insurance and Annuity Company (formerly known as ING Life Insurance and Annuity Company). The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is fully benefit-responsive, and withdrawals are permitted without penalty. The crediting interest rate for the contract was approximately 3.00% in 2014. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on an annual basis for resetting.

NOTE E – INCOME TAX STATUS

Effective January 1, 2009, the Plan adopted a nonstandardized form of a prototype plan sponsored by Pension Administrators Inc. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable provisions of the Internal Revenue Code.

NOTE F - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants become fully vested in their respective account balances.

NOTE G - MARKET RISK

The value of the Plan's investments is subject to market risk associated with potential fluctuations in the values of the underlying securities. Fluctuations in the market value of the Plan's investments could be material to the financial statements.

NOTE H - PARTY-IN-INTEREST TRANSACTIONS

Plan investments are managed by Voya Retirement Insurance and Annuity Company. Voya Retirement Insurance and Annuity Company is the custodian, as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each investment.

NOTE I - PLAN AMENDMENT

In June 2014, the Plan Sponsor made an acquisition, and effective August 1, 2014, the Plan was amended to allow all employees of the acquired company to become eligible to participate in the Plan based on prior service credited with the previous employer. There were no significant changes to plan operations due to the amendment. Interested parties should refer to the plan document for a complete description of the Plan's provisions.

NOTE J - RECONCILIATION OF AUDITED FINANCIAL STATEMENTS TO FORM 5500

The following are reconciliations of net assets available for benefits and contributions from these financial statements to the Form 5500. The reconciliation items are a result of the fact that the 2014 and 2013 Form 5500s were prepared on the cash basis rather than the accrual basis, as required by accounting principles generally accepted in the United States of America.

	2014	2013
Net assets available for benefits - Financial Statements	$ 3,445,031	$ 3,113,491
Excess contributions refundable to participants	4,084	-
Net assets available for benefits - Form 5500	$ 3,449,115	$ 3,113,491

	Year ended December 31, 2014
Participant contributions - Financial Statements	$ 177,308
Excess contributions refundable to participants - December 31, 2014	4,084
Participant contributions - Form 5500	$ 181,392

NOTE K - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events through October 14, 2015, the date that these financial statements were available to be issued. Plan management has determined no events or transactions have occurred subsequent to the statement of net assets available for benefits date that require disclosure in the financial statements.
