ESSEX MORTGAGE 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

Year Ended December 31, 2014

1. Description of Plan

The following description of the **Essex Mortgage 401(k) Plan (the Plan)** provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

A. General - The Plan was established on January 1, 2013 as a defined contribution plan under the provision of Section 401(a) of the Internal Revenue Code (IRC), which includes a qualified cash or deferred arrangement as described in Section 401(k) of the IRC. The Company contracted with ADP Retirement Services to provide Plan administrative and investment services, and Reliance Trust Company to serve as trustee of the Plan's assets. Plan compliance and administrative services are performed by a third party administration firm. The trustees of the Plan are officers of the Company. The Plan is subject to the provision of the Employee Retirement Income Security Act of 1974 (ERISA).

Loan origination fees and asset charges on contract accounts are paid directly by Plan participants. All other administrative expenses are paid directly by the Company. Certain investment management fees and other charges paid to the trustee are offset against fund performance in the net appreciation in fair value of investments or against benefits paid to participants in the statement of changes in net assets available for benefits and are not, therefore, separately reflected as administrative expenses.

The Plan is exposed to credit risk in the event of default by the issuers of the investments to the extent of amounts recorded on the statements of net assets available for benefits.

B. Eligibility - The Plan is a defined contribution plan covering all employees of the Company who have completed three months of service. Upon meeting the eligibility requirements, employees are eligible to enter the Plan on the first of the month after completing the respective eligibility requirements.

C. Contributions - Each pay period the participants may contribute from 1% and 75% of their eligible compensation to the Plan subject to the limits of the Internal Revenue Service. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan offered a group of registered investment companies' funds as administered by Reliance Trust Company.

At the discretion of the Board of Directors, the Company can make matching contributions, which are also participant directed. There were no matching contributions for the year ended December 31, 2014.

As of December 31, 2014 there were refunds of excess contributions aggregating $24,272 included as a reduction to employee contributions.

D. Participant's Accounts - Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and plan earnings; and are charged with an allocation of plan fund administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of Plan (continued)

E. **Vesting** - Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company contributions portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100% vested after three years of credited service. A participant is also 100% vested upon normal retirement age, death or disability.

F. **Notes Receivable from Participants** - Participants may borrow from their fund accounts a minimum of $500 up to a maximum $50,000 or an amount equal to 50% of their account balance. Loan terms range from 1 - 5 years at a reasonable interest rate determined by the administrator and are secured by their account balance. Principal and interest is paid ratably through semi-monthly payroll deductions.

G. **Payment of Benefits** - Upon termination, death, disability, or retirement, a participant's account is distributed in a single lump-sum payment if the balance is less than $5,000. If the account balance is more than $1,000, and the participant is determined to be a cash-eligible-participant, and the participant has not elected to (a) receive the vested benefit in the form of a single lump sum payment, or (b) have the payment paid as a "direct rollover" to an IRA or to another employer's tax qualified plan, the amount will automatically be rolled over to an IRA established by an IRA provider selected by the Company. In the case of death, the distribution shall be made to the participant's beneficiary.

H. **Forfeited Accounts** - Forfeitures of non-vested employer contributions, if any, shall be used to reduce employer contributions for the plan year in which they occurred or thereafter. The Plan did not reduce employer contributions with forfeitures during the Plan year. As of December 31, 2014 there were no funds in forfeited non-vested accounts.

2. Summary of Accounting Policies

The following are the significant accounting policies followed by the Plan:

A. **Basis of Accounting** - The financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

B. **Use of Estimates** - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

2. Summary of Accounting Policies (continued)

C. **Investment Valuation and Income Recognition** - The Plan's investments were held by Reliance Trust Company, the trustee. Investments are reported at fair value, as determined by the Plan's trustee. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 2 (F) for discussion on fair value measurement.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

D. **Notes Receivable from Participants** - Notes receivable from participants are valued at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. Delinquent loans to participants are recorded as a distribution based upon the terms of the plan documents.

E. **Excess Contributions Payable** - Amounts payable to participants in excess of the amount allowed by the IRS are recorded as a liability with a corresponding deduction to net assets available for benefits. The Plan distributed the 2014 excess contributions to the applicable participants prior to March 15, 2015.

F. **Fair Value Measurement** - Accounting Standards Codification (ASC) 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

- Level One - Inputs to valuation methodology are unadjusted prices for identical instruments in active markets that the Plan has the ability to access.
- Level Two - Inputs to valuation methodology include (a) quoted prices for identical instruments in active markets; (b) quoted prices for identical or similar instruments in markets that are not active; (c) inputs other than quoted prices that are observable for identical instrument; and (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level Three - Inputs to valuation methodology are unobservable and significant to the fair value measurement.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or 2 were not available.

The following is a description of the valuation methodologies used for assets measured at fair value:

- **Registered investment companies:** Market approach valuation based on the daily closing price as reported by the fund.

G. **Payments of Benefits** - Benefits are recorded when paid.

3. Investments

All investment information included in the accompanying financial statements and supplemental schedules including investments held at December 31, 2014, and net appreciation in fair value of investments, interest and investment expenses for the year then ended, were obtained or derived from data that has been prepared and certified to as complete and accurate in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 by Reliance Trust Company, the trustee for the Plan. The trustee held the Plan's investments and executed all investment transactions.

ADP Retirement Services is the record keeper for the Plan.

The fair value of individual investments that represent 5% or more of Net Assets Available for Benefits are as follows:

JP Morgan Smart Retirement 2015 Fund	$ 50,734
JP Morgan Smart Retirement 2020 Fund	165,292

4. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of Net Assets Available for Benefits. The following methods are used to measure fair value that produces an amount that may not be indicative of net realizable value or reflective of future fair values.

- *Level 1 Fair Value Measurements* - The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

The following tables set forth, by level with the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014:

	Fair Value	Fair Value Measurement Using: Level One
Registered investment companies:		
Income	$ 3,265	$ 3,265
Growth and income	520,113	520,113
Total	**$ 523,378**	**$ 523,378**

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

7. Tax Status

The Plan was established effective January 1, 2013.

The Plan has received an opinion letter from the Internal Revenue Service dated July 8, 2014, stating that the written form of the underlying prototype plan document is qualified under Section 401(a) of the Internal Revenue Code (the Code), and that any employer adopting this form of the Plan will be considered to have a plan qualified under Section 401(a) of the Code. Therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualifications. The plan administrator is not aware of any course of action or series of events that it believes would adversely affect the Plan's qualified status.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize any tax liability (asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain tax positions taken or expected to be taken that would require recognition of liability (asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

8 . Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Reconciliation of Financial Statements to Form 5500

ESSEX MORTGAGE 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

Year Ended December 31, 2014

1. Description of Plan

The following description of the **Essex Mortgage 401(k) Plan (the Plan)** provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

A. General - The Plan was established on January 1, 2013 as a defined contribution plan under the provision of Section 401(a) of the Internal Revenue Code (IRC), which includes a qualified cash or deferred arrangement as described in Section 401(k) of the IRC. The Company contracted with ADP Retirement Services to provide Plan administrative and investment services, and Reliance Trust Company to serve as trustee of the Plan's assets. Plan compliance and administrative services are performed by a third party administration firm. The trustees of the Plan are officers of the Company. The Plan is subject to the provision of the Employee Retirement Income Security Act of 1974 (ERISA).

Loan origination fees and asset charges on contract accounts are paid directly by Plan participants. All other administrative expenses are paid directly by the Company. Certain investment management fees and other charges paid to the trustee are offset against fund performance in the net appreciation in fair value of investments or against benefits paid to participants in the statement of changes in net assets available for benefits and are not, therefore, separately reflected as administrative expenses.

The Plan is exposed to credit risk in the event of default by the issuers of the investments to the extent of amounts recorded on the statements of net assets available for benefits.

B. Eligibility - The Plan is a defined contribution plan covering all employees of the Company who have completed three months of service. Upon meeting the eligibility requirements, employees are eligible to enter the Plan on the first of the month after completing the respective eligibility requirements.

C. Contributions - Each pay period the participants may contribute from 1% and 75% of their eligible compensation to the Plan subject to the limits of the Internal Revenue Service. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan offered a group of registered investment companies' funds as administered by Reliance Trust Company.

At the discretion of the Board of Directors, the Company can make matching contributions, which are also participant directed. There were no matching contributions for the year ended December 31, 2014.

As of December 31, 2014 there were refunds of excess contributions aggregating $24,272 included as a reduction to employee contributions.

D. Participant's Accounts - Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and plan earnings; and are charged with an allocation of plan fund administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of Plan (continued)

E. **Vesting** - Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company contributions portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100% vested after three years of credited service. A participant is also 100% vested upon normal retirement age, death or disability.

F. **Notes Receivable from Participants** - Participants may borrow from their fund accounts a minimum of $500 up to a maximum $50,000 or an amount equal to 50% of their account balance. Loan terms range from 1 - 5 years at a reasonable interest rate determined by the administrator and are secured by their account balance. Principal and interest is paid ratably through semi-monthly payroll deductions.

G. **Payment of Benefits** - Upon termination, death, disability, or retirement, a participant's account is distributed in a single lump-sum payment if the balance is less than $5,000. If the account balance is more than $1,000, and the participant is determined to be a cash-eligible-participant, and the participant has not elected to (a) receive the vested benefit in the form of a single lump sum payment, or (b) have the payment paid as a "direct rollover" to an IRA or to another employer's tax qualified plan, the amount will automatically be rolled over to an IRA established by an IRA provider selected by the Company. In the case of death, the distribution shall be made to the participant's beneficiary.

H. **Forfeited Accounts** - Forfeitures of non-vested employer contributions, if any, shall be used to reduce employer contributions for the plan year in which they occurred or thereafter. The Plan did not reduce employer contributions with forfeitures during the Plan year. As of December 31, 2014 there were no funds in forfeited non-vested accounts.

2. Summary of Accounting Policies

The following are the significant accounting policies followed by the Plan:

A. **Basis of Accounting** - The financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

B. **Use of Estimates** - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

2. Summary of Accounting Policies (continued)

C. **Investment Valuation and Income Recognition** - The Plan's investments were held by Reliance Trust Company, the trustee. Investments are reported at fair value, as determined by the Plan's trustee. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 2 (F) for discussion on fair value measurement.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

D. **Notes Receivable from Participants** - Notes receivable from participants are valued at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. Delinquent loans to participants are recorded as a distribution based upon the terms of the plan documents.

E. **Excess Contributions Payable** - Amounts payable to participants in excess of the amount allowed by the IRS are recorded as a liability with a corresponding deduction to net assets available for benefits. The Plan distributed the 2014 excess contributions to the applicable participants prior to March 15, 2015.

F. **Fair Value Measurement** - Accounting Standards Codification (ASC) 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

- Level One - Inputs to valuation methodology are unadjusted prices for identical instruments in active markets that the Plan has the ability to access.
- Level Two - Inputs to valuation methodology include (a) quoted prices for identical instruments in active markets; (b) quoted prices for identical or similar instruments in markets that are not active; (c) inputs other than quoted prices that are observable for identical instrument; and (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level Three - Inputs to valuation methodology are unobservable and significant to the fair value measurement.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or 2 were not available.

The following is a description of the valuation methodologies used for assets measured at fair value:

- **Registered investment companies:** Market approach valuation based on the daily closing price as reported by the fund.

G. **Payments of Benefits** - Benefits are recorded when paid.

3. Investments

All investment information included in the accompanying financial statements and supplemental schedules including investments held at December 31, 2014, and net appreciation in fair value of investments, interest and investment expenses for the year then ended, were obtained or derived from data that has been prepared and certified to as complete and accurate in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 by Reliance Trust Company, the trustee for the Plan. The trustee held the Plan's investments and executed all investment transactions.

ADP Retirement Services is the record keeper for the Plan.
