Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion
As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Nationwide Trust Company, FSB, the custodian of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the custodian holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the custodian as of December 31, 2014 and 2013 and for the year ended December 31, 2014, that the information provided to the Plan Administrator by the custodian is complete and accurate.

Disclaimer of Opinion
Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Note 1. Plan Description

The following description of the C.J. Foods, Inc. (the Company) 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all full-time employees of the Company who have one year of service and are age 18 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility: Employees of the Company are eligible for the 401(k) savings feature of the Plan after they have completed 12 months of continuous service (1,000 hours) and are age 18 or older. Employees of the Company who have satisfied the eligibility requirements and are participating in the Plan are eligible for an employer safe harbor matching contribution. Plan entrance dates are January 1 and July 1.

Contributions: Each year, participants may contribute up to 100 percent of their pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified plans. Catch-up contributions are also allowed for participants who attain the age of 50 before the end of the Plan year.

The Company makes a safe harbor matching contribution of up to 4 percent of the participant's pretax annual compensation as defined in the Plan. For the Plan year ended December 31, 2014, the safe harbor matching contribution totaled $320,391. The Company may also elect to make a discretionary contribution. The Company did not make any discretionary contributions for the year ended December 31, 2014.

Contributions are subject to certain limitations.

Investments: Participants direct the investment of their contributions and the Company contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and an unallocated investment contract as investment options for participants. Participants may change their investment options any time throughout the year via direct dial access.

Participant accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions and the employer safe harbor matching contributions plus actual earnings thereon. Vesting in the Company's discretionary matching and profit-sharing contributions portion of their account is based on years of continuous service, according to the following schedule. A participant is 100 percent vested after six years of credited service.

Years of Service	
Less than 1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Note 1. Plan Description (Continued)

Forfeitures: Forfeitures of terminated participants' nonvested balances are used to reduce employer matching contributions. During the year ended December 31, 2014, $-0- in forfeitures was applied to reduce employer matching contributions. There were no forfeited nonvested accounts at December 31, 2014 or 2013.

Notes receivable from participants: Participants may borrow from their accounts a minimum of $1,000 and up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance, whichever is less. These transactions are treated as transfers between the investment fund and the participant notes receivable fund. The terms of the notes receivable cannot exceed five years, unless the note receivable is for the purchase of the employee's principal residence. The notes receivable are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined by the Plan Administrator. The interest rate was 5.25 percent for all outstanding notes at December 31, 2014. Principal and interest are paid ratably through payroll deductions. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes are treated as distributions based upon the terms of the plan document.

Payment of benefits: On termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. In-service distributions are not permitted unless the participant has attained age 59½, certain hardship conditions are met, or rollover contributions are available.

Recently issued accounting pronouncements: In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. Plan management is currently evaluating the impact this update will have on the Plan's financial statements.

In July 2015, the FASB ASU No. 2015-12 (ASU 2015-12), *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965)-(I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this Update is to simplify plan accounting.

- The amendments in Part I of this Update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.

Note 1. Plan Description (Continued)

- The amendments in Part II of this Update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plans, as a direct filing entity, disclosure of that investment's strategy will no longer be required.

- The amendments in Part III of this Update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The ASU 2015-12 may be adopted in whole or by part (I, II, and III), as applicable. The amendments in this ASU 2015-12 are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. Plan management is currently evaluating the impact this Update will have on the Plan's financial statements.

In March 2014, the FASB issued ASU No. 2014-06, Technical Corrections and Improvements Related to Glossary Terms. This ASU is limited to amendments related to the ASC Master Glossary and is effective upon issuance on March 14, 2014. Plan management is currently evaluating the impact this update will have on the Plan's financial statements.

Note 2. Significant Accounting Policies

The Plan's significant accounting policies are as follows:

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Retirement Plan Committee determines the Plan's valuation policies utilizing information provided by the investment custodians and the insurance company. See Note 4 for discussion of fair value measurements.

Note 2. Significant Accounting Policies (Continued)

The Plan has an unallocated investment contract with Nationwide. Nationwide maintains the contributions in a general account. The account is credited with deposits and earnings at crediting rates and charged for participant withdrawals and fees. The unallocated investment contract promises contract value for a benefit event (termination, death, disability and retirement); however, there is a possible surrender charge when funds are withdrawn prior to their maturity. Thus, the unallocated investment contract is considered fully benefit responsive. Fair market value is the amount that would be received were the funds to be withdrawn or transferred within the Plan prior to maturity. This value represents contributions allocated to the unallocated investment contract, plus interest at the crediting rate, less funds used to pay benefits and fees. Book value equals the sum of all contributions made to the participant account plus interest owed less all asset charges, fees and previous withdrawals. The contract value of the unallocated investment contract approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits: Benefit payments to participants are recorded when paid.

Note 3. Information Certified and Provided by Nationwide Trust Company, FSB

The following is a summary of the Plan's asset information as of December 31, 2014 and 2013, and for the year ended December 31, 2014, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Note 4 and the supplemental schedules related to the following assets:

	December 31, 2014	December 31, 2013
Investment at fair value:		
Mutual funds	$ 4,635,120	$ 4,196,121
Unallocated investment contract	177,403	209,828
Notes receivable from participants	94,466	91,092

The custodian also certified to the completeness and accuracy $197,453 of net depreciation in fair value of investments, $386,212 of dividends and $4,886 of interest income on notes receivable from participants for the year ended December 31, 2014.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 or 2013.

Mutual funds: Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Unallocated investment contract: Unallocated investment contract is valued based on the crediting interest rate as reported to the Plan by Nationwide Trust Company, FSB, which approximates fair value. The unallocated investment contract is a fully benefit responsive fixed contract and is carried at contract value, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Fair Value Measurements (Continued)

Changes in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2014, there were no transfers in or out of Level 3.

Level 3 gains and losses: The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2014.

	2014
Balance, beginning of year	$ 209,828
Realized gains/(losses)	4,313
Purchases	43,150
Sales	(79,888)
Balance, end of year	$ 177,403

Qualitative information about significant unobservable inputs used in Level 3 fair value measurements: The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, the significant unobservable inputs, and the ranges of values for those inputs.

Instrument	2014 Fair Value	2013 Fair Value	Principal Valuation Technique	Unobservable Inputs
Unallocated investment contract	$ 177,403	$ 209,828	(A)	(A)

(A) The concept of a value other than contract value does not apply to this insurance company issued general account backed (no maturity date) fixed product. This fixed contract, and therefore the liability of the insurer, is not backed by specific securities of its general account, and therefore the market value of the securities in the insurer's general account does not represent the fair value. The Plan owns a promise to receive interest at crediting rates which are announced in advance and guaranteed for a specified period of time as outlined in the fixed contract. This product is not a traditional Guaranteed Investment Contract ("GIC"), and therefore there are no known cash flows that could be discounted. As a result, the fair value amount shown materially approximates the contract value.

As there are not any specific securities in the general account that back the liabilities of this fixed contract, it would be inappropriate to look to the market value of the securities within the insurer's general account to determine a fair value. The plan owns a promise to pay interest at crediting rates which are announced in advance and guaranteed for a specified period of time as outlined in the fixed contract.

Note 4. Fair Value Measurements (Continued)

The contract is backed by the full faith and creditworthiness of the issuer. Guarantees are based on the claims-paying ability of the issuer and not on the value of the securities within the insurer's general account. The credit rating of the issuer at December 31, 2014 was A1 as reported by Moody's Investors Service, A+ as reported by A.M. Best and Standard & Poor's. Deposits are made to the insurer's general account. Payment obligations represent an insurance claim supported by all general account assets. It does not operate like a mutual fund, variable annuity product, or conventional fixed rate individual annuity product. As a result, the fair value amount shown is equal to the contract value. Contract value represents deposits made to the contract, plus earnings at crediting rates, less withdrawals and fees. Interest is reset annually at the discretion of the insurer. The rate was 2.50 percent for the year ended December 31, 2014. Key factors that could influence future interest crediting rates are changes in interest rates, and default or credit failures of the securities in the insurer's general assets. Past interest rates are not indicative of future interest rates.

Changes in fair value and related gains and losses: During 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held, during the year) appreciated (depreciated) in value by $197,453 as follows:

Mutual funds	$ (201,766)
Unallocated investment contract	4,313
	$ (197,453)

Note 5. Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain other administrative expenses are paid directly by the Company.

Note 6. Tax Status

The Plan adopted a nonstandard form of a prototype plan sponsored by DeMars Pension Consulting Services, Inc. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype opinion letter has been relied upon by this Plan. Although the Plan has been amended since the prototype plan received the opinion letter, the Plan Administrator believes the Plan is designed, and is being operated, in compliance with the applicable provisions of the Internal Revenue Code.

Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2011.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100 percent vested in their employer discretionary contributions.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9. Related-Party Transactions

Certain Plan investments are shares of mutual funds and insurance contracts managed by Nationwide Trust Company, FSB. Nationwide Trust Company, FSB is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Included in administrative expenses presented on the statement of changes in net assets, were fees paid to Nationwide Trust Company, FSB totaling $62,852.

Note 10. Subsequent Events

Subsequent to December 31, 2014, the Plan transferred all plan assets to a new third party administrator. This transfer of plan assets was effective on January 1, 2015.

The Plan restated their Plan document as of January 1, 2015. In doing so this changed the eligibility requirements found in Note 1. Employees now must complete 90 days of service to become eligible for the 401(k) savings feature of the Plan. Employees who are participating in the Plan are eligible for an employer safe harbor matching contribution after 12 months of continuous service.

Management has evaluated and disclosed subsequent events up to and including October 9, 2015, which is the date the financial statements were available to be issued.
