INDEPENDENT AUDITOR'S REPORT

The Plan Administrator
Time Manufacturing Company 401(k) Plan:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Time Manufacturing Company 401(k) Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information described in Note 5, which was certified by Mid Atlantic Trust Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the years ended December 31, 2014 and 2013, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Supplementary Information

The Schedule of Assets (Held at End of Year) is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for purposes of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplementary schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Time Manufacturing Company 401(k) Plan

Notes to Financial Statements

December 31, 2014 and 2013

(1) Description of Plan

The following description of the Time Manufacturing Company 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan covering all full-time employees of O'Flaherty Holdings Incorporated and Subsidiaries (specifically, Time Manufacturing Company and Lewis & Lambert, L.L.P.) (collectively, the "Company") who are age twenty-one or older, excluding union employees and non-resident aliens. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

(b) Contributions

Each year, participants may contribute from 1% to 60% of annual pre-tax compensation, as defined in the Plan, not to exceed a specific dollar amount determined by the Internal Revenue Service. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may direct contributions in percentage increments to any one of the eighteen investment options. The Company contributes a matching contribution of 25% of participant contributions up to a maximum of 1% of compensation. Additional amounts may be contributed at the option of the Company's board of directors. Contributions are subject to certain limitations. Unallocated Company contributions were $114,427 and $117,527 at December 31, 2014 and 2013, respectively.

(c) Participant Accounts

Each participant's account is credited with the participant's contribution, the employer matching contribution, and an allocation of Plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Time Manufacturing Company 401(k) Plan

Notes to Financial Statements
(Continued)

(1) Description of Plan (continued)

(d) Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after five years of credited service. Full vesting in employer contributions also occurs upon death, total disability or retirement at or after age sixty-five.

(e) Payment of Benefits

On termination of service due to death, disability or retirement, a participant receives the value of the participant's vested interest in his or her account as a lump-sum distribution. For termination of service for other reasons, a participant also receives the value of the vested interest in his or her account as a lump-sum distribution.

(2) Summary of Significant Accounting Policies and Practices

(a) Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measure attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

(b) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Time Manufacturing Company 401(k) Plan

Notes to Financial Statements
(Continued)

(2) Summary of Significant Accounting Policies and Practices (continued)

(b) Investment Valuation and Income Recognition (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(c) Payment of Benefits

Benefits are recorded when paid.

(d) Administrative Expenses

The Plan document allows for the expenses of maintaining the Plan to be satisfied directly out of the Plan's assets. A portion of the administrative expenses of the Plan is paid by the Company. Also, certain transaction charges are paid by the participants involved. Investment related expenses are included in net appreciation in fair value of investments.

(e) Income Taxes

The Plan recognizes the effect of income tax positions only if those positions are more likely than not of being sustained. Recognized income tax positions are measured at the largest amount that is greater than 50% likely of being realized. Changes in recognition or measurement are reflected in the period in which the change in judgment occurs.

(f) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

(3) Investments

The following table presents the fair values of the Plan's investments, all of which are participant directed, at December 31, 2014 and 2013. Investments that represent five percent or more of the Plan's net assets are separately identified.

Collective investment trust:		
Reliance Trust Stable Value Fund	1,185,840	1,055,552
	$ 7,817,269	7,033,452

During 2014 and 2013, the Plan's investments determined by quoted market prices (including investments bought, sold and held during the year) appreciated in value by $296,324 and $812,035, respectively.

The Plan's collective investment trust (the Reliance Trust Stable Value Fund) invests entirely in a group annuity contract which includes a fully benefit-responsive guaranteed investment contract with Metropolitan Life Insurance Company ("MetLife"). MetLife maintains the contributions in a separate account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is reported in the Statement of Net Assets Available for Benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

(3) Investments (continued)

The contract provides a fixed interest rate for a fixed period that will apply to the entire guaranteed value. The interest rate is reset every quarter as determined by MetLife with consideration of the fair value of the separate accounts, the anticipated market yields-to-maturity of benchmark indices of separate accounts, expected payments into and out of the contract, amortization of the difference, if any, between the fair value of the separate accounts and the guaranteed value of the contract, and the fees allowed under the contract. MetLife guarantees that the rate will never be less than zero.

Participant-directed withdrawals are paid at the contract value. However, if a withdrawal is made from the contract as a result of an employer or plan sponsor-initiated event or if a withdrawal is requested due to a complete or partial termination before the contract ends, and the contract's fair value equals or exceeds the guaranteed value, payment is made in an amount equal to the amount of the guaranteed value. If the contract's fair value is less than its guaranteed value, the amount paid is equal to the guaranteed value reduced by the amount of fair value deficit.

The average yield earned by the contract with an adjustment to reflect the actual interest rate credited to participants in the contract at December 31, 2014, was 2.49%. This represents the annualized earnings credited to participants in the contract divided by the fair value of the contract at December 31, 2014.

(4) Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying Statement of Net Assets Available for Benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values.

Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Generally accepted accounting principles establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.

Time Manufacturing Company 401(k) Plan

Notes to Financial Statements
(Continued)

(4) Fair Value Measurements (continued)

- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

- Level 3 inputs are unobservable inputs for the asset or liability.

The level in the fair value hierarchy within which a financial instrument in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety. The following methods and assumptions were used to estimate the fair value of each class of financial instruments:

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective investment trust: Valued at the NAV of units of the collective investment trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

		Fair Value Measurements at Reporting Date Using		
	Fair Value December 31, 2014	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

(5) Information Certified by the Custodians

For 2014 and 2013, the financial information included in the Plan's financial statements, except for the fair value adjustment for the collective investment trust, receivables, contributions, benefits paid to participants, and administrative expenses, have been derived from information certified as complete and accurate by the custodian of the Plan, in accordance with Section 2520.103-5 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The contract value of the collective investment trust was certified by the custodian.

(6) Components of Net Assets Available for Benefits

Net assets available for benefits may include certain vested and unvested amounts for former participants. At December 31, 2014 and 2013, forfeited nonvested accounts totaled $5,897 and $4,168, respectively. These amounts will be used to pay future Plan expenses.

The Plan also allows vested amounts of former participants to remain in the Plan until they elect to receive the benefits. As of December 31, 2014 and 2013, there are no net assets available for benefits allocated to the accounts of persons who had withdrawn from participating in the earnings and operations of the Plan.

(7) Tax Status

The Plan is using a standardized prototype profit-sharing plan document. In a letter dated January 31, 2006, the Internal Revenue Service ("IRS") indicated the standardized form of the Plan is acceptable under Section 401 of the Internal Revenue Code (the "Code"). The opinion of the IRS regarding the acceptability of the form of the Plan is not a ruling or determination as to whether the Plan qualifies under Code Section 401(a). Although the Plan has been amended since receiving the acceptability letter, the plan administrator determination as to whether the Plan qualifies under Code Section 401(a). Although the Plan has been amended since receiving the acceptability letter, the plan administrator believes the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

(8) Plan Termination

Although it has not expressed any interest to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their employer contributions.

(9) Party-In-Interest Transactions

The Plan has not considered Company contributions to the Plan or benefits paid by the Plan to participants as party-in-interest transactions.

(10) Risks and Uncertainties

The Plan's investments are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.
