Participants direct the investment of their contributions into various mutual fund investment options offered by the Plan. The Company may contribute to the Plan an amount of matching contributions determined by the Company at its discretion. For 2014 and 2013, the Company elected to match 10% of the employee elective deferral. Additional profit sharing amounts may be contributed at the option of the Company. Discretionary matching and profit sharing contributions are invested in a portfolio of mutual fund investments in proportion to the participant directed mutual fund investments. For the years 2014 and 2013, a profit sharing contribution was not authorized.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, (b) Plan earnings (losses), and (c) charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options - Upon enrollment in the Plan, a participant may direct contributions to selected investments as made available and determined by the Trustees. Participants may change their investment options any time throughout the year via internet or direct phone access to Nationwide Financial Retirement Plans. The change becomes effective the next business day.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after five years of credited service.

Note Receivable from Participants - Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Loan terms range from one to five years. The loans are secured by the balance in the participant's account and bear an interest rate of 4.25%. Principal and interest is paid ratably through monthly payroll deductions.

DESCRIPTION OF PLAN – Continued

Payment of Benefits - On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments subject to required minimum distribution rules. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Administrative Fees and Expenses - The Company absorbs a portion of the Trustee and administrator fees and expenses.

Forfeited Accounts - December 31, 2014 and 2013, forfeited non-vested accounts to be allocated amounted to \$288 and \$3,652, respectively. The Plan allocates participant forfeitures as additional employer contributions at management's discretion.

Termination of the Plan - Although it has not expressed any intention to do so, the Company may terminate or amend the Plan in whole or in part at any time. If such an event occurs, the participants become fully vested in their account balances.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review - Subsequent events were evaluated through October 12, 2015 which is the date the financial statements were available to be issued.

Basis of Accounting - The accompanying financial statements are prepared in conformity with accounting principles generally accepted in the United States of America and those common to employee benefit plans.

Investment Valuation and Income Recognition - Investments are recorded at fair value as determined by publicly quoted market prices or net asset values at year end. Income from investments is recorded as earned on the accrual basis of accounting. Cost of investments is determined on a first-in first-out (FIFO) basis and is used to determine the realized gain or loss from disposition.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount the participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in a stable value fund, which is a benefit-responsive contract. Because the difference in fair value and contract value is not significant, no adjustment has been made to the stable value fund presented on the Statement of Net Assets Available for Benefits.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions payable based upon the terms of the Plan document. There were none at December 31, 2014 and 2013.

Contributions - Contributions are recorded as earned on the accrual basis when withheld from the participant's earnings and when due from the Company.

Payment of Benefits - Benefits are recorded when paid.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

Use of Estimates - The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Although these estimates are based on the plan administrator's knowledge of current events and actions it may undertake in the future, they may ultimately differ from actual results.

Risks and Uncertainties - The Plan provides for various investment options in certain mutual funds. Mutual funds are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain mutual funds, it is at least reasonably possible that changes in the values of mutual funds will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

PARTY-IN-INTEREST TRANSACTIONS

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee received compensation from the Plan. Certain administrative expenses of the Plan are paid directly by the Company and are not charged to the Plan.

REPORTABLE TRANSACTIONS

The Plan's assets are participant-directed, and thus, the schedule of reportable transactions is not required.

INCOME TAX STATUS

The Company has executed an Adoption Agreement to be a participating employer in the Defined Contribution Prototype Plan as administered by Advanced Pension Solutions, Inc. ("APS"). The Internal Revenue Service has determined and informed APS by letter dated March 31, 2008 that the APS Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The APS Plan has been amended since receiving the determination letter. The Trustees under the guidance of the administrator believe that the APS Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

The Plan complies with ASC 740-10 related to uncertain tax positions. This standard prescribes a recognition threshold and a measurement attribute for financial statement recognition and measurement of a tax position taken or expected to be taken on a tax return. The Plan Administrator is not aware of any tax positions taken by the Plan that they consider to be uncertain. Tax returns for the years ended 2011, 2012 and 2013 are still open and subject to examination by the Internal Revenue Service.

FAIR VALUE INVESTMENTS

The Plan complies with ASC 820 *Fair Value Measurements and Disclosures* to account for and report fair value. ASC 820 provides a single definition of fair value, a framework for measuring fair value and expanded disclosures concerning fair value. It also defines fair value as the price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date.

FAIR VALUE MEASUREMENTS - Continued

Fair values of certain assets and liabilities are determined based on the fair value hierarchy established in this standard, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The standard describes three levels within its hierarchy that may be used to measure fair value which are:

Level 1 - Values are based on unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 - Values are based on quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets.

Level 3 - Values are generated from unobservable inputs that are supported by little or no market activity and that are a significant component of the fair value of the assets or liabilities. These unobservable inputs would reflect management's estimates of assumptions that market participants would use in pricing related assets or liabilities. Valuation techniques might include the use of pricing models, discounted cash flow models or similar techniques.

A financial asset or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement. The assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the classification of fair value assets and liabilities within the fair value hierarchy levels.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

		Fair Value Measurements Using:		
	Fair Value	Level 1	Level 2	Level 3

FAIR VALUE MEASUREMENTS - Continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Stable value funds: Valued at the net asset value (NAV) of units held by the Plan at year end. The stable value fund invests in conventional and synthetic guaranteed investment contracts ("GICs") issued by life insurance companies and money market instruments. Its value is based on the contractual terms of the underlying GIC's which may include discounting the related cash flows based on current yields of similar instruments with comparable durations.

INVESTMENTS

Investments of the Plan consist of balanced, debt and equity mutual funds maintained by Nationwide Financial Services, Inc. These investments are reported at the closing net asset values on the year end date.

The Plan also maintains a fully benefit-responsive investment contract (Stable Value Fund with Union Bond & Trust Company). The contract is credited with earnings on the underlying investments and charged for plan withdrawals and administrative expenses. As described in the SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, because the investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. Contract value, as reported to the Plan, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The investment contract issuer is obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting interest rate, which is adjusted quarterly, was 1.29% and 1.39% for the years ended December 31, 2014 and 2013, respectively. There were no reserves against the contract value for credit risk of the contract issuer or otherwise. The difference between the contract value and fair value was not significant, so no adjustment was made.

Certain events limit the ability of the Plan to transact at contract value with the issuer such as mass layoffs, Plan termination, mergers, early retirement incentives or other events. The Plan administrator does not believe that the occurrence of any such event that would limit the Plan's ability to transact at contract value with the participant is probable.

Net appreciation in fair value of investments for the years ended December 31, 2014 and 2013 of \$87,287 and \$365,064, respectively were recorded in the statements of changes in net assets available for benefits. These amounts include both realized and unrealized gains and losses and are summarized by class of investments as follows:

	<u>2014</u>	<u>2013</u>
Balanced mutual funds	\$ 1,019	\$ 9,845
Debt mutual funds	5,134	(3,751)
Equity mutual funds	81,090	358,803
Collective funds (stable value funds)	44	167
Totals	<u>\$ 87,287</u>	<u>\$ 365,064</u>
