INDEPENDENT AUDITOR'S REPORT

To the Trustees of O'Neil & Associates, Inc.
Employee Stock Ownership Plan

Report on the Financial Statements

We have audited the accompanying financial statements of O'Neil & Associates, Inc. Employee Stock Ownership Plan, which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of O'Neil & Associates, Inc. Employee Stock Ownership Plan as of December 31, 2014 and 2013, and the changes in its net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary Schedule of Assets Held for Investment Purposes at End of Year, referred to as "supplementary information," is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

O'NEIL & ASSOCIATES, INC. EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014 AND 2013

1. DESCRIPTION OF THE PLAN

The following description of the O'Neil & Associates, Inc. Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

O'Neil & Associates, Inc. (the "Company") established the O'Neil & Associates, Inc. Employee Stock Ownership Plan on January 1, 2004. The Plan is a stock bonus plan under Section 401(a) of the Internal Revenue Code of 1986, as amended (the Code), and is intended to be an employee stock ownership plan under Section 4975(e)(7) of the Code and regulations thereunder. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, (ERISA). The Trustee is an independent third-party institutional Trustee.

Effective December 31, 2013, the Plan was amended so that the qualifying participants at the end of each Plan year had a proportionate amount of Company stock equal to the proportion of Company stock held by the Plan in relation to the total assets held by the Plan. Additionally, the amendment required account balances of terminated employees to be segregated for investment purposes into non-Company stock assets.

Eligibility

Employees of the Company are eligible to participate in the Plan after one year of service provided they worked at least 1,000 hours during such plan year and are 21 years of age. Participants who do not meet the eligibility requirements or are not employed on the last working day of a plan year are generally not eligible for an allocation of the Company's discretionary contribution for such year.

Payment of Benefits

No distributions from the Plan will be made until a participant retires, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), or otherwise terminates employment with the Company. Distributions are made in cash or, if a participant elects, in the form of Company common shares plus cash for any fractional share. The Company is required to immediately repurchase the distributed shares. Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan. During 2014 and 2013, shares of stock totaling 1,216.5546 and 348.9720, respectively, were recycled within the ESOP to generate funds for cash distributions.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated shares for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of plan participants and beneficiaries.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014 AND 2013

1. DESCRIPTION OF THE PLAN (Continued)

Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the accounts of participants shall be fully vested and non-forfeitable.

Participant Accounts and Forfeitures

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Employer discretionary contributions and Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. For the year ended December 31, 2014, 293.7111 shares of stock and \$95,441 of cash were forfeited from nonvested accounts and reallocated to remaining participant accounts. For the year ended December 31, 2013, 12.7699 shares of stock and \$10,261 of cash were forfeited from nonvested accounts and reallocated to remaining participant accounts. Plan earnings are allocated to each participant's account in accordance with the provisions of the Plan.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Company as follows:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 2	None
2 but less than 3	20%
3 but less than 4	40%
4 but less than 5	60%
5 but less than 6	80%
6 or more	100%

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move a portion of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify shall be offered the opportunity to invest the diversified portion in (1) at least three investment options other than investment in Company securities under the Plan or another qualified plan sponsored by the Company or (2) receive a cash distribution.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014 AND 2013

1. DESCRIPTION OF THE PLAN (Continued)

Put Option

Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchases with interest over a period of five years. The purpose of the put option is to ensure that participants have the ability to ultimately obtain cash.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from these estimates.

Operating Expenses

As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid some operating expenses for the Plan.

Investment Valuation and Income Recognition

The common shares of the Company are valued at estimated fair value (See Note 7). Dividend income is accrued on the ex-dividend date. Purchases and sales of securities will be recorded on a trade-date basis. Realized gains and losses from securities transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

3. TAX STATUS

The IRS has determined and informed the Plan sponsor by a letter dated December 2, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt. The plan administrator believes it is no longer subject to income tax examinations for the years prior to 2011.

O'NEIL & ASSOCIATES, INC. EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014 AND 2013

3. TAX STATUS (Continued)

Accounting principles generally accepted in the United State of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a liability for any uncertain position that more likely than not would not be sustained upon examination by the Department of Labor or Internal Revenue Service. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

4. ADMINISTRATION OF PLAN ASSETS

The Plan's assets, which consist principally of the Company's common shares, are held by the Trustee of the Plan.

Company contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income and makes distributions to participants. The Trustee will also administer the payment of interest and principal on any future loans, which will be reimbursed to the Trustee through contributions as determined by the Company.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Company.

5. EMPLOYER CONTRIBUTIONS

The Plan provides for employer matching contributions, which amounted to \$285,831 and \$296,471 for the years ended December 31, 2014 and 2013, respectively. These contributions are equal to 50% of the first 6% of eligible compensation that a participant contributes to the profit sharing and savings plan. The Plan also provides for employer discretionary contributions. The Company's Board of Directors elected to not make a discretionary contribution for years ended December 31, 2014 and 2013.

6. INVESTMENTS

The Plan's investments, at December 31, are presented in the following table:

	<u>2014</u>	<u>2013</u>

Total investments	<u><u>\$ 12,094,751</u></u>	<u><u>\$ 11,697,874</u></u>

7. FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurements accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of inputs used to measure fair value under this accounting standard are described as follows:

- Level 1 - Quoted prices in active markets that are accessible at the measurement date for identical or similar assets or liabilities.
- Level 2 - Observable inputs other than quoted prices included within Level 1. Inputs that are principally derived from or corroborated by observable market data by correlation or other mean. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value measurement of the assets or liabilities. These include certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

O'NEIL & ASSOCIATES, INC. EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014 AND 2013

7. FAIR VALUE MEASUREMENTS (Continued)

The ESOP Committee, under the supervision of the Company's Board of Directors and Stockholders, determines the fair value measurement policies and procedures in consultation with the Company's chief financial officer. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value of measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies the Plan used for assets measured at fair value:

Common stock: Valued by an annual independent appraisal. This appraisal is based on a combination of market and income valuation methods consistent with prior years. The appraiser took into account historical and projected cash flow and net income, weighted average cost of capital, market comparables, and applicable discounts and premiums.

Corporate bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

The following table presents fair value measurement information for the Plan's investments. The carrying value of receivables included in the accompanying statements of net assets available for benefits approximated fair value at December 31, 2014 and 2013, and is not included in the following table.

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Totals</u>

Gains (realized and unrealized) included in changes in net assets available for benefits for the years ended December 31, 2014 and 2013, are reported in net unrealized appreciation in market value of investments.

O'NEIL & ASSOCIATES, INC. EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014 AND 2013

8. RISKS AND UNCERTAINTIES

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, including interest rate, market, and credit risks, as well as valuation assumptions based on earnings and cash flows. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

9. PARTY IN INTEREST

The Plan invests in Company common stock. These are party-in-interest transactions. The Plan has a number of service providers. Such parties are parties-in-interest under ERISA.

10. SUBSEQUENT EVENTS

Management evaluated the activity of the Plan through October 13, 2015 (the date the financial statements were made available to be issued) and concluded that, other than the event described in the following paragraph, no other subsequent events have occurred that would require recognition in the financial statements or disclosure in the notes to the financial statements.

Subsequent to year end, the ESOP purchased the remaining 22,272 shares of common stock from all existing Company shareholders for approximately \$9,700,000. The ESOP incurred debt of approximately \$7,600,000 from the Company as part of this transaction.
