The Gorilla Glue Company Savings Plan

Notes to Financial Statements

December 31, 2014 and 2013

Note 1: Description of the Plan

The following description of The Gorilla Glue Company Savings Plan (Plan) provides only general information. Participants should refer to the Plan Document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the Plan Administrator.

General

The Plan is a defined contribution plan sponsored by The Gorilla Glue Company (Company) for the benefit of its employees who have at least six months of service and are age 21 or older. Once employees meet the eligibility requirements, they may enter the Plan on a quarterly basis. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). John Ragland, Nick Ragland, Jr. and Peter Ragland are the trustees of the Plan. The Guardian Insurance & Annuity Company, Inc. serves as Plan custodian. Jacob Haxton & Boord LLC serves as the third party administrator for the Plan. The Plan offers a qualified default investment alternative that is managed by Stadion Money Management, Inc.

Contributions

The Plan permits eligible employees through a salary deferral election to have the Company make annual contributions of up to 100% of eligible compensation. Employee rollover and employee Roth contributions are also permitted. The Company makes matching contributions of 100% of employees' salary deferral amounts that do not exceed 3% of employees' compensation and 50% of the employees' salary deferral amounts that exceed 3% but do not exceed 5% of the employees' compensation. Company profit-sharing contributions are discretionary as determined by the Company's Board of Directors. There were no profit sharing contributions in 2014 or 2013. Contributions are subject to certain limitations.

Participant Investment Account Options

Investment account options available include various funds. Each participant has the option of directing his contributions into any of the separate investment accounts and may change the allocation daily.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution, plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefits to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions as well as the Company's safe harbor contributions plus earnings thereon. Vesting in the Company's matching contributions not already fully vested when made plus earnings thereon is based on years of continuous service as follows:

Years of Service	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

The nonvested balance is forfeited upon termination of service. Forfeitures are first used as a restoration of re-entering Participant's forfeitures, then to reduce Company's profit sharing contributions, then to reduce the Company's matching contributions, and finally to reduce Plan expenses.

Payment of Benefits

Upon termination of service, participants receive a lump-sum amount equal to the value of their vested account. Participants may also elect to receive partial payments (minimum of \$5,500). At December 31, 2014 and 2013, there were no plan assets allocated to accounts of terminated or retired participants who have elected to withdraw from the Plan but have not yet been paid.

Forfeited Accounts

At December 31, 2014, forfeitures totaled \$1,456 (none at December 31, 2013). In 2013, Plan expenses were reduced by \$1,948 from forfeited nonvested accounts (none during 2014).

Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. There was no adjustment between fair value and contract value at December 31, 2014 and 2013. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Pooled separate accounts are valued at estimated fair value as provided by the custodian.

The fair value of the guaranteed investment contract is calculated by The Guardian Insurance & Annuity Company, Inc. by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Plan Tax Status

The Plan operates under a standardized adoption agreement in connection with a prototype 401(k) profit-sharing plan and trust sponsored by Jacob Haxton & Boord LLC. This prototype plan document has been filed with the appropriate agency and obtained a determination letter dated March 31, 2008 from the Internal Revenue Service stating that the prototype constituted a qualified plan under Section 401 of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently

Notes to Financial Statements

designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Note 3: Certification of Plan Custodian

The Company has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, The Guardian Insurance & Annuity Company, Inc., the custodian of the Plan, has certified the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments as shown in the statements of net assets available for benefits as of December 31, 2014 and 2013
- Investment income as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2014 and 2013
- Investment information included in the accompanying schedule of assets (held at year end) as of December 31, 2014

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 5: Disclosures About Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended December 31, 2014.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. There were no Level 3 securities identified.

Pooled separate accounts: Valued at the net asset value (NAV) of the underlying shares held by the accounts at year end.

Investment Contract: Valued by discounting future guaranteed account values and benefit withdrawals by the appropriate market interest rates.

Notes to Financial Statements

December 31, 2014 and 2013

Note 6: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association, or relatives of such persons.

The Plan invests in certain funds of the Plan custodian and investment advisors. The Plan paid \$25,634 and \$22,094 of fees to Stadion Money Management, Inc., the investment advisor of the qualified default investment alternative during 2014 and 2013, respectively. Individually nonmaterial expenses paid to parties-in-interest aggregated to \$1,948 for 2013 (none during 2014). The Company provides certain administrative services at no cost to the Plan.

Certain Plan investments are units of pooled separate accounts and a guaranteed interest account managed by The Guardian Insurance & Annuity Company, Inc., which is the custodian as defined by the Plan agreement. Therefore, these transactions qualify as party-in-interest transactions.

Note 7: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 8: Subsequent Events

Subsequent events have been evaluated through the date of the Independent Auditor's Report, which is the date the financials statements were available to be issued.
