North Florida Sales 401(k) Profit Sharing Plan

Notes to Financial Statements

December 31, 2014 and 2013

Note 1: Description of the North Florida 401(k) Profit Sharing Plan

The following description of the North Florida 401(k) Profit Sharing Plan (Plan) provides only general information. Participants should refer to the Plan document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the Plan administrator.

General

The Plan is a defined contribution plan sponsored by North Florida Sales (Company) for the benefit of its employees who have at least one year of service and are age 21 or older. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). V. G. Pelham and M. Gregory Flowers are the trustees of the Plan. John Hancock Life Insurance Company (U.S.A.) (John Hancock) serves as Plan custodian.

Contributions

The Plan permits eligible employees, through a salary deferral election, to have the Company make annual contributions of eligible compensation. Contributions are subject to certain limitations. Employee rollover and Roth contributions are also permitted. For participants employed as of the end of the Plan year, the Company contributes to the Plan a discretionary matching contribution in an amount or percentage up to the first 15% deferred under the participant's salary deferral. Additional amounts may be contributed at the discretion of the Company's board of directors. Forfeitures are used to reduce administrative costs, restore previously forfeited accounts, then to reduce employer contributions.

Participant Investment Account Options

Investment account options available include various funds. Each participant has the option of directing their contributions into any of the separate investment accounts and may change the allocation daily.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

North Florida Sales 401(k) Profit Sharing Plan

Notes to Financial Statements

December 31, 2014 and 2013

Vesting

Participants are immediately vested in their voluntary contributions, plus earnings thereon. Vesting in the Company's contribution portion of their accounts, plus earnings thereon, is based on years of continuous service. A participant is fully vested after six years of continuous service. The nonvested balance is forfeited upon termination of service. The administrator may elect to use forfeitures to pay administration costs of the Plan, restore previously forfeited account balances or reduce employer contributions.

Payment of Benefits

Upon termination of service, an employee will receive a lump-sum amount equal to the value of his or her account or a partial withdrawal. The Plan allows for hardship distributions and in-service distributions for participants who have attained age 59 ½.

Forfeited Accounts

At December 31, 2014 and 2013, forfeited nonvested accounts totaled $391 and $252, respectively. These amounts will be used as additional employer contributions. During 2014, additional employer contributions were $46 from forfeited nonvested accounts.

Participant Loans

The Plan document includes provisions authorizing loans from the Plan to active eligible participants. Loans are made to any eligible participant demonstrating a qualifying need. The minimum amount of a loan shall be $1,000. The maximum amount of a participant's loan is determined by the available loan balance restricted to the lesser of $50,000 or 50% of the participant's vested account balance. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings, unless the participant is paying the loan in full. Interest on the loans is based on local prevailing rates as determined by the Plan administrator. Loans issued after January 1, 2012 bear interest at 1% over prime.

Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through guaranteed investment contracts within a stable asset value fund held by a pooled separate account. As required by the ASC Topic 962.325.35, the Statements of Net Assets Available for Benefits present the fair value of the Plan's interest in the underlying guaranteed investment contracts, as well as the adjustment of the interest in the guaranteed investment contracts from fair value to contract value relating to the investment contracts. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Use of Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Quoted market prices, if available, are used to value investments. Pooled separate accounts are valued at estimated fair value as provided by the custodian.

The fair value of the guaranteed investment contracts held by a pooled separate account is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

North Florida Sales 401(k) Profit Sharing Plan

Notes to Financial Statements

December 31, 2014 and 2013

Plan Tax Status

The Plan operates under a volume submitter plan document sponsored by Retirement Solutions Specialists. The volume submitter plan document has been filed with the appropriate agency. The volume submitter plan received its latest determination letter on August 7, 2009, in which the Internal Revenue Service (IRS) stated that the form of the plan is acceptable under Section 401 of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date. With a few exceptions, the Plan is no longer subject to U.S. federal, state and local or non-U.S. income tax examinations by tax authorities for years before 2011.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Note 3: Investments

The Plan's investment information, included in this note and throughout the Plan's financial statements and supplemental schedule, was prepared by or derived from information provided by John Hancock, the custodian of the Plan, and furnished to the Plan administrator. The Plan administrator has obtained certification from the custodian that investment information provided to the Plan administrator by the custodian, related to the investment information, is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to investment information in this note, and which appears throughout the financial statements and the supplemental schedule.

The following table presents the Plan's investments. Investments that represent 5% or more of total Plan assets are separately identified.

	2014	2013
Pooled separate accounts

During the years ended December 31, 2014 and 2013, the Plan's investments (including gains and losses on investments bought, sold and held during the year) appreciated in value by $187,367 and $510,549, respectively.

Information on the fully benefit-responsive investment contract carried at fair value is as follows:

	2014	2013
Average yield	0.80%	1.05%
Credited interest rate at December 31	0.81%	0.57%
Fair value	$ 777,786	$ 737,573
Contract value	$ 766,972	$ 730,922

Note 4: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association or relatives of such persons.

The Plan invests in certain funds of the Plan custodian. The Company provides certain administrative services at no cost to the Plan.

Note 5: Fair Value of Plan Assets and Liabilities

ASC Topic 820, *Fair Value Measurements*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Topic 820 also specifies a fair value hierarchy which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities;

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; and

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Following is a description of the valuation methodologies and inputs used for assets and liabilities measured at fair value on a recurring basis and recognized in the accompanying Statements of Net Assets Available for Benefits, as well as the general classification of such assets and liabilities pursuant to the valuation hierarchy.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. There are no Level 1 securities. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. Level 2 securities include mutual funds of pooled separate accounts. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy and include a stable asset value fund of pooled separate accounts.

The following tables present the fair value measurements of assets and liabilities recognized in the accompanying Statements of Net Assets Available for Benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31:

Note 7: Risks and Uncertainties

Investment Securities

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Note 8: Subsequent Events

Subsequent events have been evaluated through October 13, 2015, which is the date the financial statements were available to be issued.
