Notes to Financial Statements

December 31, 2014 and 2013

(In thousands, except for Note 1)

(1) Description of the Plan

The following description of the BASF Corporation Retirement Savings Plan (the Plan) is provided for general information. Participants should refer to the Summary Plan Description and Plan Document for a more complete description of the provisions of the Plan and detailed definitions of various Plan terms.

BASF Corporation (the Company or the Sponsor) administers the Plan through its Pension and Savings Plan Committee (the Plan Administrator) under the authority of the Pension and Benefits Committee of the Sponsor's Board of Directors. The Plan's assets are maintained under a trust agreement and are represented by ownership of shares in mutual funds, common collective trusts, stock and unallocated insurance contracts that are primarily managed by an affiliate of Fidelity Management Trust Company (the Trustee).

(a) General

The Plan is a defined contribution plan providing benefits to the Sponsor's eligible employees. Employees become eligible to participate immediately upon commencing employment with the Sponsor. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan became effective January 1, 2007.

Although it has not expressed any intention to do so, the Sponsor reserves the right to amend or terminate the Plan at any time. If the Plan were terminated, participants would be paid their vested account balances.

Effective January 1, 2013, the ProCat Testing LLC 401(k) Plan merged into the Plan. The Plan received a transfer of \$1,059,109 in January 2013. The transfer was comprised of \$987,695 of investments and \$71,414 of participant loans.

Effective August 1, 2013, the Becker Underwood, Inc. 401(k) Profit Sharing Plan merged into the Plan. The Plan received a transfer of \$12,658,957 in July 2013. The transfer was comprised of \$12,479,295 of investments and \$179,662 of participant loans.

Effective April 1, 2014, the BASF Fuel Cell LLC 401(k) Plan merged into the Plan. The Plan received a transfer of \$1,645,045 in April 2014. The transfer was comprised of \$1,625,595 of investments and \$19,450 of participant loans.

Effective October 1, 2014, the Verenium Corporation 401(k) Plan merged into the Plan. The Plan received a transfer of \$19,270,571 in September 2014. The transfer was comprised of \$19,132,457 of investments and \$138,114 of participant loans.

Beginning in 2014, a participant in another qualified plan sponsored by the Company (the Predecessor Plan) who transfers to a new position within the Company or one of its' affiliates that is not covered by that plan may become eligible to participate in the Plan or any other

BASF CORPORATION RETIREMENT SAVINGS PLAN

qualified pension plan maintained by the Company or affiliate. Such actively employed participants are permitted to initiate a loan, subject to review and approval from the Company, based on the sum total of their account balances in the plans in which they have been participants. In those instances, the participants' entire account balance in the Predecessor Plan will be transferred into the Plan. In 2014, there were transfers from the BASF Corporation Bargaining Unit Savings Plan into the Plan, comprised of \$403,448 in investments and \$6,026 of participant loans.

(b) *Participant Contributions*

Participant contributions can consist of "pre-tax contributions," which reduce the participant's taxable compensation, "after-tax contributions," which do not reduce a participant's taxable compensation, or "rollovers," which are transfers from other qualified retirement plans.

Participants may elect to contribute, through payroll deductions, between 1% and 50% of their compensation on a pre-tax, Roth and/or after-tax basis. The dollar amount of a participant's contributions cannot exceed certain Plan and Internal Revenue Service (the IRS) limits. Participants direct how monies contributed are invested. Eligible compensation is defined as W-2 earnings (subject to certain adjustments), not to exceed \$260,000 and \$255,000 effective for 2014 and 2013, respectively, as adjusted by the IRS. For purposes of the Plan, compensation means base pay (before any reductions for before-tax contributions to the Plan or any other Sponsor plan) plus overtime, commissions, cash performance awards, shift differentials and bonuses as described in the Plan. Pre-tax contributions were limited by the IRS to \$17,500 for 2014 and 2013. As a result of the Economic Growth and Tax Relief Reconciliation Act, participants who attained age 50 before the end of the Plan year are limited to pre-tax contributions of \$23,000 effective for 2014 and 2013. These limits will be subject to change in future years to be consistent with IRS limits.

Additionally, participants may make rollover contributions to the Plan. A rollover contribution is a transfer from another tax qualified plan such as qualified retirement plans, individual retirement accounts or annuities, eligible government retirement plans or certain annuity contracts.

(c) *Sponsor Contributions*

Effective January 1, 2010 the Sponsor contribution for the employees equals 100% of a participant's contribution up to a maximum of 5% of the participant's eligible compensation. The Sponsor also makes a non-elective maximum contribution of 5% of the participant's eligible compensation. Additionally, as of December 31, 2009, for employees who are 45 years of age and have ten years of service with the Sponsor, each received an additional non-elective contribution equal to 5% of the participant's eligible compensation through December 31, 2014.

(d) “415 Limitation”

Under Section 415 of the Internal Revenue Code (the Code), the annual additions to a participant’s account under the Plan (plus annual additions to any other qualified defined contribution plan in which they participate) may not exceed \$52,000 and \$51,000 for 2014 and 2013, respectively, or the lesser of 100% of covered compensation. To meet this limitation the Plan may be required to refund after-tax, pre-tax or Sponsor contributions, in that order, that had previously been made.

(e) Vesting

Each participant’s account is credited with the participant’s contribution and allocations of (a) the Sponsor’s contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Participants are vested immediately in their contributions, as well as, the Sponsor’s matching contribution portion of their accounts plus actual earnings thereon. A participant becomes fully vested in the Sponsor’s contributions of 5% of compensation after a period of three years.

(f) Notes Receivable from Participants

Participants may apply to the Plan Administrator to borrow from the Plan up to one-half of the value of the participants’ vested account balances, but not more than \$50,000. Loans are evidenced by promissory notes and are repayable through payroll deductions over a period of up to 60 months for general purpose loans, and 360 months for loans used for the purchase of primary residences. Loans are repayable immediately (within 60 days) upon termination of the participant’s employment. These loans have maturity dates that range from January 2015 until May 2036 and interest rates ranging from 3.25% to 9.50%.

(g) Distribution -Termination and Retirement

On termination of service due to death, disability or retirement, benefits are paid in the following manner:

- Accounts of \$1,000 or less: A participant receives an immediate lump-sum payment.
- Retirement or Disability: Participant may elect to receive an immediate lump-sum payment, payments in installment form, or defer payments until age 70 ½.
- Severance from Service: Participant may receive a lump-sum payment or defer payments until age 65.

(h) Forfeited Plan

Forfeited non-vested accounts will be used to reduce future employer contributions.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of the Plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through an insurance contract and a common collective trust. The statements of net assets available for benefits presents the fair value of the investment in the insurance contract and common collective trust as well as the adjustment of the investment in the insurance contract and common collective trust from fair value to contract value relating to the fully benefit-responsive investment contracts. The statements of changes in net assets available for benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

(b) Valuation of Investments

The Plan's investments are stated at fair value, which has been determined based on the fair value of the underlying investments. Fair value is the price that would be received from selling an asset or paid when transferring a liability in an orderly transaction between market participants at the measurement date. See Note 5 "Fair Value Measurements" for discussion of fair value measurements.

(c) Security Transactions

Purchases and sales of securities are recorded on a trade date basis. The Plan's gains and losses on investments purchased or sold or held during the year are included in the net appreciation (depreciation).

(d) Investment Income

Dividend income is recorded on the ex-dividend date; interest income is recorded as earned on the accrual basis.

(e) Risks and Uncertainties

The Plan utilizes various investment securities including mutual funds, common collective trusts, stock, and insurance contracts. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the participants' account balances and values of investment securities will occur in the near term and those changes could

BASF CORPORATION RETIREMENT SAVINGS PLAN

Notes to Financial Statements

(In thousands, except for Note 1)

materially affect participants' account balances and the amounts reported in the financial statements.

(f) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued, but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expense and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013.

(g) Payment of Benefits

Benefits are recorded when paid.

(h) Administrative Fees

Certain expenses of maintaining the Plan are paid directly by the Sponsor and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

(i) Use of Estimates

The preparation of financial statements in accordance with GAAP requires the Plan Sponsor to make estimates, assumptions and valuations that affect the amounts reported in the financial statements and accompanying footnotes. Actual results could differ from those estimates.

(j) Subsequent Events

The Plan has evaluated subsequent events through October 13, 2015, which is the date the financial statements were available to be issued.

(3) Federal Income Tax Status

The IRS has determined and informed the Sponsor by letter dated May 10, 2013 that the Plan and the related trust are designed in accordance with applicable sections of Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and currently being operated in compliance with applicable requirements of the Code. Accordingly, the Plan's financial statements do not include a provision for income taxes.

BASF CORPORATION RETIREMENT SAVINGS PLAN

Notes to Financial Statements

December 31, 2014 and 2013

(In thousands, except for Note 1)

The Plan Administrator believes it is no longer subject to income tax examinations for the years prior to 2011.

(4) Investment Contracts with Financial Institutions

The Plan has entered into various benefit-responsive investment contracts with one or more financial institutions, with respect to investment of Plan assets of the BASF Stable Value Fund in U.S. Government securities and other short-term investment securities designated by the Plan Administrator under the authority of the Pension and Benefits Committee of the Sponsor's Board of Directors. The Trustee maintains the contributions in the BASF Stable Value Fund. The fund is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. As described in Note 2(a), because the investment contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

As of December 31, 2014 and 2013, there were no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rate for the BASF Stable Value Fund was approximately 1.67% and 1.74% , respectively, for 2014 and 1.87% and 1.62% , respectively, for 2013. The crediting interest rate is subject to a quarterly review with the appropriate credit issuers. The development of the crediting interest rate is based on a set formula for which there is no stated minimum rate.

(5) Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.
---------	--

BASF CORPORATION RETIREMENT SAVINGS PLAN

Notes to Financial Statements

December 31, 2014 and 2013

(In thousands, except for Note 1)

Level 2	Observable prices that are based on inputs not quoted on active markets, but corroborated by market data.
Level 3	Unobservable inputs are used when little or no market data is available which are significant to the fair value measurement. The fair value hierarchy gives the lowest priority to Level 3 inputs.

In determining fair value, the Plan utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible, as well as, considers counterparty credit risk in its assessment of fair value. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets at fair value. There have been no changes from prior years in the methodologies used at December 31, 2014 and 2013.

- *Mutual Funds:* Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.
- *Common Collective Trusts:* Valued at the NAV of units of a bank collective trust. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities.
- *Stocks:* Valued at the closing price reported on the active market on which the individual securities are traded.
- *Insurance Contract:* The fair value of the synthetic guaranteed investment contract is based on the fair value of the underlying assets plus the value of the wrapper as determined on a replacement cost basis.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
