## NOTE A--DESCRIPTION OF PLAN

The following brief description of the Slidematic Precision Components, Inc. 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

### General

The Plan is sponsored by Slidematic Precision Components, Inc. (the "Company") for employees that meet specific eligibility requirements. The Plan, designated as a defined contribution plan, was established on October 1, 1963, and most recently restated January 1, 2013. The Plan provides for contributions to be made under salary deferral agreements pursuant to Section 401(k) of the Internal Revenue Code (the "Code").

The Plan is subject to the provisions of the Employee Retirement Income and Security Act of 1974 ("ERISA").

The Plan Administrator and Plan Trustees are responsible for oversight of the Plan, determining the appropriateness of investment offerings, and monitoring investment performance.

### Contributions

Eligible participants may elect to contribute pre-tax deferred compensation and/or Roth deferred compensation to the Plan by means of a salary deferral agreement up to the maximum limit permitted by federal law. Contributions are subject to limitations as provided in the Code and as described in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollover) in accordance with the Plan provisions.

The Company's Board of Director's (the "Board") has the discretion to contribute a profit-sharing contribution to the Plan at the end of the Plan year in accordance with Plan provisions. Discretionary matching contributions, if any, are based on a percentage determined by the Board and applied to elective deferrals. Matching contributions are based upon eligible contributions of all eligible participants.

Employees of the Company having attained the age of eighteen are eligible to participate on January 1st, April 1st, July 1st, or October 1st following completion of three consecutive months of service. Employees must be employed on the last day of the Plan year and have completed 1,000 hours of service to be eligible to share in the discretionary profit-sharing contributions, if any. Employees are not required to be employed on the last day of the Plan year to be eligible to share in the matching contribution.

Salary deferral contributions are funded proximate to the withholding date. Discretionary profit-sharing, if any, is funded annually after the close of the Plan year and within statutory time frames. Matching contributions, if any, are funded proximate to the withholding date. All contributions invested are directed by the participant into various investment options offered by the Plan.

**NOTE A--DESCRIPTION OF PLAN-continued**

**Participant Accounts**

Each participant's account is credited with the participant's contribution, if any, and allocations of (a) the Company's discretionary profit-sharing and/or matching contributions, if any, (b) Plan earnings or losses, and (c) charged with an allocation of administrative expenses paid by the Plan. Allocations are based on participant account balances or compensation, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

**Investment Options**

Upon enrollment in the Plan, participants direct their contributions into a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options at any time in accordance with Plan provisions. During any period in which there is no participant direction on file with the Custodian as to the investment of a participant's account, 100% of that participant's account will be invested in the investment option designated from time to time by the Custodian as the default investment. The Plan currently offers various investment options for participants, including pooled separate accounts and a stable value fund.

**Vesting**

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's discretionary profit-sharing and/or matching portion of their accounts plus actual earnings thereon is based on years of credited service as presented below. A participant is 100% vested after six years of credited service. Participants who attain the normal retirement age of 65, or who terminate employment due to death or disability become 100% vested in their account balances.

| Years of Credited Service | Vested Percentage |
|---|---|
| Less than 2 | 0% |
| 2 | 20% |
| 3 | 40% |
| 4 | 60% |
| 5 | 80% |
| 6 | 100% |

**Notes Receivable from Participants**

Participants may borrow from their accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance, reduced by the highest outstanding loan balance during the prior twelve month period. The note is secured by a participant's vested account balance and bears a reasonable rate of interest as determined by the Plan Administrator. The rate is based upon interest rates at loan inception that are commensurate with prevailing rates for loans made under similar circumstances. Loans are for a period not to exceed five years unless for the purchase of the participant's principal residence, in which case the Plan Administrator may permit a longer repayment term, up to ten years. Principal and interest are repaid ratably through payroll deductions. The interest rate applied to current loans outstanding is 4.25%.

## NOTE A--DESCRIPTION OF PLAN-continued

### Payment of Benefits

Upon termination of employment due to death, disability, retirement or Plan termination, a participant is entitled to 100% of their account balance in a lump-sum cash distribution, or as a direct rollover to an individual retirement account ("IRA"). For termination of employment for other reasons, a participant is entitled to a lump-sum cash distribution of 100% of the participant's contributions and the vested portion of the Company's contributions based upon the Plan's vesting provisions.

All distributions will be made as soon as administratively feasible following the distribution determination date. However, those account balances in excess of $5,000 (not including rollover account balances), will be made as soon as administratively feasible following the date the Plan Administrator receives a written request for distribution. In-service withdrawals, subject to certain restrictions, are also permitted. Hardship withdrawals are not permitted.

Mandatory distributions greater than $1,000, may be paid in a direct rollover to an IRA designated by the Plan Administrator. These distributions will be made if the participant does not elect to have such distribution paid directly to an eligible retirement plan specified by the participant in a direct rollover or does not elect to receive the distribution directly.

### Forfeited Accounts

If a participant is not fully vested upon termination, the nonvested portion of the account is forfeited. Forfeitures may first be used to offset administrative expenses of the Plan and any remaining forfeitures are used to reduce Company discretionary profit sharing and/or matching contributions. At December 31, 2014 and 2013, forfeited non-vested accounts totaled $2,571 and $1,391, respectively. During the year ended December 31, 2014, no forfeited non-vested accounts were used by the Plan.

## NOTE B--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contract as well as the adjustment, if any, of the fully benefit-responsive investment contract from fair value to contract value at December 31, 2014. The Statement of Changes in Net Assets Available for Benefits is thus prepared on the contract value basis for fully benefit-responsive contracts as of December 31, 2014, which approximates the fair value at December 31, 2014 and 2013.

### Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan's Administrator to make estimates and assumptions that affect reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

**NOTE B--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-continued**

**Investment Valuation and Income Recognition**

The Plan's investments in shares of pooled separate accounts are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Administrator and Trustees determine the Plan's valuation policies utilizing information provided by investment advisers and the Custodian. See Note C for discussion of fair value measurements.

The John Hancock Stable Value Fund (the "Fund"), is a collective investment trust that is fully benefit-responsive and is stated at fair value as of the close of each business day. The Custodian computes the fair value of the funds based upon quoted market prices of the underlying securities held by the fund at year-end. Because the Fund is fully benefit-responsive, contract value is considered the relevant measurement used in the calculation of participant withdrawals or other permitted transactions under the terms of the Plan. Contract value represents the accumulated contributions plus accrued net earnings less distributions and administrative expenses. The Statement of Changes in Net Assets Available for Benefits is thus prepared on the contract value basis for fully benefit-responsive contracts for the year ended December 31, 2014, which approximates the fair value at December 31, 2014 and 2013. See Note E.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

**Notes Receivable from Participants**

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loans to be in default, the participant loan balance is reduced and a benefit payment is recorded.

**Excess Contributions Payable**

Amounts payable to participants for contributions in excess of amounts allowed by the Code are recorded as a liability with a corresponding reduction to contributions. The Plan distributed $13,233 and $5,917 of 2014 and 2013 excess contributions to the applicable participants prior to March 15, 2015 and 2014, respectively.

**Payments of Benefits**

Benefits are recorded when paid.

**Administrative Expenses**

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants and benefits paid to participants are charged directly to the participant's account and are included in administrative expenses. Fees incurred by the Plan for certain investment management services are included in administrative expenses.

## NOTE B--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-continued

### Accounting Pronouncement

During 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, which retrospectively removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient, and ASU 2015-12, which reduces complexity in employee benefit plan accounting. The new standards are effective for Plan years beginning after December 15, 2016 and December 15, 2015, respectively, with early adoption permitted. Plan management is currently evaluating the effect that implementation of the new standards will have on its statement of net assets available for benefits and statement of changes in net assets available for benefits.

### Subsequent Events

The Plan Administrator has evaluated subsequent events through October 9, 2015, which is the date the financial statements were available to be issued.

## NOTE C--FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

**NOTE C--FAIR VALUE MEASUREMENTS-continued**

Following is a description of the valuation methodologies used for Plan assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013:

*Pooled separate accounts:* Pooled separate accounts are unregistered and divided into investments called "sub-accounts". Each sub-account invests in shares of an underlying mutual fund or other investment securities at an omnibus level. Sub-account values are calculated on a daily basis based on the share price or Net Asset Value ("NAV") of the underlying funds. The number of units owned is multiplied by the NAV. The net investment factor is used to measure the investment performance of a sub-account from one valuation day to the next.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

Assets at Fair Value as of December 31, 2014:

## NOTE D--INFORMATION CERTIFIED BY CUSTODIAN (UNAUDITED)

Certain information related to investments and notes receivable from participants, including net appreciation in the fair value of investments (pooled separate accounts), and interest was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by John Hancock Life Insurance Company (U.S.A) (the "Custodian"). The contract value, fair value and related adjustment, if any, from fair value to contract value of the guaranteed income account were also certified by the Custodian. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to such information certified by the Custodian, as of December 31, 2014 and 2013 and for the year ended December 31, 2014.

Except for comparing such information to the information included in the Plan's financial statements and supplemental schedule, the Plan's independent auditors did not perform any auditing procedures on the certified information.

During the year ended December 31, 2014, the Plan's investments in pooled separate accounts, as certified by the Custodian, (including investments bought, sold and held during each year) appreciated in value $118,047.

## NOTE E--STABLE VALUE FUND

The Plan has entered into a fully benefit-responsive investment contract with the Custodian that includes, as one investment option, the John Hancock Stable Value Fund (the "Fund"). This sub-account invests into the John Hancock Stable Value Fund Collective Investment Trust. The Fund is credited with the accumulation of contributions, plus earnings on the underlying investments at a guaranteed monthly rate and charged for participant withdrawals and administrative expenses. The Fund is included in the financial statements of net assets available for benefits at fair value which approximates contract value at December 31, 2014 and 2013. Therefore, no adjustment has been provided in the accompanying statements of net assets available for benefits as management has deemed any difference as immaterial (See Note B).

Participants may direct the withdrawal or transfer of all or a portion of their investment at contract value at any time for permitted events. The investment contract issuer is contractually obligated to repay to a participant, principal plus interest paid at a specified interest rate guaranteed to the Plan.

The average yield of the Fund's interest rate during the year ended December 31, 2014 and 2013 was 1.33% and 1.59%, respectively. The crediting interest rate of the Fund at December 31, 2014 and 2013 was approximately 1.30% and 1.40%, respectively. Interest is credited to a participant's account daily, based on its daily balance at the established effective rate of interest that reflects the performance of the underlying portfolio. The underlying contracts in this Fund are predominately re-set monthly based upon a formula determined by the issuer. Participants will receive the principal and accrued earnings credited to their accounts upon withdrawal for allowed events based on contract value. These events include transfers to other Plan investment options, and payments because of retirement, termination of employment, disability or death. Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events, more fully described by the Plan, are events that are deemed to be participating Plan directed withdrawals. Examples of such events include: 1) Participant communication designed to induce participants to withdraw, 2) additional investment options that create a competing fund, 3) a new pension plan is established by the sponsor with a competing fund, 4) amendments to the plan that are designed to, or likely to, induce participant withdrawal, 5) actions by the Plan or Plan Sponsor such as a merger, sale, spin-off, early retirement incentive, facility relocation, voluntary layoff or participating plan termination, and 6) establishment of a competing fund.

The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the contract at December 31, 2014 and 2013 was $1,021 and $225, respectively.

## NOTE F--RELATED PARTY TRANSACTIONS

Certain Plan investments are managed by the Custodian; therefore qualify as party-in-interest transactions. BKD, LLP (the "recordkeeper") performs administrative and recordkeeping services for the Plan. Fees paid by the Company to the Custodian and the recordkeeper and other service providers are not material to the financial statements.

Certain employees of the Company provide administrative services for the Plan and are not reimbursed by the Plan for their services.

## NOTE G--PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

## NOTE H--TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service dated March 31, 2008, stating that the prototype Plan document adopted by the Plan, as then designed, qualified under section 401(k) of the Code and, therefore, is exempt from taxation. The Plan has been amended and restated since receiving the determination letter. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2011.

## NOTE I--RISKS AND UNCERTAINTIES

The Plan's assets are invested directly and indirectly in various investment securities which are purchased or managed by the Custodian. These investments are exposed to various risks such as interest rate, market, and credit risks. The Plan's assets are subject to the changes in the value of its underlying investments, including the potential for bankruptcy of one or more of the companies in which they are invested.

Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities and insurance policies will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

## NOTE J--CORRECTIVE CONTRIBUTIONS

During 2015, the Plan Administrator discovered that the compensation used to determine participant's pre-tax deferred compensation and/or Roth deferred compensation was not within the definition of the Plan document. The Company's matching contributions were impacted by the incorrect use of compensation as well. The Plan Sponsor, as of the report date, advises they were in the process of calculating a corrective contribution for participant's tax deferred compensation and/or Roth deferred compensation for plan years 2011 through 2014, which includes lost earnings, to compensate all impacted participants. The Plan Sponsor calculated the corrective contribution for the matching contributions for the plan year ended December 31, 2014 as $10,352. The Plan Sponsor advises they will complete the self-correction action by depositing the corrective contributions upon completion of calculating the corrective contributions for plan years 2011 through 2014, including lost earnings.
