Note 1 – Description of the Plan

The following brief description of the Employees' Retirement Plan of the Yale Club (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

The Plan is a defined benefit pension plan established on January 1, 1957, and was subsequently amended for the purpose of updating benefits and liberalizing vesting. All full-time non-union employees and certain union employees of The Yale Club are eligible to participate in the Plan. Effective December 31, 2008, no new participants will enter the Plan. Effective February 28, 2009, all participants ceased benefit accruals.

Normal benefits

Upon normal retirement, a participant receives a monthly pension benefit based on compensation and years of service.

Vesting

Prior to the Plan freezing, employees with five or more years of service were entitled to annual pension benefits beginning at normal retirement age (65) as further outlined in the Plan agreement. The Plan also permits early retirement at age 55 after fifteen years of vested service. Participants receive their pension benefits in the form of a monthly annuity payable for life.

Death benefits

If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 50% survivor annuity in effect, then died the next day.

Note 2 – Summary of significant accounting policies

Basis of accounting

The records of the Plan are maintained on the accrual basis of accounting and in accordance with accounting principles generally accepted in the United States of America for defined benefit pension plans with the exception of benefits paid which are recorded on a cash basis.

Note 2 – Summary of significant accounting policies (continued)

Investment valuation and income recognition

The Plan investments are invested in the Vanguard Group and are recorded at fair value in the accompanying financial statements.

Purchases and sales of investments are recorded on trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded at the ex-dividend date.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of Plan assets and actuarial present value of accumulated Plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Concentrations of credit risk

The Plan invests in various mutual funds. These mutual funds are exposed to various risks such as interest rate, market, credit and liquidity risks. Due to the level of risk associated with mutual funds, it is at least reasonably possible that changes in the values of mutual funds will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions relating to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

Payment of benefits

Benefit payments to participants are recorded upon distribution.

Administrative expenses

Administrative fees related to the administration of the Plan are paid by the Plan sponsor on behalf of the Plan.

Certain administrative functions are performed by officers or employees of the Club. No such officer or employee receives compensation from the Plan.

Subsequent events

The Plan has evaluated events and transactions for potential recognition or disclosure through September 30, 2015, which is the date the financial statements were available to be issued.

Note 3 – Fair value measurements

For assets measured at fair value on a recurring basis, Accounting Standards Codified topic Fair Value Measurement requires quantitative disclosures about the fair value measurement separately for each major class of assets. The fair value hierarchy gives the highest priority to quoted market prices in active markets and the lowest priority to unobservable data. Fair value measurements are required to be separately disclosed by level within the fair value hierarchy. The three levels of inputs that may be used to measure fair value are as follows:

- Level 1 – Quoted prices in active markets for identical assets.
- Level 2 – Observable inputs other than Level 1 prices, such as quoted prices of similar assets; quoted prices in markets with insufficient volume or infrequent transactions (less active markets).
- Level 3 – Unobservable inputs to the valuation methodology that are significant to the measurement of fair value of assets.

Note 4 – Investments

THE YALE CLUB**

**Notes to Financial Statements (continued)
December 31, 2014**

Note 5 – Funding policy

The Club's funding policy is to make annual contributions, which are actuarially determined. The Plan's funding policy is for the Plan Sponsor to contribute an amount which will exceed the annual ERISA minimum funding requirement. The actuarial cost method used is the "Entry Age Normal – Frozen Initial Liability" method. All contributions to support the Plan are paid by the Club.

Note 6 – Priorities upon termination

In the event the Plan terminates at some future time, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations. Whether a particular participant's accumulated plan benefits will be paid depends on the priority of those benefits, as detailed in the Plan documents.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits, should the Plan be terminated at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guarantee while other benefits may not be provided for at all.

Note 7 – Actuarial present value of accumulated Plan benefits

Accumulated Plan benefits are those future periodic payments expected, including lump-sum distributions, to be paid to retired or terminated employees or their beneficiaries, the beneficiaries of deceased employees and present employees or their beneficiaries.

Actuarial calculations have been applied by an actuary from Premier Actuarial Solutions to determine the actuarial present value of accumulated Plan benefits. These calculations adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment between the valuation date and the expected date of payment.

OF
THE YALE CLUB**

**Notes to Financial Statements (continued)
December 31, 2014**

Note 7 – Actuarial present value of accumulated Plan benefits (continued)

The actuarial valuation date is January 1, 2014 for determining the actuarial present value of accumulated plan benefits. The significant actuarial assumptions used in this valuation are as follows:

Interest:

The effective interest rate is 6.75% per annum, compounded annually.

Salary increases:

As a result of the freezing of the Plan benefits, the salary scale assumption was eliminated.

Mortality:

Based on the IRS 2014 Optional Combined Funding Target Mortality Table.

Retirement:

All employees are assumed to retire at the later of age 65 or five years after entry date.
