Independent Auditor's Report

To the Administrator of the Pension Plan for Discontinued Operations of Robert Bosch

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Pension Plan for Discontinued Operations of Robert Bosch (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013 and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by The Northern Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2014 and 2013 and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the financial statements.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Pension Plan for Discontinued Operations of Robert Bosch
Notes to Financial Statements
December 31, 2014 and 2013

1. Description of the Plan

The following brief description of the Pension Plan for Discontinued Operations of Robert Bosch (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description.

The assets of the Plan are invested in the Robert Bosch LLC Master Retirement Trust ("Master Trust").

General
The Plan, established May 1, 1988, is a noncontributory, defined-benefit pension plan covering former hourly employees of Robert Bosch Fluid Power who are members of Lodge No. 437, International Association of Machinists and Aerospace Workers, A.F.L.-C.I.O. (the "Union"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective July 2, 2002, the Racine, Wisconsin, plant was closed. Due to the plant closing, active participants were deemed fully vested and benefits were frozen.

Prior to the plant closure, all hourly employees of Robert Bosch Fluid Power became participants in the Plan provided they were members of the Union.

Since 2007, the following plans sponsored by Robert Bosch LLC (the "Company") were merged into the Plan. The mergers did not impact participants' pension benefits as the benefit provisions of the merged plans have been incorporated into the Plan. All participants have ceased receiving pension accruals as all plans are frozen.

- Forest City Tool Hourly Employees' Pension Plan
- Vermont American Corporation Plan for Vermont Tap and Die Company and Northeast Tool Division
- Mobile Hydraulics Division of the Bosch Rexroth Corporation U.A.W Retirement Income Plan
- Bosch Automotive Motor Systems Retirement Plan
- Greenville, North Carolina Division of Vermont American Corporation Restated Pension Plan
- Gilmour Manufacturing Company Hourly Employees' Pension Plan
- Telex Communications, Inc. Employees' Pension Plan
- Hagglunds Drives, Inc. Salaried Pension Plan

Contributions
The Company has agreed to voluntarily contribute such amounts as are necessary to provide assets sufficient to meet the funding requirements of ERISA. The Plan has met the ERISA minimum funding requirements for 2014 and 2013.

Benefit Payments
Original benefit provisions of each previous plan have been incorporated into and are defined in the Plan document. A participant is generally eligible for normal retirement benefits on or after the attainment of the defined retirement age and completion of 5 years of vesting service. For normal retirement, pension is payable for the life of the participant in the form of an annuity based on a combination of years of service, eligible compensation or a specified multiplier based on severance date, as applicable. Benefits under the former Telex Communications, Inc. Employees' Pension Plan were calculated based on a cash balance formula.

Certain former plans provide for retirement benefits prior to the defined normal retirement age, which may be reduced unless defined service periods have been reached.

Optional forms of payment are available if elected by the participant as described in the Plan document. A participant that is married throughout the one-year period ending on their annuity starting date shall receive a qualified joint and survivor annuity unless spousal consent is received for an alternate benefit payment.

Certain participants are eligible for disability benefits on or after the completion of a specified vesting period and after being totally and permanently disabled, as defined in the Plan document. Certain participants' beneficiaries are entitled to death benefits, as defined in the Plan document.

Plan Termination
Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA and as described in the Plan document. Should the Plan terminate at some future time, its net assets will generally not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on the priority of those benefits, the financial condition of the Company, and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC") at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

Administrative Expenses
Substantially all allowable administrative expenses are paid by the Plan.

2. Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan have been prepared on the accrual basis of accounting and in conformity with accounting principles generally accepted in the United States of America ("GAAP").

New Accounting Pronouncements
In May 2015, the Financial Accounting Standards Board issued ASU 2015-07, *Fair Value Measurement (Topic 820) Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent) (the "Update"),* which removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The reporting entity should continue to disclose information on investments for which fair value is measured at net asset value (or its equivalent) as a practical expedient to help users understand the nature and risks of the investments and whether the investments, if sold, are probable of being sold at amounts different from net asset value. ASU 2015-07 will be effective for the Plan beginning in the first quarter of 2017, however early adoption is allowed. Management has elected to adopt ASU 2015-07 effective with the December 31, 2014 financial statements. As required by the Update, previously reported financial information

pertaining to 2013 has been restated to present that information on a comparable basis. Adoption of the Update did not have a material impact on the financial statements.

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I is not applicable to the Plan. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Part II is to be applied retrospectively. Management has elected to adopt Part II of ASU 2015-12 effective with the December 31, 2014 financial statements. The adoption did not have a material impact on the financial statements.

Benefit Payments
Benefits are recorded when paid.

Investment Valuation and Income Recognition
The Master Trust's investments are stated at fair value. The fair value of the participation units in the common collective trusts is based on the net asset value ("NAV") of units held on the last business day of the Plan year. The NAV as provided by the trustee is used as a practical expedient to estimate fair value. Securities such as common stock, preferred stock, registered investment companies and real estate investment trusts traded on a national securities exchange are valued at the last reported sales price on the last business day of the Plan year; investments traded in the over-the-counter market and listed securities for which no sale was reported on that date are valued at the average of the last reported bid and ask prices. Fixed income securities such as corporate debt instruments and U.S. government securities are valued based on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available, the bond is valued using matrix pricing or models from reputable pricing vendors. Partnerships/JV interest funds are valued based on the Master Trust's interest in the NAV of the funds' underlying assets using statements provided by the fund manager. The NAV as provided by the fund manager is used as a practical expedient to estimate fair value.

Investment transactions of the Master Trust are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Actuarial Present Value of Accumulated Plan Benefits
Accumulated plan benefits (Note 3) are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to services rendered by the employees to the date the benefits were frozen. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries; and (b) present employees or their beneficiaries. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included to the extent they are deemed attributable to employee service rendered to the date the benefits were frozen.

Use of Estimates
The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Administrative Expenses
Administrative expense includes both identified fees specific to the Plan as well as periodic fees allocated from the Master Trust. Periodic fees allocated from the Master Trust are $180,755 and $149,757 at December 31, 2014 and 2013, respectively.

3. Accumulated Plan Benefits

An independent actuary estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits as of December 31, 2013 was as follows:

Vested benefits	
Participants currently receiving payments	$ 47,339,731
Other participants	20,514,538
Total vested benefits	67,854,269
Nonvested benefits	51,033
Total actuarial present value of accumulated plan benefits	$ 67,905,302

The following summarizes the significant components of the change in the present value of accumulated plan benefits from December 31, 2012 to 2013:

Actuarial present value of accumulated plan benefits as of December 31, 2012	$ 65,825,782
Increase (decrease) during the year attributable to	
Actuarial experience (gain) loss	(756,302)
Interest due to change in discount period	4,018,144
Benefits paid	(5,175,485)
Assumption changes	3,993,163
Actuarial present value of accumulated plan benefits as of December 31, 2013	$ 67,905,302

Significant assumptions underlying the actuarial computations are as follows:

Interest rate	6.35%
Retirement rate	100% by age 65
Mortality	Aggregate RP2014 with Scale MP2014 as of December 31, 2013 and RP-2000 Combined Health, projected with AA on a static basis for 7 - 15 years past the valuation date as of December 31, 2012.

Assumption changes for the year ended December 31, 2013 are attributable to an update to the mortality assumption from RP-2000 Combined Health to RP2014 with Scale MP2014, in addition to an increase in the cash balance interest on accumulated pension credits assumption from 3.35% to 4.46% and an increase in the assumed cash balance annuity conversion rate from 3.85% to 4.7%. These assumptions are used to project account balances from the valuation date to decrement age in order to estimate the monthly benefit assumed to commence at that age.

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. Certification of Investment Information

All investment information disclosed in the accompanying financial statements, including plan interest in Robert Bosch LLC Master Retirement Trust at December 31, 2014 and 2013, plan interest in net investment income of Robert Bosch LLC Master Retirement Trust for the years then ended, and the investments and investment income information of the Master Trust presented in Note 5, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by The Northern Trust Company ("Trustee"), except as noted below.

The Master Trust's investment in Partnership/JV interest as of December 31, 2014 and 2013 of $45,005,263 and $44,329,148, respectively, and the Plan's proportionate share of that investment of $2,070,242 and $2,127,799, respectively, were not certified. Accordingly, the net appreciation in the fair value of the Master Trust's investment in Partnership/JV interest for the years ended December 31, 2014 and 2013 of $676,115 and $3,004,855, respectively, and the Plan's proportionate share of that net appreciation of $31,101 and $144,233, respectively, also were not certified.

5. Investment in Master Trust

The Plan's investments are in the Master Trust, which was established for the investment of assets of the Plan, and several other Company-sponsored retirement plans. Each participating retirement plan has an undivided interest in the Master Trust. At December 31, 2014 and 2013, the Plan's interest in the net assets of the Master Trust was approximately 4.6% and 4.8%, respectively. The value of the Plan's interest is determined on the basis of cumulative funds specifically contributed on behalf of the Plan, net of funds withdrawn for benefit payments and expenses specific to the Plan and adjusted for an allocation of investment income and investment expenses. Investment income and expenses are allocated monthly to the Plan based upon its pro rata share in the net assets of the Master Trust.

The following table presents the net assets of the Master Trust at December 31:

6. Fair Value Measurements

The FASB established a framework to increase consistency and comparability in fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Master Trust has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

For a description of the valuation methodologies used for assets measured at fair value see Investment Valuation and Income Recognition under Note 2. There have been no changes in the methodologies used at December 31, 2014 and 2013. In determining the reasonableness of the methodology, the Investment Committee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. These methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Master Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

For the years ended December 31, 2014 and 2013, there were no significant transfers in or out of levels 1, 2 or 3.

The following tables set forth by level within the fair value hierarchy the Master Trust's investment assets at fair value as of December 31, 2014 and 2013:

(a) In accordance with Subtopic 820-10, certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value heirachy. The Fair value amunts presented in this table are intended to permit reconcillication of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

Common collective trusts and the Partnership/JV interest consist of pools of investments used by institutional investors to obtain equity and fixed income market exposures by investing in funds which are intended to mirror market indices. They are valued on the basis of the relative interest of each participating investor in the fair value of the underlying assets of each of the respective common collective trusts and Partnership/JV. The funds are valued using NAV as provided by the investment account manager as a practical expedient. Generally, common collective trust investments can be redeemed after a 60 day notice period, while the Partnership/JV interest can

be redeemed after a 30 day notice period. As of December 31, 2014 and 2013, the Master Trust is not holding any unfunded commitments. Common collective trusts and the partnership/JV interest included in the Master Trust are:

7. Risks and Uncertainties

The Master Trust invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

8. Tax Status

The Internal Revenue Service (“IRS”) has determined and informed the Company in a letter dated May 8, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (the “Code”). Although the Plan has been amended since the date covered by the letter, the plan administrator and the Plan’s ERISA counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax asset or liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of an asset or liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years beginning prior to January 1, 2011.

9. Party-in-Interest Transactions

The Master Trust invests in common collective trusts managed by the Trustee or its affiliates. These transactions qualify as exempt party-in-interest transactions. Fees paid to the Trustee by the Master Trust for 2014 and 2013 were $831,262 and $790,261, respectively.

10. Subsequent Events

The Plan has evaluated the events and transactions that have occurred through October 13, 2015, the date the financial statements were available to be issued, and noted no items requiring adjustment to the financial statements or additional disclosure.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Interest Rates for Minimum Funding Purposes	Based on segment rates with a four-month lookback (as of September 2013), each adjusted as needed to fall within the 25-year average interest rate corridor under HATFA
1st Segment Rate	4.99%
2nd Segment Rate	6.32%
3rd Segment Rate	6.99%
Interest Rates for Maximum Tax Purposes	Based on segment rates with a four-month lookback (as of September 2013), without regard to interest rate stabilization
1st Segment Rate	1.37%

Healthy and Disabled	2014 static mortality table for annuitants and non-annuitants per §1.430(h)(3)-1(e)
Withdrawal Rates	See Tables 4–5
Disability Rates	None
Decrement Timing	Middle of year decrements (except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%)

Surviving Spouse Benefit	It is assumed that the following have an eligible spouse: Males: 85% Telex and Henderson Actives, 80% all others Females: 75% Telex Actives, 50% Henderson Actives, 80% all others Males are assumed to be three years older than their spouses.
Benefit Limits	Projected benefits are limited by the current IRC section 415 maximum benefit of $210,000.
Valuation of Plan Assets	Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value. A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).
Expected Return on Assets	
2012 Plan Year	6.35%
2013 Plan Year	6.35%

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following assumption change:

- A change in the cash balance interest crediting rate from 4.50% to 4.46%.

This change was made to better reflect the anticipated plan experience. This assumption change did not reduce the funding shortfall by more than thresholds stated in Internal Revenue Code Section 430(h)(5); as such, approval of the Commissioner is not required.

Early Retirement	
Eligibility	Age 60 and 10 years of credited service or age 55 and age plus credited service is greater than 85 (Rule of 85).
Benefit	A monthly benefit equal to the normal retirement benefit reduced by 5/9 of 1% for each month the early retirement precedes age 62. The benefit is unreduced if the Rule of 85 is satisfied. In addition, Rule of 85 retirees receive a monthly supplement of $10 multiplied by years of credited service, payable until age 65.
Vested Termination	
Eligibility	Five years of vesting service.
Benefit	The accrued benefit at the date of termination. Reduced payments may begin any time after eligibility for early retirement. The amount of the benefit shall be determined in the same manner as early retirement.
Disability	
Eligibility	Ten years of credited service.
Benefit	The unreduced accrued benefit based on service to the date of disability. In addition, a temporary benefit equal to $9.50 multiplied by years of credited service (maximum of 25 years). The benefit is payable until age 65 or the month the participant becomes eligible for a primary or disability benefit under the Federal Social Security Act, if earlier.
Surviving Spouse	
Eligibility	Five years of vesting service.
Benefit	A monthly benefit payable to the surviving spouse beginning at the employee's earliest retirement age equal to 60% of the amount payable if the participant had retired early with a 60% joint and survivor benefit.
Medicare Supplement	
Eligibility	Age 65.
Benefit	A monthly benefit equal to the Medicare Part B premium, which continues to the beneficiary if over 65 or under 65 and enrolled in Medicare Part B. The amount for 2014 is $104.90.

Normal Form of Annuity	
Without Spouse	Single life annuity.
With Spouse	Effective January 1, 2008, 60% joint and survivor annuity reduced to be equivalent to the retirement benefit payable for employee's lifetime. Participant receives reduced lifetime benefit and, in event of participant's death, 60% of reduced benefit continues to surviving spouse. The reduction cannot be greater than the reduction prior to January 1, 2008 which was 5%.
Optional Forms of Annuity	Single life annuity 75% joint and survivor annuity 100% joint and survivor annuity
Actuarial Equivalence	Applicable Mortality Table per Section 417(e)(3) of the Internal Revenue Code and 6% interest rate.
Definitions

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following assumption change:

- A change in the cash balance interest crediting rate from 4.50% to 4.46%.

This change was made to better reflect the anticipated plan experience. This assumption change did not reduce the funding shortfall by more than thresholds stated in Internal Revenue Code Section 430(h)(5); as such, approval of the Commissioner is not required.

Schedule SB, Part V—Statement of Actuarial Assumptions/Methods

Interest Rates for Minimum Funding Purposes	Based on segment rates with a four-month lookback (as of September 2013), each adjusted as needed to fall within the 25-year average interest rate corridor under HATFA
1st Segment Rate	4.99%
2nd Segment Rate	6.32%
3rd Segment Rate	6.99%
Interest Rates for Maximum Tax Purposes	Based on segment rates with a four-month lookback (as of September 2013), without regard to interest rate stabilization
1st Segment Rate	1.37%
2nd Segment Rate	4.05%
3rd Segment Rate	5.06%
Cash Balance Interest Crediting Rate (Telex)	4.46%
Cash Balance Annuity Conversion Rate (Telex)	Same as funding rates above

Mortality Rates	
Healthy and Disabled	2014 static mortality table for annuitants and non-annuitants per §1.430(h)(3)-1(e)
Withdrawal Rates	See Tables 4–5
Disability Rates	None
Decrement Timing	Middle of year decrements (except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%)

Surviving Spouse Benefit	It is assumed that the following have an eligible spouse: Males: 85% Telex and Henderson Actives, 80% all others Females: 75% Telex Actives, 50% Henderson Actives, 80% all others Males are assumed to be three years older than their spouses.
Benefit Limits	Projected benefits are limited by the current IRC section 415 maximum benefit of $210,000.
Valuation of Plan Assets	Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value. A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).
Expected Return on Assets	
2012 Plan Year	6.35%
2013 Plan Year	6.35%
Trust Expenses Included in Target Normal Cost	Actual trust expenses limited to 5% of Fair Value of Assets
