Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Tenth Amended and Restated Owens-Illinois Salary Retirement Plan, which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified investment information described in Note 5, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the entity that certified the investment information meets the requirements of 29 CFR 2520.103-8. The plan administrator has obtained certifications as of December 31, 2014 and 2013, and for the years then ended, stating that the investment information provided to the plan administrator is complete and accurate.

Disclaimer of Opinion on Financial Statements

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Disclaimer of Opinion on Supplemental Schedule

The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2014, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Compliance of Form and Content with Department of Labor's Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the certified investment information, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Tenth Amended and Restated
Owens-Illinois Salary Retirement Plan

1. Description of Plan

General

The Tenth Amended and Restated Owens-Illinois Salary Retirement Plan ("Plan") is a defined benefit plan established to provide normal and early retirement, termination and death benefits to all full-time regular salaried employees of Owens-Illinois, Inc. ("Company") and certain of its subsidiaries. The Plan was amended on January 1, 2014 to change the name to the Tenth Amended and Restated Owens-Illinois Salary Retirement Plan, effective January 1, 2014.

Effective January 1, 2005, no new participants will be added to the Plan and benefits accrued after 2004 will not be subject to the lump sum form of payment. Participants in the Plan prior to January 1, 2005, will continue to accrue benefits. The Company will continue to maintain the assets of the Plan and make contributions to the Plan as needed. In both 2014 and 2013, the Plan was amended to allow for one-time lump sum benefit payments to certain participants who elected to terminate employment with the Company prior to December 31, 2014 and 2013, respectively. In 2014, the Company's Board approved to amend the Plan to freeze future pension benefits to all Plan participants, effective December 31, 2015.

Contributions

The Company contributes such amounts as are deemed necessary on an actuarial basis to provide assets sufficient to meet the future benefits to be paid to Plan participants. As of December 31, 2014 and 2013 the minimum funding requirements as defined by the Employee Retirement Income Security Act of 1974, as amended ("ERISA") have been met.

Benefits

A participant is entitled to annual pension benefits beginning at normal retirement age (65) primarily based upon levels of compensation and years of service. Accrued benefits become vested after completion of five years of credited service or the attainment of normal retirement age. Benefits are payable beginning at normal retirement age or in reduced amounts upon early retirement. Participants 55 years of age or older with 30 or more years of credited service, or participants 60 years of age or older with ten or more years of credited service, are entitled to unreduced early retirement benefits for benefits earned through December 31, 2004. Effective January 1, 2005, benefits earned in 2005 and later will be reduced for early retirement by 5% for each full year. The dependent spouse of a participant who dies prior to retirement, but after reaching age 35 and completing five years of service and one year of marriage, is entitled to an annual benefit equal to 25% of the participant's final base salary.

Plan Termination

Although it has not expressed an intention to do so, the Company reserves the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, its assets will first be used to provide participants' accrued benefits unless they are insufficient. In that case, whether a particular participant's accrued benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit

Tenth Amended and Restated
Owens-Illinois Salary Retirement Plan

Guaranty Corporation ("PBGC") at that time. Some benefits may be fully or partially provided for by the available assets and the PBGC's benefit guarantee, while other benefits may not be provided for at all.

The above information is a brief description of the Plan. Information about the vesting and benefit provisions and the PBGC's benefit guarantee is contained in the Plan's Summary Plan Description, which is available at the corporate office of the Company.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Basis of Presentation and Plan Investments

Certain of the Plan's assets are included in the Owens-Illinois Master Retirement Trust ("Master Trust") along with the assets of another pension plan at the Company. The Master Trust holds an investment in a Harbor Capital Group Trust for Defined Benefit Plans ("Group Trust"). The trustee of the Plan is State Street Bank and Trust ("State Street"). The Group Trust is under a separate trust agreement.

The Group Trust's assets are managed by designated advisors across a wide range of investment strategies and these investment funds consist of public securities such as domestic and foreign equity, intermediate and longer duration corporate debt issues and government securities. The Group Trust's assets are designed to preserve principal and maximize returns.

The Plan's earnings of the Group Trust are allocated in proportionate interest to each participating plan based on the fair market value of its net assets. The accompanying financial statements reflect the Plan's total interest in the net assets and transactions of the Group Trust as allocated by State Street.

Investment Valuation and Income Recognition

The Plan's interests in commingled trust funds of the Group Trust are valued at the unit prices established by the trustee, which are deemed to be fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 6 for further discussion and disclosures related to fair value measurements.

The Owens-Illinois, Inc. Investment Committee is responsible for determining the Plan's valuation policies and analyzing information provided by the investment custodians and issuers that is used to determine the fair value of the Plan's investments.

Tenth Amended and Restated Owens-Illinois Salary Retirement Plan

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated November 25, 2014, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and therefore, the related trust is tax-exempt. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator has indicated that it will take the necessary steps, if any, to bring the Plan's operations into compliance with the Code.

Accounting principles generally accepted in the United States (GAAP) require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Company believes it is no longer subject to income tax examinations for years prior to 2011.

Administrative Expenses

The Plan incurs administrative expenses directly related to the Plan which consist primarily of trustee fees for investments held outside of the Master Trust, PBGC fees and actuarial fees. These expenses are reported on the statements of changes in the net assets available for benefits as administrative expenses. Administrative expenses related to the Master Trust are allocated to the Plan and are reflected in the net investment gain from the Master Trust. Expenses relating to purchases, sales or transfers of the Plan's investments are charged to the particular investment fund in which the expenses relate. All other administrative expenses are paid by the Company on behalf of the Plan.

Use of Estimates

The preparation of financial statements in conformity with GAAP in the United States requires management to make estimates and assumptions that affect the reported amounts of certain assets and liabilities and the reported amounts of certain additions and deductions during the reporting period. Most significantly, estimates and assumptions are used in the determination of the actuarial present value of accumulated plan benefits. Actual results could differ from those estimates and assumptions.

Tenth Amended and Restated
Owens-Illinois Salary Retirement Plan

Risks and Uncertainties

The Plan and Master Trust invest in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Related Party Transactions

Certain of the Plan's assets are invested in funds managed by the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA.

3. New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2015-07, Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent), (ASU 2015-07). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by Accounting Standards Codification 820, Fair Value Measurement. Disclosures about investments in certain entities that calculate net asset value per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. ASU 2015-07 is effective for entities (other than public business entities) for fiscal years beginning after December 15, 2016, with retrospective application to all periods presented. Early application is permitted. The Company is evaluating the effect this standard will have on its financial statements and disclosures.

Tenth Amended and Restated
Owens-Illinois Salary Retirement Plan

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part II of the ASU eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. The ASU is effective for fiscal years beginning after December 15, 2015. Part II is to be applied retrospectively. Plans can early adopt any of the ASU's three parts without early adopting the other parts. Parts I and III are not applicable to the Plan. The Company is evaluating the effect this standard will have on its financial statements and disclosures.

4. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments and lump sum distributions to which participants are entitled under the Plan's provisions based on services rendered to the valuation date. Accumulated plan benefits include benefits expected to be paid to: a) retired employees or their beneficiaries, b) terminated employees with vested benefits, c) beneficiaries of deceased employees, and d) present employees or their beneficiaries.

The actuarial present value of accumulated plan benefits is determined by the Plan's consulting actuary, and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of benefit payments (by means of decrements for such factors as death, withdrawal or early retirement) between the valuation date and the expected date of payment. The amount of accumulated plan benefits is estimated actuarially under the accrued benefit cost method (unit credit method).

Tenth Amended and Restated
Owens-Illinois Salary Retirement Plan

The more significant assumptions underlying the actuarial computations are as follows:

Assumed rate of return on Investments	8.00%
---------------------------------------	-------

Mortality basis (Healthy/Disabled)	2013 - Separate male and female tables of rates for non-annuitants (based on RP-2014 “Employees” table without collar or amount, with generational projection using the MP-14 projection scale, unadjusted) and annuitants (based on RP-2014 “Healthy Annuitants” table without collar or amount adjustments, with generational projection using the MP-14 projection scale, unadjusted.)
------------------------------------	---

	2012 - Separate rates for non-annuitants (based on RP-2000 “Employees table without collar or amount adjustments, projected to 2029 using Scale AA) and annuitants (based on RP-2000 “Healthy Annuitants” table without collar or amount adjustments, projected to 2021 using Scale AA)
--	---

Employee turnover	A moderate scale consistent with Company experience
-------------------	---

Retirement age	Based on Company experience varying from ages 55-70
----------------	---

If the Plan would terminate, different actuarial assumptions determined by the PBGC and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Tenth Amended and Restated
Owens-Illinois Salary Retirement Plan

The actuarial present values of accumulated plan benefits (“APVAPB”) are as follows:

	December 31, 2013
Vested benefits:	
Participants currently receiving benefits	\$ 326,866,185
Other participants	168,674,984
Total vested benefits	495,541,169
Nonvested benefits	6,354,118
Total APVAPB	<u>\$ 501,895,287</u>

The following table details the changes in the APVAPB:

	Year ended December 31 2013
APVAPB at beginning of year	\$ 511,900,946
Increase (decrease) during the year attributable to:	
Increase in benefits accumulated	16,166,648
Increase due to decrease in the discount period	37,120,510
Benefits paid	(91,182,361)
Change in actuarial assumptions	27,889,544
Net decrease	<u>(10,005,659)</u>
APVAPB at end of the year	<u>\$ 501,895,287</u>

In 2013, the Plan reached a tentative settlement agreement related to a claim brought against it by class action plaintiffs. The settlement results in additional amounts to be paid by the Plan to former employees of the Company in the amount of \$8 million. This amount is included in the APVAPB shown above.

The Plan was amended effective December 19, 2014 to allow for a lump sum window. The actuarial present value of accumulated plan benefits as of December 31, 2013 does not reflect this amendment.

5. Investments

Certain information related to investments for the Plan and the Master Trust disclosed in the accompanying financial statements and supplemental schedule including investments held at December 31, 2014 and 2013, and net appreciation in fair value of investments, interest and dividends for the years ended, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by State Street. At December 31, 2014 and 2013, the Plan’s interest in the Group Trust was approximately 25% and 28%, respectively.

Tenth Amended and Restated
Owens-Illinois Salary Retirement Plan

The Plan's interest in the Master Trust's investment in the Group Trust was as follows:

	December 31,	
	2014	2013
Master Trust's Investment in Group Trust	\$ 2,180,656,448	\$ 2,272,562,930
Plan's interest in Group Trust	\$ 555,218,460	\$ 626,151,958

The Plan's interest in net earnings of the Master Trust's investment in the Group Trust was as follows:

	Year ended December 31,	
	2014	2013
Net earnings of Master Trust's Investment in Group Trust	\$ 158,530,831	\$ 371,716,236
Plan's interest in net earnings of Group Trust	\$ 43,672,646	\$ 102,595,183

6. Fair Value Measurements

GAAP defines fair value as an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

- Level 1: Observable inputs such as quoted prices in active markets;
- Level 2: Inputs, other than quoted prices in active markets, that are observable either directly or indirectly; and
- Level 3: Unobservable inputs for which there is little or no market data, which requires the Company to develop assumptions.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Tenth Amended and Restated
Owens-Illinois Salary Retirement Plan

The investment valuation policy of the Master Trust is to value investments at fair value. The Master Trust invests in the Group Trust which consists of investment funds valued at their respective net asset value as calculated by the trustee. The underlying equity investments for which market quotations are readily available are valued at the last reported sales price on their principal exchange on valuation date or official close for certain markets. Fixed income investments are valued on a basis of valuations furnished by a trustee-approved independent pricing service, which determines valuations for normal institutional-size trading units of such securities which are generally recognized at fair value as determined in good faith by the trustee. There are no redemption restrictions related to assets in the Master Trust or Short Term Investment Fund. Short-term investments are stated at amortized cost, which approximates fair value.

The methods used to produce a fair value calculation may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Master Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the asset values underlying the Master Trust's investments:

	December 31,	
	2014	2013
Investment in Group Trust:		
Level 1	\$ -	\$ -
Level 2	2,180,656,448	2,272,562,930
Level 3	-	-
Total investment in Group Trust	<u>\$ 2,180,656,448</u>	<u>\$ 2,272,562,930</u>

The following table sets forth by level, within the fair value hierarchy, the asset values underlying the Plan's investment in a Short Term Investment Fund held outside of the Group Trust:

	December 31, 2014
Investment in Short Term Investment Fund:	
Level 1	\$ -

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year
Actuarial value of assets	<p>Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the applicable plan year.)</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>
Benefits Not Valued	<p>All benefits described in the Plan Provisions section of this report were valued except plant shutdown benefits. Based on discussions with O-I, such benefits are considered to have a de minimis likelihood of being paid and thus are not required to be valued, and will not be valued, until and unless the triggering event occurs. Towers Watson has reviewed the plan provisions with O-I and, based on that review, is not aware of any significant benefits required to be valued that were not.</p>

Assumptions Rationale – Significant Economic Assumptions for Contributions

Rates of increase in:

- | | | |
|---|---|--|
| 1 | Compensation | Assumed compensation increases are based on a combination of assumed future (i) cost-of-living increases (CPI), (ii) productivity increases and (iii) promotional increases. CPI increases assumed are as described below. Productivity increases are consistent with the assumed real increases in NAW described below (i.e., increases in assumed NAW less increases in assumed CPI). Promotional increases were based on plan sponsor expectations and a study of increases received by plan participants in the years 2006-2011. |
| 1 | National average wages (NAW) (e.g., Social Security wage bases) | The assumed NAW is based on assumed CPI as shown below, plus assumed increases in real wages (the portion of GDP increases that becomes part of wages). Such assumed future increases in real wages are based on a combination of recent rates and an expectation that the future rates will be higher than current conditions. |
| 1 | Increases in statutory limits (CPI) | The assumed CPI is based on a combination of historical average CPI, current conditions, and future forecasts by economists |

Administrative expenses

Administrative expenses are estimated by determining the expected actual expenses for the coming year, reflecting items like expected PBGC premiums.

Assumptions Rationale – Significant Demographic Assumptions

Termination

Termination rates were based on an experience study conducted in 2013, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Assumed termination rates differ by gender because of observed differences in termination rates by gender.

Retirement

Retirement rates were based on an experience study conducted in 2013, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Retirement rates differ by eligibility for unreduced retirement benefits because of the observed effects the availability of these benefits has on retirement rates.

Benefit commencement date for deferred benefits:

- I** Preretirement death benefit
Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.
- I** Deferred vested benefit
Deferred vested participants' assumed commencement age is a single age intended to capture the average age at commencement. Deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at multiple ages is not expected to be significant.

Form of payment

The percentage of retiring participants assumed to take joint and survivor annuities, and the assumed survivor percentages, are based on observed experience over the period 2010-2013.

Percent married

The assumed percentage married is based on the percentage married observed among recent retirees.

Spouse age

The assumed age difference for spouses is based on the age difference observed among recent retirees.

2014 Schedule SB attachment, Line 22 - Description of weighted average retirement age

A fixed population and the retirement rates described in the attached Actuarial Assumptions and Methods and shown below, were used to project the number of retirements per year for ages 55 through 70. Active plan participant characteristics as of January 1, 2014 were factored into the development of Average Service used in application of accelerated retirement rates. Average retirement age was calculated by taking the weighted average of retirements by age, as shown below:

Service Breakpoint: 30
Average Active Age at January 1, 2014: 52.2
Average Eligibility Service at January 1, 2014: 23.7

SCHEDULE SB ATTACHMENTS

Schedule SB, Line 25 Change in Method As of January 1, 2014

The valuation software used to produce the actuarial information submitted on this schedule has been changed and such modification may be considered to be a method change. The percentage changes in funding target, target normal cost and plan assets due to the refinements in the software are each less than 2% (disregarding the effects of any changes that are automatically approved under final IRC 430 regulations), and the modifications to the software were designed to produce results no less accurate than the results produced by the software prior to the change. Therefore the change in funding method due to a change in valuation software receives automatic approval under IRS Announcement 2010-3
