Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditors' Report

To the Trustees,
Chemetall Corporation Retirement Plan:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Chemetall Corporation Retirement Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, the related statements of changes in net assets available for benefits for the years ended December 31, 2014 and 2013, the statement of accumulated Plan benefits as of January 1, 2014, and the related statement of changes in accumulated Plan benefits for the year then ended and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by Russell Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2014 and 2013, and for the years then ended, that the information provided to the Plan administrator by the trustee is complete and accurate.

**Disclaimer of Opinion**

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Chemetall Corporation Retirement Plan

Notes to Financial Statements

December 31, 2014 and 2013

1. Description of Plan

The following is a brief description of the Chemetall Corporation Retirement Plan (the "Plan") and is provided for general information only. Participants should refer to the Plan Agreement for more complete information.

General

The Plan is a defined benefit pension plan covering substantially all eligible employees of Chemetall Corporation (the "Company"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan is administered by the Employee Benefits Committee (the "Committee") as appointed by the Company.

Russell Trust Company, the trustee, maintains the Plan's assets, administers the Master Trust and, under the direction of the Committee, invests all Company contributions, reinvests investment earnings and makes benefit payments to retired and terminated participants.

On November 4, 2004, the Company adopted a resolution that became effective December 31, 2004 to "freeze" the Plan. No other employees have been considered for Plan participation after this date, and the Plan ceased all future accruals of benefits after that date.

Pension Benefits

Normal Retirement - Participants with five or more years of service are entitled to annual pension benefits beginning at the normal retirement age of 65. The annual benefit is equal to approximately 1.067 percent of such Member's Average Compensation plus .533 percent of the member's Covered Compensation, multiplied by the Credited Service. Average Compensation is defined as the compensation of a member averaged over the five consecutive completed calendar years which produces the highest average of the 10 prior completed calendar years. Covered Compensation is defined as the average of the Social Security Taxable Wage Bases over the 35 year period ending with the calendar year in which the Participant attains his/her Social Security retirement age. Credited service is up to a maximum of 30 years.

Deferred Retirement - Participants who reach normal retirement may elect to postpone receiving benefits until a later date.

Early Retirement - If a participant completes ten years of credited service and has attained age 55, the employee may retire early and choose to receive a reduced benefit at early retirement. In addition, there are other provisions in the Plan that limit the benefits paid.

Disability Retirement - Disability retirement after competing two years of service entitles the participant to receive 100 percent of their accrued pension benefit to begin at their normal retirement date.

The accrued benefits are calculated in accordance with the provisions and definitions contained in the Plan document.

Death Benefits

Upon the death of an Active or Inactive participant after becoming a vested member but before the normal retirement date, a 50 percent survivor annuity shall be provided to the protected spouse commencing as of the earliest commencement date. If the participant is not survived by a protected spouse, there shall be no benefits payable under the Plan.

Vested Benefits

Participants are only entitled to their accrued benefits after achieving five years of credited service.

Eligibility

Each eligible employee becomes a member of the Plan on the later of January or July 1 following the completion of one year (at least 1,000 hours of service during any consecutive 12 month period) of service and obtaining the age of 21. As of December 31, 2004 future participation in the Plan is frozen.

Administration of Plan

The Plan is administered by the Company. The assets of the Plan are managed by Russell Investment Group. The trust agreement provides, among other things, that the trustee, Russell Investment Group, shall keep account of investments, receipts, disbursements and other transactions. All investment advisor and brokerage fees are charged to the Plan; all other expenses incurred in the administration of the Plan are paid by the Company. Certain investment related expenses have been offset with net investment income and are not readily determinable.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared under the accrual method of accounting.

Valuation of Investments

Investments, including the Plan's interest in the Master Trust, are stated at fair value. Investment transactions are recorded on the trade date. Dividends are recorded on the ex-dividend date. Interest income is recognized when earned. Net appreciation includes the Plan's gains on investments bought and sold as well as held during the year.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

Significant Estimates

The preparation of financial statements in conformity with United States generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Actual results could differ from those estimates. The significant estimates were made to determine the amount of the Plan's accumulated benefit obligation. Actual results could differ from estimates.

Risks and Uncertainties

The Plan's assets are invested in various securities, including mutual funds held in a common collective trust. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the financial statements.

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated Plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered and have been calculated by an enrolled actuary. Accumulated Plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries; (b) beneficiaries of employees who have died; and (c) present employees or their beneficiaries. Benefits under the Plan are based on the employees' five highest years of consecutive defined compensation, during their last ten years of credited service up to December 31, 2004. The accumulated Plan benefits for active employees are based on their average compensation during the five years ending on the date which the benefit information is presented (the valuation date) up to December 31, 2004. Benefits payable under all circumstances: retirement; death; and termination of employment, are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets, are excluded from accumulated Plan benefits.

The actuarial present value of accumulated Plan benefits is determined by the Plan actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, withdrawal or retirement) between the valuation date and expected date of payment. The significant actuarial assumptions used in the valuation as of January 1, 2014, were as follows:

Chemetall Corporation Retirement Plan

Notes to Financial Statements

December 31, 2014 and 2013

- (a) Life expectancy of the participants: 2014 Static Mortality Table for Annuitants and Non-Annuitants
- (b) Retirement age assumptions: Assumed retirement age is 65.
- (c) Discount rate: 7.16 percent per year.
- (d) Compensation increases: None
- (e) Investment return: 6.60 percent

The foregoing actuarial assumptions are based on the presumptions that the Plan will continue. Should the Plan terminate, different actuarial assumptions and other factors might be applied in determining the present value of accumulated Plan benefits.

The funding valuation reflects the follow assumption changes:

A change was made in the interest rate assumption from segment rates used as of September 2012 to segment rates as of September 2013. Each rate was adjusted, as applicable, to fall within the 25-year-average interest rate stabilization corridor.

The mortality table changed from the 2013 Static Mortality Table for annuitants and non-annuitants to the 2014 Static Mortality Table for annuitants and non-annuitants. A change in the investment return rate from 6.50 percent to 6.60 percent was made during 2014. Changes to the actuarial calculation were made to provide a more accurate actuarial present value of accumulated Plan benefits.

4. Funding Policy

The Company's funding policy is to make annual contributions to the Plan so that all participant benefits will be fully provided for upon retirement. The Company's contributions for 2014 and 2013 were sufficient to meet the minimum funding requirements of ERISA. At December 31, 2014 and 2013, contributions receivable from the Company amounted to \$207,674 and \$164,074, respectively, and were paid subsequent to year end.

5. Plan Termination

Should the Plan terminate at some future time, the net assets of the Plan will be allocated based upon Plan provisions. Whether a particular participant's accumulated Plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC", a U.S. Government Agency) at that time. Some benefits may be fully or partially provided for by the then existing assets of the Plan and the PBGC's benefit guarantee, while other benefits may not be provided for at all. The Plan provides that benefits will be provided in the following order: (1) Trust funds attributable to a member's voluntary contributions, if any; (2) Annuity benefits of members or their beneficiaries that were in a pay status as of the beginning of the three-year period ending on the termination date or employees eligible to be in pay status as of the beginning of the three-year period; (3) Vested benefits insured by the PBGC; (4) all other vested benefits; (5) all nonvested benefits.

Additional information about the vesting and benefit provisions, and the PBGC's benefit guarantee are contained in the Plan Agreement.

Although it has not expressed any intention to terminate the Plan, the Company has the right, under the Plan, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth by ERISA.

6. Investments (Unaudited)

For the purpose of maintaining the beneficial interests of the Participating Trusts in the Investment Funds, the investment funds are divided into units of participation ("Units"), and the beneficial interest of each participating trust in each investment fund shall be expressed by the number of units and fractions of a unit allocated to it. Each participating retirement Plan has an undivided interest in the Master Trust.

Chemetall Corporation Retirement Plan
Notes to Financial Statements
December 31, 2014 and 2013

The Plan's interest in the Master Trust as a percentage of net assets of the Master Trust was approximately 73.6 and 73.3 percent as of December 31, 2014 and 2013, respectively. As of each valuation date, the trustee determined the value of each investment fund by determining the total value of the assets of each investment fund on the basis of the valuation rules set forth in the master trust agreement and reducing such total by all expenses (including, but not limited to, the trustee's management fees), deductions and charges of such investment fund due or accrued as of the valuation date, as well as any other charge, reserve, liability, or debited item which is an appropriate deduction under accepted accounting principles.

The Master Trust as of December 31, 2014 and 2013 also includes the investment assets of the Chemetall Corp. Salaried Retirement Plan and the Chemetall Corp. Hourly Retirement Plan. Plan investments at December 31, 2014 and 2013 consist entirely of participation in the Master Trust. Condensed financial information of the Master Trust is as follows:

7. Fair Value Measurements (Unaudited)

The Financial Accounting Standards Board established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Chemetall Corporation Retirement Plan
Notes to Financial Statements
December 31, 2014 and 2013

Level 3 - Unobservable inputs that are supported by little or no market activity and that are financial instruments whose values are determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant judgment or estimation.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for the Plan's assets measured at fair value.

Common collective trust funds: Shares of common collective trust funds are valued based on the fair market value of the underlying investments in the fund.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014:

Chemetall Corporation Retirement Plan
Notes to Financial Statements
December 31, 2014 and 2013

The Plan's investments for which fair value is estimated using net asset value per share have no unfunded commitments for the years ended December 31, 2014 and 2013. All of the Plan's investments for which fair value is estimated using net asset value per share have their redemption amounts calculated daily and the redemption notice period is the trade date, with the exception of the Russell 1000 Index Fund, which has a redemption notice period of 3 business days prior to the trade date.

8. Information Certified by Trustee (Unaudited)

No auditing procedures were performed by the independent public accountants as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA with respect to information certified as complete and accurate by the trustee, except for comparing such information with the related information included in the financial statements. Based on information provided and certified by the trustee, there are no fixed income obligations, leases, or debt instruments in default or deemed uncollectible, as defined by ERISA, as of December 31, 2014 and 2013.

The following information as of and for the years ended December 31, was prepared from reports certified by the trustee:

	2014	2013
Plan's interest in Rockwood Specialties Inc. Master Pension Trust, at fair value	\$ 19,977,492	\$ 18,050,510
Plan's interest in Rockwood Specialites Inc Master Pension Trust net appreciation	\$ 2,329,685	\$ 1,727,056

9. Income Taxes

The Plan is exempt from federal income taxes under Section 501(A) of the Internal Revenue Code. The Plan obtained its latest determination letter in June 2012, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Because the Plan is being operated in compliance with the applicable requirements of the Internal Revenue Code, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. In addition, there have been no tax related interest or penalties for periods presented in these financial statements.

10. Party-In-Interest

Certain Plan investments are shares of common collective trust funds managed by Russell Trust Company. In addition the Plan has incurred investment and administrative expenses with Russell Trust Company. Russell Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for administrative fees amounted to \$107,442 and \$87,745 for the years ended December 31, 2014 and 2013, respectively.

11. Pension Protection Act

The Pension Protection Act of 2006 ("PPA") as amended by the Worker, Retiree and Employer Recovery Act of 2008 ("WRERA") imposes certain benefit restrictions for qualified defined benefit plans that do not meet certain funding thresholds. The "At-Risk" status is referred to as the Funding Target Attainment Percentage ("FTAP"). A plan's funded percentage is referred to as the Adjusted Funding Target Attainment Percentage ("AFTAP"). The 2014 AFTAP for the Plan is 97.58 percent. Because the Plan's FTAP equals or exceeds 70 percent, the Plan is deemed to be not at risk and is not subject to any benefit restrictions.

12. Subsequent Events

The Plan has evaluated subsequent events occurring after the statement of net assets available for Plan benefits date through the date of October 7, 2015, the date for which the financial statements were available to be released. Based upon this evaluation, the Plan has determined that no subsequent events other than those already disclosed have occurred which require disclosure in or adjustment to the financial statements.

Disability Rates	See Table 3
Decrement Timing	Middle of year decrements (except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%)
Surviving Spouse Benefit	It is assumed that 80% of males and 80% of females have an eligible spouse, and that males are three years older than their spouses.
Benefit Limits	Projected benefits are limited by the current IRC section 415 maximum benefit of \$210,000.
Valuation of Plan Assets	<p>Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.</p> <p>A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).</p>

IRC Limits

The plan's maximum benefit is limited by IRC section 415 as specified by the Tax Reform Act of 1986 as amended by RPA '94, SBJPA, and EGTRRA. The limit is actuarially reduced at 5.0% for early commencement. Compensation is limited by the IRC section 401(a)(17). Compensation earned after December 31, 2004 is not included in the calculation of a participant's benefit.

Definitions

Actuarial Equivalent

1983 Group Annuity Mortality Table and 8.00% interest.

Average Compensation

The average of the highest five consecutive years of compensation paid during the 10 years preceding termination of employment. Compensation earned after December 31, 2004 is not included in the calculation of the accrued benefit.

Service

A year of service shall be earned for each year commencing on the date an employee first completes a year of service during which the employee completes 1,000 hours of service.

For benefit accruals, service prior to September 1, 1991 shall be excluded for all participants except former employees of Brent America. For former Brent America employees, benefit service prior to July 1, 2000 shall be excluded. Service after December 31, 2004 is not included in the calculation of the accrued benefit.

Disability Rates	See Table 3
Decrement Timing	Middle of year decrements (except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%)
Surviving Spouse Benefit	It is assumed that 80% of males and 80% of females have an eligible spouse, and that males are three years older than their spouses.
Benefit Limits	Projected benefits are limited by the current IRC section 415 maximum benefit of \$210,000.
Valuation of Plan Assets	<p>Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.</p> <p>A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).</p>
